 June 6 *Sunday.*—Baccalaureate Sermon.
 June 9 *Wednesday.*—University Commencement.

THE LEGAL HISTORY OF THE CORPORATION

The George Washington University is the successor of the "Columbian College in the District of Columbia," which was chartered by Act of Congress in 1821. The name and title of the Columbian College were in 1873 changed by an Act of Congress, under the terms of which the College was given the name of the "Columbian University." The Columbian University was by Act of Congress in 1904 authorized to change its name, subject to the approval of the Secretary of the Interior and the Commissioner of Education. The Board of Trustees elected to take the name of "The George Washington University," and the name was approved by the government officials, as required by the statute; the change of name going into effect September 1, 1904. All the Acts of Congress now in force relative to the Columbian College and the Columbian University are therefore parts of the charter of The George Washington University. The original charter of the Columbian College was as follows:

An Act to Incorporate the Columbian College, in the District of Columbia

Be it enacted, &c., That there be erected, and hereby is erected and established, in the District of Columbia, a College, for the sole and exclusive purpose of educating youth in the English, learned, and foreign languages, the liberal arts, sciences, and literature; the style and title of which shall be, and hereby is declared to be, the "Columbian College in the District of Columbia."

SEC. 2. *And be it further enacted,* That the said College shall be under the management, direction, and government of a number of Trustees, not exceeding thirty-one, to be elected triennially, by the contributors to the said College, qualified to vote, in such manner, and under such limitations and restrictions, as may be provided by the ordinances of the College, on the first Monday in May; and that the first Trustees of the said College shall consist of the following persons, viz: Obadiah B. Brown, Luther Rice, Enoch Reynolds, Josiah Meigs, Spencer H. Cone, Daniel Brown, Return J. Meigs, Joseph Gibson, Joseph Cone, Thomas Corcoran, Burgis Allison, Thomas Sewall, and Joseph Thaw: which said Trustees, and their successors, shall forever hereafter be, and they are hereby declared to be, one body politic and corporate, with perpetual succession, in deed and in law, to all intents and purposes whatsoever, by the name, style and title of the "Columbian College in the District of Columbia;" by which name and title, they, the said Trustees, and their successors, shall be competent and capable, at law and in equity, to take to themselves and their successors, for the use of the said College, any estate, in any messuage, lands, tenements, hereditaments, goods, chattels, moneys, and other effects, by gift, grant, bargain, sale, conveyance, assurance, will, devise, or bequest, of any person or persons whatsoever: *Provided,* The same do not exceed, in the whole, the yearly

value of twenty-five thousand dollars; and the same messuages, lands, tenements, hereditaments, and estate, real and personal, to grant, bargain, sell, convey, assure, demise, and to farm, let, and place out on interest, for the use of the said College, in such manner as to them, or at least nine of them, shall seem most beneficial to the institution, and to receive the rents, issues, and profits, income and interest, of the same, and to apply the same to the proper use and benefit of the said College; and by the same name to sue, commence, prosecute, and defend, implead and be impleaded, in any courts of law and equity, and in all manner of suits and actions whatsoever, and generally, by and in the same name, to do and transact all and every the business touching or concerning the premises.

SEC. 3. *And be it further enacted*, That the said Trustees shall cause to be made for their use one common seal, with such devices and inscriptions thereon as they shall think proper, under and by which all deeds, diplomas, certificates, and acts of the said College, shall pass and be authenticated; and the same seal, at their pleasure, to break and devise a new one.

SEC. 4. *And be it further enacted*, That the said Trustees, or five of them at least, shall meet at the College, on College Hill, in the said District of Columbia, on the first Monday in March next, for the purpose of concerting and agreeing to such business as, in consequence of this Act, shall be proper to be laid before them at the commencement of the work they have undertaken, and shall have power to adjourn from time to time, as they shall see cause, to any other times or places, for the purpose of perfecting the same. That there shall be a stated meeting of the said Trustees held twice in every year at least, at such place and time as the said Trustees, or a quorum thereof, shall appoint, of which public notice shall be given, after the first meeting, at least twenty days before [the] time of such intended meeting, whenever the President, to be appointed by them, shall deem the business of the institution to require the same, and give due notice thereof, which he is hereby authorized to do; and if, at such stated or occasional meetings, five of the said Trustees shall not be present, those of them who shall be present shall have power to adjourn the meeting to any other day, as fully and effectually, to all intents and purposes, as if the whole number of Trustees for the time being were present; but, if five or more of the said Trustees shall meet at the said appointed times, or at any other time of adjournment, then such five of the said Trustees shall be a board or quorum, and a majority of the votes of them shall be capable of doing and transacting all the business and concerns of the said College not otherwise provided for by this Act; and particularly of making and enacting ordinances for the government of the said College; of electing and appointing the President, Professors, and Tutors, for the said College; of agreeing with them for their salaries and stipends, and removing them for misconduct, or breach of the laws of the institution; of appointing committees of their own body to carry into execution all and every the resolutions of the Board; of appointing a President, Treasurer, Secretary, stewards, managers, and other necessary and customary officers, for taking care of the estate and managing the concerns of the corporation; and, generally, a majority of voices of the board, or quorum of the said Trustees, consisting of five persons at least, at any semi-annual, occasional, or adjourned meeting, after notice, given as aforesaid, shall determine all matters and things (although the same be not herein particularly mentioned) which shall occasionally arise, and be incidentally necessary to be determined and transacted by the said Trustees *Provided always*, That no ordinances shall be of force which shall be repugnant to this charter, or to the laws of the District of Columbia.

SEC. 5. *And be it further enacted*, That the head or Chief Master for the said College shall be called and styled the "President," and the Masters thereof shall be called "Professors and Tutors;" but neither President, Professors, or Tutors, while they remain such, shall ever be capable of the office of Trustee.

SEC. 6. *And be it further enacted*, That the President, Professors and Tutors, or a majority of them, shall be called and styled the "Faculty of the College," which Faculty shall have the power of enforcing the rules and regulations adopted by the Trustees for the government of the pupils, by rewarding or censuring them, and finally, by suspending such of them who as after repeated admonitions shall continue disobedient and refractory, until a determination of a quorum of the Trustees can be had; and of granting and confirming, by and with the approbation and consent of a board of the Trustees, signified by their mandamus, such degrees in the liberal arts and sciences, to such pupils of the institution or others, who, by their proficiency in learning, or other meritorious distinction, they shall think entitled to them, as are usually granted and conferred in colleges; and to grant to such graduates, diplomas or certificates, under their common seal, and signed by the Faculty, to authenticate and perpetuate the memory of such graduation.

SEC. 7. *And be it further enacted*, That persons of every religious denomination shall be capable of being elected Trustees; nor shall any person, either as President, Professor, Tutor, or pupil, be refused admittance into said College, or denied any of the privileges, immunities, or advantages thereof, for or on account of his sentiments in matters of religion.

SEC. 8. *And be it further enacted*, That no misnomer of the said corporation shall defeat or annul any gift, grant, devise, or bequest, to or from the said corporation: *Provided*, The intent of the parties shall sufficiently appear upon the face of the gift, grant, will, or other writing, whereby any estate or interest was intended to pass to or from the said corporation.

SEC. 9. *And be it further enacted*, That the constitution of the said College, herein and hereby declared and established, shall be, and remain, the inviolate constitution of the said College forever; and the same shall not be altered or alterable by any ordinance or law of the said Trustees: *Provided*, That it may be lawful for the Congress of the United States to revoke and repeal this Act, at any and at all times whenever they shall think fit so to do.

SEC. 10. *And be it further enacted*, That it shall be the duty of the said Board of Trustees to keep a regular book or journal, in which shall be entered, under their direction, besides an account of all their ordinary acts and proceedings, all the by-laws, ordinances, rules, and regulations, which may be adopted by the said Board, for their own government, and for the government of the institution; also, a schedule of all the property and effects, real, personal, or mixed, which shall or may be vested in the said Trustees, for the use of the said College, by virtue of any gift, grant, bargain, sale, will, or otherwise, together with annual statements concerning the accounts and finances of the institution. That it shall, moreover, be the duty of the said Trustees, to cause to be enrolled, in the said book or journal, the names of all the contributors to the institution qualified to vote for Trustees, with their respective places of residence; and the said book or journal shall, at all times be open to the inspection or examination of the Attorney General of the United States; and, when required by either House of Congress, it shall be the duty of said Trustees to furnish information respecting their own conduct, the state of the institution, and of its finances, which shall or may be so required.

SEC. 11. *And be it further enacted*, That in case any vacancy or vacan-

cies shall happen in the Board of Trustees aforesaid by death, inability, resignation, or otherwise, at any time between the stated or triennial elections, that then it shall and may be lawful for the other Trustees, or any five of them, to proceed, at any subsequent meeting after the happening of such vacancy or vacancies, to choose, by ballot, any suitable person or persons to fill the same.

SEC. 12. *And be it further enacted*, That the employment or application of the funds or income of the said corporation, or any part thereof, for any purpose or object other than those expressed and defined in the first section of this Act, or the investment thereof in any other mode than is described and provided in the second section thereof, shall be deemed and taken to be a forfeiture of all the rights and immunities derived from this Act, and the same shall, thenceforth, cease and become null and void.

Approved, February 9, 1821.

By Act of Congress of July 14, 1832, there were donated to the Columbian College Washington city lots to the value of twenty-five thousand dollars; the Act providing that the fund arising from the proceeds of the sale of the lots should constitute an endowment fund for the support of professorships. By Act of February 28, 1839, permission was granted to the College to use seven thousand dollars of the fund for the payment of its debts.

By Act of Congress of February 21, 1871, a form of government by an elected Governor and Legislative Assembly was established for the District of Columbia, and on July 25, 1871, the Legislative Assembly passed the following statute:

An Act for the relief of the Columbian College, in the District of Columbia

Be it enacted by the Legislative Assembly of the District of Columbia, That the Columbian College, in the District of Columbia, chartered by and organized and acting under the Act of Congress approved February nine, eighteen hundred and twenty-one, may, from the proceeds of any sale of its property, apply such sum as may be needful to pay its present indebtedness and place its libraries, buildings, and apparatus of instruction in good condition, and execute all deeds needful to quiet the title of property already sold.

SEC. 2. *And be it further enacted*, That the Trustees of said College elected in May last shall constitute the corporation of said College until their successors in office shall be chosen and qualified as hereinafter provided, and may, until then, as vacancies occur in their number, temporarily fill them by the election of fit persons residing in the District of Columbia.

SEC. 3. *And be it further enacted*, That the said Trustees shall meet in the Law Building of said College at noon, on the twenty-fifth day of June, eighteen hundred and seventy-two, for the purpose of choosing, and shall then and there, or at the time and place to which said meeting may be adjourned, elect thirteen Trustees and thirteen Overseers, who shall, upon their election, constitute the College corporation, and they and their successors shall thenceforward be, and be known and recognized as, the Columbian College in the District of Columbia.

SEC. 4. *And be it further enacted*, That the Trustees chosen at the said meeting in June, eighteen hundred and seventy-two, or who may thereafter be chosen, shall be residents of the District of Columbia, and that at said meeting, and at any annual meeting of Trustees and Over-

seers to be thereafter held in said City of Washington on the Tuesday next preceding the last Wednesday in June, annually, the Trustees and Overseers in convention assembled shall fill vacancies in their Board, and shall, by ballot, elect from among the Trustees two suitable persons, one to be President and the other to be Treasurer and Secretary of said corporation and of the Board of Trustees, and shall establish ordinances and by-laws, or alter or repeal the same; and also frame laws and regulations for the College Faculty and students in all the departments thereof, and by ballot elect such teachers, tutors, professors, lecturers, and President, and with such salaries and duties as said corporation may deem proper.

SEC. 5. *And be it further enacted*, That at said annual meetings not less than seven Trustees and three Overseers shall constitute a quorum for the transaction of any business except adjournment, and adjournment may be made by any number present: *Provided*, That a final adjournment shall not be delayed beyond one week after the time fixed for the annual meeting.

SEC. 6. *And be it further enacted*, That during the interval between said annual meeting the Trustees shall, as now, hold semi-annual, quarterly, monthly, and occasional meetings to fill temporarily, as the case may require, vacancies in the Faculty or in their own Board, and with all their present powers as modified by this Act, subject to the ordinances and by-laws of the corporation; but no real estate or other property of said corporation shall, after the twenty-fifth day of June, eighteen hundred and seventy-two, be disposed of by the Trustees, except by vote of the corporation or in pursuance of its ordinances.

Approved, July 25, 1871.

This Act of the Legislative Assembly of the District was confirmed by Congress in 1873, and by the same statute the College was given the name of "the Columbian University." This Act was as follows:

An Act supplemental to the Act of February ninth, eighteen hundred and twenty-one, incorporating the Columbia[n] College in the District of Columbia

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the act to incorporate the Columbia[n] College in the District of Columbia, approved February ninth, eighteen hundred and twenty-one, be, and the same is hereby, so modified that said corporation shall be hereafter known and called by the name of the Columbia[n] University, and in that name shall take, hold and manage all the estate and property now belonging to said College, or that may hereafter be conveyed, devised, or bequeathed to said corporation by its original name; that the restriction of the yearly value of the property of the said corporation to the sum of twenty-five thousand dollars be, and the said restriction is hereby, repealed; and that said corporation may increase the number of its Overseers to twenty-one, and the number of its Trustees to twenty-one, exclusive of the President of the Faculty, who shall be, *ex officio*, a Trustee of said corporation.

SEC. 2. That the Act for the Relief of the Columbian College in the District of Columbia enacted by the Legislative Assembly of said District, and approved July twenty-fifth, eighteen hundred and seventy-one, be, and the same is hereby, approved and confirmed: *Provided*, That this Act nor the said Act of the Legislative Assembly of the said District, shall be so construed as to authorize the said Columbian University to sell, or use the proceeds of any sale of land granted by Congress to said institution for any purpose other than that expressed in the Act

of Incorporation and the Act granting any such land or real estate, or contrary to any will, devise or grant of any land or real estate heretofore or hereafter made, by any person or persons to said institution.

Approved, March 3, 1873.

By the Act of Congress of May 31, 1878, it was provided that the annual meeting of the corporation might be held either in May or June, and by the Act of January 14, 1893, it was provided that the Secretary and the Treasurer might be elected from the Trustees or not, as the Board of Trustees might deem proper, and that it should not be necessary that both offices should be held by one person.

In 1898 Congress amended the charter by an Act as follows:

An Act supplemental to the Act of February ninth, eighteen hundred and twenty-one, incorporating the Columbian College in the District of Columbia, and the Acts amendatory thereof

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Columbian University, on and after the first day of June, eighteen hundred and ninety-eight, shall be under the management and control of a Board of Trustees, consisting of twenty-two members; the President of the University shall be ex officio a member of said Board, and the remaining twenty-one shall be divided into three classes with seven members in each class; a majority of said Board shall be residents of the District of Columbia, and seven members shall constitute a quorum for the transaction of business. That on or before the thirty-first day of May, eighteen hundred and ninety-eight, a meeting of the Trustees and Overseers of said University shall be held, and said meeting shall elect twenty-one Trustees, seven of whom shall be designated to serve from the first day of June, eighteen hundred and ninety-eight, until the annual meeting in eighteen hundred and ninety-nine; and seven from the same date until the annual meeting in nineteen hundred; and seven until the annual meeting in nineteen hundred and one. Two-thirds of said Trustees, and also the President of the University, shall be members of regular Baptist churches; that is to say, members of churches of that denomination of Protestant Christians now usually known and recognized under the name of the regular Baptist denomination; said Trustees so elected shall serve for the periods mentioned and until their successors are elected. That on the first day of June, eighteen hundred and ninety-eight, the terms of office of the present Trustees and Overseers shall cease and determine and thereupon the control and management of said University, its property and trusts, shall vest in the Board of Trustees elected as hereinabove provided and their successors.

SEC. 2. That at the annual meeting in eighteen hundred and ninety-nine, and annually thereafter, there shall be elected by the Board of Trustees seven Trustees to fill the places of the class whose terms of office expire; and the Board of Trustees may prescribe in a by-law the mode of nominating persons for election as Trustees. A failure to elect Trustees at the annual meeting shall not create vacancies in the Board, but such election may be had and vacancies occurring during the year may be filled for the unexpired term by the Board at any general or special meeting.

SEC. 3. That the Board of Trustees provided for herein shall have, and they are hereby given, full power and authority to appoint and remove any and all officers, professors, lecturers, teachers, tutors, agents,

and employees who are now or may hereafter be elected or appointed; they may, by a vote of two-thirds of all the Trustees constituting said Board, adopt and change by-laws for the conduct of the business and educational work of said University; they may appoint an Executive Committee composed of Trustees, designate the number and Chairman thereof, with such powers and authority as are usually exercised by an Executive Committee, and which shall be conferred by the Board, subject always to the control of the Board of Trustees; they may create and establish schools and departments of learning to be connected with and become a part of said University; they may receive, invest, and administer endowments and gifts of money and property for the maintenance of educational work by said University, and by any department and chair thereof now established or which may hereafter be created or established by said University; and they shall have all the powers and authority heretofore granted to and vested in the Trustees and Overseers of said University.

SEC. 4. That the annual meeting of the Board of Trustees shall be held in the City of Washington, District of Columbia, on the Wednesday nearest the first day of June in each year; two other stated meetings shall be held on the second Wednesday of October and January in each year, and special meetings may be called by the President of the University or by the Executive Committee or by seven members of the Board of Trustees upon such notice and at such hour and place as may be designated in the by-laws; at all meetings any business necessary to be transacted may be considered and acted upon, and any meeting may be adjourned from time to time by the Trustees present, whether constituting a quorum or not, notice of such adjournment to be given, as of called meetings, to those Trustees not present.

SEC. 5. That the terms of office of the President of the University, the Treasurer and other officers, professors, and lecturers, and the employment of agents and employees, and the title to all the property and rights in and management of the endowment funds of the University shall not be affected by the change of management herein provided for, but they shall continue and be subject to the control and management of the Board of Trustees hereby created the same as they are now subject to the control and management of the corporation.

SEC. 6. That all acts and parts of acts inconsistent with the provisions of this Act are hereby repealed.

Approved, March 18, 1898.

In 1904 Congress passed an Act restoring the non-denominational character of the institution and permitting the change of its name. This Act and the certificate of change of name were as follows:

An Act supplemental to the Act of February ninth, eighteen hundred and twenty-one, incorporating the Columbian College in the District of Columbia, and the Acts amendatory thereof

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Act to incorporate the Columbian College, in the District of Columbia, approved February ninth, eighteen hundred and twenty-one, and the amendatory Act approved March eighteenth, eighteen hundred and ninety-eight, be and the same are hereby, amended by repealing and striking out of the said charter the following words in lines twenty to twenty-five in section one of the said amendatory Act of March eighteenth, eighteen hundred and ninety-eight, namely, "Two-thirds of said Trustees, and also the

President of the University, shall be members of regular Baptist churches; that is to say, members of churches of that denomination of Protestant Christians now usually known and recognized under the name of the regular Baptist denomination."

SEC. 2. That section thirteen of the original charter of February ninth, eighteen hundred and twenty-one, which provides "That persons of every religious denomination shall be capable of being elected Trustees; nor shall any person, either as President, Professor, Tutor or pupil, be refused admittance into said College, or denied any of the privileges, immunities, or advantages thereof, for or on account of his sentiments in matters of religion," be, and the same is hereby, re-enacted and shall be hereafter in full force as a part of said charter.

SEC. 3. That power is hereby given to the Board of Trustees of said University to change the name of said University at any regular meeting by a vote of not less than two-thirds of the total number of members of the Board, as prescribed by the charter, subject to the approval of the Secretary of the Interior and the Commissioner of Education. That upon said action being taken a certificate, under the seal of the University, stating the name adopted and the date when the name shall go into effect not less than thirty days nor more than six months from the date of its adoption, together with the fact that said name has been adopted as herein prescribed, shall be filed in the office of the Recorder of Deeds of the District of Columbia, and thereupon, upon the date specified for the name to go into effect, the University shall be known and designated by the name adopted, and by said new name the said University shall be vested with and convey its real estate, hold, control, and administer endowments and gifts of money and property heretofore and hereafter made for the maintenance of its educational work, and do and perform all acts which it now has the power to do under its said charter. Such change of name shall not in any other way change, affect, or modify in any degree the rights, privileges, obligations, and powers of the said University under the charter of February ninth, eighteen hundred and twenty-one, and the amendatory Acts thereto.

SEC. 4. That all Acts and parts of Acts inconsistent with this Act are hereby repealed.

Approved, January 23, 1904.

Certificate of Change of Name of the Columbian University to "The George Washington University"

DISTRICT OF COLUMBIA,
City of Washington:

The Columbian University, in accordance with the Act of Congress approved January 23, 1904, does hereby certify that, at the regular meeting of its Board of Trustees, duly held on the eighth day of June, 1904, at which meeting there were present more than two-thirds of the total number of members of the Board, it was unanimously resolved that, subject to the approval of the Secretary of the Interior and the Commissioner of Education, prescribed by said Act of Congress, the name of this University be changed to that of The George Washington University, the same to go into effect on the first day of September, A. D. 1904.

And it is hereby further certified, that on the twentieth day of June, A. D. 1904, the Secretary of the Interior and the Commissioner of Education duly approved in writing said change of name, which said written approval is hereto attached and made a part hereof.

In testimony whereof, said Columbian University has given this its

certificate under its corporate seal, at the City of Washington, D. C., on the twenty-first day of June, A. D. 1904.

Attest:

JOHN B. LARNER,
Secretary.
(Corporate Seal.)

CHARLES W. NEEDHAM,
President.

UNITED STATES OF AMERICA,
DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., June 20, 1904.

Pursuant to section 882 of the Revised Statutes, I hereby certify that the annexed paper is a true copy of the original as it appears upon the files of the Department.

In testimony whereof, I have hereunto subscribed my name, and caused the seal of the Department of the Interior to be affixed, the day and year first above written.

E. A. HITCHCOCK,
Secretary of the Interior,
W. B. A.

(Seal of the Department of the Interior.)

Whereas by Act of Congress approved January 23, 1904, the Columbian University was authorized to change its name, subject to the approval of the Secretary of the Interior and the Commissioner of Education;

And whereas it has been made satisfactorily to appear to us that, at the regular meeting of the Board of Trustees of said University, held on the eighth day of June, A. D. 1904, at which meeting there were present more than two-thirds of the total number of members of said Board, it was unanimously resolved to change the name of said University to that of The George Washington University, the same to go into effect on the first day of September, A. D. 1904;

Now, therefore, this is to witness that, pursuant to said Act of Congress, we do hereby, this twentieth day of June, A. D. 1904, approve said change of name.

E. A. HITCHCOCK,
Secretary of the Interior.
W. T. HARRIS,
Commissioner of Education.

(Seal of the Department of the Interior.)

In 1905 a further amendment to the charter was made, as follows:

An Act supplemental to the Act of February ninth, eighteen hundred and twenty-one, incorporating the Columbian College in the District of Columbia, and the Acts amendatory thereof

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That The George Washington University shall have, and is hereby given, power to increase the number of its Trustees from time to time, by a two-thirds vote of the whole number of the Trustees at the time such vote is taken, to a number not exceeding forty-five. In case of the increase of the number of Trustees a certificate, stating the number of the Board and the time when it shall go into effect and that the action so taken was by two-thirds vote as required by this Act, shall be filed with the Recorder of Deeds of the District of Columbia, and upon and after the date named the Board shall consist of the number of Trustees, stated in such certificate, and said

Board may also appoint a Board or Boards of Visitors for any department or departments of educational work carried on by the University, such Boards of Visitors to be advisory only.

SEC. 2. That by and with the consent of said University, Colleges may be organized hereunder for the purpose of carrying on, in connection with the University, special lines of educational work in the arts, sciences, and liberal and technical knowledge, such Colleges to be educationally a part of the system of the University, but upon independent financial foundations, and to this end any five or more persons desirous of associating themselves for the purpose of establishing a College hereunder, may make, sign, and acknowledge before any officer authorized to take acknowledgment of deeds in the District of Columbia, and with the assent of the University in writing, file in the office of the Recorder of Deeds of the said District a certificate in writing, in which shall be stated: First, the intention to organize a corporation under this Act and the assent of the University thereto; second, the name or title by which the College shall be known in law; third, the names of the Trustees constituting the first Board, and such Trustees may be divided into three classes, the term of office of one class expiring annually; fourth, the manner of nominating and electing successors to said Trustees; fifth, the branch or branches of literature, arts, sciences, liberal or technical knowledge proposed to be taught; sixth, that the highest officer of said College shall be a Dean, the Dean and members of the Faculty to be members of the Educational Councils of the University in accordance with the rules governing the University; seventh, that all degrees shall be bestowed by the University; eighth, that in all financial and legal responsibility the College shall be an independent organization. Upon filing such certificate the Trustees named therein and their successors shall be a body politic, incorporated by the name and style stated in the certificate, and by that name and style shall have perpetual succession in association with the University, with power in the College to sue and be sued; plead and be impleaded; to acquire, hold, and convey property in all legal ways; to receive by gift, devise, or otherwise, and hold, control, and administer endowments and gifts of money and property thereafter made to it for the maintenance of its educational work; to have and use a common seal, and to alter and change the same at pleasure; to make and alter from time to time such by-laws, not inconsistent with the Constitution of the United States or the laws in force in said District or the laws of the University regulating the conduct of educational work, as may be deemed necessary for the government of the College, but said College shall not confer academic or honorary degrees; such College shall hold the property of the institution and all moneys and property conveyed to it by purchase, gift, conveyance, will, devise, or bequests solely for the purposes of the educational work specified in said certificate; the Trustees of such College shall faithfully apply all funds collected or received and the proceeds thereof belonging to the institution, according to their best judgment, in purchasing lands and erecting buildings, supporting necessary officers, instructors, and servants, and procuring all equipment, educational and otherwise, necessary to carry on the work of the College.

SEC. 3. That said University may enter into affiliated agreements with any institutions of learning outside of the District of Columbia, for the purpose of giving to students of such institutions the educational facilities of said University and the Departments of the Government in the City of Washington which are by law open to students, upon such terms as are mutually agreed upon by the said University and the affiliated institutions.

Approved, March 3, 1905.

Under section 2 of the Act of 1905, there now exist two colleges which are doing special educational work and which are in active operation—the National College of Pharmacy, organized in 1905, and the College of Veterinary Medicine, organized in 1908. The financial affairs of these Colleges are separate from those of the University, and are managed by their separate Boards of Trustees. The Faculties of these Colleges are also appointed by their respective Boards of Trustees. The connection between these Colleges and the University consists in the fact that their Deans are members of the President's Council, and that the Board of Trustees of the University confers degrees for the work done in these Colleges.

By resolutions of the Board of Trustees of the University of May 6, 1909, and January 12, 1910, provision was made for the nomination by the Alumni of two Alumni Trustees each year. In the spring of 1910, this plan was put in operation, and since then the two persons annually nominated as Alumni Trustees have been elected to membership on the Board.

BY-LAWS OF THE GEORGE WASHINGTON UNIVERSITY

ARTICLE I

The President of the University

SECTION 1. The President of the University shall hold office without limit of time, until his resignation be accepted, or he be removed from office by the Board of Trustees; he shall be the executive head of the University and of all its departments, exercising such supervision, direction, and control as will promote the efficiency of every department; he shall be responsible, under the supervision of the Board of Trustees, for the discipline of the University; he shall preside at the meetings of the Faculties, and be the official medium of communication between the Faculties and the Board of Trustees, and between the students of the University and the Board of Trustees; he shall recommend to the Board of Trustees appointments to the several Faculties; he shall be responsible for carrying out such measures concerning the internal administration of the University as the Board of Trustees may enact. He shall make a yearly report to the Board of Trustees at the January meeting concerning the state of the University. He shall control the expenditure and administration of the yearly budget when formally adopted by the Board of Trustees.

ARTICLE II

Board of Trustees

SECTION 1. No member of the teaching staff of the University except the President of the University, or of the teaching staff of any college incorporated under the charter of the University, while he remains such, shall be capable of holding the office of Trustee of the University.

SEC. 2. At the annual meeting of the Board after the election of Trustees, the Board shall elect by ballot from among their number a Chairman and Vice-Chairman of the Board to serve until the next annual meeting and until their successors are elected and qualified. The Chairman of the Board, and in his absence the Vice-Chairman, shall preside at all meetings of the Board of Trustees.

SEC. 3. At the annual meeting after the election of Trustees the Board shall elect by ballot the following officers, to serve until the next annual meeting and until their successors are elected and qualified: a Secretary, a Treasurer, an Auditor, and a Counsel of the University.

SEC. 4. In the event of a failure for any reason so to elect either or

all of the said officers, or in case of any vacancy from any cause, then an election may be held for the unexpired term at a meeting called for that purpose.

SEC. 5. The annual meeting of the Board of Trustees shall take place on the Wednesday nearest the first day of June of each year.

SEC. 6. Stated meetings of the Board shall be held on the second Wednesdays of October and January.

SEC. 7. Notice of all stated meetings shall be mailed by the Secretary of the University to each member of the Board at least five days previous to the time of such meetings.

SEC. 8. Special meetings may be called at any time by the President of the University, the Executive Committee, or by seven members of the Board of Trustees. The Secretary shall issue the notices of such meetings.

SEC. 9. The call for special meetings shall state the nature of the business to be considered, and shall be mailed at least two days before the meeting is to be held.

SEC. 10. Seven members of the Board of Trustees shall constitute a quorum for the transaction of any business.

ARTICLE III

Executive Committee

SECTION 1. There shall be an Executive Committee of seven members of the Board of Trustees, of which the President of the University shall be Chairman *ex officio*. The other members of the committee shall be elected by ballot at the annual meeting, and shall serve until their successors are elected.

SEC. 2. In case of inability to act on the part of any member of the Committee his place may be filled by the Board of Trustees.

SEC. 3. Four members of the Committee shall constitute a quorum for the transaction of business.

SEC. 4. The Committee is authorized to transact such business as may require attention between the regular meetings of the Board of Trustees; but the Chairman of the Committee shall make report at each stated meeting of the Board on the proceedings of the Committee during the intervening period, and at any meeting of the Board, if any member of the Board shall request that the report of the proceedings of any meeting or meetings of the Committee be read, the same shall be read by the Secretary.

SEC. 5. Regular meetings of the Committee shall be held during the academic year monthly, and special meetings may be called by the Secretary whenever requested by the Chairman or any two members of the Committee.

SEC. 6. In case of inability to act on the part of the Chairman of the Committee, the Committee may appoint a temporary chairman for the meeting.

ARTICLE IV

Finance Committee

SECTION 1. There shall be a Finance Committee of three members of the Board of Trustees who shall be elected at the annual meeting to serve until their successors are elected.

SEC. 2. The Committee shall invest and reinvest University funds, and shall exercise general supervision over the Treasurer's office, making report at every regular meeting of the Board of Trustees.

ARTICLE V

Visiting Committees

SECTION 1. At the annual meetings there shall be appointed a Committee of three members for each school or department of the University, who shall visit and inspect the condition and conduct of the school or department and make a written report thereon to the stated meetings of the Board of Trustees.

ARTICLE VI

The Secretary of the University

SECTION 1. The Secretary of the University shall as such attend and keep minutes of all meetings of the Board of Trustees, the Executive Committee, the educational council and faculties, as may by resolution of the Board be required to keep records. He shall give to any meeting at which he is entitled to be present any information concerning University affairs which he may have and which may be proper to be brought before such meeting. He shall have the custody of all the files and records of the University proper to his office; he shall have the custody of the corporate seal of the University, and shall affix it to corporate acts authorized by the Board of Trustees or the Executive Committee, and he shall generally do and perform such administrative duties as may be assigned him by the President from time to time not inconsistent with the by-laws.

ARTICLE VII

The Treasurer of the University

SECTION 1. The Treasurer shall give bond or shall be bonded in a surety company, at the expense of the University, for the faithful performance of his duties in such sum and with such sureties as shall be approved by the Board of Trustees.

SEC. 2. He shall keep all the funds of the University in such bank or banks as the Board of Trustees shall designate; he shall keep the trust funds, and the full account thereof, separate from the current or general funds and accounts of the University; he shall make monthly statements, showing the current financial operations and the condition of the trust funds and other invested funds to the Executive Committee; he shall

make a full report annually to the Board of Trustees as specified in Article XI, and he shall at such other times make such reports as the Trustees may require.

SEC. 3. He shall make payments only by checks upon the bank countersigned by the President of the University, or in his absence by the Secretary, and only for investments, salaries, bills, and expenses authorized by the Board of Trustees or the Executive Committee, provided, however, that when the Treasurer is absent or incapacitated, or when the office of Treasurer is vacant, or when the President and Secretary are both absent or incapacitated, or in any other emergency, the Executive Committee may by resolution make special and temporary arrangements for the signing or countersigning of checks.

ARTICLE VIII

The Auditor of the University

SECTION 1. The Auditor of the University shall make three audits each year of the books and accounts of the Treasurer. The fiscal year shall end at midnight on August 31 of each year, and the accounts shall be audited as of December 31, April 30, and August 31 at midnight.

SEC. 2. A corporation may be elected by the Board of Trustees as the Auditor of the University.

ARTICLE IX

The Counsel of the University

SECTION 1. The Counsel of the University shall render opinions to the President, the Board of Trustees, or to the Executive Committee, when requested, upon legal questions arising in the management of the educational or business affairs of the University, and shall represent the University in all legal proceedings prosecuted by or against the University. The Counsel of the University may be a member of the Board of Trustees.

ARTICLE X

Committee on Catalogue

SECTION 1. Each year the annual catalogue of the University shall be prepared by a committee consisting of the President of the University as Chairman, the Secretary of the University, and three members of the Faculty of the University appointed by the President. The Catalogue shall be published annually in pamphlet form. Each annual catalogue shall contain the charter and by-laws of the University.

ARTICLE XI

Annual Financial Report

SECTION 1. Between July 1 and October 1 in each year there shall be prepared by the Treasurer a financial report showing in detail the

financial condition of the University during the previous year, which financial report shall be certified by the Auditor to be correct. This report shall be laid before the Board of Trustees at their October meeting, and when approved by the Board of Trustees shall, with any modifications ordered by them and assented to by the Treasurer and Auditor, be printed by the University in pamphlet form.

ARTICLE XII

Sale of Land and Other Assets

SECTION 1. Real estate and other securities of the University shall not be sold or disposed of except by direction of the Board of Trustees.

SEC. 2. All deeds and conveyances of real estate belonging to the University shall be signed by the President of the University and the Secretary, and the same shall be acknowledged, attested, and the seal of the University attached thereto by the Secretary.

ARTICLE XIII

Amendments

SECTION 1. These by-laws may be amended or repealed at any meeting of the Board by a vote of the majority of all members of the Board, provided notice of the proposed amendment or change has been sent to each member of the Board at least five days before the meeting.

ARTICLE XIV

Former By-Laws Repealed

SECTION 1. All by-laws heretofore enacted are hereby repealed.

ORDINANCE

ARTICLE I

Organization

SECTION 1. The departments, colleges, and schools forming an integral part of the University are as follows: The Department of Arts and Sciences, comprehending the School of Graduate Studies, Columbian College, the College of Engineering, the Teachers College; the Law School; the Medical School; the Dental School. These departments, colleges, and schools are subject to the Board of Trustees represented by the President of the University, and unless otherwise noted, to the rules and regulations herein set forth.

SEC. 2. Associated colleges organized in accordance with the charter of the University on independent financial foundations are under the immediate control of their respective Boards of Trustees, subject in educational matters to the authority of the President and the University Board of Trustees. The National College of Pharmacy and the College of Veterinary Medicine are such associated colleges.

SEC. 3. The Medical School including the University Hospital, and the Dental School are organized under special ordinances of the Board of Trustees, and are subject to the rules and regulations of this ordinance only where the special ordinances governing them do not conflict with this ordinance.

ARTICLE II

Faculties

SECTION 1. Each department, college, and school shall be under the immediate charge of a faculty subject to the authority of the President's Council. The faculties shall recommend to the Board of Trustees candidates for degrees, diplomas, certificates, and awards.

SEC. 2. Each faculty shall be composed of all the Professors, Assistant Professors, and Instructors who teach in the department, school, or college under the charge of that faculty, and of such other members as the faculty may, on the recommendation of the Dean, with the approval of the President, admit to membership. The President shall be *ex officio* a member of each faculty, and the Secretary shall *ex officio* have voice at all faculty meetings, but no vote.

SEC. 3. A faculty may, at its discretion, delegate any of its purely administrative powers to an executive committee of which a Dean shall be Chairman, the members of which shall be nominated by that Dean and appointed by the President. Every executive committee shall be subject to the authority of the faculty from which it is appointed.

ARTICLE III

President's Council

SECTION 1. The President's Council shall have charge of all administrative educational questions, subject to the confirmation of the Board of Trustees.

SEC. 2. The President's Council shall be responsible for the coördination of work throughout the University and shall have immediate jurisdiction over every administrative educational question touching the interests of more than one department, college, or school.

SEC. 3. The President's Council shall be composed of the President of the University, the Secretary of the University, and of all the Deans in the University, *ex officio*, and of a representative or representatives from each department, college, and school of the University to be elected annually by the faculties of the respective departments, colleges, and schools; those departments, colleges, and schools with a registration of less than two hundred students having one representative, those with more than two hundred students having two representatives.

ARTICLE IV

Deans

SECTION 1. The Dean of each department, college, or school shall be appointed by the Board of Trustees from among the members of its faculty. The Dean shall, under the President, be the chief executive officer of his department, college, or school. As such he shall have authority in his department, college, or school to enforce such regulations as may be imposed by the Board of Trustees or the Faculty. He shall be held responsible for the proper preparation and conduct of the business of his department, college, or school, and for the performance of such administrative duties as pertain to his office and may be required of him by the President. He shall make annual written reports to the President.

ARTICLE V

Titles of the Teaching Staff

SECTION 1. The academic titles of those engaged in teaching shall be Professor, Assistant Professor, Instructor, Assistant, Demonstrator, and Lecturer. The word "Associate" may be prefixed to any title where, under the terms of this ordinance, it is appropriate, and in the Medical School this title may be used as provided in the special ordinances governing that department.

ARTICLE VI

Appointments

SECTION 1. Instructors, Assistants, Demonstrators, and Lecturers shall, in the absence of agreement to the contrary, be appointed annually, with such compensation as shall be fixed by the Board of Trustees at the time of the appointment.

SEC. 2. Assistant Professors shall not be appointed for more than three years, subject to removal in accordance with the provisions of the charter of the University, and shall serve as Assistant Professors for at least three years before being eligible for promotion to a professorship.

SEC. 3. Professors shall be appointed without limit of time, subject to removal in accordance with the provisions of the charter of the University.

ARTICLE VII

Academic Year

SECTION 1. The academic year shall begin on the last Wednesday of September, and shall end on the Wednesday following the annual meeting of the Board of Trustees.

- PAUL BARTSCH, Ph.D..... Professor of Zoology
- EDWIN CHARLES BRANDENBURG, LL.M..... Professor of Law
- ARTHUR PETER, LL.B..... Professor of Law
- WILLIAM CREIGHTON WOODWARD, LL.M., M.D.,
Professor of Medical Jurisprudence
- ALBERT LIVINGSTON STAVELY, M.D..... Clinical Professor of Gynecology
- GEORGE NEELY HENNING, A.M..... Professor of Romance Languages
- JOHN PAUL EARNEST, A.M., LL.M..... Professor of Law
- JOHN ROLAND WALTON, D.D.S..... Dean of the Dental School and
Professor of Prosthetic Dentistry and Orthodontia
- WILLIAM ALANSON WHITE, M.D.,
Professor of Psychiatry, and Clinical Professor of Neurology
- ALBERT BURNLEY BIBB..... Professor of Architecture
- GEORGE MILLER STERNBERG, M.D., LL.D.,
Professor of Preventive Medicine
- ASAPH HALL, JR., Ph.D..... Professor of Astronomy
- ARTHUR AUGUSTIN SNYDER, M.D..... Clinical Professor of Surgery
- ALBERT MANN, Ph.D..... Professor of Botany
- SHEPHERD IVORY FRANZ, Ph.D.,
Professor of Physiology and Professor of Experimental Psychology
- CHARLES SIDNEY SMITH, Ph.D..... Professor of Greek and Latin
- WENDELL PHILIPS STAFFORD, A.M., LL.D..... Professor of Law
- WILLIAM CLINE BORDEN, M.D.,
Dean of the Medical School and Professor of Surgery
- JOHN RYDER WELLINGTON, M.D..... Clinical Professor of Surgery
- CHARLES STANLEY WHITE, M.D.,
Clinical Professor of Oral Surgery and Associate in Surgery
- WILLIAM KENNEDY BUTLER, A.M., M.D..... Professor of Ophthalmology
- BUCKNER MAGILL RANDOLPH, M.D.,
Professor of Materia Medica and Therapeutics
- LUTHER HALSEY REICHELDERFER, M.D..... Clinical Professor of Surgery
- JAMES DUDLEY MORGAN, A.B., M.D.,
Clinical and Associate Professor of Medicine
- LOUIS ANATOLE LA GARDE, M.D..... Professor of Military Surgery
- WILLIAM CARL RUEDIGER, Ph.D.,
Dean of Teachers College, and Professor of Educational Psychology
- ALFRED FRANCIS WILLIAM SCHMIDT, A.M.,
Librarian and Professor of German
- WILLIS LUTHER MOORE, Sc.D., LL.D., Professor of Practical Meteorology
- WILLIAM JACKSON HUMPHREYS, C.E., Ph.D.,
Professor of Meteorological Physics

- CHARLES NOBLE GREGORY, A.M., LL.D.,
Dean of the Law School and Professor of Law
- GIDEON BROWN MILLER, S.B., M.D.... Clinical Professor of Gynecology
- JULIAN MAYO CABELL, M.D..... Clinical Professor of Obstetrics
- EDWARD ELLIOTT RICHARDSON, M.D., Ph.D.... Professor of Philosophy
- GEORGE WASHINGTON LITTLEHALES, C.E., Professor of Nautical Science
- OSCAR BENWOOD HUNTER, M.D., Professor of Histology and Embryology
and Associate Professor of Anatomy
- EDWIN VIVIAN DUNSTAN, C.E..... Professor of Civil Engineering
- OSCAR ALEXANDER MECHLIN, C.E..... Professor of Civil Engineering
- EVERETT FRASER, A.B., LL.B..... Professor of Law
- JOHN BRADFORD BRIGGS, M.D.. Professor of Bacteriology and Pathology
- W. SINCLAIR BOWEN, M.D..... Clinical Professor of Obstetrics
- EDGAR PASQUAL COPELAND, M.D.,
Professor of Hygiene and Associate in Pediatrics
- OSCAR ADDISON MACK McKIMMIE, M.D.,
Clinical Professor of Laryngology and Otolaryngology
- LOUIS MACKALL, M.D..... Clinical Professor of Medicine
- CARL LAWRENCE DAVIS, M.D..... Professor of Anatomy
- JOHN WILMER LATIMER, LL.B..... Professor of Law
- EDWARD RHODES STITT, A.B., M.D..... Professor of Tropical Medicine
- ARTHUR BARTON CRANE, D.D.S. Professor of Oral Surgery

ASSOCIATE PROFESSORS

- NOBLE PRICE BARNES, M.D., Associate Professor of Materia Medica and
Therapeutics, and Clinical Associate in Medicine
- JOHN ROBERT DE FARGES, D.D.S..... Associate Professor of Dental
Metallurgy, Economics, Jurisprudence and Ethics
- HURON WILLIS LAWSON, S.M., M.D.... Associate Professor of Obstetrics
and Associate Obstetrician in Chief to
the University Hospital and Dispensary
- CHARLES TURK BASSETT, D.D.S.,
Associate Professor in Charge of Dental Infirmary
- ALLEN SCOTT WOLFE, D.D.S.,
Associate Professor of Crown and Bridge Work
- CADMUS LINDEN ODOR, D.D.S.,
Associate Professor of Operative Technics
- WILLIAM FRANCIS LAWRENCE, D.D.S.,
Associate Professor of Prosthetic Technics
- D. DE WITT BEEKMAN, D.D.S.,
Associate Professor of Materia Medica and Therapeutics
- FRANK ADELBERT HORNADAY, S.B., M.D.,
Associate Professor of Chemistry
- JOSEPH DUERSON STOUT, A.B., M.D.,
Associate Professor of Physiology and Pharmacology

- HENRY KNOX CRAIG, M.D., Associate Professor of Bacteriology and
Pathology and Curator of the Museum
GEORGE MILLER SHARP, D.D.S. Associate Professor of Orthodontia
EUGENE ROGER STONE, D.D.S. Associate Professor of Oral Surgery

ASSOCIATES

- DANIEL WEBSTER PRENTISS, M.D. Clinical Associate in Surgery
JOHN BENJAMIN NICHOLS, M.D. Associate in Medicine and Dietetics
HARRY HAMPTON DONNALLY, A.M., M.D.,
Clinical Associate in Pediatrics
WILLIAM FRANCIS MATTINGLY SOWERS, A.B., M.D., Associate in Surgery
HENRY RANDALL ELLIOTT, M.D.,
Associate in Physiology and Pharmacology
JOHN T. KELLEY, M.D. Clinical Associate in Obstetrics
WALTER ASHBY FRANKLAND, M.D. Clinical Associate in Medicine
J. LEWIS RIGGLES, M.D. Associate in Gynecology
FRANK LEECH, M.D. Clinical Associate in Pediatrics
WILLIAM CABELL MOORE, M.D., Associate in Medicine
CHARLES AUGUSTUS SIMPSON, M.D. Associate in Dermatology
COURSEN BAXTER CONKLIN, M.D. Associate in Medicine

ASSISTANT PROFESSORS

- NEVIL MONROE HOPKINS, Ph.D. Assistant Professor of Chemistry
EDWIN ALLSTON HILL, Ph.D. Assistant Professor of Chemistry
THOMAS MALCOLM PRICE, Ph.D. Assistant Professor of Chemistry
RAY SMITH BASSLER, Ph.D. Assistant Professor of Geology
OTIS DOW SWETT, S.M, LL.M. Assistant Professor of Chemistry
CHARLES WARD MORTIMER, S.B., M.E.,
Assistant Professor of Electrical Engineering
FRANK CHARLES STARR, S.B. Assistant Professor of Civil Engineering
HIRAM COLVER MCNEIL, Ph.D.,
Assistant Professor of Physical Chemistry
ROBERT RUSS KERN, A.B.,
Assistant Professor of Economics and Sociology
LEVI RUSSELL ALDEN, A.M. Assistant Professor of History
HENRY CRAIG JONES, A.B., LL.B. Assistant Professor of Law
MERTON LEROY FERSON, A.M., LL.B. Assistant Professor of Law
LESLIE CLEVELAND MCNEMAR, A.B.,
Assistant Professor of International Law and Political Science
ALBERT LEWIS HARRIS, B.S. in Arch.,
Assistant Professor of Architecture

- RICHARD COBB, A.B.,
 Secretary of the University and Assistant Professor of English
 — BEDFORD BROWN, S.B., Assistant Professor of Architecture

LECTURERS AND INSTRUCTORS

- EDWARD GRANT SEIBERT, M.D.,
 Instructor in Laryngology and Ophthalmology
 — OSCAR PHELPS AUSTIN, A.M. Lecturer on Commercial Geography
 — FREDERICK EUGENE FOWLE, JR., S.B. Lecturer on Astro-Physics
 — WILLARD STANTON SMALL, Ph.D. Lecturer on Education
 — WALTER HIBBARD MERRILL, M.D. Instructor in Electro-Therapeutics
 — HOBART SOUTHWORTH DYE, M.D.,
 Instructor in Laryngology and Otology
 — TRUMAN ABBE, M.D. Instructor in Surgery
 — ALFRED GEISES BUHRMAN. Clerk of the Moot Court
 — VIRGIL B. JACKSON, M.D. Instructor in Gynecology
 — EDMUND THOMAS MURDAUGH FRANKLIN, M.D. Instructor in Surgery
 — WILLIAM J. FRENCH, M.D. Instructor in Materia Medica
 — CHARLES WILBUR HYDE, M.D., Instructor in Medicine and Anaesthesia
 — JOHN WINSLOW TAYLOR, D.D.S. Instructor in Prosthetic Technics
 and Demonstrator in the Dental Infirmary
 — ADAM KEMBLE, M.D. Instructor in Genito-Urinary Surgery
 — HOMER GIFFORD FULLER, M.D. Instructor in Genito-Urinary Surgery
 — CHARLES GARDNER SHOEMAKER, D.D.S.,
 Instructor in Operative Technics
 — HENRY CISSEL YOUNG, D.D.S. Instructor in Prosthetic Technics and
 Demonstrator in the Dental Infirmary
 — HAYNER HASKELL GORDON, Ph.D., Instructor in Mechanical Engineering
 — ROBERT WILBUR MORSE, S.B. Instructor in Mechanical Engineering
 — CLINE N. CHIPMAN, M.D. Instructor in Anaesthesia
 — BENJAMIN RUSH LOGIE, M.D. Instructor in Neurology
 — GEORGE HENRY SCHWINN, M.D., Instructor in Psychiatry and Neurology
 — MARK RITTENHOUSE WOODWARD, E.E.,
 Instructor in Electrical Engineering
 — ALEXANDER YELVERTON PEYTON GARNETT, M.D.,
 Instructor in Obstetrics
 — HARRY HYLAND KERR, M.D. Instructor in Operative Surgery
 — HARRY GRANT HODGKINS, A.B. Instructor in Mathematics
 — WILLIAM JOHNSTON MALLORY, M.D. Instructor in Medicine
 — CAESARE LOUIS CONSTANTINI, D.D.S.,
 In Charge of Clinical Instruction in Dentistry
 — ARTHUR DURDAN WEAKLEY, D.D.S. Clinical Instructor in Dentistry
 — THOMAS LOCKE RUST, D.D.S. Clinical Instructor in Dentistry
 — GEORGE BERTRAM ROPER MACDONALD, D.D.S.,
 Clinical Instructor in Dentistry

WILLIAM CARL KILLINGER, D.D.S. . . . Clinical Instructor in Orthodontia
 Z. WILBUR ALDERMAN, D.D.S.,

Clinical Instructor in Electro-Therapeutics

ROBERT EDWIN LAYTON, D.D.S. Clinical Instructor in Dentistry

JULIA THECKLA MACMILLAN, M.S. Instructor in Zoölogy

WILLIAM WRIGHT FRASER, A.B., B.L. Lecturer in Mathematics

CHARLES EDWARD VAN ORSTRAND, S.M. Lecturer on Mechanics

HARVEY LINCOLN CURTIS, Ph.D. Lecturer on Physics

ELIJAH WHITE TITUS, Phar.D., M.D. Instructor in Obstetrics

WILLIAM CABELL VAN VLECK, A.B., LL.B. Instructor in Law

PHILIP ROGERS HOOTON. Instructor in Architecture

MARIETTA STOCKARD, Lecturer on the Teaching of Children's Literature

DANIEL LE RAY BORDEN, M.D. Instructor in Surgery and Gynecology

ALBERT ELWOOD PAGAN, M.D. Instructor in Gynecology

ARTHUR DEERIN CALL, A.M. Lecturer on Elementary Education

JAMES WALTER BERNHARD, D.D.S. Instructor in Crown and Bridge Work

GEORGE TRAVER HARRINGTON, B.S. in Agri., BS. in Chem.,

Instructor in Botany

WILLIAM HENRY HUNTINGTON, M.D.,

Instructor in Laryngology and Otology

J. IRVING SLOAT, M.D. Instructor in Pharmacology

J. A. F. PFEIFFER, M.D. Special Instructor in Pathology

EDWARD CULLOM, A.M. Instructor in French

LOYD HALL SUTTON, S.B., LL.B. Instructor in Patent Law

EDWIN HENRY INGERSOLL, S.M. Instructor in Chemistry

WALTON COLCORD JOHN. Instructor in Spanish

BERNARD GLUECK, M.D. Instructor in Psychiatry

HENRY WILLIAM JAEGER, M.D. Instructor in Pharmacology

REBECCA SHERMAN ASHLEY Instructor in the History of Art

LOUIS COHEN, S.B. Lecturer on Electricity

EDGAR LEE HEWETT. Lecturer on Archaeology

ASSISTANTS AND DEMONSTRATORS

HENRY ALBERT LEPPER, B.S. in Chem. Assistant in Chemistry

GERTRUDE RICHARDSON BRIGHAM, A.B. Assistant in English

RALPH WEBSTER BENTON. Student Assistant in History

BOYCE RICHARDSON BOLTON,

Student Assistant in Histology and Embryology

JOHN FRANK EVANS. Student Assistant in Histology

ERWIN HARSCH. Student Assistant in Drawing and Field Work

JARRETT MATTHEW HUDDLESTON,

Student Assistant in Bacteriology and Pathology

HELEN GLADYS KAIN. Student Assistant in Chemistry

THERESA KARGER. Student Assistant in Chemistry

JOHN MORRISS LADD,

Student Assistant in Bacteriology and Pathology

ELLIS SMITH LEWIS,	Student Assistant in Bacteriology and Pathology
EDWARD WILLIAM MULLIGAN.....	Student Assistant in Anatomy
GEORGE WASHINGTON PHILLIPS.....	Student Assistant in Chemistry
FRITZ AUGUSTUS REUTER.....	Student Assistant in Organic Chemistry
RICHARD COVERT SATTERLEE.....	Student Assistant in Anatomy
JOHN HENRY STACHNIEWICZ,	Student Assistant in General Chemistry
ROBERT R. WALTON,	Student Assistant in Pharmacology and Physiology
CLARENCE EASTERLY WEAVER,	Student Assistant in Physiology and Pharmacology

EDUCATIONAL ORGANIZATION

The University comprises:

THE DEPARTMENT OF ARTS AND SCIENCES

The School of Graduate Studies.
Columbian College.
The College of Engineering.
The Teachers College.

THE PROFESSIONAL DEPARTMENTS.

The Law School.
The Medical School.
The Dental School.

THE ASSOCIATED COLLEGES.

National College of Pharmacy.
The College of Veterinary Medicine.

ANNUAL COMMENCEMENT

The Annual Commencement is held on the Wednesday following the Wednesday nearest the first day of June. Students who have satisfied the requirements for degrees subsequent to the June Commencement may be awarded such degrees privately in October or at the Winter Convocation on February 22.

THE UNIVERSITY LIBRARY

The University Library comprises the Library of the Department of Arts and Sciences, the Law Library, and the Medical Library. It contains 45,740 volumes.

In addition to its general collections the Library of the Department of Arts and Sciences contains the library of the late Professor Richard Heinzel, of the University of Vienna, containing 7200 books and pamphlets in Germanic philology and literature, and cognate branches; the library of the late Professor Curt Wachsmuth, of the University of Leipzig, containing 7900 books and pamphlets in Greek and Roman literature, archaeology, and history; the Mount Vernon Alcove containing 4000 volumes in political history, international law, and the social sciences; and the divisional collections in engineering and mechanic arts and in education. It is open from 9 a.m. to 6.40 p.m.

The Law Library, containing 5901 volumes, is open from 9 a.m. to 10 p.m.

The Medical Library, containing 1618 volumes, is open from 9 a.m. to 10.30 p.m.

PRIVILEGES IN GOVERNMENTAL INSTITUTIONS OPEN TO UNIVERSITY STUDENTS

In order to promote research and the diffusion of knowledge, the Congress of the United States has made the scientific resources of the Government accessible to students under the terms of the following joint resolution, approved April 12, 1892:

"Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the facilities for research and illustration in the following and any other governmental collections now existing or hereafter to be established in the city of Washington for the promotion of knowledge shall be accessible, under such rules and restrictions as the officers in charge of each collection may prescribe, subject to such authority as is now or may hereafter be permitted by law, to the scientific investigators and to students of any institution of higher education now incorporated or hereafter to be incorporated under the laws of Congress or of the District of Columbia, to wit:

1. Of the Library of Congress.
2. Of the National Museum.
3. Of the Patent Office.
4. Of the Bureau of Education.
5. Of the Bureau of Ethnology.
6. Of the Army Medical Museum.
7. Of the Department of Agriculture.
8. Of the Fish Commission.
9. Of the Botanic Gardens.
10. Of the Coast and Geodetic Survey.
11. Of the Geological Survey.
12. Of the Naval Observatory."

It is a well-known fact that the human race is not a homogeneous one, but that it is divided into many different groups, each with its own characteristics and customs. These groups are often referred to as 'races' or 'tribes', and they are found in every part of the world. The study of these groups is the province of anthropology, and it is a branch of science that has become increasingly important in recent years.

The first of these groups is the white race, which is found in Europe, North America, and Australia. It is characterized by its fair skin, light hair, and blue eyes. The second is the black race, which is found in Africa, the West Indies, and the South American tropics. It is characterized by its dark skin, black hair, and brown eyes.

The third is the yellow race, which is found in China, Japan, and the Philippines. It is characterized by its yellowish-brown skin, black hair, and black eyes. The fourth is the brown race, which is found in India, the Malay Peninsula, and the East Indies. It is characterized by its brown skin, black hair, and black eyes.

In order to understand the human race, it is necessary to study these different groups and their characteristics. This is the task of the anthropologist, and it is a task that requires a great deal of knowledge and skill. The anthropologist must be able to observe and record the customs and habits of the different groups, and he must be able to analyze the results of his observations.

The study of the human race is a branch of science that has become increasingly important in recent years. It is a branch of science that has helped us to understand the human race and its many different groups. It has helped us to see that the human race is not a homogeneous one, but that it is divided into many different groups, each with its own characteristics and customs. This knowledge is important for us to have, for it helps us to understand the world in which we live and the people who live in it.

1. On the subject of the human race.
2. On the subject of the human race.
3. On the subject of the human race.
4. On the subject of the human race.
5. On the subject of the human race.
6. On the subject of the human race.
7. On the subject of the human race.
8. On the subject of the human race.
9. On the subject of the human race.
10. On the subject of the human race.

PART II
DEPARTMENTS OF THE UNIVERSITY

DEPARTMENT OF ART AND SCIENCES

FACULTY

CHARLES HERBERT STOCKTON, LL.D.....PRESIDENT OF THE UNIVERSITY
 HOWARD LINCOLN HODGKINS, Ph.D.....Dean, Dean of the College of
 Engineering, and Professor of Mathematics

*THEODORE NICHOLAS GILL, M.D., Ph.D., LL.D.,
 Professor of Zoology, Emeritus

HERMANN SCHOENFELD, Ph.D., LL.D..... Professor of German

CHARLES EDWARD MUNROE, Ph.D., LL.D.,
 Dean of the School of Graduate Studies and Professor of Chemistry

*GEORGE PERKINS MERRILL, Ph.D.,
 Professor of Geology and Mineralogy

*FRANK WIGGLESWORTH CLARKE, Sc.D... Professor of Mineral Chemistry

WILLIAM ALLEN WILBUR, A.M.,
 Dean of Columbian College and Professor of English

CHARLES CLINTON SWISHER, Ph.D., LL.D... Professor of History

*MITCHELL CARROLL, Ph.D.,
 Professor of Archaeology and the History of Art

*PAUL BARTSCH, Ph.D..... Professor of Zoology

GEORGE NEELY HENNING, A.M..... Professor of Romance Languages

ALBERT BURNLEY BIBB... Professor of Architecture

*GEORGE MILLER STERNBERG, M.D., LL.D.,
 Professor of Preventive Medicine

*ASAPH HALL, JR., Ph.D..... Professor of Astronomy

*ALBERT MANN, Ph.D..... Professor of Botany

CHARLES SIDNEY SMITH, Ph.D..... Professor of Greek and Latin

WILLIAM CARL RUEDIGER, Ph.D.,
 Dean of Teachers College and Professor of Educational Psychology

ALFRED FRANCIS WILLIAM SCHMIDT, A.M.... Professor of German

*WILLIS LUTHER MOORE, Sc.D., LL.D.,
 Professor of Practical Meteorology

*WILLIAM JACKSON HUMPHREYS, C.E., Ph.D.,
 Professor of Meteorological Physics

CHARLES NOBLE GREGORY, A.M., LL.D..... Professor of Law

EDWARD ELLIOTT RICHARDSON, M.D., Ph.D..... Professor of Philosophy

*GEORGE WASHINGTON LITTLEHALES, C.E.,
 Professor of Nautical Science

* These professors are specialists who give only part of their time to the University.

EDWIN VIVIAN DUNSTAN, C.E.	Professor of Civil Engineering
OSCAR ALEXANDER MECHLIN, C.E.	Professor of Civil Engineering
NEVIL MUNROE HOPKINS, Ph.D.	Assistant Professor of Chemistry
EDWIN ALLSTON HILL, Ph.D.	Assistant Professor of Chemistry
THOMAS MALCOLM PRICE, Ph.D.	Assistant Professor of Chemistry
RAY SMITH BASSLER, Ph.D.	Assistant Professor of Geology
OTIS DOW SWETT, S.M., LL.M.	Assistant Professor of Chemistry
CHARLES WARD MORTIMER, S.B., M.E.,	Assistant Professor of Electrical Engineering
FRANK CHARLES STARR, S.B.,	Assistant Professor of Civil Engineering
HIRAM COLVER MCNEIL, Ph.D.,	Assistant Professor of Physical Chemistry
ROBERT RUSS KERN, A.B.,	Assistant Professor of Economics and Sociology
LEVI RUSSELL ALDEN, A.M.	Assistant Professor of History
LESLIE CLEVELAND MCNEMAR, A.B.,	Assistant Professor of International Law and Political Science
ALBERT LEWIS HARRIS, B.S. in Arch.,	Assistant Professor of Architecture
RICHARD COBB, A.B.	Assistant Professor of English
BEDFORD BROWN, S.B.	Assistant Professor of Architecture
OSCAR PHELPS AUSTIN, A.M.	Lecturer on Commercial Geography
FREDERICK EUGENE FOWLE, JR., S.B.	Lecturer on Astro-Physics
WILLIAM STANTON SMALL, Ph.D.	Lecturer on Education
HAYNER HASKELL GORDON, Ph.D.,	Instructor in Mechanical Engineering
ROBERT WILBUR MORSE, S.B.	Instructor in Mechanical Engineering
MARK RITTENHOUSE WOODWARD, E.E.,	Instructor in Electrical Engineering
HARRY GRANT HODGKINS, A.B.	Instructor in Mathematics
JULIA THECKLA MACMILLAN, S.M.	Instructor in Zoology
WILLIAM WRIGHT FRASER, A.B., B.L.	Lecturer in Mathematics
ALTON LEWIN KIBLER, Ph.D.	Instructor in Chemistry
CHARLES EDWIN VAN ORSTRAND, S.M.	Lecturer on Mechanics
HARVEY LINCOLN CURTIS, Ph.D.	Lecturer on Physics
PHILIP ROGERS HOOTON	Instructor in Architecture
MARIETTA STOCKARD	Lecturer on the Teaching of Children's Literature
ARTHUR DEERIN CALL, A.M.	Lecturer on Elementary Education
GEORGE TRAVER HARRINGTON, B.S. in Agr., B.S. in Chem.,	Instructor in Botany
REBECCA SHERMAN ASHLEY	Instructor in the History of Art
LOUIS COHEN, S.B.	Lecturer on Electricity

* These professors are specialists who give only part of their time to the University.

Faculty of the School of Graduate Studies

President Stockton, Dean Munroe, Professors Gill, Hodgkins, Schoenfeld, Merrill, Clarke, Wilbur, Swisher, Carroll, Bartsch, Henning, Sternberg, Mann, Smith, Price, Ruediger, Schmidt, Moore, Humphreys, Gregory, Richardson, Littlehales, Dunstan, Mechlin, Assistant Professors Hopkins, Hill, Bassler, Mortimer, McNeil, Kern, Alden; Messrs. Van Orstrand, Curtis.

Faculty of Columbian College

President Stockton, Dean Wilbur, Professors Hodgkins, Schoenfeld, Munroe, Merrill, Swisher, Carroll, Bartsch, Henning, Smith, Ruediger, Schmidt, Richardson; Assistant Professors Bassler, Swett, Kern, Cobb; Mr. Woodward, Miss Macmillan, Messrs. Harrington, John, and Cullom.

Faculty of College of Engineering

President Stockton, Dean Hodgkins, Professors Schoenfeld, Munroe, Merrill, Wilbur, Henning, Schmidt, Bibb, Dunstan, Mechlin; Assistant Professors Swett, Starr, Mortimer, Harris, Brown; Messrs. Gordon, Morse, Woodward.

Faculty of Teachers College

President Stockton, Dean Ruediger, Professors Hodgkins, Schoenfeld, Munroe, Wilbur, Swisher, Bartsch, Henning, Smith, Schmidt, Richardson; Assistant Professors Kern, Cobb; Messrs. Small, Call; Miss Stockard.

SCHOOL OF GRADUATE STUDIES

HIGHER DEGREES

The higher degrees conferred in course by the University in this Division of the Department of Arts and Sciences are Master of Arts (A.M.), Master of Science (S.M.), Civil Engineer (C.E.), Electrical Engineer (E.E.), Mechanical Engineer (M.E.), and Doctor of Philosophy (Ph.D.).

ADMISSION

Candidates for admission to courses for higher degrees must make application to the Dean of the School of Graduate Studies on application blanks, which may be obtained of him or of the Secretary of the University. Candidates must present the diplomas they hold, or certificates that they have received such diplomas, together with catalogues of the institutions from which they hold their degrees and certificates of their course of study at such institutions. All such applications should be accompanied by testimonials as to character and scholarship.

DEGREES OF MASTER OF ARTS AND MASTER OF SCIENCE

To be admitted to candidacy for the Master's degree a student must have completed a liberal undergraduate course of study such as is required by colleges of good standing antecedent to the baccalaureate degree. The Faculty of Graduate Studies reserves the right to decide in all cases whether the antecedent training fulfills the requirements. Moreover, the course of study pursued must have been such as to qualify the candidate for pursuing the subjects chosen for the Master's or other higher degree sought. In seeking admission the applicant must state whether he desires to obtain the Specialist degree or the Liberal Culture degree.

The Specialist degree is designed for students who propose to proceed toward the Doctor of Philosophy degree. Such candidates are required to complete one major and two minor subjects selected from properly correlated University subjects approved by the Faculty upon recommendation of the professors in charge and to present a satisfactory thesis. Only one of the minor topics may be selected from the University subject which includes the major topic. Work for which this degree has been awarded may be credited as one year of work toward the Doctor of Philosophy degree, provided that it be in the same field of work.

The Liberal Culture degree is designed for students who do not intend to specialize in their work. Such candidates are required to complete three full courses of studies, of two or three hours each, distributed

among three University subjects, not more than six hours of which shall be given to any one subject. These subjects must have the approval of the Faculty on the recommendation of the professors in charge. The candidate must also present a thesis in the field to which the major subject belongs.

A candidate for a Master's degree must pass at least one full year in residence and study at this University, and no work done in satisfaction of the requirements for the Bachelor's degree shall be counted again for a higher degree.

HIGHER DEGREES IN ENGINEERING

To be admitted to candidacy for higher degrees in Engineering a student must have completed a liberal undergraduate course of study such as is required by colleges of good standing antecedent to the baccalaureate degree in Engineering, and of such a character as to fit him to pursue to advantage the study of advanced engineering topics. The Faculty of Graduate Studies reserves the right to decide in all cases whether the antecedent training fulfills the requirements. Moreover, the courses of study pursued for the Bachelor's degree must be approved by the Faculty as qualifying the candidate for pursuing the chosen line of study for the degree sought.

A candidate for a degree in Engineering shall pass at least one full year of residence and study at this University, sustain satisfactory examinations on the studies pursued, and present an acceptable thesis, together with a bibliography. Three full courses is the minimum required as constituting a full year's work. The courses chosen must be passed upon by the Faculty of Graduate Studies and have the approval of the professors under whom they are to be taken.

DEGREE OF DOCTOR OF PHILOSOPHY

The degree of Doctor of Philosophy is conferred upon a student who has pursued specialized courses in University Subjects, has engaged in research under university auspices for a period of not less than three years, has submitted an acceptable thesis, and has met all the requirements prescribed. The degree is given for high attainments and proved ability to do research work in some special branch of knowledge, as determined by the various tests applied.

Before a student can be admitted to candidacy for this degree he must give evidence that he has completed a liberal undergraduate course of academic study such as is required by colleges of good standing antecedent to the baccalaureate degree, and of such a character as to fit him to pursue to advantage researches in the field chosen for his graduate work. The Faculty of Graduate Studies reserves the right to decide in all cases whether the antecedent training fulfills the requirements. The applicant may be credited with graduate work done at other universities, provided such work is shown to be of grade similar

to that required here, but one year, preferably the last, must be spent in residence at this University and the other requirements of the degree as prescribed must be fulfilled.

The candidate for the Doctor's degree shall offer three topics from the University Subjects—one major and two collateral minor studies, one of which minors may be in the subject which includes the major topic—the combination to be approved by the Faculty of Graduate Studies. These must be pursued under the guidance of a committee consisting of the professors in charge of the University Subjects in which the studies are pursued, with the professor in the major subject as chairman. This committee will determine his division of time, study, and research among the major and minor topics, but in general the major topic should be pursued during the whole time devoted to graduate work, and each minor topic during at least one year. The candidate shall pass satisfactory examinations upon the three subjects selected. He must satisfy the Faculty that he can read understandingly in the original, French and German works pertaining to his special field. In order to graduate the candidate must possess a broad acquaintance with his major subject and he must present a thesis upon some topic approved by the professor in charge of his major subject, which shall be a contribution to knowledge and which shall be accompanied by an adequate bibliography.

EXAMINATIONS

Candidates must pass written examinations upon all their topics. The examinations upon the minor topics may be taken at the close of the respective years in which these topics are completed, or later, at the discretion of the examiner. The final written examination on the major topic shall cover the candidate's entire university work, and shall be given when the professor of that subject is satisfied that the student has taken sufficient work to warrant such an examination being taken. If a candidate has satisfactorily passed his final written examination, he may be permitted to complete his thesis away from the University.

DEFENSE OF THE THESIS

Before a candidate can be recommended to the Board of Trustees for the Doctor of Philosophy degree, he must have successfully defended his thesis in public before a Board of Experts not officially connected with the University. Before the candidate can be permitted to undertake the defense of his thesis, the thesis must have been favorably reported on and recommended for defense by the professor having supervision over the candidate's major topic, and by a co-referee appointed from the Faculty of Graduate Studies.

The subjects from which the candidate's selection may be made, as the Faculty may determine in each case, are as follows:

Applied Mathematics, Archaeology, Architecture, Astronomy, Astro-Physics, Bacteriology, Botany, Chemistry, Economics, Education,

Civil Engineering, Electrical Engineering, Hydraulic Engineering, Mechanical Engineering, English, Ethics, Geology and Mineralogy, Germanic Languages and Literature, Greek Language and Literature, Histology and Embryology, History, History of Art, International Law and Diplomacy, Latin Language and Literature, Law, Mathematics, Meteorology, Nautical Science, Pathology, Philosophy, Physics, Physiology and Pharmacology, Political Sciences, Preventive Medicine, Psychology, Romance Language and Literature, Sociology, Zoology.

REGULATIONS REGARDING THESES

Theses in their final form must be presented to the Dean on the dates announced in the University Calendar. They must be typewritten on official thesis paper, which may be obtained from the Treasurer of the University. The thesis will be presented by the Dean to the Chairman of the Committee on the candidate and the co-referee appointed from and by the Faculty for examination as to its merits when, on a favorable report by them, it may be defended in the Public Disputation. After their acceptance, theses, with their accompanying drawings, are the property of the University, and must be deposited in the University archives, but the authors of them are permitted to make copies. The candidate shall arrange, to the satisfaction of the Faculty, to print his thesis under the supervision of the professor in charge of his major subject, within one year after the degree is granted, and he shall present one hundred copies to the University, to be distributed among institutions of learning.

DOCTORATE DISPUTATIONS

The Twenty-third Doctorate Disputation was held publicly in University Hall, May 19, 1913. The thesis that was successfully defended, the candidate and the members of the board of experts were as follows:

Thesis: The Evangelical Revival: A Vital Factor in the Reconstruction of English Life in the Eighteenth Century. By Rev. ELMER EUGENE MARSHALL, A.B., 1889, Ohio Wesleyan University, S.T.B., 1894, Boston University. Before REV. WILLIAM A. HAGGERTY, A.B., A.M., Ph.D., Pastor Petworth Methodist Episcopal Church; WILLIAM M. DAVIDSON, A.B., LL.D., Superintendent Public Schools, D.C.; Rev. LUTHER HESS WARING, A.B., A.M., Ph.D., Pastor Evangelical Lutheran Church of Georgetown. Professor CHARLES CLINTON SWISHER, Ph.D., LL.D., presiding.

The record of the Twenty-Fourth Doctorate Disputation, held publicly on September 29, 1913, was as follows:

Thesis: The Commodities' Clause: A Treatise on the Development and Enactment of the Commodities' Clause and its Construc-

tion when Applied to Interstate Railroads Engaged in the Coal Industry. By THOMAS LATIMER KIBLER, A.B., 1904, Randolph-Macon College; A.M., 1908, The George Washington University. Before MARTIN A. KNAPP, A.M., LL.D., Presiding Judge, U. S. Court of Commerce; Honorable JOHN H. MARBLE, Interstate Commerce Commissioner; Honorable ROBERT F. BROUSSARD, M.C., Senator-Elect. BLACKBURN ESTERLINE, Special Assistant to the Attorney General, presiding.

THE COLLEGES

The College session of 1914-15 begins Wednesday, September 30, 1914.
The Colleges are open to men and women.

ADMISSION

Every applicant for admission is required to present a testimonial of good character and also a certificate of standing and regular dismissal from the school or college which he has attended or from the tutor with whom he has studied.

Candidates for admission to the Freshman Class may present certificates of admission or take an examination in the required subjects. Certificates, in lieu of any or all examinations, will be accepted from schools whose work is attested by well-prepared students admitted to the University in previous years, and from schools that present evidence of affording adequate preparation in the required subjects. The Secretary of the University will, on application, furnish certificate blanks to the principals of such accredited schools.

The certificates of the College Entrance Examination Board will be accepted.

The requirement for admission is a four-year high-school course, or its equivalent, amounting to fifteen "units." For prescribed studies see the specifications of each college.

A unit represents a year's study in any subject in a secondary school, constituting approximately a quarter of a full year's work.

ENTRANCE EXAMINATIONS

The regular examinations for admission are held in May.
The following is the schedule for 1914:

Monday, May 25, 1914

Elementary Latin.....	9.00-11.00
Plane Geometry.....	11.00- 1.00
Physics.....	2.00- 4.00
Greek.....	2.00- 5.00

Tuesday, May 26

Elementary Algebra.....	9.00-11.00
Elementary French.....	11.00- 1.00
Elementary German.....	2.00- 4.00
Ancient History.....	4.00- 6.00

Wednesday, May 27

Plane Trigonometry.....	9.00-11.00
Advanced French, Advanced German.....	11.00- 1.00
English.....	2.00- 5.00

Thursday, May 28

Advanced Algebra.....	9.00-11.00
Solid Geometry.....	11.00- 1.00
Chemistry; Advanced Latin.....	2.00- 4.00

Subjects offered for admission, but not named in the schedule of examinations, will be arranged for as occasion arises.

Unless admitted by certificate, every undergraduate candidate for a degree is required to pass an examination.

Candidates from the Washington high schools for the Kendall and the University Scholarships will be examined on nine and one-half units. These units upon which the examination will be given are the following: the specified subjects—English (three units), Mathematics (two and one-half units), and one other language (two units); the remaining two units will be in language, history, mathematics, physics, chemistry, biology—as the candidate shall elect. The remainder of the fifteen units must be certified from the high schools.

DEFINITION OF REQUIREMENTS

English

(Three units)

The requirements in English are those recommended by the Conference on Uniform Entrance Requirements in English. These recommendations are as follows:

Preparation in English has two main objects: (1) command of correct and clear English, spoken and written; (2) ability to read with accuracy, intelligence, and appreciation.

English Grammar and Composition

The first object requires instruction in grammar and composition. English grammar should ordinarily be reviewed in the secondary school, and correct spelling and grammatical accuracy should be rigorously exacted in connection with all written work during the four years. The principles of English composition governing punctuation, the use of words, paragraphs, and the different kinds of whole composition, including letter-writing, should be thoroughly mastered; and practice in composition, oral as well as written, should extend throughout the secondary school period. Written exercises may well comprise narration, description, and easy exposition and argument based upon simple outlines.

It is advisable that subjects for this work be taken from the student's personal experience, general knowledge, and studies other than English, as well as from his reading in literature. Finally, special instruction in language and composition should be accompanied by concerted effort of teachers in all branches to cultivate in the student the habit of using good English in his recitations and various exercises, whether oral or written.

Literature

The second object is sought by means of two lists of books, headed respectively, *reading* and *study*, from which may be framed a progressive course in literature covering four years. In connection with both lists the student should be trained in reading aloud and be encouraged to commit to memory some of the more notable passages, both in verse and in prose. As an aid to literary appreciation he is further advised to acquaint himself with the most important facts in the lives of the authors whose works he reads and with their place in literary history.

1. *Reading*.—The aim of this course is to foster in the student the habit of intelligent reading and to develop a taste for good literature by giving him a first-hand knowledge of some of its best specimens. He should read the books carefully, but his attention should not be so fixed upon details that he fails to appreciate the main purpose and charm of what he reads.

With a view to large freedom of choice, the books provided for reading are arranged in the following groups, from which at least ten units* are to be selected, two from each group:

a. The Old Testament, comprising at least the chief narrative episodes in Genesis, Exodus, Joshua, Judges, Samuel, Kings; and Daniel; together with the books of Ruth and Esther; the Odyssey, with the omission, if desired, of Books I, II, III, IV, V, XV, XVI, XVII; the Iliad, with the omission, if desired, of Books XI, XIII, XIV, XV, XVII, XXI; Virgil's Æneid. The Odyssey, Iliad, and Æneid should be read in English translations of recognized literary excellence.

For any unit of this group a unit from any other group may be substituted.

b. Shakespeare's Merchant of Venice; Midsummer Night's Dream; As You Like It; Twelfth Night; Henry the Fifth; Julius Caesar.

c. Defoe's Robinson Crusoe, Part I; Goldsmith's Vicar of Wakefield; either Scott's Ivanhoe or Scott's Quentin Durward; Hawthorne's House of the Seven Gables; either Dickens' David Copperfield or Dickens' Tale of Two Cities; Thackeray's Henry Esmond; Mrs. Gaskell's Cranford; George Eliot's Silas Marner; Stevenson's Treasure Island.

d. Bunyan's Pilgrim's Progress, Part I; The Sir Roger de Coverley Papers in the Spectator; Franklin's Autobiography (condensed); Irving's Sketch Book; Macaulay's Essays on Lord Clive and Warren Hastings;

*Each unit is set off by semicolons.

Thackeray's English Humourists; Selections from Lincoln, including at least the two Inaugurals, the Speeches in Independence Hall and at Gettysburg, the Last Public Address, and Letter to Horace Greeley, along with a brief memoir or estimate; Parkman's Oregon Trail; either Thoreau's *Walden* or Huxley's *Autobiography* and selections from *Lay Sermons*, including the addresses on Improving Natural Knowledge, A Liberal Education, and A Piece of Chalk; Stevenson's *Inland Voyage and Travels with a Donkey*.

e. *Palgrave's Golden Treasury* (First Series), Books II and III, with especial attention to Dryden, Collins, Gray, Cowper, and Burns; Gray's *Elegy in a Country Churchyard* and Goldsmith's *Deserted Village*; Coleridge's *Ancient Mariner* and Lowell's *Vision of Sir Launfal*; Scott's *Lady of the Lake*; Byron's *Childe Harold*, Canto IV, and *Prisoner of Chillon*; *Palgrave's Golden Treasury* (First Series), Book IV, with especial attention to Wordsworth, Keats, and Shelley; Poe's *Raven*, Longfellow's *Courtship of Miles Standish*, and Whittier's *Snow Bound*; Macaulay's *Lays of Ancient Rome* and Arnold's *Sohrab and Rustum*; Tennyson's *Gareth and Lynette*, *Lancelot and Elaine*, and the *Passing of Arthur*; Browning's *Cavalier Tunes*, *The Lost Leader*, *How They Brought the Good News from Ghent to Aix*, *Home Thoughts from Abroad*, *Home Thoughts from the Sea*, *Incident of the French Camp*, *Hervé Riel*, *Pheidippides*, *My Last Duchess*, *Up at a Villa—Down in the City*.

2. *Study*.—This part of the requirement is intended as a natural and logical continuation of the student's earlier reading, with greater stress laid upon form and style, the exact meaning of words and phrases, and the understanding of allusions. For this close reading are provided a play, a group of poems, an oration, and an essay, as follows:

Shakespeare's *Macbeth*; Milton's *L'Allegro*, *Il Penseroso*, and *Comus*; either Burke's *Speech on Conciliation with America* or both Washington's *Farewell Address* and Webster's *First Bunker Hill Oration*; either Macaulay's *Life of Johnson* or Carlyle's *Essay on Burns*.

Examination

However accurate in subject-matter, no paper will be considered satisfactory if seriously defective in punctuation, spelling, or other essentials of good usage.

The first part of the examination will be upon ten units chosen in accordance with the plan described earlier, from the lists headed *reading*; and it may include also questions upon grammar and the simpler principles of rhetoric, and a short composition upon some topic drawn from the student's general knowledge or experience. On the books prescribed for reading, the form of the examination will usually be the writing of short paragraphs on several topics which the candidate may choose out of a considerable number. These topics will involve such knowledge and appreciation of plot, character-development, and other qualities of style and treatment as may be fairly expected of boys and girls. In

grammar and rhetoric, the candidate may be asked specific questions upon the practical essentials of these studies, such as the relation of the various parts of a sentence to one another, the construction of individual words in a sentence of reasonable difficulty, and those good usages of modern English which one should know in distinction from current errors.

The second part of the examination will include composition and those books comprised in the list headed *study*. The test in composition will consist of one or more essays, developing a theme through several paragraphs; the subjects will be drawn from the books prescribed for *study*, from the candidate's other studies, and from his personal knowledge and experience quite apart from reading. For this purpose the examiner will provide several subjects, perhaps five or six, from which the candidate may make his own selections. The test on the books prescribed for study will consist of questions upon their content, form, and structure, and upon the meaning of such words, phrases, and allusions as may be necessary to an understanding of the works and an appreciation of their salient qualities of style. General questions may also be asked concerning the lives of the authors, their other works, and the periods of literary history to which they belong.

Latin

Elementary (two units)

a. I. Latin Grammar: The inflections; the simpler rules for composition and derivation of words; syntax of cases and the verb; structure of sentences in general, with particular regard to relative and conditional sentences, indirect discourse, and the subjunctive.

II. Latin Prose Composition: Translation into Latin of detached sentences and easy continuous prose based on Caesar.

b. Caesar: Any four books of the Gallic War, preferably the first four.

Advanced (two units)

a. Cicero: Any six orations from the following list, but preferably the first six mentioned. The four orations against Catiline, Archias, the Manilian Law, Marcellus, Roscius, Milo, Sestius, Ligarius, the Fourteenth Philippic.

b. Virgil: The first six books of *Æneid*.

c. Advanced Prose Composition, consisting of continuous prose of moderate difficulty based on Cicero.

d. Sight Translation, based on prose of no greater difficulty than the easier portions of Cicero's orations.

Greek

Elementary (two units)

a. I. Greek Grammar: The topics for the examination in Greek grammar are similar to those detailed under Latin grammar.

II. Greek Prose Composition, consisting principally of detached sentences to test the candidate's knowledge of grammatical constructions. The examination in grammar and prose composition will be based on the first two books of Xenophon's *Anabasis*.

b. Xenophon: The first four books of the *Anabasis*.

Advanced (one unit)

a. Homer: The first three books of the *Iliad* (omitting II, 494, to end).

b. Sight Translation, based on prose of no greater difficulty than Xenophon's *Anabasis*.

French

Elementary (two units)

Candidates in Elementary French must have a good knowledge of the essential parts of grammar, with stress on pronouns and on regular verbs and the common irregular verbs. They must know the principles of pronunciation; must be able to translate simple English sentences or easy connected prose into French, and to translate accurately ordinary modern French prose. Candidates must have translated not less than 450 duodecimo pages by at least four different authors, of which amount at least one-third must be history. Candidates must have had a two-years' course of five periods per week.

Advanced (two units)

Candidates in advanced French must have partly translated, partly read, in addition to the requirements for Elementary French, at least 1000 pages of difficult French of several different authors, including history, fiction, drama, and poetry. Candidates must have had a four-years' course of five periods per week.

Fraser and Squair's French Grammar or Grandgent's Essentials of French Grammar is recommended.

Spanish

(Two units)

Candidates in Spanish must have a good knowledge of grammar, including syntax, with stress on pronouns and verbs, regular and irregular. They must know the principles of pronunciation. They must be able to translate simple English sentences or easy connected prose into Spanish, and to translate accurately fairly difficult modern Spanish prose and verse. Candidates must have translated not less than 500 pages by at least four different authors, of which amount at least one-fourth must be history or drama. Candidates must have had a two-years' course of five periods per week.

German

Elementary (two units)

Candidates in Elementary German must have had a two-years' course of five periods a week. They must be able to read fluently at sight and to translate easy narrative prose and poetry. An accurate knowledge of an elementary German grammar is requisite, to be tested by the translation into German of some fifteen sentences. About 300 pages of graduated narrative prose, one short play, and such poetry as is usually found in a First Reader will be considered an adequate preparation.

Advanced (two units)

Candidates in Advanced German must have had a four-years' course of five periods a week. They should be well trained in the syntactical laws of the language, have read about 800 pages of good literature in prose, preferably such prose works as are given in the Report of the Committee of Twelve of the Modern Language Association, and poetry, especially dramas by Lessing, Schiller, and Goethe, and studied an elementary history of German literature. German composition should comprise a number of short themes upon assigned historical or literary topics, lives of the authors read, etc.

History

In this subject special importance is attached to preparation in geography.

Ancient (one unit)

a. Greek History, through the Roman Conquest; as much as is contained in Myer's, Bottsford's, or West's History of Greece.

b. Roman History; as much as is contained in Allen's, Bottsford's or West's History of the Roman People.

Mediaeval and Modern European History (one unit)

As much as is contained in Myer's History of Mediaeval and Modern Europe.

English History (one unit)

As much as is contained in Larned's or Cheyney's History of England.

American History with the Elements of Civil Government (one unit)

As much as is contained in Fiske's History of the United States, and Fiske's Civil Government.

Mathematics

Elementary Algebra (one and one-half units)

I. Algebra to Quadratics: The four fundamental operations for rational algebraic expressions, factoring, highest common factor, lowest

common multiple, complex fractions, the solution of equations of the first degree containing one or more unknown quantities, radicals, including the extraction of the square root of polynomials and numbers, and fractional and negative exponents.

II. Quadratics, etc.: Quadratic equations and equations containing one or more unknown quantities that can be solved by the methods of quadratic equations, problems depending upon such equations, ratio and proportion, and the binomial theorem for positive integral exponents.

Advanced Algebra (one-half unit)

The progressions; the elementary treatment of permutations and combinations; the use of four and five place tables and logarithms; undetermined coefficients; the elementary treatment of infinite series, the binomial theorem for fractional and negative exponents; the elementary treatment of the theory of equations.

Plane Geometry (one unit)

General text propositions, including the solution of simple original exercises and numerical problems.

Solid Geometry (one-half unit)

Properties of straight lines and planes, of dihedral and polyhedral angles, of projections, of polyhedrons, including prisms, pyramids, and the regular solids; of cylinders, cones, and spheres; of spherical triangles and the measurement of surfaces and solids.

Plane Trigonometry (one-half unit)

The definitions and relations of the six trigonometrical functions as ratios, proof of important formulas, theory of logarithms and use of tables, solution of right and oblique plane triangles.

Physics

(One unit)

It is recommended that the candidate's preparation should include:

- a. Individual laboratory work, comprising at least thirty-five exercises well distributed over the subjects of physics.
- b. Instruction by lecture-table demonstrations.
- c. The study of at least one standard text-book, supplemented by the use of many and varied numerical problems. The metric system should be familiar to the student.

The laboratory note-book must be submitted for inspection, whether the candidate is admitted on certificate or by examination.

Chemistry

(One unit)

The candidate's preparation in chemistry should include:

a. Individual laboratory work, comprising at least forty experiments of a character analogous to those set forth by the College Entrance Examination Board. The laboratory note-book must be submitted for inspection.

b. Instruction by lecture-table demonstrations.

c. The study of at least one modern text-book.

Requirements.—The ground to be covered should include the following: The chief physical and chemical characteristics, the isolation and the recognition of the following elements and the preparation and study of their principal compounds: *Oxygen, hydrogen, carbon, nitrogen, chlorine, bromine, iodine, fluorine, sulphur, phosphorus, silicon, potassium, sodium, calcium, magnesium, zinc, copper, mercury, silver, aluminum, lead, tin, iron, manganese, chromium.*

The more detailed study should be confined to the italicized *elements* (as such) and to a restricted list of compounds, such as water, hydrochloric acid, carbon monoxide, carbon dioxide, oxides of nitrogen, nitric acid, ammonia, sulphur dioxide, sulphuric acid, hydrogen sulphide, sodium hydroxide, ammonium hydroxide.

Attention should be given to the atmosphere (constitution and relation to animal and vegetable life), flame, acids, bases, salts, oxidation and reduction, crystallization, combining proportions by weight and volume, calculations founded on these and on Boyle's and Charles' laws, symbols, formulas, equations and nomenclature, atomic theory, atomic weights, nascent state, natural groupings of the elements, solution (solvents and solubility of gases, liquids, and solids), strength of acids and bases, conservation and dissipation of energy, chemical energy and electrolysis, and of valence, electrolytic dissociation, osmosis, mass action in a very elementary way. Chemical terms should be clearly understood, and the student should be able to illustrate and apply the ideas that they embody. The theoretical topics are not intended to form separate subjects of study, but to be taught only so far as is necessary for the correlation and explanation of the experimental facts. The facts should be given as examples from various classes and not as isolated things.

Additional Subjects

Certificates will be accepted in botany, zoology, physiology, physiography, political economy, drawing, music, and other accredited subjects in secondary schools.

Manual-training High School Subjects

Technical subjects in manual-training high schools, or schools of similar grade, when duly certified, will be credited as follows:

Shopwork (not exceeding two units), domestic science and domestic art (not exceeding two units).

Business High School Subjects

Commercial subjects in business high schools or schools of similar grade, when duly certified, will be credited as follows:

Accounting and Finance. (One unit.)

Bookkeeping. (Two units.)

Business Organization. (One unit.)

Commercial Law. (One unit.)

Government and Industrial Problems. (One-half unit.)

Commercial History. (One-half unit.)

Commercial and Physical Geography. (One-half unit.)

ADMISSION TO ADVANCED STANDING

Candidates for admission to advanced classes in any department are examined in all indispensable preliminary studies.

Due credit is given for properly certified courses of study pursued in other colleges and universities.

SPECIAL STUDENTS

All the courses of instruction are open to students of suitable age and attainments who wish, without reference to any degree, to pursue special studies. Candidates must show that they are familiar with the subjects preliminary to the studies which they wish to pursue.

SCHOLARSHIPS AND PRIZES

Applications for scholarships should be filed with the Dean of the College in which the student is registered not later than September fifteenth. All Scholarships except the Kendall Scholarship and the University Scholarships are awarded for one year only but they may be renewed. Any student holding a scholarship who fails to obtain a general average of 85 per cent on the work of any term, or whose deportment is unsatisfactory, will be reported to the President's Council, and in the absence of extenuating circumstances the scholarship will be revoked. All designations to scholarships are awarded by the President's Council on the recommendation of a Dean.

Scholarships for Competition

The University offers the following scholarships to be awarded on competitive examination given at the time of the May entrance examinations. Holders of these scholarships are expected to pursue a regular

course in one of the colleges of the Department of Arts and Sciences. No scholarship is awarded to a candidate whose examination average is below 80 per cent.

Kendall Scholarship.—The Kendall Scholarship, founded by the late Hon. Amos Kendall, is annually conferred on that member of the graduating class of any of the Washington High Schools who attains the highest average in the entrance examinations. This scholarship continues throughout the undergraduate course, and the student holding it pays only the matriculation, library, laboratory, and graduation fees.

University Scholarships.—The University offers also six scholarships, to be awarded annually to members of the graduating classes of any of the Washington High Schools. These scholarships continue throughout the undergraduate course, and students holding them pay only the matriculation, library, laboratory, and graduation fees.

Scholarships for Assignment

Davis Scholarship.—This is the income of a fund of one thousand dollars given to the University in October, 1869, by Hon. Isaac Davis, of Massachusetts.

Mary Lowell Stone Scholarship.—This scholarship was founded by a woman in memory of a woman student of science. It consists of a fund of two thousand dollars, the income from which is to be paid to needy women students of science in the University.

Maria M. Carter Scholarship.—This is the income of a fund of one thousand dollars given to the University in 1871 by Mrs. Maria M. Carter.

Farnham Scholarship.—This is the income of a fund of one thousand dollars given to the University in 1871 by Mrs. Robert Farnham.

Withington Scholarship.—This scholarship was founded in 1830, by the New York Baptist Theological Seminary, to be known as the Withington scholarship. It has an annual stipend in tuition fees of sixty dollars.

Walker Scholarship.—This scholarship was founded in 1824 by William Walker, Esq., of Putnam County, Georgia. It carries an annual stipend of one hundred dollars in tuition fees available for an undergraduate intending to enter the Christian ministry.

Morehouse Scholarship.—This scholarship was founded by Mr. A. Morehouse, of Washington, D. C., in 1861. It carries an annual stipend of sixty dollars in tuition fees available for an undergraduate intending to enter the Christian ministry.

Henry Harding Carter Scholarships.—These scholarships, founded by Mrs. Maria M. Carter in memory of her husband, Henry Harding Carter, consists of four scholarships of the annual value of fifty dollars each, and may be awarded to deserving students who are preparing for the civil engineering profession.

Admiral Powell Scholarships.—The Admiral Powell Scholarships were founded by Admiral Powell, U. S. Navy. The income from this

endowment is for the "free education of such young men as may desire to take advantage of the said endowment by way of their preparation for entrance into the Naval Academy at Annapolis, Maryland, or such as may fit them to become mates or masters in the Merchant Marine Service of the United States," and of "such apprentices as, having filled their time in the great steam manufactory establishments of the country, may apply for appointment from civil life in the Steam Engineer Department of the United States Navy." The number of scholarships awarded each year will be determined by the income from the endowment. Each scholarship will entitle the beneficiary to free tuition for one year. Such special courses of study are offered to each student as will give him the instruction needed to accomplish the purpose for which he is awarded the scholarship.

These scholarships are especially applicable to those who intend to come up for examination as warrant officers in the Engineer Department of the Navy, to warrant officers who are preparing for examination for appointment as Ensign, or to those who desire to fit themselves for responsible positions in the mercantile marine.

The subjects to be taken by a student will vary according to his preparation and according to the purpose for which he has been awarded the scholarship, but a year's work can be selected from the following topics:

	HOURS
Navigation and Nautical Astronomy.....	2
Algebra and Geometry.....	3
Trigonometry.....	1½
Mechanical and Machine Drawing.....	4
English.....	3
French.....	3
German.....	3
Spanish.....	3
International Law.....	3
Commercial Geography.....	2
Boilers and Power Plants.....	3
Measurement of Power.....	2
Electricity.....	3
Electrical Engineering.....	6

Ministerial Aid.—The University authorizes the remission of a stated amount in tuition fees, to be called Ministerial Aid, which may be given to students, resident in the District of Columbia or its immediate vicinity in the regular courses of Columbian College, preparing for the ministry and not yet ordained. Any student receiving Ministerial Aid may be called upon for clerical or like work to the extent of not more than one hour a week for every ten dollars of tuition remitted, and of not more than four hours in any one week.

University Aid.—The University authorizes the remission of a stated amount in tuition fees, to be called University Aid, which may be given

to undergraduate students in regular courses in the Department of Arts and Sciences, financially dependent on parents, who are residents of the District of Columbia or its immediate vicinity and whose circumstances warrant pecuniary assistance. Any student receiving University Aid may be called upon for clerical or like work to the extent of not more than one hour a week for every ten dollars of tuition remitted, and for not more than four hours in any one week.

Columbian Women Loan Fund.—The Columbian Women have established a fund from which money is loaned to women students, preference being given to women who have already begun work in the University and who need assistance in continuing it. The administration of the fund remains with the Columbian Women.

PRIZES

(Only candidates for degrees may compete for these prizes.)

Staughton and Elton Prizes.—The Staughton Prize, for excellence in the Latin Language and Literature, and the Elton Prize, for excellence in the Greek Language and Literature, founded by the Rev. Romeo Elton, D.D., of Exeter, England, consist of two gold medals, annually awarded to the best scholar in each of these languages.

Ruggles Prizes.—The Ruggles Prizes, for excellence in Mathematics, founded by Professor William Ruggles, LL.D., consist of two gold medals, annually awarded upon examination to the best two scholars in Mathematics.

Davis Prizes.—The Davis Prizes, for excellence in Elocution, founded by the Hon. Isaac Davis, LL.D., of Massachusetts, consist of three gold medals, annually awarded to the successful competitors in a public contest. Only members of the Senior Class are eligible to compete for these prizes.

Daughters of the American Revolution Prizes.—These prizes founded by the Daughters of the American Revolution of the District of Columbia, consist of two gold medals, awarded annually to the two students in the graduating class who, having maintained a high standing in the regular courses in Mediaeval, Modern European, English, and American History during three years, shall produce the best essays upon an assigned topic of American history.

The Thomas F. Walsh Prize.—This prize, established by Thomas F. Walsh, Esq., of Colorado, and based upon the income of one thousand dollars, consists of a gold medal awarded annually to that student of the graduating class who, having maintained a high standard in the regular classes of Mediaeval, Modern European, English, and American History, shall produce the best essay upon a designated period of the History of Ireland.

E. K. Cutter Prize.—The E. K. Cutter Prize in English was founded by the late Marion Kendall Cutter. The endowment is a fund of one thousand dollars, the income of which is given annually as a prize "for excellence in the study of English." The prize will be awarded to that

member of the graduating class whose record in English, combined with general excellence, shows most marked aptitude and attainment in English studies.

Willie E. Fitch Prize.—The Willie E. Fitch Prize, for highest excellence in all branches of Chemistry, founded by James E. Fitch, Esq., in memory of his son, consists of fifty dollars, which is awarded annually for the best examination in Chemistry.

The Gardiner G. Hubbard Memorial Prize.—This is a prize in American History established by Mrs. Gertrude M. Hubbard in memory of her husband, the late Gardiner G. Hubbard. The endowment is a fund of one thousand dollars, the income from which is to be given annually to that member of the graduating class who has during four years maintained a high standing in the classes of American History, and who has produced the best essays upon subjects based upon a study of some assigned period of American history.

Muth Prize.—Geo. F. Muth and Company offer a set of drawing instruments to the student taking Advanced Mechanical Drawing who makes the highest average record in that subject and in the previous year's Mechanical Drawing.

Colonial History Prize.—The Society of the Colonial Dames of America, Chapter III, offers annually a gold medal for excellence in American Colonial History. This prize will be awarded by the professor of History for general excellence in this subject as shown by class standing, by special essays, and by such other tests as shall be prescribed.

James Macbride Sterrett, Jr., Prize.—Founded by Professor James Macbride Sterrett in memory of his son, consists of a gold medal annually awarded to that student taking Course I in Physics who obtains the highest average in a special examination on a given subject and in the writing of an essay on an assigned topic.

The Chi Omega Prize in Philosophy.—An annual prize of fifteen dollars is offered by the Phi Alpha Chapter of the Chi Omega Fraternity for the best essay on a philosophical subject to be announced at the close of the preceding academic year by the Committee in charge. Essays must meet the requirements defined by the Committee and be submitted on or before April 1. Only women students who are members of a senior class in the Department of Arts and Sciences, and who have previously completed the courses in General Psychology, Logic, and the History of Philosophy, are eligible to compete.

Chi Omega Prize in Sociology.—An annual prize of \$15.00 is offered by the Chi Omega Fraternity for the best essay on a sociological subject. All women students registered in the courses in Sociology are eligible to compete for this prize. The subjects of the essays are to be chosen by the competitors with the approval of the Professor of Sociology. The prize will be awarded by a committee of three, consisting of the Professor of Sociology, the Dean of Columbian College, and a third member selected by these two. Essays in competition for this prize must be submitted to the Professor of Sociology on or before May 1st.

Davis Prize Speaking

The Davis Prize Speaking is held on the Tuesday after the Easter holidays. The Davis Prizes were founded by Hon. Isaac Davis, of Massachusetts, in 1847. The original endowment was five hundred dollars, "proceeds of which will afford three premiums, in cash or gold medals, of the value of five dollars, of ten dollars, and of fifteen dollars annually—these premiums or prizes to be distributed annually to such members of the Senior Class as shall have made the greatest progress in elocution since their connection with the College."

The award of these three prizes is determined by a public speaking contest, in which the participants deliver original orations. Senior students wishing to enter the competition should report to the Dean of Columbian College not later than five weeks before the contest, and submit their orations not later than three weeks before the contest. The prizes are awarded by a committee consisting of three members, selected by the Faculty of the Columbian College.

PRIZES AWARDED. 1912-13.

Staughton Prize.....	ARTHUR HUBER REDFIELD
Ruggles Prizes:	
First Prize.....	LOUIS ARCHER MAXSON
Second Prize.....	ERWIN HARSCH
Davis Prizes:	
First Prize.....	REX EMIR KINSELL
Second Prize.....	HILDA LOUISE ULRICKSON
Third Prize.....	ARTHUR HUBER REDFIELD
Daughters of the American Revolution } Prizes.....	LEILA FORDHAM SCOTT
Thomas F. Walsh Prize.....	OLIVIA ALEXANDER TAYLOR
E. K. Cutter Prize.....	LULU MIGNONNE McCABE
Willie E. Fitch Prize.....	LULU MIGNONNE McCABE
Gardiner G. Hubbard Memorial Prize.....	JOHN BROCKWELL
Muth Prize.....	ARTHUR HUBER REDFIELD
Colonial History Prize.....	EDWARD BILMER NICKLES
James McBride Sterrett, Jr. Prize.....	EVA PHELPS KELLEY
Chi Omega Prize in Philosophy.....	ALBERT THURSTON ST. CLAIR
Sigma Kappa Prize.....	LULU MIGNONNE McCABE
Medal for Intercollegiate Debating.....	ELIZABETH WEBER
	HARRY GABRIEL SELTZER

RELIGIOUS WORK

The student movement in Association work is represented by the Young Men's Christian Association of the University, which was organized in the fall of 1905. The Association plans and conducts religious work among the men of the University. The Association calendar includes Bible study clubs, a weekly chapel service, and occasional men's meetings.

Similar lines of religious work are conducted among the women students by the Young Women's Christian Association.

College Chapel

Chapel Services are held at 12.20 p.m., Monday, Wednesday, and Friday, throughout the academic year.

The Deans of the Colleges will confer with students as they may desire on questions concerning their welfare and will co-operate with them in all ways to make the college life one of personal helpfulness.

FEES

1. Matriculation fee (payable once).....	\$5
2. Annual library fee.....	2
3. <i>Tuition fee per annum for each hour per week</i> of undergraduate courses leading to the degrees of A.B. and S.B.....	10
The maximum fee charged in any one year is \$150.	
4. Tuition fee per annum for graduate courses leading to the degrees of A.M., S.M., C.E., E.E., M.E., and Ph.D.....	150
Each separate topic.....	50
Where candidates for higher degrees exceed the minimum time limit they may be liable for an additional charge of \$50 per annum for each topic pursued by them.	
5. Registration fee for students taking problems of the Beaux Arts Society.....	2
6. Laboratory courses:	
Material fees:	
Experimental Psychology.....	2
Geology 1, Zoology, Botany, each.....	5
Chemistry 2, 3, 7, and 28; Electrical Engineering; Physics, each.....	10
Chemistry 4 (Assaying).....	20
Chemistry, except 2, 3, 4, 7, and 28, each.....	25
Deposits to cover breakage of apparatus issued, the amount paid in excess of breakage to be returned:	
Chemistry, 2, 3, 7, and 28, each.....	10
Chemistry, except 2, 3, 4, 7, and 28, each.....	25
7. Fee for graduation.....	10
8. Tuition fee for the following special course, not taken by candidates for a degree:	
Chemistry 4 (Assaying).....	40
9. In determining tuition fees, three hours of laboratory work in Chemistry, and two hours of laboratory work in other subjects count as one hour.	
10. Fee for certificates under the seal of the University.....	2

No registration will be accepted for less than a full semester, and no change in the courses undertaken at the time of registration will be

made unless approved by the Dean. *Withdrawals during the semester will be granted only on recommendation of the Dean and the approval of the President.*

PAYMENT OF FEES

Matriculation, library, and other special fees, and laboratory deposits are due in full in advance. Tuition and laboratory material fees may be paid in monthly installments in advance. Students unable to pay their fees monthly in advance will be required to file an acceptable personal or corporate bond for \$200 as security for future payment. In every instance all indebtedness must be discharged on or before May 1 of the current academic year. All fees are payable at the office of the Treasurer of the University, 2024 G Street.

BOARD AND ROOMS

A register of boarding houses is kept by the Treasurer. Accommodations cost from \$25 to \$40 a month.

For catalogues, application blanks, and further information, address

THE SECRETARY,
The George Washington University,
2023 G Street, Washington, D. C.

COLUMBIAN COLLEGE

ADMISSION

Candidates for admission to the Freshman Class in Columbian College must meet the general admission requirements (p. 51) of fifteen units. A unit represents a year's study in any subject in a secondary school, constituting approximately a quarter of a full year's work. *The fifteen units of the entrance requirement must include English, 3 units; Mathematics, 2½ units; and one of the following languages: Latin, Greek, French, German, or Spanish, 2 units.* The remainder of the requirement is elective and may be satisfied in general by any accredited secondary school subjects.

For admission to advanced standing or as special students, see p. 60.

REQUIREMENTS FOR DEGREES

The undergraduate degrees offered by Columbian College are Bachelor of Arts, Bachelor of Science in Chemistry, and Bachelor of Science in Medicine. To be recommended for any one of these degrees, the student must be registered for at least one academic year in Columbian College; must satisfy the admission requirements, and must complete at least sixty "hours" of undergraduate courses. An "hour" of credit is one recitation or lecture a week or one laboratory period a week for one academic year. No time limit for the course is prescribed and the degree is given when the total of prescribed and elective studies is completed.

One grade of special distinction is recognized in awarding the bachelor's degree. It is shown by inserting the words "With Distinction" on the diploma after the name of the degree. It is awarded under the following conditions:

"That the names of all students who have received a mark of at least B (90 per cent) on courses representing at least sixty (60) per cent of all hours taken by them be submitted by the Dean to the Faculty of the Department in which the student shall be studying for a degree, after the completion of all final examinations in such students' final year of study for their degree;

"That the Faculty, after separate consideration of each individual case, shall, if it see fit, recommend the awarding of the degree 'With Distinction' to students who shall have fulfilled the conditions above specified."

FOR THE DEGREE OF BACHELOR OF ARTS

To be recommended for the degree of Bachelor of Arts, the student must complete courses of study including a group of prescribed subjects, and aggregating at least sixty "hours."

There are four groups of prescribed subjects for the first two years of the college course. Every candidate for the degree of Bachelor of Arts selects one of these groups of prescribed subjects, and thereafter he is not permitted to change to another group except on condition that he fulfill the requirements of the group to which he changes.

The studies of the last two years are elective, subject to such administrative supervision as will insure the general consistency and the liberal character of the courses selected.

The scope of the four groups of prescribed subjects is a provision alike for the diversity in the subjects of the secondary school curriculum leading to a college course, and the needs of the various graduate and professional courses of study in the University for which the college course is a preparation.

Group I emphasizes Latin and Greek studies, and it would naturally be taken by students whose preparatory work has included four years of Latin. Group II emphasizes the Modern Languages, affording to students whose preparation has not included Latin the humanistic influences of the literatures of the Modern Languages. Group III emphasizes Mathematics and the Natural Sciences, and would naturally be selected by the student whose college preparation has been scientific rather than literary. Group IV consists of such studies as would constitute needed preparation for the Department of Law, or further study in the political sciences.

(NOTE—Whenever in the following groups French or German is taken, if it is elementary, the same language shall be continued the succeeding year.)

Group I

	HOURS
English.....	6
History.....	3
Languages*.....	9
Latin.....	6
Mathematics.....	3
Psychology and Logic.....	3
Electives.....	30

Group II

	HOURS
English.....	6
French.....	3

Geology, 2.....	2

POLITICAL SCIENCE COURSES

Columbian College offers systematic instruction in the various branches of the political sciences. This education gives a training that will fit for consular and diplomatic positions and for the public service of the United States, while imparting that general culture and equipment necessary for efficient citizenship and the intelligent grasp of public questions. It is also a suitable training for those who expect to enter commercial life, or to engage subsequently in the study of law.

Regular students who are preparing for the Government Service should register for Group IV of the curriculum requirements for the degree of Bachelor of Arts, and should elect, also, the subjects named in Section 2 of the "Regulations Governing Examinations Promulgated by the Board of Examiners, December 13, 1906."

Special students who are preparing for the Consular Service examinations should register for such courses as relate to subjects named in Section 2, of the Government Regulations.

An Executive order of June 27, 1906, governing appointments and promotions in the Consular Service of the United States, included the following provisions of special interest to students having in view the Consular Service:

The Secretary of State, or such officer of the Department of State as the President shall designate, the Director of the Consular Service,* the Chief of the Consular Bureau,* and the Chief Examiner of the Civil Service Commission, or some person whom said Commission shall designate, shall constitute a Board of Examiners for admission to the consular service.

It shall be the duty of the Board of Examiners to formulate rules for and hold examinations of applicants for admission to the consular service.

The scope and method of the examinations shall be determined by the Board of Examiners, but among the subjects shall be included at least one modern language other than English; the natural, industrial and commercial resources and the commerce of the United States, especially with reference to the possibilities of increasing and extending the trade of the United States with foreign countries; political economy; elements of international, commercial and maritime law.

Examination papers shall be rated on a scale of 100, and no person rated at less than 80 shall be eligible for certification.

No one shall be examined who is under twenty-one or over fifty years of age, or who is not a citizen of the United States, or who is not of good character and habits and physically and mentally qualified for the proper performance of consular work, or who has not been specially designated by the President for appointment to the consular service subject to examination.

*As amended by Executive order of December 8, 1909.

REGULATIONS GOVERNING EXAMINATIONS PROMULGATED BY THE
BOARD OF EXAMINERS, DECEMBER 13, 1906

1. The examinations will be the same for all grades and will be to determine a candidate's eligibility for appointment in the consular service, irrespective of the grade for which he may have been designated for examination and without regard to any particular office for which he may be selected.
2. The examinations will consist of an oral and a written one, the two counting equally. The object of the oral examination will be to determine the candidate's business ability, alertness, general contemporary information, and natural fitness for the service, including moral, mental, and physical qualifications, character, address, and general education and good command of English. In this part of the examination the applications previously filed will be given due weight by the Board of Examiners, especially as evidence of the applicant's business experience and ability. The written examination will include those subjects mentioned in the Executive order, to wit, at least one modern language other than English—French, German, or Spanish;* the natural, industrial, and commercial resources and the commerce of the United States, especially with reference to possibilities of increasing and extending the foreign trade of the United States; political economy, and the elements of international, commercial, and maritime law. It will likewise include American history, government, and institutions; political and commercial geography; arithmetic (as used in commercial statistics, tariff calculations, exchange, accounts, etc.); the modern history, since 1850, of Europe, Latin America, and the Far East, with particular attention to political, commercial, and economic tendencies. In the written examination, composition, grammar, punctuation, spelling, and writing will be given attention.
3. To become eligible for appointment, except as student interpreter, in a country where the United States exercises extraterritorial jurisdiction, the applicant must pass the examination outlined above, but supplemented by questions to determine his knowledge of the fundamental principles of common law, the rules of evidence, and the trial of civil and criminal cases.
4. The examinations to be given candidates for appointment as student interpreters will follow the same course as in the case of other consular officers, provided, however, that no one will be examined for admission to the consular service as a student interpreter who is not between the ages of nineteen and twenty-six, inclusive, and unmarried; and, provided further, that upon appointment each student interpreter shall sign an agreement to continue in the service so long as his services may be required, within a period of five years.
5. Upon the conclusion of the examinations the names of the candidates who shall have attained upon the whole examination an average mark of at least 80, as required by the Executive order, will be certified by the Board to the Secretary of State as eligible for appointment in the consular service, and the successful candidates will be informed that this has been done.
6. The names of candidates will remain on the eligible list for two years, except in the case of such candidates as shall within that period be appointed, or as shall withdraw their names, and of candidates holding subordinate positions in the consular service, when eligibility shall not expire until appointment to consular rank or until separation from

*As amended by the Board of Examiners, February 18, 1911.

†As amended by the Act approved May 21, 1908.

the service. Candidates whose names have thus been dropped from the eligible list will not again be eligible for appointment unless upon fresh application, designation anew for examination, and the successful passing of such second examination.*

Students who seek a designation for consular examination should apply to the Department of State for full information. Consular service examinations are held in Washington only.

SUGGESTED COURSE FOR THE POLITICAL SCIENCE STUDENT FOR THE
DEGREE OF BACHELOR OF ARTS

First Year.

	HOURS
Economics 1 or 2 (General Economics).....	3

Psychology and Logic.....	3

*As amended by the Board of Examiners, February 18, 1911.

COMBINATION SIX-YEAR COURSE FOR DEGREES OF BACHELOR OF ARTS AND BACHELOR OF LAWS

Regular students in this course will complete three years of work aggregating forty-eight hours in Columbian College, including one of the four groups of prescribed subjects, and will complete in the Law School the three-year course for the degree of Bachelor of Laws. On the completion of the prescribed forty-eight hours of work in Columbian College and the first year of the regular course in Law, the student will receive the degree of Bachelor of Arts.

PRE-MEDICAL COURSES

To meet the higher preliminary requirements for medical education, Columbian College offers the following courses: A *one-year pre-medical course* satisfying the requirement of the American Medical Association for admission to the Medical School; a *six-year combination course*, consisting of two years in Columbian College and four years in the Medical School for which the degrees of Bachelor of Science in Medicine and Doctor of Medicine are given; and a *seven-year combination course*, consisting of three years in Columbian College and four years in the Medical School, for which the degrees of Bachelor of Arts and Doctor of Medicine are given.

The Medical School of the George Washington University in the classification of the Council of Medical Education is one of the "Class A" medical colleges. Since January 1, 1914, the Medical School in common with all other "Class A" schools in the United States, requires for admission to the freshman class a pre-medical course of one college year consisting of specified subjects.

Students having the requisite *high-school* preparation will find it of special advantage to take this pre-medical course in Columbian College, as upon the completion of the year they can be admitted at once to the Medical School.

The candidate for the study of medicine must present on entrance to Columbian College, in addition to the required subjects one unit of History.

Candidates for the study of medicine should include in the college entrance subject two units of German or French, in order to continue in college the study of the same language and obtain a satisfactory reading knowledge of the language.

This is not indispensable, because the Council of Medical Education states—

"Two units of Greek or Latin may be substituted for the two required units of French or German."

The advice of the Council is, however, as follows:

"If a satisfactory reading knowledge of German or French is to be obtained in the one year of college work, it is essential that an advanced course be offered and that the student have completed as a prerequisite in the high school two units of elementary work in German or French."

Candidates substantially prepared may be registered in Columbian College as conditioned students, provided the deficiency is such that it can be made up before the end of the one-year pre-medical college course. To enter the Medical School, it is necessary to have satisfied all of the required academic or high-school preparation and, in addition, all of the specified subjects of the one-year pre-medical college course. No conditioned student will be registered in the Medical School.

Admission to One-Year Pre-Medical Course

One-year pre-medical students will be admitted on the fourteen-unit entrance requirement of the Council on Medical Education of the American Medical Association as follows:

Seven Required Units.—English (Reading and Practice), 2 units; Algebra to quadratics, 1 unit; Plane Geometry, 1 unit; German or French, or Latin or Greek, 2 units; American History and Civil Government, 1 unit (if elementary grade, it must be in addition to the fourteen units).

Seven Elective Units.—To be selected from the following: English Mathematics Latin, Greek, German, French, Spanish, Scandinavian, Science with laboratory work, Agriculture, Drawing, Manual Training, Domestic Science, Music.

One-Year Pre-Medical Course in Columbian College

Candidates for the one-year pre-medical course for admission to the Medical School should register in Columbian College for the following courses:

Physics 3 (lectures).....	3 hours
Physics 2 (laboratory).....	2 periods
Chemistry 1 (lectures).....	3 hours
Chemistry 2 (laboratory).....	2 periods
Zoölogy 1 and 2 (lectures and laboratory).....	6 periods
German or French (elective).....	3 hours

Six-Year Course for the Degrees of Bachelor of Science in Medicine and Doctor of Medicine

Regular students in this course will complete two years of work aggregating at least thirty-six prescribed hours in Columbian College and the four-year course in the Medical School. On the completion of this six-year course, the student will receive at the same time the degrees of Bachelor of Science in Medicine and Doctor of Medicine. The curriculum requirement for this combined six-year course is as follows:

Biological Sciences:	HOURS
Zoölogy 1.....	3
Botany 1.....	3
Chemistry 1, 2, 23.....	7
English 1 or 2.....	3
German or French or Spanish.....	6
History.....	3
Mathematics 3 or 6.....	3
Physics 3 and 2.....	5
Psychology and Logic.....	3
Total.....	36

Seven-Year Course for the Degree of Bachelor of Arts and Doctor of Medicine

Regular students in this course will complete at least forty-eight hours as prescribed in Columbian College and the four-year course in the Medical School. On the completion of the prescribed forty-eight hours of work in Columbian College and the first year of the regular course in Medicine, the student will receive the degree of Bachelor of Arts.

The forty-eight hours of prescribed subjects in Columbian College are as follows:

Biological Sciences:	HOURS
Zoölogy 1 and 2.....	6
Botany 1.....	3
Chemistry 1, 2, 23.....	7
English 1 or 2.....	3
French or Spanish.....	6
German.....	6
History.....	3
Mathematics 3 or 6.....	3
Physics 3 and 2.....	5
Psychology and Logic.....	3
Economics, History, or English.....	3
Total.....	48

COLLEGE OF ENGINEERING

ADMISSION

Candidates for admission to the Freshman Class in the Engineering Courses are required to present fifteen units for admission, distributed as follows:

	UNITS
English.....	3
French or German.....	4
Plane and Solid Geometry.....	1½
Elementary and Advanced Algebra.....	2
Plane Trigonometry.....	½
Chemistry.....	1
Physics.....	1
Electives.....	2
Total.....	15

NOTE.—The modern language requirement may be satisfied by presenting four units in one language, or two units in French and two units in German. Students who present four units in one language will study the other language two years in College. Students who present two units in French and two units in German will study each language one year in College.

Candidates for admission to the Freshman Class in the Architectural Course are required to present fifteen units for admission, distributed as follows:

	UNITS
English.....	3
French or German.....	2
Plane and Solid Geometry.....	1½
Elementary and Advanced Algebra.....	2
Plane Trigonometry.....	½
Electives.....	6
Total.....	15

For detailed descriptions of the requirements in each preparatory subject see pages 52-60.

For admission to advanced standing or as a special student, see page 60.

COURSES FOR A DEGREE

Four courses of study are offered:

- I. CIVIL ENGINEERING.
- II. ELECTRICAL ENGINEERING.
- III. MECHANICAL ENGINEERING.
- IV. ARCHITECTURE.

These courses occupy four years each, and lead to the degree of Bachelor of Science in Civil Engineering, in Electrical Engineering, in Mechanical Engineering, and in Architecture, respectively. Graduate courses of one year under the Faculty of Graduate Studies of the George Washington University are open to those who receive the above engineering degrees, and lead, respectively, to the degrees of Civil Engineer, Electrical Engineer, and Mechanical Engineer.

REQUIREMENTS FOR A DEGREE

The arrangement of the topics in each of the regular courses for degree is shown below. The numbers following the names of subjects refer to the courses as given in the list of Department Subjects on pages 86-118, to which reference should be made for more complete description.

COMMON TO ALL ENGINEERING COURSES

Freshman Year

- Chemistry, 1, 7.
- General Chemistry and Qualitative Analysis.
- English, 1 or 2.
- Rhetoric.
- French or German.
- Graphics, 1.
- Mechanical and Freehand Drawing.
- Mathematics, 9 or 12.
- Trigonometry; Analytic Geometry.

CIVIL ENGINEERING COURSE

Sophomore Year

- Civil Engineering, 1, 3, 4.
- Surveying; Highway Engineering; Materials of Construction.
- French or German.
- Graphics, 8.
- Descriptive Geometry.
- Mathematics, 20 or 21.
- Calculus.
- Physics, 1, 2.
- General Physics; Laboratory Physics.

Junior Year

Applied Mathematics, 20, 22.
Mechanics; Mechanics of Materials.
Chemistry, 6.
Metallurgy.
Civil Engineering, 2, 8, 9, 22.
Railroad Engineering; Practical Astronomy; Testing Laboratory; Theory of Structures.
Electrical Engineering, 6.
Industrial Electricity
Geology, 2.

Senior Year

Applied Mathematics, 21.
Hydraulics.
Civil Engineering, 20, 21, 23, 24.
Masonry; Hydraulic Engineering; Theory of Structures; Sanitary Engineering.
Economics, 33.
Commercial Law.

ELECTRICAL ENGINEERING COURSE**Sophomore Year**

French or German.
Graphics, 2, 8.
Advanced Mechanical Drawing; Descriptive Geometry.
Mathematics, 20 or 21.
Calculus.
Mechanical Engineering, 1.
Mechanism.
Physics, 1, 2.
General Physics; Laboratory Physics.

Junior Year

Applied Mathematics, 20, 22.
Mechanics; Mechanics of Materials.
Chemistry, 6.
Metallurgy.
Electrical Engineering, 1, 2, 4, 5.
Elementary Electricity and Electrical Engineering; Electrical Measurements; Electrical Engineering Laboratory.
Mechanical Engineering, 20, 21.
Steam Engineering; Boilers.

Senior Year

- Applied Mathematics, 21.
- Hydraulics.
- Civil Engineering, 5, 6.
- Surveying Instruments; Foundations.
- Economics, 33.
- Commercial Law.
- Electrical Engineering, 8, 21, 22, 23, 24, 26, 27.
- Electrical Designs; Alternating Currents; Electrical Distribution; Electrical Applications; Electrical Engineering Laboratory; Electric Lighting; Electric Railways.
- Mechanical Engineering, 10, 23.
- Engineering Laboratory; Hydraulic Machinery.

MECHANICAL ENGINEERING COURSE

Sophomore Year

- French or German.
- Graphics, 2, 8.
- Advanced Mechanical Drawing; Descriptive Geometry.
- Mathematics, 20 or 21.
- Calculus.
- Mechanical Engineering, 1.
- Mechanism.
- Physics, 1, 2.
- General Physics; Laboratory Physics.

Junior Year

- Applied Mathematics, 20, 22.
- Mechanics; Mechanics of Materials.
- Civil Engineering, 22.
- Theory of Structures.
- Mechanical Engineering, 6, 9, 20, 21, 24, 28.
- Engineering Drawing; Engineering Laboratory; Steam Engineering; Boilers; Cotton Machinery and Machine Tools; Industrial Management.

Senior Year

- Applied Mathematics, 21.
- Hydraulics.
- Chemistry, 6.
- Metallurgy.
- Civil Engineering, 5, 6.
- Surveying Instruments; Foundations.
- Economics, 33.
- Commercial Law.

Electrical Engineering, 7.

Dynamos and Motors.

Mechanical Engineering, 7, 10, 22, 23, 26, 27.

Machine Design; Engineering Laboratory; Gas Engines;
Hydraulic Machinery; Dynamics of Machinery; Power Plant
Design.

COURSE IN ARCHITECTURE

Freshman Year

Architecture, 2, 3, 4.

Free-hand Drawing; Architectural Drawing and Elementary
Design; Projections, Shades, Shadows and Perspective.

English, 1 or 2.

Rhetoric.

French.

Mathematics, 9 or 12.

Trigonometry; Analytic Geometry.

Sophomore Year

Architecture, 5, 6, 8.

Architectural Design; Free-hand Drawing; History of Archi-
tecture.

English, 3 or 4.

Humanistic Studies.

French.

Geology, 2.

Junior Year

Architecture, 20, 21, 22, 24, 25, 33.

History of Architecture; Building Construction; Sanitation;
Pen and Ink Rendering; Design; Water Color.

Physics, 1 or 3.

General Physics.

Senior Year

Archaeology, 20.

History of Art.

Architecture, 27 or 37, 39, 40, 41, 43.

Design; Building Construction; Water Color; Heating and
Ventilating; Office Practice.

Economics, 33.

Commercial Law.

Electrical Engineering, 26.

Electric Lighting and Illumination.

TEACHERS COLLEGE

The purpose of Teachers College is to provide (a) collegiate training for teachers, (b) instruction in education as a department of science.

The aims of the Teachers College may be summarized as follows:

- a. To promote the knowledge of educational science.
- b. To fit students for the higher positions in the public school service.
- c. To secure to teaching the rights and prerogatives of a profession.
- d. To aid in raising the standards of educational practice, and so to increase the efficiency of public education.

ORGANIZATION

In order to combine to the best advantage a general college education with adequate professional training for teaching, Teachers College provides a four years' college course, the first two years of which are devoted to a foundation of general culture courses, and the last two to the professional courses and to specialization in the subjects which the student expects to teach.

Inasmuch as a large number of teachers in service are without college degrees, and a still larger number desire to supplement their professional training by taking special courses, the courses of instruction have been arranged to meet the needs of teachers in service, as well as of undergraduate students. The required courses constituting the prescribed work in education are given both in the morning and in the late afternoon hours, and are, therefore, easily accessible both to students and to teachers from the schools.

ADMISSION

Candidates for admission to the Freshman Class in Teachers College must meet the general admission requirements (p. 51) of fifteen units. *Three of these must be in English, two and one-half in Mathematics, and two in one of the following languages: Latin, Greek, French, German, or Spanish.* The remainder of the required fifteen units may be satisfied by any accredited secondary subjects.

Persons desirous of taking one or more of the professional courses, without becoming candidates for a degree, may be admitted as special students on the presentation of satisfactory evidence that they are qualified to pursue the work to advantage.

Graduates of approved Normal Schools, Training Colleges, or Technical Schools, and teachers of experience who have studied privately, will be admitted to such advanced standing as the courses they have pursued warrant.

For further information concerning admission as special student or to advanced standing, see p. 60.

GRADUATION

On the completion of courses of study aggregating at least sixty-two hours, the University confers the degree of Bachelor of Arts and a Bachelor's Diploma in Education. (An "hour" of credit is one recitation or lecture a week or one laboratory period a week for one academic year.) These courses are partly prescribed and partly elective, and the degree is conferred when the necessary work is completed, no time limit being set. The prescribed courses are the following:

a. In general culture subjects:

	HOURS
Biology*	3
English	3
Foreign Language*	6
History*	6
Psychology and Logic	3
Philosophy	3

For the subjects marked with an asterisk (*) electives may be substituted to the extent that approved secondary school work has been done in these subjects. The foreign language requirement must fall in one language, while in history it is required that a survey of the world's history be obtained, and to the extent that this survey has not been obtained before entering college will college work in history be required.

b. In professional subjects ten hours are required of which the following seven are prescribed, although teachers of experience may receive credit for Observation and Practice Teaching.

	HOURS
History of Education	2
Principles of Education	2
Principles of Teaching	
School Hygiene	1
Observation and Practice Teaching	2

In order that the student may receive a thorough grounding in the branches that he wishes to teach, the electives are subject to the following restrictions:

All regular students must complete before graduation at least nine hours in a Major, and at least five hours in a Minor subject, in addition to the first required course, if any, in the same subject.

As a Major, any one of the following subjects, or group of subjects, may be chosen: English, Latin, Greek, French, German, Mathematics, Physical Science, Biological Science, History, Economics and Political Science, Philosophy and Psychology.

As a Minor, choice may be made of any of the other subjects in the same list, or of Education.

THE TEACHER'S DIPLOMA

The Bachelor's Diploma in Education is granted in connection with the Bachelor of Arts degree upon the fulfillment of the following condition: *a.* The student must have satisfactorily completed the courses of study defined above. *b.* He must, in the judgment of his instructors, also possess other qualifications essential to success in teaching.

The Diploma is also given in connection with higher degrees, provided a graduate student has taken a major or minor in Education, and has satisfied the requirements *a* and *b* above, or in lieu of *a* has completed equivalent work in another institution.

A student holding a bachelor's degree from an approved college or university may, by satisfying the professional requirements, earn the Diploma without registering for a degree.

OBSERVATION AND PRACTICE TEACHING

Ample opportunity is afforded for observation and practice teaching by (*a*) attendance upon observation classes conducted by experienced teachers, and (*b*) actual practice in teaching under supervision and criticism.

EXPERIMENTAL WORK

Teachers College maintains a psychological laboratory for introductory experimental work. The equipment is specially adapted to the investigation of problems of interest to students of education.

The school system of a large city, moreover, offers abundant opportunity for observation, and for the study of methods and other practical educational problems.

TEACHERS APPOINTMENT BUREAU

Teachers College maintains a Teachers Appointment Bureau for the purpose of aiding students who are studying, or have studied, in Teachers College, or in Columbian College, to secure positions as teachers. This service is performed gratuitously, in the interest both of students and of superintendents of schools and boards of education wishing to employ teachers. Communications should be addressed to the "Teachers Appointment Bureau," Teachers College, The George Washington University.

COURSES OF INSTRUCTION

PROVIDED BY THE DEPARTMENT OF ARTS AND SCIENCES

Courses of instruction are divided into three sections.

First-section courses may be taken by third or fourth year students only by permission of the Dean and the professor in charge of the subject. They may sometimes be recommended to graduate students, but are not counted toward the higher degrees. The courses in the second section are in general for advanced students, candidates for the bachelor's degree; they serve, however, with additional work, as minors for the higher degrees, provided they have not already counted toward a degree. They may be taken by students in the second year of their course only by special permission of the professor in charge. The courses in the third section are in general for graduate students only, candidates for one or other of the higher degrees. They are open to undergraduates only on the recommendation of the instructors, and no undergraduate student shall take in one year more than one course in the third section. When an announced course has not been applied for by at least three students, candidates for a degree, the instructor may withdraw the course. First-section courses are numbered 1 to 19, inclusive; second-section courses 20 to 49, inclusive; third-section courses, 50 and upwards. The number of hours, unless otherwise specified, indicate hours per week throughout the year. The unit of credit is one hour of recitation or lecture work per week for one academic year; laboratory hours in Chemistry count one-third unit each, in other subjects one-half unit each. Laboratories and drawing-rooms will be open from 9.15 a.m. till 10 p.m., with competent assistants in charge to direct students. No student is admitted to a course unless he fulfills all the preliminary requirements for the course, or otherwise satisfies the instructor that he is prepared to pursue it. Every student must make his election of courses so as to avoid conflict between the hours appointed for recitations.

APPLIED MATHEMATICS

See Engineering.

ARCHAEOLOGY AND HISTORY OF ART

MITCHELL CARROLL, Ph.D.....	Professor
REBECCA SHERMAN ASHLEY.....	Instructor
EDGAR L. HEWETT, D.Soc.....	Lecturer

Second Section. For Undergraduates and Graduates

20. *History of Art.*—An introductory course in the history of architecture, sculpture, painting and the minor arts. Illustrated lectures and

conferences. 20a. Greek Art. *Tu.* at 3.45. 20b. Fifteenth Century Italian Art. *Th.* at 3.45. Professor CARROLL and Miss ASHLEY.

21. *Roman, Mediaeval and Modern Art.*—*Tu.* at 5.00. Professor CARROLL.

22. *Sixteenth Century Italian Art.*—*Th.* at 5.00. Miss ASHLEY.

Third Section. Primarily for Graduates

50. *Classical Archaeology.* Topography and Monuments of Athens and Rome. Two hours. Professor CARROLL.

51. *History of Art.*—Important epochs in the development of architecture, sculpture and painting. Two hours. Professor CARROLL assisted by Miss ASHLEY.

52. *American Archaeology.*—In conjunction with the School of American Archaeology in Santa Fe. Dr. HEWETT.

Use is made of the illustrative material in the National Museum, the Library of Congress and the Corcoran Gallery of Art. Students are invited to the open meetings of the Art and Archaeology League of Washington, and the Washington Society of the Archaeological Institute of America.

ARCHITECTURE

ALBERT BURNLEY BIBB.....	Professor
ALBERT LEWIS HARRIS, B.S. in Arch.....	Assistant Professor
BEDFORD BROWN, B.S.....	Assistant Professor
PHILIP ROGERS HOOTEN.....	Instructor

First Section. Primarily for Undergraduates

2. *Freehand Drawing.*—To be taken at the Corcoran Gallery of Art. Two periods.

3. *Architectural Drawing and Elementary Design.*—This course includes the study of the elements of Architecture including the Five Orders, the use of india ink and water color rendering. At least nine hours per week are to be spent by the student in the drafting room.

Criticisms by Mr. HOOTEN on Monday, Wednesday and Friday evenings.

4. *Projections, Shades, Shadows and Perspective.*—A course in orthographic projections, shades and shadows, followed by a short course in perspective. Two hours.

Criticisms by Mr. HOOTEN on Monday evenings.

5. *Design.*—Problems of an elementary character are given to prepare the student for work in the Class B order of the Society of Beaux-Arts Architects; the rendering of these problems of this Society. At least twelve hours per week are to be spent by the student in the drafting room. Criticisms by Assistant Professor BROWN on Tuesday, Thursday and Saturday evenings.

6. *Freehand Drawing*.—Advanced course. To be taken at the Corcoran Gallery of Art. Two periods.

8. *History of Architecture*.—The course is designed to trace the development of the art in Ancient Egypt, in Greece, and in Rome, and through the early Christian, Byzantine, and Mediaeval periods. *Tu., Th., Sat.*, at 5.00. Professor BIBB.

Second Section. For Undergraduates and Graduates

20. *History of Architecture*.—An advanced course offering a critical study of the architecture of the Renaissance in Italy, France and England, and of its effect upon the building arts of our own time. *Tu., Th., Sat.*, at 5:50. Professor BIBB.

21. *Building Construction*.—Frame buildings, details of construction, interior finish, three-fourths scale and full size details. One lecture and three hours in drafting room. Assistant Professor HARRIS.

22. *Sanitation*.—History of sanitation; pollution of water sources; modern plumbing practice; methods of sewage disposal, septic tank, sewage disposal fields, etc. Two lectures a week for one term. Assistant Professor HARRIS.

24. *Pen and Ink Rendering*.—A study of the renderings of the best pen and ink draftsmen with practice in the use of the pen as a means of Architectural expression. One hour.

Hours of criticism selected by conference with Assistant Professor BROWN.

25. *Design*.—Plan problems, sketch problems, and archaeology problems from the Class B Plan programs of the Society of Beaux-Arts Architects. At least fifteen hours a week are to be spent by the student in the drafting room. Criticism by Assistant Professor BROWN on Tuesday and Friday evenings.

27. *Advanced Design*.—Plan problems and sketch problems are given from the Class A programs of the Society of Beaux-Arts Architects. The latter part of the year is devoted to a thesis, the subject being selected by the student subject to the approval of the Professor of Design. At least eighteen hours a week are to be spent by the student in the drafting room. Criticism by Assistant Professor BROWN on Tuesday and Friday evenings.

33. *Water Color*.—Drawing in water color from still life models, from architectural interiors, and from buildings and gardens. Two hours. Professor BIBB.

37. *Beaux-Arts Problems*.—In advanced design the student may take the problems under the criticism of Mr. CLARENCE DEAN at the Washington Architectural Club.

39. *Building Construction*.—Masonry foundations, pile foundations, stone work, brick work, fire-proofing, ornamental terra cotta, plastering, specifications. One lecture and three hours in drafting room a week. Assistant Professor HARRIS.

40. *Water Color*.—Advanced course. A continuation of course 33. Two hours. Professor BIBB.

41. *Heating and Ventilating*.—Elementary principles of heating and ventilating; details of installation of hot air, hot water, and steam heating plants. Two lectures for one term. Assistant Professor HARRIS.

43. *Office Practice*.—A course of lectures on office practice, business methods of an Architect and special types of buildings by the teaching staff and practicing Architects of the District of Columbia. One hour.

ASTRO-PHYSICS

FREDERICK EUGENE FOWLE, JR.....Lecturer

Third Section. Primarily for Graduates

54. A lecture course on the astro-physical instruments employed in modern research. Mr. FOWLE.

BIOLOGICAL SCIENCE

PAUL BARTSCH, Ph.D.....Professor

ALBERT MANN, Ph.D.....Professor

JULIA THECKLA MACMILLAN, A.M.....Instructor

GEORGE TRAVER HARRINGTON, B.S. in Agri., B.S. in Chem.....Instructor

Zoology

First Section. Primarily for Undergraduates

1. *Systematic Zoology*.—I. Invertebrates. This includes lectures and laboratory work. The lectures cover all the branches of Invertebrates, and correlated with these lectures is the study and dissection of typical specimens in each group. This course is intended to familiarize the student with biological characters, classificatory laws, and the general principles of evolution. Lecture, *Mon.*, at 5.00; laboratory, *Wed., Fri.*, 5.00-6.40. Professor BARTSCH and Miss MACMILLAN.

2. *Systematic Zoology*.—II. Vertebrates. This includes lectures and laboratory work. The lectures will cover the various branches of Vertebrates, and correlated with these is the study and dissection of typical specimens of each group. Lecture, *Mon.*, at 5.50; laboratory *Wed., Fri.*, 5.00-6.40. Professor BARTSCH and Miss MACMILLAN.

Second Section. For Undergraduates and Graduates

20. *Practical Zoology*.—A lecture course illustrated with lantern slides and demonstrations. In this course only beneficial and injurious animals of all classes will be considered, especial stress being laid upon the problems of preservation and extermination. The course aims to ex-

pound the economic side of zoology. Open to all students. One hour. Professor BARTSCH.

23. *Ornithology*.—A systematic course embracing lectures and laboratory work. The lectures are illustrated with lantern slides, showing the home life of birds. The laboratory work consists in classifying bird skins, of which the University possesses an excellent series. Special attention is directed to the study of the birds of the District of Columbia, and frequent field excursions are made to familiarize the student with the haunts and habits of these forms. Lecture, one hour; laboratory, one two-hour period. Professor BARTSCH and Miss MACMILLAN.

Laboratory courses in histology and physiology will be arranged for competent students.

Botany

First Section. Primarily for Undergraduates

1. *General Botany*.—An introductory course dealing with the fundamental concepts of plant life. Representative members of the different groups of plants will be studied, and lines of evolutionary development will be emphasized. Lecture, *Th.*, at 5.00; laboratory, *Tu.*, and *Sat.*, 5.00-6.40. Mr. HARRINGTON.

Third Section. Primarily for Graduates

50. Original investigation in (a) Economic Botany, *Materia Medica*, etc.; (b) Parasitism and Monstrosities; (c) Researches in Physiology of single groups; (d) Comparative Organography. Professor MANN.

BOTANY

See Biological Sciences.

CHEMISTRY

CHARLES EDWARD MUNROE, Ph.D., LL.D.....	Professor
FRANK WIGGLESWORTH CLARKE, Sc.D.....	Professor
NEVIL MONROE HOPKINS, Ph.D.....	Assistant Professor
EDWIN ALLSTON HILL, Ph.D.....	Assistant Professor
THOMAS MALCOLM PRICE, Ph.D.....	Assistant Professor
OTIS DOW SWETT, LL.M., M.S.....	Assistant Professor
HIRAM COLVER McNIEL, Ph.D.....	Assistant Professor
EDWIN HENRY INGERSOLL, M.S.....	Instructor
HENRY ALBERT LEPPER, B.S.....	Assistant

First Section. Primarily for Undergraduates

1. *General Chemistry*.—A series of illustrated lectures, accompanied by recitations and exercises, on theoretical, inorganic, organic, and technical chemistry. *Tu.*, *Th.*, *Sat.*, at 4.50. Professor MUNROE, Assistant Professor SWETT.

2. *Laboratory Practice*.—A laboratory course for the study of the principles of chemistry and the method of conducting chemical experiment. Two three-hour periods. *Tu., Th.*, at 1.30 or at 7. Professor MUNROE, Assistant Professor SWETT.

3. *Preparation and Study of the Properties of Chemical Substances*.—A laboratory course. Two three-hour periods. *Tu., Th.*, at 1.30 or at 7. Professor MUNROE, Assistant Professor SWETT.

4. *Assaying and Metallurgy of the Precious Metals*.—Carried on by the method used by the Government Assayers, the Laboratory being fitted up on the plan of that of the United States Mint. Twelve hours for three months. Professor MUNROE, Assistant Professor SWETT.

5. *Principles of Analysis*.—Lecture. One hour. Professor MUNROE.

6. *Metallurgy of Iron and Steel*.—A course of lectures and readings. *Tu.*, at 6.00. Professor MUNROE.

7. *Qualitative Analysis*.—A brief course intended primarily for students in engineering. Two three-hour periods. *Tu., Th.*, at 1.30 or at 7. Professor MUNROE, Assistant Professor SWETT.

Second Section. For Undergraduates and Graduates

20. *Qualitative Analysis*.—A laboratory course in the study of the properties and reactions of chemical substances, and of the means employed for their detection and identification. Three three-hour periods. Professor MUNROE, Assistant Professor PRICE, Assistant Professor SWETT.

21. *Quantitative Analysis*.—A laboratory course in the quantitative estimation of the constituents of a specially selected and typical set of chemical substances, which are particularly adapted for teaching the student the aims and methods of quantitative chemical analysis and for imparting facility in manipulation. Four three-hour periods. Professor MUNROE, Assistant Professor PRICE, Assistant Professor SWETT.

23. *Organic Chemistry*.—Advanced course. *Wed., Fri.*, at 4.50. Professor MUNROE, Assistant Professor SWETT.

24. *Organic Chemistry*.—Advanced course. A continuation of Course 23. *Th., Sat.*, at 6.00. Professor MUNROE, Assistant Professor SWETT.

25. *Chemistry of the Carbon Compounds*.—A laboratory course in the preparation and study of the properties of a characteristic series of organic compounds. Four three-hour periods. Professor MUNROE, Assistant Professor SWETT, Mr. LEPPER.

26. *Physical Chemistry*.—A lecture course designed to be an introduction to physical chemistry, and to treat of the modern theories of chemistry from the physical standpoint. In this course special attention is given to the ionic theory, electro-chemistry, the law of mass action, and the phase rule. Two hours. Assistant Professor McNEIL.

27. *Stereo-Chemistry*.—This course deals with the arrangements of atoms in space from a theoretical standpoint, while the student is taught how to form models by which to illustrate their arrangements. Two hours. Assistant Professor HILL.

28. *Biochemistry*.—A laboratory course in the chemical examination of some of the chief foodstuffs, the tissues and fluids of the body, and the products of certain organisms; also the isolation of the digestive enzymes and a study of their action *in vitro*. Three three-hour periods. Assistant Professor PRICE.

Third Section. Primarily for Graduates

50. *Explosive Substances*.—Professor MUNROE.

51. *Analytical Methods*.—Professor MUNROE.

53. *Development of the Theory of the Constitution of the Natural Silicates*.—Professor CLARKE.

55. *Special Researches in Electro-Chemistry*.—Assistant Professor HOPKINS.

Students in Chemistry are invited to attend the meetings of the Chemical Society of Washington which are held on the second Thursday of each month from October to May, in the Assembly Hall of the Cosmos Club, at 8 p.m., and also the meetings of the Chemical Society of the George Washington University which is a most active and efficient student organization.

CIVIL ENGINEERING

See Engineering.

CLASSICAL LANGUAGES AND LITERATURES

CHARLES SIDNEY SMITH, Ph.D. Professor

Greek

First Section. Primarily for Undergraduates

A. *Elementary Course*.—For students who have not taken Greek before matriculating. It aims to cover as much as possible of the entrance requirement in Greek, with the exception of Homer. Three hours. Not given in 1914-15.

B. *Homer: Iliad I-IV*.—For students who have taken Course A and desire to prepare themselves to enter Course 1. Tu., Th., at 5.00.

1. Herodotus (selections); Lysias (selected orations); Euripides (*Alcestis*); Greek prose composition. Mon., Wed., Fri., at 2.45.

2. Xenophon (*Memorabilia*); Thucydides (Book VII); Sophocles (*Antigone*). Mon., Wed., Fri., at 11.15.

Second Section. For Undergraduates and Graduates

20. Plato (selections, including the *Apology* and *Crito*); Aristophanes (*Clouds* or *Frogs*). Two hours. Not given in 1914-15.

21. Demosthenes (selected orations); Lucian (selected dialogues); Homer (selections). Tu., Th., at 1.45.

Latin

First Section. Primarily for Undergraduates

1. Livy (Books I and XXI); Cicero (De Senectute); Horace (Odes and Epodes); Latin prose composition. Open to students who have satisfied the admission requirements in elementary and advanced Latin. *Mon., Wed., Fri., at 3.45.*

2. Cicero and Pliny (selected Letters); Horace (Satires and Epistles); Martial (selections). *Mon., Wed., Fri., at 1.45.*

Second Section. For Undergraduates and Graduates

20. Tacitus (selections); Terence (Phormio); Plautus (Captivi).—*Tu., Th., at 11.15.*

21. Quintilian, Book X, and Horace, Ars Poetica; Catullus, Tibullus, and Propertius. Two hours. Not given in 1914-15.

22. *Advanced Latin Composition and Reading at Sight.*—Practice in Latin expression and style. *Th., at 2.45.*

Third Section. Primarily for Graduates

The work in this Section is designed to afford discipline in the methods of philological criticism, with special reference to the interpretation of classical authors, and will include opportunities for original research on the part of competent students. In order to make the work as helpful as possible for those who expect to become teachers, the center of study each year will be one of the authors usually taught in the secondary schools. With the approval of the instructor, properly qualified Seniors may be admitted to these courses. The authors selected are as follows:

50. *Vergil and Roman Epic Poetry.*—Not given in 1914-15.

51. *Caesar, and the Roman Historians.*—Two hours.

52. *Cicero, and Roman Oratory.*—Not given in 1914-15.

ECONOMICS AND SOCIOLOGY

ROBERT RUSS KERN, A.B.....	Assistant Professor
L. RUSSELL ALDEN, A.M.....	Assistant Professor
OSCAR PHELPS AUSTIN, A.M.....	Lecturer

First Section. Primarily for Undergraduates

1. *General Economics.*—An outline course in the principles of political economy, devoted mainly to the study of production and exchange under present-day conditions, followed by a study of the problems of rent, interest, wages, and profits, and including an examination of competition, private property, and economic programs. *Mon., Wed., Fri., at 11.15.* Assistant Professor KERN.

2. Parallel with course 20. *Mon., Wed., Fri.*, at 5.50. Assistant Professor KERN.

Second Section. For Undergraduates and Graduates

22. *General Sociology*.—An outline course in the principles of sociology, devoted mainly to the study of social origins and the development of existing social institutions, with special attention to social psychology. Two hours, first half-year. *Mon., Fri.*, at 5.00. Assistant Professor KERN.

23. *Modern Social Problems*.—A further analysis of modern social conditions with special studies of current questions in sociology. Prerequisite, the course in general sociology. Two hours, second half-year. *Mon., Fri.*, at 5.00. Assistant Professor KERN.

24. *The History of Economic Thought*.—A review of the development of economics as a science from the earliest times to the present. Lectures and library readings. Two hours, first half-year. Given in alternate years. Not given in 1914-15. Assistant Professor KERN.

26. *Public Finance*.—A course in the development of budgetary and fiscal methods and principles. The history and tendencies of public expenditure under the Federal and State governments. The theory of taxation; administration of public domains, and industries; public debts. Two hours, first half-year. Not given in 1914-15. Assistant Professor KERN.

27. *Money and Banking*.—The history and theory of money; the production of the precious metals; the theory of prices and measurement of price fluctuations; monetary systems; the relation of the Treasury system to our money supply; the theory of credit and banking; the national bank system of the United States and the banking system of foreign nations. Two hours, second half-year. Not given in 1914-15. Assistant Professor KERN.

28. *Economic Problems*.—An advanced course devoted to a more thorough study of the problems developed in the general course in economics. Research and preparation of papers to be presented to the class for discussion and criticism. Credit for course 20, General Economics, is requisite for admission to this course. *Tu., Th.*, at 5.00. Assistant Professor KERN.

33. *Commercial and Maritime Law*.—An outline of the principles of the law relating to commercial transactions generally, including those peculiar to the sea, with more especial reference to the subjects of contracts, sales, bailments, agency, partnership, negotiable instruments, and common carriers. *Tu., Th.*, at 5.50. Assistant Professor ALDEN.

36. *Political and Commercial Geography*.—The products, industries, and commerce of the various sections and countries of the world; transportation routes; trade centers; ports and principal cities; methods of inter-communication; spheres of influence, political and commercial. First half-year. *Mon., Fri.* at 5.50. Mr. AUSTIN.

37. *The International Exchange of Commerce*.—The exchanges between countries, climatic sections; and between the great producing and manufacturing localities; the staple articles of commerce, their places of production and consumption; manufacturing industries and the distribution of their products; a comparative view of the commercial, economic, and financial conditions in the various sections and countries of the world. Second half-year. *Mon., Fri.* at 5.50. Mr. AUSTIN.

38. *Business Organization*.—The business organizations by which the articles forming national and international commerce are produced, transformed into condition for use and transported to the consumer. The extractive industries—agriculture, mining, forestry. The manufacturing industries. The commercial organizations. The transportation systems. Financing: the methods by which funds are accumulated and supplied. The corporation as a factor in business organization. Second half-year. *Tu., Th.*, at 5.00. Mr. AUSTIN.

39. *Domestic Commerce and Industries of the United States*.—Natural resources; agriculture; mining, manufacturing and other industries of the various sections and states. Transportation and other methods of interchange; distributing centers. Quantities and values of principal products. First half-year. *Tu., Th.* at 5.00. Mr. AUSTIN.

Primarily for Graduates.

51. *Seminar in Sociology*.—A research course for the detailed investigation of special sociological problems, suitable for those who are engaged in original investigation or in the preparation of a thesis. Hours to be arranged. Assistant Professor KERN.

EDUCATION

WILLIAM CARL RUEDIGER, Ph.D.....	Professor
WILLARD STANTON SMALL, Ph.D.....	Lecturer
ARTHUR DEERIN CALL, A.M.....	Lecturer
MARIETTA STOCKARD.....	Lecturer

Second Section. For Undergraduates and Graduates

20a. *Principles of Education*.—A comprehensive course in the bases, aims, values and essential content of education as revealed by biological, psychological, sociological and ethical principles. First half-year. *Mon., Wed., Fri.*, at 9.15. Professor RUEDIGER.

20b. *Principles of Teaching*. A comprehensive course in the principles underlying the teaching process in its intellectual, emotional and motor phases. Special attention is given to making teaching concrete and meaningful. Second half-year. *Mon., Wed., Fri.*, at 9.15. Professor RUEDIGER.

21a. *Principles of Education*.—A brief course in the bases, aims, values and essential content of education as revealed by biological, psychological, sociological and ethical principles. First half-year. *Mon. and Wed.* at 4.00. Professor RUEDIGER.

21b. *Principles of Teaching*. A brief course in the psychological and logical principles underlying the teaching process. Second half-year. *Mon. and Wed.*, at 4.00. Professor RUEDIGER.

(Courses 20 and 21 should be preceded or accompanied by general psychology. Course 21 is designed especially for teachers in service.)

22. *History of Education*.—A general course in the historical development of educational theory and practice. *Sat.*, 9.15–11.15. Professor RUEDIGER.

23. *Child Study*.—The psychology, physiology, and hygiene of childhood and adolescence, with special reference to the problems of teaching. Kirkpatrick's *Fundamentals of Child Study*, supplemented by lectures, assigned reading, and reports. Prerequisite: General Psychology. Not given in 1914–15. Dr. SMALL.

24. *School Sanitation and Hygiene*.—A survey of the relations of education and health, including: The function of the school in promoting health; physical examination of children; medical inspection; physical education; diseases and defects incident to school life; the organization of instruction as related to fatigue; defective children; schoolhouse construction and sanitation. Lectures, reference work, and reports. *Sat.*, 11.15–12.15. Dr. SMALL.

25. *Secondary Education*.—After sketching the meaning and significance of secondary education as revealed by educational theory, by the secondary schools of Germany, France, and England, and by the history of secondary education in America, the course will consider in some detail the educational values, essential content, and methods of teaching the various high school branches. The problems of essential minima, of the connection of the studies with life, and of the development of initiative in the student will be emphasized. *Sat.*, 9.15–11.15. Dr. SMALL.

26. *Elementary Education*.—Theory and Practice. On the theoretical side this course will deal briefly with the general principles involved in self culture, our moral ideal, the state and society, the problem of study, the teaching process, lesson assignment, the recitation, and the art of questioning. The principles developed will be somewhat extensively applied to the teaching of reading, English, American history, geography, arithmetic, and perhaps nature study. Not given in 1914–15. Mr. CALL and Professor RUEDIGER.

(Courses 25 and 26 will be given in alternate years.)

27. *School Administration*.—The public school system: Its development; economic and political relations; organization of administration, financial and educational; problems of administration. Lectures, assigned reading, and reports. Not given in 1914–15. Dr. SMALL.

28. *Experimental Education*.—Not given in 1914–15. Professor RUEDIGER.

29. *Educational Story Telling*.—Study of type stories, adaptation of stories, practical story telling. It is the purpose of the course to de-

velop a basis for the selection and presentation of suitable children's literature, taking into consideration the various stages of the child's development.

Lectures, required reading and reports. Not given in 1914-15. Miss STOCKARD.

30. *Story Telling and Children's Literature*.—Study of Epics—Iliad, Odyssey, and Kalevalla. Retelling, possible dramatization.

Part of the course will be given to a discussion of reading and reading books with a view to supplementing with stories and units of literature. It will be the purpose to work toward a solution of the problem of developing in the child a higher appreciation of the best in literature and a real love of books through his school reading. The course will extend and supplement Course 29 but will be open to all upper class students. *Mon. and Wed.* at 4.00. Miss STOCKARD.

32. *Adolescence*.—A consideration of the psychology of adolescence, with special reference to the problems of secondary education. Lectures, readings, and special topics. *Sat.*, at 9.15. Not given in 1914-15. Dr. SMALL.

33. *Ethical Principles in Education*.—The aim of this course is to promote a deeper professional spirit by stimulating the professional cast of mind. Some of the topics to be studied are: the meaning of ethics; maxims for an ethical code; ethical elements in self-culture; various ethical interpretations of the moral ideal; ethical elements in the advancement of truth; ethics of veracity; the ethics of example; the ethics of charity; ethics and the solution of crime; the ethical value of the state; the ethical interpretation of society; the rise of moral enthusiasm; ethical values in public education. *Tu.*, at 5.00. Mr. CALL.

34. *Observation*.—Observation of experienced teachers, under guidance, in the elementary and secondary schools of the city. The course should normally be taken in the junior year. One hour credit. Professor RUEDIGER.

35. *Practice Teaching*.—Opportunity for practice teaching under supervision and criticism is provided through the courtesy of the public school officials. The course should normally be taken in the senior year. One hour credit. Professor RUEDIGER.

(The students taking courses 34 and 35 will meet together once a week for conference and discussion.)

Third Section. Primarily for Graduates

50. *Seminar in Education*.—The theme for 1914-15 will be problems in educational psychology. The native impulses and capacities of man as a basis for education will be taken up in the first semester and the psychology of learning in the second. The course may be counted either as education or as psychology. Open to qualified undergraduates. *Tu. and Th.*, at 5.00. Professor RUEDIGER.

ELECTRICAL ENGINEERING

See Engineering.

ENGINEERING

EDWIN VIVIAN DUNSTAN, C.E.....	Professor
OSCAR ALEXANDER MECHLIN, C.E.....	Professor
FRANK CHARLES STARR, S.B.....	Assistant Professor
CHARLES WARD MORTIMER, M.E.....	Assistant Professor
HAYNER HASKELL GORDON, E.E., Ph.D.....	Instructor
ROBERT WILBUR MORSE, S.B.....	Instructor
MARK RITTENHOUSE WOODWARD, E.E.....	Instructor

Applied Mathematics

Second Section. For Undergraduates and Graduates

20. *Analytical and Applied Mechanics*.—(1) Statics: including the composition, resolution and equilibrium of forces; center of gravity; friction; machines. (2) Kinematics and Kinetics: including rectilinear and curvilinear motion; motion under action of variable forces and in resisting media; constrained and rotary motion; impact; work and energy; moment of inertia. Four hours, first half-year. Professor DUNSTAN.

21. *Hydraulics*.—The theoretical principles of hydraulics: including hydrostatics, flow through orifices, over weirs, through pipes and in open channels, and the dynamic pressure of water. Four hours, first half-year. Professor DUNSTAN.

22. *Mechanics of Materials and Theory of Elasticity*.—Including elastic and ultimate strength and deformation: simple cantilever and continuous beams, columns, torsion; combined stresses; compound columns and beams, including reinforced concrete; resilience; work; fatigue; mathematical theory of elasticity. Four hours, second half-year. Professor DUNSTAN.

Civil Engineering

First Section. Primarily for Undergraduates

1. *Surveying and Mapping*.—This course includes the theory and use of instruments; land, topographic, hydrographic, mining, city, and geodetic surveying; measurement of volumes, projection of maps, etc. The course includes plotting survey notes, topographic symbols, and lettering. Two hours a week. Field work, usually on Saturday. One drawing period a week. Assistant Professor STARR.

2. *Railroad Engineering*.—Railroad curves and earthwork; location of about a mile of railroad; laying out curves; construction of contour maps, profiles, mass diagrams, etc. Two hours a week recitation both terms and one period drawing second term; field work usually on Saturdays. Assistant Professor STARR.

3. *Highways and Pavements*.—Location of highways; construction, improvement and maintenance of roads and pavements; curbs, gutters, sidewalks. Two hours, second term. Professor MECHLIN.

4. *Materials of Construction*.—A study of the properties of stone, brick, cement, concrete, wood, iron, steel, etc., with reference to processes of manufacture. The course is supplemented by a number of practical tests made by the students. Two lectures and one laboratory period during first term. Professor MECHLIN.

5. *Surveying Instruments*.—A two-months' course for Mechanical and Electrical Engineering students, covering the use of the compass, transit, and level. Lectures and field exercises, two hours. Assistant Professor STARR.

6. *Foundations*.—A two-months' course for Mechanical and Electrical Engineering students, covering the general principles of foundation construction and the materials used. Two hours. Professor MECHLIN.

8. *A Course in Practical Astronomy for Civil Engineering Students*.—Special attention is given to the methods of determining latitude, longitude, azimuth and time with the engineer's transit; observations for each being a required part of the course. Two lecture-recitation periods during one term. Assistant Professor STARR.

9. *Mechanical Testing*.—A laboratory course in the investigation of the physical properties of engineering material, including exercises in the use of a 200,000 pound Olson Testing Machine. Eighteen periods of two hours each in the second term.

Second Section. For Undergraduates and Graduates

20. *Masonry Construction*.—A course in the use of cement, brick, stone, and concrete, the design of foundations, retaining walls, dams, bridge piers and arches. Included in this is a short course in stereotomy. Two lectures and two design periods. Professor MECHLIN.

21. *Hydraulic Engineering*.—The design and construction of water-power plants and irrigation works. Flow of rivers; rainfall and runoff; methods of development; hydraulic motors; power transmission. Irrigation plans; distributing system; water rights and irrigation law. Four lectures and two design periods, second term. Professor DUNSTAN.

22. *Theory of Structures*.—A course covering the determination of stresses in framed structures by graphical and by analytical methods. The first term is devoted to beams and roof trusses; the second to bridge trusses under uniform and wheel loads. Three lectures and two design periods. Professor DUNSTAN.

23. *Theory of Structures*.—The theory of steel design; the design of a roof truss, of a plate girder and a pin connected bridge truss and a study of the theory and design of suspension, continuous, cantilever, and arch bridges, and the details of steel-mill and office-building construction. Three lectures and two design periods. Professor MECHLIN.

24. *Sanitary Engineering*.—This course treats on the drainage of buildings and lands; the treatment and disposal of sewage and the sewerage of cities and towns; public water supply and methods of water purification. Three lectures and one design period. Professor MECHLIN.

Third Section. Primarily for Graduates

50. *Advanced Masonry*.—A course in the theory and design of reinforced concrete structures. Professor MECHLIN.

51. *Advanced Masonry*.—The theory of retaining walls and arches. Professor MECHLIN.

52. *Testing of Materials*.—This course involves original research upon assigned topics. Professor MECHLIN.

53. *Water-Power Development*.—A comparative study of the principal water-power developments of the United States and Europe. The course consists largely of assigned readings and reports thereon. Professor DUNSTAN.

Electrical Engineering

First Section. Primarily for Undergraduates

1. *Elementary Mathematical Theory of Electricity and Magnetism*.—Elementary electricity and magnetism is studied with special attention to the needs of engineering students. The phenomena accompanying static electricity are noted. Problems illustrating the theory and having practical application are required to be solved. Two hours. Assistant Professor MORTIMER.

2. *Elements of Electricity; Direct Current Motors and Generators; Design Work*.—Elements of electricity are studied during the first term and especial emphasis is laid upon the principles underlying the flow of currents. During the second term a study is made of direct current generators and motors, covering the laws of the magnetic circuit as applied to the dynamo. The course includes the design of electrical machinery and apparatus. An introductory study of alternating currents is also begun. Numerous problems are assigned throughout the course. Three hours. Assistant Professor MORTIMER.

4. *Electrical Measurements*.—A laboratory course for Juniors. Selected experiments. Foster's Hand-book and special laboratory notes are used for reference. Two three-hour periods, first term. Assistant Professor MORTIMER and Mr. WOODWARD.

5. *Electrical Laboratory*.—Experiments and tests involving the operation of direct-current dynamos and motors, including tests of motors in service, operating elevators, street cars, and machinery of various kinds. Text-book: Sever and Townsend's "Laboratory and Factory Tests in Electrical Engineering." Two three-hour periods, second term. Assistant Professor MORTIMER and Mr. WOODWARD.

6. *Industrial Electricity*.—A practical course intended for Juniors in Civil Engineering, embracing the selection and operation of electrical

machinery, electrical railways and other applications of electric motors. Two hours, first term. Mr. WOODWARD.

7. *Electrical Engineering*.—A course in theoretical and applied electricity intended for Seniors in Mechanical Engineering. It embraces the selection and operation of electrical machinery, the location, construction, and operation of power plants, electric railways and transmission lines, the use of electric motors for driving machinery, and the working of storage batteries, elevators, hoists, and cranes. Three hours. Mr. WOODWARD.

8. *Electrical Design*.—A course for Seniors in Electrical Engineering, embracing calculation and design of electrical machinery and accessories, including switchboards, rheostats, instruments, and arrangement of same. One recitation period and one drawing period.

Second Section. For Undergraduates and Graduates

21. *Alternating Current Theory and Machinery*.—A course for Seniors in Electrical Engineering, covering the principles of single as well as polyphase currents, including study of machines, circuits, transformers, etc. Four hours. Assistant Professor MORTIMER.

22. *Electrical Distribution*.—A course for Seniors in Electrical Engineering, covering the whole field of distribution of electricity for light and power. Text-book: Ferguson's Elements of Electrical Transmission. Two hours. Assistant Professor MORTIMER.

23. *Electrical Applications*.—A course for Seniors in Electrical Engineering, covering the more important applications of electricity, such as motive power, including elevators, hoists and machine drive, telephony, telegraphy, electro-metallurgy, etc. One hour. Mr. WOODWARD.

24. *Advanced Laboratory Work for Seniors in the Electrical Engineering Course*.—Covers test and experimental work with direct and alternating currents, tests of machines, circuits, transformers, circuits containing inductance and capacity, measurement of power in alternating current circuits, plotting of curves, etc. Text-book: Sever and Townsend's Laboratory and Factory Tests in Electrical Engineering, with Foster's Electrical Engineer's Hand-book for general reference. Two three-hour periods. Assistant Professor MORTIMER.

25. *Inspection of Plants and Industrial Works*.—In the vicinity of Washington and Baltimore are a number of modern electric lighting and street railway plants, telephone exchanges, telegraph operating rooms, Government laboratories devoted to special work, etc., which afford students of Electrical Engineering an opportunity to familiarize themselves with nearly all types of apparatus in use. The visits are followed by class discussion based on written description submitted by the students.

26. *Electric Lighting and Illumination*.—A course for Seniors in Electrical Engineering covering the subject of electric lighting and illumination, including detailed study of different types of lamps, shades, ar-

rangement of light sources, effect of walls, etc. Two hours. Mr. WOODWARD.

27. *Electric Railways*.—A course for Seniors in Electrical Engineering covering the theory and practice of modern, direct and alternating current railways. Two hours, second term. Assistant Professor MORTIMER.

28. *High Frequency Current*.—A lecture course covering the theory of high frequency and oscillatory currents and their application to wireless telegraphy and telephony. The condenser discharge, the theory of resonance in coupled circuits, and electromagnetic waves will be treated. The design of wireless telegraph and telephone apparatus will also be discussed. The class will meet in the laboratory from time to time to familiarize themselves with the use of wireless apparatus. One period. Dr. GORDON.

Juniors and Seniors in Electrical Engineering are expected to attend the monthly meetings of the Washington Branch of the American Institute of Electrical Engineers.

Third Section. Primarily for Graduates

52. *Advanced Course in the Mathematical Theory of Alternating Currents*.—Assistant Professor MORTIMER.

53. *Advanced Course in Polyphase Currents*.—Assistant Professor MORTIMER.

54. *Advanced Laboratory Work, Alternating (including Polyphase) Current Apparatus*.—Assistant Professor MORTIMER.

55. *Advanced Electric Railways*.—A course including a short history of electric railways, calculation of the theoretical curves, study of different systems and examples of modern installations. Philip Dawson's *Electric Traction on Railways* is used as a basis for the course. Assistant Professor MORTIMER.

Graphics

First Section. Primarily for Undergraduates

1. *Mechanical and Freehand Drawing*.—A general course embracing the care and use of instruments; orthographic and isometric projections; sections and intersections; curve plotting; sketching of simple machine details; freehand lettering; principles of working drawings. Two three-hour periods. Assistant Professor STARR.

2. *Advanced Mechanical Drawing*.—A course in working drawings especially designed for Electrical and Mechanical Engineering students. Drawing-room rules and practice; conventional forms and standards; arrangement of views and sections; freehand shop-sketches; detailing from sketches, models and general drawing; proportioning by empirical formulas. Two three-hour periods. Assistant Professor STARR.

8. *Descriptive Geometry*.—A study of the representation of lines, surfaces, and solids, and of their relations; tangencies, intersections, and

developments; warped surfaces; shades and shadows; original construction problems. Two lectures and one drawing period. Assistant Professor STARR.

Mechanical Engineering

First Section. Primarily for Undergraduates

1. *Mechanism*.—A course in the systematic study of the kinematics of machinery, in which mechanical movements are reduced to scientific analysis. Carefully developed problems and diagrams of changes of position and speed in mechanisms are constantly used.

Some attention is given to the design of gear teeth, and twenty-five hours in the second term are devoted to valve gears for steam engines. Three lectures and one drawing period. Mr. MORSE.

6. *Engineering Drawing*.—This course provides for the application of the principles taught in the courses of Mechanism and Steam Engineering to specific problems. Practice is given in the design of valve gears and quick return motions, and in the determination of velocity diagrams for special engine and other linkages. There is also included the complete working drawings for a steam boiler. Two three-hour periods. Mr. MORSE.

7. *Machine Design*.—This course is an application of principles already acquired to problems in design, each student being required to complete every detail of the design undertaken.

The subjects taken as design problems are:

The complete design of a horizontal single cylinder gas engine, or the design of a steam boiler, a series of shaft couplings, and a fly wheel.

The constructive details and calculations are discussed and the limitations of theoretical and empirical formulas pointed out. One lecture-recitation hour and five hours in the drawing room. Mr. MORSE.

9. *Engineering Laboratory*.—A course of practical work in testing general engineering apparatus for efficiency. The work consists in indicating steam engines; determining the evaporative efficiency of boilers; tests on the strength of materials; measurement of the flow of water; gas-engine brake tests; refrigeration tests, and fuel value determinations. Two three-hour periods, second term. Mr. MORSE and Dr. GORDON.

10. *Engineering Laboratory*.—This course is a completion of Course 9. Two three-hour periods. Mr. MORSE and Dr. GORDON.

Second Section. For Undergraduates and Graduates

20. This course deals with the principles of thermo-dynamics; the properties of gases and vapors, especially steam, and the flow of steam through nozzles. The application of the above principles is discussed and the simple and compound steam engine and the steam turbine are studied. Three hours, first term. Dr. GORDON.

21. *Boilers and Power Plant Accessories*.—This course is devoted to a study of boilers, condensers, feed pumps, economizers, stokers, and other power-plant accessories. The design of power plants will be discussed. Three hours, second term. Dr. GORDON.

22. *Gas Engines and Compression and Refrigeration Machinery*.—This course deals with the theory and practice concerning the internal combustion motor. During the second half of the term the theories and principles involved in compression machinery and artificial refrigeration will be discussed. Three hours, second term. Dr. GORDON.

23. *Hydraulic Machinery*.—This course provides for an elementary study of hydraulic prime movers and pumping machinery. It includes a discussion of the theory and design of turbines and turbine blades for low and high heads, and turbine governors.

The course will also treat of impulse wheels; water motors of the piston type; machinery for the utilization of hydraulic pressure; hydraulic pressure pumps, and hydraulic presses; hydraulic tools; pumps operated by steam, electricity, or power; and high duty pumps and water meters. Two hours, second term. Mr. MORSE.

24. *Cotton Machinery and Machine Tools*.—A study of the mechanisms found in cotton machinery and machine tools. Two hours. Mr. MORSE.

26. *Dynamics of Machines*.—A course including a number of the principal applications of dynamics to moving machinery, such as governors, fly-wheels, and the effect of the reciprocating parts of the steam engine. Two hours. Mr. MORSE.

27. *Power-Plant Design*.—This course provides for the design with complete plans and specifications of a power plant of industrial proportions by the student. One lecture-recitation hour and two three-hour drawing periods, first term. Dr. GORDON.

28. *Industrial Management*.—A course dealing with the business systems of manufacturing establishments.

The work includes a study of the organization and relations of the various departments of an industrial establishment, both in the office and in the workshop. It also discusses the conduct of accounts, the method of superintendence and of compensating labor, the determination of the cost of production, and the effect on costs of different systems of distributing indirect expenses. Two hours, second term. Mr. MORSE.

ENGLISH

WILLIAM ALLEN WILBUR, A.M.....	Professor
RICHARD COBB, A.B.....	Assistant Professor
GERTRUDE R. BRIGHAM, A.B.....	Assistant

First Section. Primarily for Undergraduates

1. *English Rhetoric*.—A study of the principles of self expression through language with practice in composition. Tu., Th., Sat., at 10.15. Professor WILBUR.

2. *English Rhetoric*.—Parallel with Course 1. *Mon., Wed., Fri.*, at 5.00. Professor WILBUR.

NOTE.—Credit for Course 1 or 2 is requisite for admission to any other course in English.

3. *Humanistic Studies, 1914-15*.—Ecclesiastical Polity, Book 1; The Prelude; The Federalist. *First half-year*. The Poetry of John Milton. *Second half-year*. *Tu., Th., Sat.*, at 9.15. Professor WILBUR.

4. *Humanistic Studies, 1914-15*. The Works of Nathaniel Hawthorne, *First half-year*. The Ring and the Book. *Second half-year*. *Mon., Wed., Fri.*, at 5.50. Professor WILBUR.

5. *General Survey of English and American Literature*.—The course gives a brief history of English literature to 1600; from 1600 to 1900 it offers also knowledge of representative authors through prescribed reading. *Tu., Th.*, at 2.45. Assistant Professor COBB.

Second Section. For Undergraduates and Graduates

20. *English Composition*.—*Tu., Th.*, at 11.15. Assistant Professor COBB.

22. *Shakespeare*.—The Histories and Comedies. Given 1914-15. *Mon., Wed., Fri.*, at 9.15. Professor WILBUR.

23. *Shakespeare*.—The Tragedies. Given 1914-15. *Tu., Th.*, at 5.00. Professor WILBUR.

(The Temple edition of Shakespeare is recommended.)

26. *Chief American Poets*.—Studies in Poetry. Not given in 1914-15.

Third Section. Primarily for Graduates

54. *English Seminar*.—Graduate students engaged in individual research will discuss assigned topics in a seminar of English studies, meeting each week at an appointed time.

FRENCH

See Romance Languages.

GEOLOGY AND MINERALOGY

GEORGE PERKINS MERRILL, Ph.D. Professor
RAY SMITH BASSLER, Ph.D. Assistant Professor

First Section. Primarily for Undergraduates

1. *Mineralogy*.—Crystallographic, descriptive, and determinative mineralogy. This course is designed with especial reference to minerals as rock constituents or segregated as ore deposits. It includes, therefore, a discussion of not merely the crystallographic and theoretical, but the practical side of the subjects as well. Whenever possible, it should be

considered as introductory to the courses in either systematic or economic geology. *Mon., Fri.*, at 5.00. Assistant Professor BASSLER.

2. *Geology*.—Systematic geology; dynamical, structural and stratigraphical. The course is designed to form a part of a general-culture course, or a preliminary course for those intending to make a specialty of geology. It includes lectures, recitations, laboratory and field work so far as hours will permit. Paleontology is treated as a branch of geology, having especial reference to stratigraphy and correlation. Text-books: Blackwelder and Barrows' *Elements of Geology*; Merrill's *Rocks, Rock Weathering, and Soils*. *Mon., Fri.*, at 5.50. Professor MERRILL and Assistant Professor BASSLER.

Second Section. For Undergraduates and Graduates

20. *Economic Geology*.—[Geology 1 and 2 and Chemistry 1 are prerequisite for this course.] The course covers the subjects comprised under: (1) Mineral veins and metalliferous deposits, their mode of occurrence, origin, and classification; (2) the ores of iron, copper, lead, zinc, tin, silver, gold, mercury, antimony, etc.; and (3) the non-metallic minerals as the coals and hydrocarbon compounds; salts and materials used in chemical manufactures; abrasive, refractory, and fictile materials, pigments, gems, ornamental stones, building stones, limes, cements, and mineral waters. Text-books: Lindgren's *Mineral Deposits*. Merrill's *Stones for Building and Decoration and The Non-Metallic Minerals*. Given in alternate years. Professor MERRILL.

21. *Paleontology*.—A course in lecture and laboratory work on the biological and geological relations of the more important types of animals and plants, with especial reference to their value in stratigraphic geology. Assistant Professor BASSLER.

Third Section. Primarily for Graduates

50. *Advanced Geology and Paleontology*.—The student in this course may devote his time largely, if necessary, to perfecting himself in methods; to general work in the laboratory and in the field; to the examination of geological materials, and to familiarizing himself with the literature of the subject.

GERMANIC LANGUAGES AND LITERATURE

HERMANN SCHOENFELD, Ph.D., LL.D. Professor
ALFRED FRANCIS WILLIAM SCHMIDT, A.M. Professor

First Section. Primarily for Undergraduates

1. *Elementary*.—The essentials of German grammar; translation of prose and poetry; beginning conversation; composition and dictation. This course is open only to beginners, and the work done is equivalent

to that of a two years' course in high schools and academies of good standing. *Tu., Th., Sat.*, at 11.15. Professor SCHOENFELD.

2. Parallel with Course 1. *Tu., Th., Sat.*, at 5.00. Professor SCHMIDT.

3. Selected texts from the best contemporary authors will be read and one or more of the German classics carefully studied. The work in grammar and composition done in elementary German will be continued, with special emphasis on syntax, word-formation, and the relationship of German and English; conversation continued. This course is equivalent to the advanced German of the admission requirements, and it is open only to students who have passed Course 1 or 2, or have satisfied the admission requirement in elementary German. *Mon., Wed., Fri.*, at 11.15. Professor SCHOENFELD.

4. Parallel with Course 3, except that in the second term scientific German is read. *Tu., Th., Sat.*, at 5.50. Professor SCHMIDT.

5. Advanced course in German syntax; principal difficulties of the language: idioms; synonyms; extensive translations of English prose into German; essays; selected advanced prose; classical reading and literature; German history. Open to students who have passed Course 3 or have satisfied the admission requirement in advanced German. *Mon., Wed., Fri.*, at 1.45. Professor SCHOENFELD.

6. Parallel with Course 5, with special reference to advanced students both in the historico-political and the scientific departments. *Tu., Th.*, at 5.00. Professor SCHOENFELD.

Second Section. For Undergraduates and Graduates

20. *Outline of the History of German Literature and Civilization from the Renaissance and Reformation Period until Goethe's Death*, with special attention to the relation of literature and the other fields of culture—Lectures, extensive readings of the classics; advanced practice in writings, essays. *Mon. Wed., Fri.*, at 10.15. Professor SCHOENFELD.

21. *German Literature of the Classic Period at its Zenith*.—Goethe's and Winckelmann's influence on German art; with special reference to the modern German drama; classical ballad and lyric poetry; renaissance of the German volkslied in the eighteenth and nineteenth centuries. Not given in 1914-15. Professor SCHOENFELD.

22. *The Currents of German Literature from the beginning of the Nineteenth Century until 1870*.—Romanticism; Modern German Drama, with special emphasis on Kleist, Grillparzer, Hebbel; Lyrics and Ballads: Uhland and Heine. *Tu., Th., Sat.*, at 10.15. Professor SCHOENFELD.

Third Section. Primarily for Graduates

50. *Seminar in the History of Middle High German Literature*, with special reference to the Epic and Lyrical Poetry in the Twelfth and Thirteenth Centuries. Introduction to scientific methods of historical and literary research in the Nibelungenlied and the Gudrunsaaga. Professor SCHOENFELD.

51. *Gothic*.—Introduction to comparative Indo-European Grammar. Two hours. Professor SCHMIDT.

52. *Old High German*.—The development of the German language. Two hours. Professor SCHMIDT.

Only one of the foregoing two courses (51, 52) is given in any one year.

For notice of the Richard Heinzel Germanic Library, see page 33.

HISTORY

CHARLES CLINTON SWISHER, Ph.D., LL.D.....	Professor
LESLIE C. MCNEMAR, A.B.....	Assistant Professor
LEVI RUSSELL ALDEN, A.M.....	Assistant Professor

First Section. Primarily for Undergraduates

1. *Mediaeval History*.—A history of the settlement of the Germanic tribes in the territory of the Empire, with a study of feudal institutions, extending through the movements of the Crusades; texts, with assigned readings. First half-year. *Mon., Wed., Fri.*, at 2.45. Professor SWISHER.

2. *Mediaeval History*.—A history of the evolution of national government extending through the periods of the Renaissance and the Protestant Revolution; texts and assigned readings. Second half-year. *Mon., Wed., Fri.*, at 2.45. Professor SWISHER.

3. *Modern European History*.—A study of the European States under the new conditions resulting from the discovery of America and the opening of the oriental trade routes, extending through the period of the French Revolution; texts, lectures, and collateral readings. First half-year. *Mon., Wed., Fri.*, at 3.45. Professor SWISHER.

4. A continuation of the preceding through the revolutionary movements of the nineteenth century, with a more detailed study of recent issues; texts, lectures, and collateral readings. Second half-year. *Mon., Wed., Fri.*, at 3.45. Professor SWISHER.

5. *Mediaeval History*.—Parallel with Course 1. First half-year. *Tue., Th., Sat.*, at 5.50. Professor SWISHER.

6. *Mediaeval History*.—Parallel with Course 2. Second half-year. *Tu., Th., Sat.*, at 5.50. Professor SWISHER.

Second Section. For Undergraduates and Graduates

25. *English History*.—A general course dealing primarily with the political, economic, and social development; the growth of the Constitution; the relation of church and state; the domestic, foreign and colonial policies; noting the men and events worthy of consideration in determining the causes and results inherent in this development. Text-book and lectures. First half-year. *Tu., Th., Sat.*, at 11.15. Not given 1914-15; alternates with Political Science 31. Assistant Professor McNEMAR.

30. *American Constitutional History*.—A history of the origin and development of the Federal Constitution of 1789, with a study of its interpretation under the pressure of party issues. Lectures, text-books, and collateral readings. *Tu., Th., Sat.*, at 5.00. Professor SWISHER.

33. *Current History*.—A discussion of political questions of the day, with special reference to their origin and historical significance. Lectures throughout the year. *Sat.*, at 11.15. Professor SWISHER.

Third Section. Primarily for Graduates

54. *Seminar Work*.—The results of individual research, conducted by graduate students upon assigned topics, will be discussed at the weekly meetings of the seminars of American and Modern European History.

Undergraduate students qualified by previous historical study, who desire to do intensive work with a view to gaining fuller information upon special periods or facility in the use of historical materials, may, with the approval of the instructor, be admitted to the historical seminars.

MATHEMATICS

HOWARD LINCOLN HODGKINS, Ph.D.....	Professor
ASAPH HALL, JR., Ph.D.....	Professor
H. GRANT HODGKINS, A.B.....	Instructor
WILLIAM WRIGHT FRASER, A.B., B.L.....	Lecturer

First Section. Primarily for Undergraduates

3. *Solid Geometry; College Algebra; Plane Trigonometry*.—*Mon., Wed., Fri.*, at 9.15. Professor HODGKINS.

4. *Algebra; Plane Trigonometry*.—*Mon., Wed., Fri.*, at 5.00. Mr. HODGKINS.

6. *Solid Geometry; College Algebra; Plane Trigonometry*.—*Mon., Wed., Fri.*, at 5.50. Mr. HODGKINS.

9. *Trigonometry; Analytic Geometry.*—Mon., Wed., Fri., at 10.15.
Professor HODGKINS.

12. *Trigonometry; Analytic Geometry.*—Mon., Wed., Fri., at 5.50.
Professor HODGKINS.

Second Section. For Undergraduates and Graduates

20. *Differential and Integral Calculus; Elements of differential equations.* Tu., Th., Sat., at 5.00. Professor HODGKINS.

21. *Differential and Integral Calculus; Elements of differential equations.* Tu., Th., Sat., at 9.15. Professor HODGKINS.

Third Section. Primarily for Graduates

50. *Differential Equations.*—Professor HODGKINS.

58. *Celestial Mechanics.*—Theory of central forces; theory of parabolic and elliptic orbits. Lectures, with reading from the works of Gauss, Oppolzer, and Moulton. Professor HALL.

59. *Vector Analysis.*—This course is designed to give the elements of an analysis based chiefly on the method of the late Professor Gibbs (of Yale), but extended so as to embrace the quaternion idea. Application is made to problems in both Geometry and Physics, including vector calculations applied to alternating currents. Mr. FRASER.

MECHANICAL ENGINEERING

See Engineering.

METEOROLOGY

WILLIS LUTHER MOORE, D.Sc., LL.D.....Professor
WILLIAM JACKSON HUMPHREYS, Ph.D.....Professor

Third Section. Primarily for Graduates

50. *Applied Meteorology.*—Investigation of the underlying laws governing meteorological phenomena and of the methods employed in practice for their interpretation and applications. Professor MOORE.

51. *Meteorological Physics.* This course presupposes collegiate training in general physics. Particular attention will be given to the interpretation of meteorological phenomena in the light of modern physics; and those wishing to make this their principal study will be assisted in the selection of a suitable problem for investigation and advised in the collection of data necessary to its solution. Professor HUMPHREYS.

NAUTICAL SCIENCE

GEORGE WASHINGTON LITTLEHALES, C.E.....Professor

First Section. Primarily for Undergraduates

1. *Nautical Science*.—Navigation; nautical astronomy; nautical almanac; production and use of nautical charts; tides; applications of meteorology, terrestrial magnetism and oceanography to navigation; deviation of the compass in iron and steel ships; theory and use of instruments of navigation. Professor LITTLEHALES.

Third Section. Primarily for Graduates

50. *Nautical Science*.—Special study of one or more topics. Conferences, assigned readings, direction of research. Professor LITTLEHALES.

PHILOSOPHY AND PSYCHOLOGY

WILLIAM CARL RUEDIGER, Ph.D.....	Professor
SHEPHERD IVORY FRANZ, Ph.D.....	Professor
EDWARD ELLIOTT RICHARDSON, Ph.D.....	Professor

First Section. Primarily for Undergraduates

1. *General Psychology*.—An introductory study of the principal facts and laws of the mental life. *Mon., Fri.*, at 10.15. Professor RUEDIGER.

2. *General Psychology*.—Parallel with Course 1. *Mon., Fri.*, at 5.00. Professor RUEDIGER.

3. *Logic and Theory of Knowledge*.—Principles of deductive and inductive inference, followed by a study of the nature and structure of knowledge, its organization, and its relation to language. *Wed.*, at 10.15. Professor RUEDIGER.

4. *Logic and Theory of Knowledge*.—Parallel with Course 3. *Wed.*, at 5.00. Professor RUEDIGER.

(Courses 1 and 3, or 2 and 4 are planned to be taken together, but may be taken separately and are intended to satisfy the requirements in Psychology and Logic of Groups I to IV (pp. 69-70). They are introductory to the remaining courses in Philosophy and Education, and should be taken in the Sophomore year by students intending to pursue advanced courses or courses in Education.)

Second Section. For Undergraduates and Graduates

20. *History of Philosophy*.—The more important epochs in the history of thought. Attention is directed to the relation of these distinctive periods to the course of the world's progress. First half-year. *Tu., Th., Sat.*, at 10.15. Professor RICHARDSON.

21. *Ethics*.—A historical and theoretical course, with the aim of acquainting the student with the principal ethical theories. Reference is made to the application of these theories to concrete conditions. Second half-year. *Tu., Th., Sat.*, at 10.15. Professor RICHARDSON.

24. *History of Philosophy*.—The development of philosophy, its nature and problems. This course while introductory is designed to be comprehensive and to give the student a general survey of the philosophic field. Tu., Th., at 5.00. Professor RICHARDSON.

25. *Experimental Psychology*.—An introductory laboratory course. Experiments on sensation, movement, effects of practice, memory and association, emotional manifestations, etc. This course may be taken parallel with Course 1 or 2. To be taken by graduate students who have not had experimental psychology and who are taking a major or minor in psychology. Th. 4-5.50. One hour credit. Professor RUEDIGER.

27. *Recent Philosophical Movements*.—A consideration of the various philosophical movements and tendencies of the immediate past. A critical study of the occasion and meaning of the trend of thought at the present time. Lectures and reading of recent books and periodicals. Not given in 1914-15. Professor RICHARDSON.

28. *Philosophy of Nature*.—A critical examination of the concepts of physical science. An investigation of the significance of scientific laws and theories. Wed. at 5.00. Professor RICHARDSON.

(Courses 27 and 28 are given in alternate years)

29. *Problems of Philosophy*.—An advanced course dealing with philosophical questions from the standpoint of the questions themselves rather than as these have been presented historically. A critical and constructive examination of fundamental philosophic principles and problems. Lectures, readings and reports. Second half-year. Two hours. Time to be arranged. Professor RICHARDSON.

Third Section. Primarily for Graduates

50. *Seminar in Psychology*.—During the year 1914-15 this course will be combined with Education 50. Professor RUEDIGER.

51. *Metaphysics*.—The principles of metaphysics and the problems of philosophy. An advanced course tracing the origin and development of metaphysical questions, and a critical examination of the attempted solution of these problems. Readings, conferences and written reports. Professor RICHARDSON.

52. *Advanced Experimental, Abnormal or Physiological Psychology*.—Course to be altered in different years in accordance with the needs of students. Prerequisite—courses in general psychology, and introductory experimental psychology. Conferences, reading of recent literature, and demonstrations. Professor FRANZ.

53. *Research in Psychology*. Advanced students, who select psychology as major or minor for the degree of A.M. or Ph.D., will be given special topics for investigation in abnormal, physiological or experimental psychology. To be preceded or accompanied by Course 52 or its equivalent. Professor FRANZ.

PHYSICS

HOWARD LINCOLN HODGKINS, Ph.D.....	Professor
HAYNER HASKELL GORDON, Ph.D.....	Instructor
CHARLES EDWIN VAN ORSTRAND, S.M.....	Lecturer
HARVEY LINCOLN CURTIS, Ph.D.....	Lecturer
LOUIS COHEN, B.S.....	Lecturer

First Section. Primarily for Undergraduates

1. *General Physics*.—A recitation and lecture course, embracing the fundamental principles of mechanics, sound, heat, light, and electricity. The lectures are illustrated by experiments. This is a required course for Sophomores in Engineering, and may be elected by the general student who has had a college course in trigonometry. *Mon., Wed., Fri.*, at 5.00. Professor HODGKINS.

2. *Laboratory Physics*.—A selected series of experiments, mainly quantitative. Two two-hour periods. *Tu., Th.*, at 10.15 or *Tu., Th.*, at 7.30. Professor HODGKINS and Dr. GORDON.

3. *Introductory General Physics*.—A lecture and recitation course, similar to Course 1, but less mathematical, and planned with reference to the needs of the general student. *Mon., Wed., Fri.*, at 1.45. Professor HODGKINS.

Second Section. For Undergraduates and Graduates

21. *Heat*.—A lecture and laboratory course, based on Preston's Theory of Heat and Poynting and Thomson's Heat. Three periods. Not given in 1914-15.

22. *Light*.—A lecture and laboratory course, based on Preston's Theory of Light and Schuster's Theory of Optics. Three periods. Not given in 1914-15.

Third Section. Primarily for Graduates

56. *Electricity*.—Theory of electric oscillations, with applications to wireless telegraphy and telephony. Mr. COHEN.

57. *Kinetic Theory*.—The physical properties of gases discussed from the standpoint of general dynamics. Free path phenomena including viscosity, diffusion, heat conduction, and molecular aggregation and dissociation. Jean's Dynamical Theory of Gases. A lecture and seminar course. *Mon.*, at 4.50. Mr. VAN ORSTRAND.

58. *Elasticity*.—The physical properties of solids as applied to problems in geophysics. The theories of homogeneous stress and strain. Potential energy of strained solids. Transmission of force. Propagation of earthquake waves. Love's Mathematical Theory of Elasticity. A lecture and seminar course. *Mon.*, 4.50. Not given in 1914-15. Mr. VAN ORSTRAND.

59. *Theoretical Electricity*.—A lecture course on the Mathematical theory of Electricity, using J. J. Thomson's Elements of Electricity

and Magnetism as a basis. The fundamental propositions of electrical theory are discussed, and their applications to practical problems are pointed out. The solution of a number of problems is also required. Dr. CURTIS.

POLITICAL SCIENCE

CHARLES HERBERT STOCKTON, LL.D.....In charge of Department
LESLIE CLEVELAND McNEMAR, A.B.....Assistant Professor
OSCAR PHELPS AUSTIN, A.M.....Lecturer

First Section. Primarily for Undergraduates

1. *Elements of Political Science*.—An elementary course designed to familiarize the student with the nature and scope of politics as a science; the origin, nature and functions of the state; the distinction between sovereignty and government; the distribution of powers, and particularly the relation of the individual to the state and the attendant obligations of citizenship. Recommended as a prerequisite to the succeeding courses. Text-book and lectures. First half-year. *Tu., Th., Sat.*, at 5.00. Assistant Professor McNEMAR.

2. *European Governments*.—A comparative study of the political organization of the principal states of Europe, involving a classification of the state, and the nature of its government on the basis of the source of power; further, an examination of the relation of the executive, legislative and judiciary departments, to each other, and the nature of the party system in each. Text-book and lectures. Second half-year. *Tu., Th., Sat.*, at 5.00. Alternates with Pol. Sci. 4. (Not given in 1914-15.) Assistant Professor McNEMAR.

4. *Political Parties and Party Problems in the United States*.—A study of the organization and methods of action; growth of the party system; primary and convention system; permanent party organization; elements of cohesion in parties; reform movements and measures; theories of the party system. Text-book, assigned readings and lectures. Second half-year. *Tu., Th., Sat.*, at 5.00. Alternates with Pol. Sci. 2. (Given in 1914-15.) Assistant Professor McNEMAR.

Second Section. For Undergraduates and Graduates

21. *American Government*. A study of the governmental system of the United States; origin, adoption, and growth of the federal Constitution; the relation of the Federal to the State governments, and their organization; the basis of suffrage, influence of public opinion, and political parties. Recommended as a prerequisite to the succeeding courses. Text-book, lectures, and assigned readings. First half-year. *Tu., Th., Sat.*, at 10.15. Assistant Professor McNEMAR.

22. *Federal Government*.—A study of the political problems involved in the organization of the federal government under the present Constitution, including foreign relations, concentration of power, cen-

tralization or responsibility, relation of the executive, legislative and judiciary departments, and the importance of their subdivisions. Text-book, lectures, and assigned readings. Second half year. *Tu., Th., Sat.*, at 10.15. Alternates with Pol. Sci. 23. (Not given in 1914-15.) Assistant Professor McNEMAR.

23. *Municipal Government in the United States*.—A study of the relation of the city to the state and the nation, including the source of power, their organization and administration; the problems arising from rapid growth, powers and liabilities, their influence upon politics, and the necessity for scientific administration as economic units. Text, lectures, and assigned readings. Second half-year. *Tu., Th., Sat.*, at 10.15. Alternates with Pol. Sci. 22. (Given in 1914-15.) Assistant Professor McNEMAR.

27. *Political History of Modern Europe, 1850 to the Present*.—A concise study of the political development of the principal European states dealing primarily with the causes and effects involved in the struggle for national unity, with special attention to political organization, the forms of government, and the policies of larger European interest such as colonization and international relations in South America, Asia, and Africa. Text-book and lectures. Second half-year. *Tu., Th.*, at 11.15. Alternates with Pol. Sci. 28. (Not given in 1914-15.) Assistant Professor McNEMAR.

28. *Political History of South America, 1810 to the Present*.—A general study of the political development of the States of South America, individually and collectively, dealing primarily with the causes and effects involved in their struggle for national, economic, social and political development, with special attention to the questions of foreign relations. Text-book and lectures. Second half-year. *Tu., Th., Sat.*, at 11.15. Alternates with Pol. Sci. 27. (Given in 1914-15.) Assistant Professor McNEMAR.

29. *Principles of International Law*.—A concise study of the nature, sources and sanctions of International Law. The laws of peace deal with the origin, classification, and essential rights and duties of states but not diplomatic relations; the laws of war deal with the sources and general relations between belligerents together with the rights and duties of neutrals. Lectures, text, assigned cases and additional readings and papers on selected topics. First half-year. *Mon., Wed., Fri.*, at 5.00. Lectures and assigned readings, President STOCKTON, *Wed.* at 5.00; supplemented by seminar and case instruction, Assistant Professor McNEMAR, *Mon., Fri.*, at 5.00.

30. *Elements of Diplomacy and Diplomatic Usage*.—A thorough study of the general principles of diplomatic usage; the history and organization of the Department of State; the rights, privileges and immunities of diplomatic and consular officers; the preliminaries, drafting, signing, and ratification of treaties, and an investigation of other amicable means for settling International Differences. Lectures, text, assigned cases and additional readings and papers on selected topics. Second

half-year. *Mon., Wed., Fri.*, at 5.00. Lectures and assigned readings, President STOCKTON, *Wed.*, 5.00; supplemented by seminary and case instruction, Assistant Professor McNEMAR, *Mon., Fri.*, at 5.00.

31. *Government of England.*—A detailed study of the English governmental system compared with the presidential system of the United States. The organization, functions and procedure, of the crown and the ministry, parliament (particularly the House of Commons), political parties, the judiciary, and local government will be clearly shown. Text and assigned reading. First half-year. *Tu., Th., Sat.*, at 11.15. (Co-ordinating with History 25.) Assistant Professor McNEMAR.

32. *The Consular Service.*—The history and development of the Consular Service of the United States; its present organization; the rights, duties, and methods of procedure of consular officers; the consular conventions of the United States; comparative study of modern consular establishments. First half-year. *Tu., Th.*, at 5.50. Mr. AUSTIN.

33. *Colonial Administration.*—A study of the executive, legislative, and judicial organization and the administration of laws in existing colonies; and investigation of the industries, labor, and education in these colonies. The organization and administration of the insular possessions of the United States. Second half-year. *Tu., Th.*, at 5.50. Mr. AUSTIN.

Third Section. Primarily for Graduates

54. *Conflict of Laws or Private International Law.*—A course dealing with private law in its international aspects. Among the topics treated are marriage and divorce, guardianship, wills, and the administration of estates, bankruptcy, and foreign judgments. Open only to students who have had instruction in the fundamental subjects of American Law. Two hours. Professor GREGORY.

56. *Seminar in Political Science.*—Students competent to undertake advanced work are admitted to this seminar for the presentation and discussion of essays and topics belonging to the field of political science. Hours and credit to be arranged for the work each half year. Assistant Professor McNEMAR.

PREVENTIVE MEDICINE

GEORGE MILLER STERNBERG, M.D., LL.D. Professor

Third Section. Primarily for Graduates

50. A seminar course dealing with vital statistics; etiology and prevention of infectious diseases; causes and prevention of infant mortality; prevention of disease of occupation; protective inoculations; municipal hygiene; national and interstate preventive measures. Professor STERNBERG.

ROMANCE LANGUAGES AND LITERATURES

GEORGE NEELY HENNING, A.M.....	Professor
EDWARD CULLOM, A.M.....	Instructor in French
WALTON COLCORD JOHN, A.B.....	Instructor in Spanish

French

First Section. Primarily for Undergraduates

1. *Grammar, Composition, Drill in Pronunciation.*—Fraser and Squair's French Grammar. Translation and reading of nineteenth century fiction and history. (400-500 pages.) For beginners. *Mon., Wed., Fri.*, at 11.15. Professor HENNING.
2. Parallel with Course 1. Fraser and Squair's French Grammar. *Tu., Th. Sat.*, at 5.50. Professor HENNING.
3. *Translation, Reading, Grammar, Composition.*—Fraser and Squair's French Grammar. First text, Feuillet, "le Roman d' un jeune homme pauvre" (Heath); other texts to be announced. Open to students who have passed in French 1 or 2, or have fulfilled the admission requirements in Elementary French. *Mon., Wed., Fri.*, at 10.15. Professor HENNING.
4. Parallel with Course 3. Fraser and Squair's French Grammar. First text, Feuillet, "le Roman d' un jeune homme pauvre" (Heath); other texts to be announced. *Tu., Th., Sat.*, at 5. Professor HENNING.
6. *General Survey of French Literature, Nineteenth to Seventeenth Centuries.*—Translation, collateral reading and reports thereon, lectures on literature and the history of the language, composition. Open to students who have passed in Course 3 or 4, or have fulfilled the admission requirements in Advanced French. *Mon., Wed., Fri.*, at 3.45. Professor HENNING.

Second Section. For Undergraduates and Graduates

Courses in this group are open to students who have passed in Course 6, or who otherwise satisfy the instructor of their fitness to take them.

21. *Seventeenth Century Literature.*—History, philosophy, criticism, memoirs, letters, eloquence, drama, fiction, poetry. Balzac, Descartes, Pascal, La Rochefoucauld, La Bruyère, Boileau, Saint-Simon, Mme de Sévigné, Bossuet, Corneille, Racine, Molière, Fénelon, Malherbe, La Fontaine, etc. Translation, collateral reading and reports thereon, lectures on literature and history. Not given in 1914-15.

26. *Literature of the First Half of the Nineteenth Century.*—History, criticism, travels, fiction, drama, lyric poetry. Balzac, Baudelaire, Chateaubriand, Gautier, Hugo, Lamartine, Michelet, Musset, Sainte-Beuve, George Sand, Thierry, Vigny, etc. Translation, collateral reading and reports thereon, lectures on literature and history. Not given in 1914-15. Professor HENNING.

28. *Literature of the Second Half of the Nineteenth Century.*—History, philosophy, criticism, fiction, drama, lyric poetry. Augier, Brunetière, Daudet, Dumas fils, Flaubert, France, Heredia, Leconte de Lisle, Lemaitre, Loti, Maiterlinck, Renan, Rostand, Sully Prudhomme, Taine, Verlaine, etc. Translation, collateral reading and reports thereon, lectures on literature and history. *Mon., Wed., Fri., at 2.45.*

Third Section. Primarily for Graduates

57. *The Comedies of Molière.*—Professor HENNING.

60. *The Romantic Movement in France, with some reference to the same movement in England and Germany.* Professor HENNING.

Other courses may be arranged for competent graduates.

Spanish

First Section. Primarily for Undergraduates

1. *Grammar, Composition.*—Hills and Ford's Spanish Grammar. Translations and reading of nineteenth century fiction and drama. Open to first-year students only by permission of the instructor. *Mon., Wed., Fri., at 3.45.* Mr. JOHN.

2. *Translation of Modern Prose and Poetry.*—With much collateral reading. *Mon., Wed., Fri., at 1.45.* Mr. JOHN.

(A second section of this course will be given on *Tues.* and *Thurs.* at 5.00 if elected by a sufficient number of students.)

NEAL BRADFORD SPAHR, A.B.....	Assistant Librarian

GENERAL STATEMENT

The Law School, established in 1865, is the oldest school of law in the city of Washington. Its course of instruction for the degree of Bachelor of Laws, originally requiring but two years, was in 1898, in accordance with the recommendation of the American Bar Association, increased to three years. Since 1903 most of the important topics of substantive law have been in charge of professional law teachers giving their whole time to the work of legal instruction. Those branches of the law connected with practice are in charge of professors who are actively engaged in the administration of the law either at the bar or on the bench.

In 1877 a year of graduate work, leading to the degree of Master of Laws, was added to the course of instruction offered. A special course in Patent Law was added in 1895 and has been doubled in the present year.

In 1900 the Law School was one of the group of law schools which organized the Association of American Law Schools, and it has remained a member of this Association since that time. This Association includes forty-three of the best and most progressive law schools of the country and is committed to the policy of advancement in legal education.

THE ADVANTAGES OF WASHINGTON FOR THE STUDY OF LAW

To students of law, the peculiar advantages of Washington are manifest. The Supreme Court of the United States is in session during practically the entire school year. Students have the rare opportunity of hearing the arguments presented by leading American lawyers and the decisions of this high tribunal, which are delivered orally each Monday, upon the important legal questions which come before that court for final determination. Congress is in session during the winter, and here students see the practical workings of the largest and most important law-making body. The Department of Justice, the legal branch of the Federal Government, is also located in Washington. Besides the above there are also the United States Court of Claims, the United States Court of Customs Appeals, and the various local courts of the District of Columbia. The last-named courts exercise the unusual dual function of State and Federal courts. By means of attendance upon these courts students may familiarize themselves with all branches of legal procedure.

HOURS FOR LECTURES

The hours of instruction are 7.50-8.40 a.m., 9.00 a.m.-12.00 m., and 4.50-6.30 p.m. Many of the courses are duplicated, so that a student may, if he so desires, confine his work largely either to the forenoon or to the afternoon. Students who desire, or are compelled by circumstances, to support themselves by employment in the Government Service or elsewhere, or who desire to obtain practical experience in an attorney's office in addition to their work in law school, will find this arrangement of hours especially desirable. Such students may complete the full course for the degree, confining their attendance entirely from 4.50-6.30 p.m., or attending partly from 7.50-8.40 a.m. and partly from 4.50-6.30 p.m.

LOCATION

The Law School occupies the entire fifth and sixth floors of the New Masonic Temple, corner of New York Avenue, Thirteenth and H Streets N. W., and is easily accessible from all parts of the city. The quarters are well equipped with commodious class rooms, moot court rooms, offices, the law library, and a students room.

ACADEMIC YEAR

The academic year extends through more than eight months, beginning on the last Wednesday in September and ending on the Wednesday following the Wednesday nearest the first day of June, and is divided into two half-years, the second half-year beginning in 1914-15 on Monday, February 1. The session of 1914-15 begins on Wednesday, September 30, and closes Wednesday, June 9. Courses are so arranged that it is possible for a student to enter at the beginning of the second semester of any year and be graduated three years from that time, receiving his degree at the Winter Convocation, held on or about February 22 of each year.

Students may register at any time during the year. Those who register later than three weeks after the opening of the semester, shall be restricted to registration for such work only as in the opinion of the proper committee of the faculty they can successfully carry.

Students who apply for registration not later than two months from the close of registration or students absent for unavoidable cause for not exceeding two months may remove the condition in attendance by study for a period of one and one-half times the period of the absence, under a practitioner during such time as the Law School is not in session, proof thereof to be made by affidavit of the practitioner.

ADMISSION

1. *For the Degree of Bachelor of Laws.*—Applicants for admission as candidates for the degree of Bachelor of Laws must be at least eighteen years of age and must, in conformity with the requirements of the Association of American Law Schools, of which this school is a member, have either of the following qualifications: (1) They must have completed a four years course in an approved high school. (2) They must have educational training sufficient to satisfy the entrance requirements of Columbian College of the University. In order to satisfy the latter requirements, students must present credits aggregating 15 units, which are broadly equivalent to a four years high school course. A unit represents approximately one year's study in a subject in a preparatory or high school. The fifteen units must include English 3 units, Mathematics 2½ units, and 2 units of one of the following languages: Latin, Greek, French, German or Spanish. The remaining 7½ units are elective. Units may be satisfied in general as follows:

English, 3 units

Requirements recommended by the Conference on Uniform Entrance Requirements in English, February 22, 1909, in Grammar, Composition and Literature.

Latin

Elementary, 2 units
Grammar and Composition
Caesar

Greek

Elementary, 2 units
Grammar and Composition
Xenophon

Advanced, 2 units	Advanced, 1 unit
Cicero	Homer
Virgil	
Prose Composition	
French	Mathematics
Elementary, 2 units	Algebra
Advanced, 2 units	Elementary, 1 unit
	Intermediate, $\frac{1}{2}$ unit
Spanish	Advanced, $\frac{1}{2}$ unit
Elementary, 2 units	Plane Geometry, 1 unit
	Solid Geometry, $\frac{1}{2}$ unit
German	Plane Trigonometry, $\frac{1}{2}$ unit
Elementary, 2 units	
Advanced, 2 units	
History	Physics, 1 unit
Ancient, 1 unit	Recitations and Laboratory work
Greek and Roman	
Mediaeval and Modern	Chemistry, 1 unit
European, 1 unit	Recitations and Laboratory work
English, 1 unit	
American and Civil Government, 1 unit	

Other subjects which will be accepted on the basis of one unit for a year's work are botany, zoology, physiology, physiography, political economy and other accredited high school subjects.

Manual Training High School	Bookkeeping, 2 units
Subjects:	Business Organization, 1 unit
Shopwork, not exceeding 2 units	Commercial Law, 1 unit
Domestic Science, not exceeding 2 units	Government and Industrial Problems, $\frac{1}{2}$ unit
Domestic Arts, not exceeding 2 units	Commercial History, $\frac{1}{2}$ unit
Business High School Subjects:	Commercial and Physical Geography, $\frac{1}{2}$ unit
Accounting and Finance, 1 unit	

Applicants for admission on certificate should secure formal certificates setting forth the credits claimed, and present these certificates attached to their application forms. All applications for admission should be addressed to the Secretary of the Law School, who will, upon request, furnish proper blanks and detailed information as to entrance examinations.

2. *For the Degree of Master of Laws or Master of Patent Law.*—Candidates for these degrees must be at least twenty-one years of age and hold the degree of Bachelor of Laws from an institution substantially complying with the requirements of the Association of American Law Schools, of which this school is a member.

3. *Special Students.*—Persons who can not qualify as candidates for a degree but are over twenty-one years of age and have had such educational training and practical experience as should enable them to pursue satisfactorily the study of law, may be admitted as special students by consent of the Dean.

ADVANCED STANDING

Students may be admitted to advanced standing in the second or third year classes upon satisfying the requirements for the work of the preceding year or years. These requirements may be met by presenting a certificate from any law school of accredited standing showing that the student has successfully completed equivalent courses, or by passing the regular examinations set for that purpose at the beginning of the term, after the student has shown that he has pursued a course of study in a law school in the subjects upon which he is examined, covering at least as many hours as are required for such subjects in this University. No credit is given for study pursued in a law office, except as explained above under the statement as to the Academic Year.

All examinations that may be required of applicants for advanced standing are held during the first week of each session.

CREDIT GIVEN BY OTHER SCHOOLS FOR WORK DONE

Because of the fact that the Law School is a member of the Association of American Law Schools the work certified by it is given a maximum of credit by the other law schools of the country both as to time and, as far as the authorities of this school have been able to ascertain, as to subjects. This enables students who, for any reason, are unable to complete their work in Washington to continue it at other institutions with a minimum loss of time and work.

METHOD OF INSTRUCTION

Instruction in subjects of substantive law is based mainly upon the study and discussion of cases.

In the discussions in the class room every effort is made to lead the student to a clear understanding of fundamental legal principles and to afford him scientific training in the best method of study and legal reasoning.

These courses are given mainly by members of the law faculty who give their entire time to the Law School and are in daily attendance.

Subjects involving the adjective law are taught by lectures, study of text-books and cases, and by practical work in pleading, drafting and

the trial of moot cases. These courses are in charge of experienced members of the bar in active practice.

COMBINED SIX-YEAR COURSE FOR THE DEGREES OF BACHELOR OF ARTS AND BACHELOR OF LAWS

Regular students in this course will complete three years of work aggregating forty-five hours in Columbian College, including one of the four groups of prescribed subjects, and will complete in the Law School the three-year course for the degree of Bachelor of Laws. On the completion of the prescribed forty-five hours of work in Columbian College and the first year of the regular course in Law, the student will receive the degree of Bachelor of Arts.

COURSES OF INSTRUCTION

A. Leading to the Degree of Bachelor of Laws

The course of instruction leading to the degree of Bachelor of Laws extends through a period of at least three years. An average of twelve hours class work per week for three years is required of all candidates for this degree.

Students devoting their whole time to the study of law may, with the permission of the Dean, select additional subjects from the second and third years, provided the aggregate of the hours taken does not exceed fifteen a week. Such excess credits may be applied toward the degree of Master of Laws or of Master of Patent Law.

Students not devoting their whole time to the study of law are urged to devote more than three years to the completion of the course. Many students find it more satisfactory to do so. In case of unsatisfactory work students are required so to extend the period of study.

FIRST YEAR SUBJECTS

First Semester

**Contracts (A).*—Professor GREGORY. Three hours a week. Willis ton's Cases on Contracts.

**Criminal Law and Procedure.*—Professor EARNEST. Three hours a week. Clark's Criminal Law and Mikell's Cases on Criminal Law. Clark's Criminal Procedure and selected cases.

**Personal Property.*—Mr. VAN VLECK. Two hours a week. Gray's Cases on Property, Volume I.

**Real Property I. (A).*—Professor FRASER. Two hours a week. Gray's Cases on Property, Volume I.

**Torts (A).*—Assistant Professor JONES. Two hours a week. Ames and Smith's Cases on Torts. Volume I, Third Edition; Volume II, Second Edition.

Second Semester

Agency.—Assistant Professor FERSON. Three hours a week. Wambaugh's Cases on Agency.

* Required Subjects.

**Contracts* (B).—Professor GREGORY. Three hours a week. Williston's Cases on Contracts.

Domestic Relations.—Mr. VAN VLECK. Two hours a week. Case book to be announced.

**Real Property* I (B).—Professor FRASER. Two hours a week. Gray's Cases on Property, Volumes I and II.

**Torts*. (B).—Assistant Professor JONES. Two hours a week. Ames and Smith's Cases on Torts. Volume I, Third Edition; Volume II, Second Edition.

SECOND YEAR SUBJECTS

First Semester

**Common Law Pleading and Practice*.—Professor CLEPHANE. Two hours a week. Tyler's Stephen on Pleading.

**Equity*. (A).—Professor STAFFORD. Two hours a week. Ames' Cases on Equity Jurisdiction.

**Evidence* (A).—Professor PETER. Two hours a week. McKelvey on Evidence and Thayer's Cases on Evidence.

**Real Property* II (A).—Professor FRASER. Three hours a week. Gray's Cases on Property, Volumes II and III.

Sales.—Assistant Professor FERSON. Three hours a week. Williston's Cases on Sales. Second Edition.

Second Semester

Brief Making.—Professor LATIMER. One hour a week.

Damages.—Assistant Professor JONES. Two hours a week. Beale's Cases on Damages. (Not given in 1914-15 and in alternate years thereafter.)

**Equity* (B).—Professor STAFFORD. Two hours a week. Ames' Cases on Equity Jurisdiction.

Equity Pleading and Practice.—Professor CLEPHANE. One hour a week. Rush on Equity Pleading and Practice. Rush's Cases on Equity Pleading and Practice.

**Evidence* (B).—Professor PETER. Two hours a week. McKelvey on Evidence and Thayer's Cases on Evidence.

Insurance.—Assistant Professor JONES. Two hours a week. Wambaugh's Cases on Insurance. (Not given in 1914-15 and in alternate years thereafter.)

Municipal Corporations.—Assistant Professor JONES. Two hours a week. Beale's Cases on Municipal Corporations. (Given in 1914-15 and in alternate years thereafter.)

Partnership.—Mr. VAN VLECK. Two hours a week. Gilmore's Cases on Partnership. (Given in 1914-15 and in alternate years thereafter.)

Real Property II (B).—Professor FRASER. Three hours a week. Gray's Cases on Property, Volume V.

* Required Subjects.

Quasi-Contracts.—Mr. VAN VLECK. Two hours a week. Scott's Cases on Quasi-Contracts. (Not given in 1914-15 and in alternate years thereafter.)

THIRD YEAR SUBJECTS

First Semester

Bankruptcy.—Professor BRANDENBURG. One hour a week.

**Bills and Notes*.—Assistant Professor FERSON. Three hours a week. Hufcutt's Negotiable Instruments. Statutes, Cases and Authorities. Second Edition.

Conflict of Laws (A).—Professor GREGORY. Two hours a week. Lorenzen's Cases on Conflict of Laws.

Constitutional Law (A).—Professor FRASER. Two hours a week. Case book to be announced.

**Moot Court*.—Professors CLEPHANE, EARNEST and LATIMER. Two hours a week.

Organization and Management of Corporations.—Professor CLEPHANE. One hour a week. Clephane on the Organization and Management of Corporations.

Patent Law Practice (A).—Professor CHURCH. Two hours a week.

Patent Office Practice and Substantive Patent Law.—Mr. SUTTON. Two hours a week. Given for the first time second semester 1913-14.

Preparation of Legal Instruments.—Professor LATIMER. One hour a week.

**Private Corporations (A)*.—Assistant Professor JONES. Two hours a week. Warren's Cases on Corporations.

Suretyship.—Assistant Professor JONES. Two hours a week. Ames' Cases on Suretyship.

Second Semester

Conflict of Laws (B).—Professor GREGORY. Two hours a week. Lorenzen's Cases on Conflict of Laws.

Constitutional Law (B).—Professor FRASER. Two hours a week. Case book to be announced.

Federal Procedure.—Professor BRANDENBURG. One hour a week.

Legal Tactics and Ethics.—Professor CLEPHANE. One hour a week.

**Moot Court*.—Professors CLEPHANE, EARNEST and LATIMER. Two hours a week.

Patent Law Practice (B).—Professor CHURCH. Two hours a week.

Patent Office Practice and Substantive Patent Law.—Mr. SUTTON. Two hours a week. Given for the first time second semester, 1913-14.

**Private Corporations (B)*.—Assistant Professor JONES. Two hours a week. Warren's Cases on Corporations.

Trusts.—Assistant Professor FERSON. Three hours a week. Ames' Cases on Trusts.

Wills and Administration.—Professor PETER. One hour a week.

Second and third year subjects, not required and given in alternate years, are open to both second and third year students.

* Required Subjects.

B. Leading to the Degree of Master of Laws

Students admitted as candidates for the degree of Master of Laws are required to elect subjects, not previously taken covering a minimum of ten hours a week. These may be freely elected from the subjects offered by the Faculty of Law and from International Law given in Columbian College.

Any excess credits obtained in this Law School in the course leading to the degree of Bachelor of Laws may be applied toward the Master's degree. The degree of Master of Laws will not be conferred, however, until one year after the receipt of the Bachelor's degree.

Advanced Practice.—Candidates for the Master's degree may also elect advanced practice work in the Moot Court, receiving therefor a credit of two hours for the year.

C. Leading to the Degree of Master of Patent Law

A candidate who has successfully completed the requirements prescribed for the degree of Master of Laws, if he has duly completed and received credit for the courses in Patent Law and Practice and Federal Procedure, may elect to become a candidate for the degree of Master of Patent Law instead, and that degree may be conferred upon him, but the above mentioned topics shall be counted only toward one degree, and shall not be available for the degree in Patent Law, if they have been counted toward any other degree.

COURSE IN PATENT LAW

A special course in Patent Law Practice is given by Professor Church. The purpose of this course is to prepare those taking it for practice in all matters involving the law of patents. The course extends throughout one year, with two lectures or sessions of the Moot Court each week.

This course may be elected and counted by students toward the degree of Bachelor of Laws, and such students will be required to take only the first semester of the regular moot court work. A certificate, under the seal of the University, is granted to all students who complete this course.

In the present year an additional course in United States Patent Office Practice and Substantive Patent Law has been added and the work in Patent Law thus doubled. This course may also be counted by students toward the degree of Bachelor of Laws.

COURSES IN PRACTICE

A. Moot Court Work

1. *For the Degree of Bachelor of Laws.*—Particular stress is laid upon moot court work. Aside from the practice court connected with the course in Patent Law, there are four courts in which undergraduate

students pursue their work. Three are *nisi prius* courts presided over by members of the Washington Bar in active practice. The fourth is a Court of Appeals to review the cases tried in the courts of first instance. This court is composed of the ex-Chief Justice of the United States Court of Claims and of members of the Washington Bar.

Every third-year student, before receiving the Bachelor's degree, is required to prepare the pleadings in and prosecute to judgment the required number of cases in the *nisi prius* courts, with the privilege of appeal to the appellate tribunal. At least two hours in each week during the year must be spent by each third-year student in active participation in moot court work in the court room to which he is assigned. Students electing Patent Law will be required, in view of the special moot court work in that course, to take only the first half-year of the regular moot court work.

Statements of facts are furnished, such as would be related to a lawyer in active practice by his client. Each student must determine whether or not upon such facts the particular case in hand is one of common law or equitable cognizance. He must then frame his pleadings, serve his writs, and answer his adversary's pleadings until issue is joined in legal manner, after which the case is brought on for hearing in strict accordance with the rules of actual practice. Juries are empaneled in accordance with settled legal procedure, witnesses are examined and cross-examined, and the case conducted through all the various stages of the trial or hearing down to and including the judgment or decree, after which, should the case be appealed, it must be carried through the appellate court, involving the preparation of the record on appeal, briefs of counsel, etc.

2. *For the Degree of Master of Laws.*—The same facilities for moot court work as are described above are afforded in the course leading to the degree of Master of Laws. All candidates for this degree taking moot court work are required to carry through the appellate court each case assigned to them.

3. *Officers and Equipment.*—The clerk of the Moot Court is one of the assistant clerks of the Supreme Court of the District of Columbia, but his assistants in each court room are chosen from the student body, from whose ranks are also drawn the criers, jurors, and other officials, thus giving to the students the benefit of practice in administrative judicial machinery. The Moot Court is to all intents and purposes an actual court. The rooms in which the sessions are held are fitted up with judges' benches, clerks' desks, and counsel tables, and from the time the crier announces that the court is in session until he announces its adjournment the procedure is identical with that of a regular judicial tribunal.

. It is believed that any student who gives the proper attention to this feature of the law curriculum will be enabled to go out from this institution and creditably try cases in court, although he may never have been in an actual court room.

A careful record is kept of the work of each student, both as to his pleadings and his conduct of the case in court, and the ratings thus given determine, in connection with his ratings upon other subjects, whether or not he is entitled to a degree.

B. Brief Making

In view of the rapidly increasing bulk of our case law, it becomes absolutely indispensable that students should be taught to find authorities in point, to collate them, and to present them to the court in a clear and concise form. In order to afford this training a course in Brief Making is given. This course will be conducted in part in the Library of the Law School, so that the use of the digests and reports may be illustrated.

C. Preparation of Legal Instruments

Students are instructed in this course in the actual preparation of deeds, mortgages, wills, assignments, contracts, partnership agreements, and other legal instruments which a lawyer is called upon to prepare. Statements of facts are furnished to the class by the professor in charge, and each student is required to prepare the various forms of instruments. These are corrected by the professor and are discussed and criticised in class. Careful consideration is given to special forms of execution and acknowledgment when one of the parties to the instrument is a corporation, a partnership, a married woman, and the like.

D. Legal Tactics and Ethics

Every young lawyer entering upon his professional career is desirous of availing himself of the experience of an older practitioner and of learning many things which are not taught and cannot be taught from books. It is to meet the needs of this class of men that this course is given. It is in charge of a member of the Washington Bar whose practice has been an active one, extending over a period of many years.

A short introductory talk is given upon the relations between attorney and client, including the important subject of fees, after which the student is given the benefit of practical hints upon the manner of starting in practice and opening and furnishing an office, with suggestions as to office systems.

The student is told how to listen intelligently to his client's grievances; how to draw up the pleadings arising out of these grievances; how to prepare for trial the case thus made, including the work of preparing the evidence; how to try the case and examine and cross-examine witnesses; the manner of making up the record, and conducting the argument on appeal, including the use of authorities in court. The Canons of Professional Ethics adopted by the American Bar Association are studied in this course. Practical instruction in Extraordinary Legal Remedies constitutes a part of this course.

EXAMINATION AND GRADES

Regular Examinations.—Written examinations are held at the close of each semester. These examinations are final as to the work of that semester. All students, unless specially excused by the Dean, are required to take the regular examinations in the subjects pursued.

No student, except by special permission of the Dean, will be allowed to take an examination in any subject unless he shall be regularly registered and have been in regular attendance upon the lectures and have done all the work required in the course of instruction upon that subject.

Grades.—At all examinations the grading of students will be indicated by the letters A, B, C, D, E, and F, representing, respectively, *excellent*, *good*, *satisfactory*, *fair*, *conditioned*, and *failed*.

Conditions and Failures.—A student receiving the grade of F (failed) in any subject will be required to repeat the subject.

A student receiving the grade of E (conditioned) in any subject will be required to repeat that subject unless he pass the *next* regular examination for removal of conditions with a grade of at least C.

Regular examinations for the removal of conditions are held during the first week of each academic year. Application for permission to take these examinations must be made in writing to the Secretary of the Law School not later than three days before the date for which the examination is scheduled. Special examinations for the removal of conditions are held at the end of each academic year for the benefit of candidates for the Bachelor's degree, who have been conditioned in not more than four semester hours during the first semester of their last year.

The instructors of the first year class are a committee to pass on the eligibility of a student to re-register, with power to warn for deficiency, and to refuse re-registration to any student whose work is deemed unsatisfactory.

Special Examinations.—No special examinations, other than those above provided for, will be granted to any students except those of the graduating class who, for good cause, shall have been excused by the Dean from taking any regular examination during the third year.

Attendance.—Regular attendance is required in all courses; and the examination grade of any student in any course may be withheld and the passing of another examination or the repetition of the course may be required on the sole ground of unsatisfactory attendance.

Election of Courses.—No student shall be allowed to register in courses aggregating more than fifteen hours during any one semester without first obtaining the permission of the Faculty.

Every student who is a candidate for graduation with the degree of Bachelor of Laws in his third year shall take and pass in each semester of this third year courses aggregating ten hours.

Election of courses to be taken must be made in all cases within ten days after the beginning of the semester in which such courses are given.

DEGREES

1. *Bachelor of Laws*.—The degree of Bachelor of Laws will be conferred upon students who have studied law for a period of at least three years and passed satisfactory examinations upon subjects aggregating thirty-six year hours, and whose attendance and conduct have been satisfactory to the Faculty. The degree will not be conferred upon students deficient in Bills and Notes, Common Law Pleading and Practice, Contracts, Corporations, Equity, Evidence, Moot Court, Property I and II and Torts.

The degree of Bachelor of Laws *with distinction* will be awarded to students whose average percentage in all subjects is equivalent to the grade of A.

2. *Master of Laws or Master of Patent Law*.—The degree of Master of Laws or Master of Patent Law will be conferred upon students who have completed the work prescribed for these degrees with the grade of C or better, and whose attendance and conduct have been satisfactory to the Faculty.

LAW LIBRARY AND READING-ROOM

A well-equipped working library, comprising about 6,000 volumes, is open to the students from 8.30 a.m. to 10.00 p.m. Competent librarians are in charge and will give students assistance in looking up subjects and in the use of books.

The library contains the complete decisions of the highest courts of thirty-eight states and the District of Columbia, the complete reports of the United States Supreme Court and the other Federal courts, the complete National Reporter System, the Century, Decennial and American Digests, the various encyclopaedias of law, the Lawyers Reports Annotated, the American Decisions, American Reports and American State Reports, the English Common Law and Chancery Reports, the English Reprints, the Law Journal Reports since 1865, and about eight hundred standard text-books, and legal periodicals.

In addition to these facilities, the students have free access to the Congressional Library, and other public libraries.

PRIZES

The Ordranax Prize Scholarship.—A prize scholarship, known as "The Ordranax Prize Scholarship," is awarded to that member of the Second Year Class taking the regular course, who shall during his first and second years attain the highest average grade. In determining the average grade of contestants the grade received in each subject shall be multiplied by the number of hours given to such subject and the sum of the results divided by the total number of hours. The recipient of this prize scholarship shall be entitled to receive credit for tuition fees to the extent of ten hours work in his third year. Library and diploma fees will remain payable. The award of this scholarship is purely per-

sonal and will not be commuted to a cash payment, nor will it be transferable. The recipient of the scholarship must make use of the scholarship during the session next succeeding its award; otherwise, the same shall be awarded, upon like conditions, to the person having the next highest grade. This scholarship, for the session 1913-14 was awarded to Merrell Edward Clark.

Ellsworth Prize.—A prize of twenty-five dollars in gold, offered by Mr. Fritz von Briesen, called the "Ellsworth Prize," is awarded for the best work done by a regular student in the Patent Law Course. Awarded in 1913 to Lawrence A. Gale Miller.

Phi Delta Phi Prize.—The Marshall Chapter of Phi Delta Phi Fraternity, which is the local chapter, has offered a prize of twenty-five dollars cash, to be awarded to that member of the first year class taking the regular course, who shall attain the highest average grade, the grade to be determined in the same manner as the Ordranax Prize. Awarded in 1913 to John Monteith McFall.

American Law Book Company Prize.—A prize, offered by the American Law Book Company, of the Students Edition of "Cyc" in twelve volumes is awarded each year to the student of the Law School, graduating in the entire course for the LL.B. degree, with the highest scholastic standing for the entire course. This highest standing is ascertained in the same manner as the Ordranax Prize. This prize is to be awarded at Commencement. Awarded 1913 for the first time to Loyd Hall Sutton.

John Byrne and Company Prize.—A prize offered by John Byrne and Company of Washington, D. C., consisting of the four volumes of their Legal Classics is awarded each year to the student attaining the highest grade in Real Property II (b). Offered 1913-14 for the first time.

PUBLIC SPEAKING AND DEBATING

Excellent facilities for training in public speaking and parliamentary law are afforded by the Columbian Debating Society and the University Congress which have been organized in the Law School, and which meet weekly for debate. Membership in these societies is entirely optional, but their work is encouraged in every legitimate way by the Faculty, and students are urgently advised to take part in their exercises.

Intercollegiate debates are also held. Membership on the teams which represent the University in these contests must be won in preliminary contests held for such purpose. These debates are conducted under the supervision of a committee of the University Faculty.

ADMISSION TO THE BAR

By the rules of the Supreme Court of the District of Columbia, applicants for admission to the Bar are required to have studied law for three years under the direction of a competent attorney, but by those rules the course in the Law School of the University is regarded as dis-

three years under the direction of a competent attorney, but by those rules the course in the Law School of the University is regarded as discharging this requirement. Its work is also accepted as fulfilling the requirements for preliminary law study in substantially all of the other jurisdictions of the United States.

FEES

1. Matriculation fee (payable once).....	\$5
2. Annual library fee.....	3
3. Tuition fee per annum for each hour taken per week ...	10
4. Fee for graduation.....	10
5. Fee for a certificate under the seal of the University....	2

No registration will be accepted for less than a full semester, and no change in the courses undertaken at the time of registration will be made unless approved by the Dean. *Withdrawals during the semester will be granted only on recommendation of the Dean and the approval of the President.*

The library fee will not be charged for the first half-year during which a course is completed in the case of students who enter at the beginning of the second half-year and pay the library fee for that year.

PAYMENT OF FEES

Matriculation, library and other special fees are due in full in advance. Tuition may be paid in eight monthly installments in advance. Students unable to pay their fees monthly in advance will be required to file an acceptable personal or corporate bond for \$200 as security for future payment. In every instance all indebtedness must be discharged on or before May 1 of the current school year. Fees are payable at the office of the Treasurer of the University, 2024 G Street, or of the Secretary of the Law School.

BOARD AND ROOMS

A register of boarding houses is kept by the Treasurer. Accommodations cost from \$25 to \$40 a month.

For catalogues, application blanks, and further information, address

HISTORICAL

The *Medical School of the George Washington University*, in the chronological order of establishment, is the seventeenth Medical School in the United States. The first course of lectures began in March, 1825. For many years the school was known as the National Medical College; subsequently as the Department of Medicine of the Columbian University. By virtue of an act of Congress approved January 23, 1904, the Columbian University changed its name to "The George Washington University."

When first established, and for many years thereafter, this school, like most others in this country, gave only a two years' course of five months each. In 1878 the course was lengthened by the establishment of a Spring Session devoted to lectures in certain special subjects. In 1879 the course was lengthened to seven months and attendance upon three annual sessions required, and in 1893 attendance on four annual courses was made obligatory upon all candidates for the degree of Doctor

of Medicine. In order to increase the facilities for actual bedside teaching, the University Hospital and the University Dispensary were established in 1898 and made a part of the Medical School. In 1902 the old Medical School building, in which the exercises had been held since 1867, gave place to the present large and commodious structure.

EDUCATIONAL POSITION

The Medical School of the University has been for several years a member of the Association of American Medical Colleges. It is one of Medical Colleges designated as "class A," by the American Medical Association, and it is accredited for all its work by the Combined (Royal) Medical Examining Boards in England.

The degree of M.D. given by the University is recognized as evidence of adequate medical education by every medical examining board in the United States and with credentials of required preliminary education, will admit the holder of the degree to any state or governmental examination.

These facts guarantee the character of the work done by the School and insures its students and graduates all the advantages which accrue from such association and recognition.

BUILDINGS AND OTHER FACILITIES

Buildings of the Medical Department

All the buildings adjoin each other and consist of the Medical School Building and the University Hospital and the University Dispensary. They are most advantageously situated in the heart of the city within one block of both systems of car lines. As the Hospital and Dispensary adjoin the School, their clinical facilities are easily accessible to the students, and the pathological material and the material for clinical microscopy and clinical chemistry afforded by the Hospital and Dispensary are directly used in the School laboratories.

Medical School Building.—A modern commodious, five-story structure, with spacious, well-lighted, well-ventilated lecture and class rooms, laboratories, and students' rooms. It has an elevator service, and is equipped throughout with steam heat, gas, electricity, and all modern improvements.

Laboratories.—Six in number (for anatomy, chemistry, physiological and clinical chemistry, histology and embryology, physiology and pharmacology, and bacteriology and pathology) are fully equipped with the most approved appliances, so that students may adequately pursue the laboratory courses and acquire the technical skill necessary in modern clinical and research methods.

University Medical Library.—Open for study and consultation from 9 a.m. to 9 p.m. with a Librarian who is a graduate of Medicine in charge. It contains at present more than 3,000 volumes, and provision is made to

add to it as published the important new works on medicine. The most important medical periodicals are regularly received. The Library is an excellent working collection, as it affords opportunity to read up adequately on the subjects presented in the courses.

Pathological Museum.—Contains a great many valuable and interesting specimens. Their number is increased by additions from time to time. These specimens are particularly valuable to the students as illustrating the changes produced by disease.

ADVANTAGES OF LOCATION

Advantages of Washington as a place for pursuing the study of medicine

This city now has nearly half a million inhabitants, providing abundant clinical material to the hospitals, which have an aggregate of over three thousand beds. In these hospitals clinical instruction, in addition to that in the University Hospital, is given by members of the Faculty.

The *great libraries and museums* connected with the various Government institutions afford unparalleled facilities for study.

The Library of the Surgeon General's Office of the United States Army is the most complete medical library in the world, and all leading medical periodicals of the world are subscribed for. All the facilities of this great library are open to *medical students*. There is also the Library of Congress, the Public Library, and the many excellent libraries of the various Government offices, all of which are open to students.

The *Army Medical Museum* affords an unrivaled opportunity for studying the conditions met with in military and general surgery. It contains on exhibition a collection of anatomical and pathological specimens unequalled by any other museum. Other Government museums are the Museum of Hygiene, in connection with the Medical Department of the Navy and the National Museum which contains the most complete and best arranged collection of *materia medica* in the world. The drugs are shown in all their processes of manufacture. The Botanic Gardens, the Smithsonian Institution, the Fish Commission, the Department of Agriculture, all afford opportunities for study both in medicine and its collateral sciences.

On account of the many advantages offered in this city, the *Army and Navy Medical Schools* have been here located. The Alumni of this School are largely represented in all public services, and have been highly successful in passing the rigid examinations given by them. Ten per cent of the total number of the regular medical corps of the United States Army are graduates of this School.

Aside from the special advantages offered for the study of medicine, the cosmopolitan character of the city of Washington, its climate (not excessively cold in winter), its beauty, and its interests, which, as it is the seat of the General Government, are broad and national, make it an ideal place for a medical student to pass his four years of study.

ADMISSION

The requirements for admission to the Medical School for the session 1914-15 are as follows:

Candidates for matriculation must present creditable certificates of good moral character from two physicians in good standing.

The educational requirements for admission are:

A. The minimum requirement for admission is one year of college work in Physics, Chemistry and Biology, preceded by fourteen units of secondary school work made up as follows:

Seven Required Units.—English (Reading and Practice), 2 units; Algebra to quadratics, 1 unit; Plane Geometry, 1 unit; German or French, or Latin or Greek, 2 units; History, 1 unit.

Seven Elective Units.—To be selected from the following: English, Mathematics, Latin, Greek, German, French, Spanish, Scandinavian, Science with laboratory work, Agriculture, Drawing, Manual Training, Domestic Science, Music.

B. A Bachelor's degree from an approved college or University.

A unit is the credit value of 36 weeks' work of five recitation periods per week, each period to be not less than 40 minutes. A point is a subject pursued through one-half the above time. Two points may be considered the equivalent of one unit.

An examination is given by the University in the latter part of May and September of each year to students who are deficient in whole or part of the subjects required for entrance to the Premedical Course. Candidates desiring examination must submit an application for the examination and submit certificates of character to the Dean before the first of the month in which they desire to be examined.

Certificates from reputable instructors recognized by the State Board of Medical Examiners duly authorized by law or by the Superintendent of public instruction in States having no examining board may be accepted in lieu of any part of the examination.

As the laws relating to the preliminary educational qualifications required of physicians differ in many of the States of the Union, candidates are advised to make themselves familiar with the provisions of the medical statutes of the States in which they contemplate applying for license to practice. Attention to this precaution may save future embarrassment.

PRELIMINARY (PREMEDICAL) YEAR

A preliminary year is offered by the University to meet the requirement of a year of College work necessary to enter the freshman class in Medicine. This year is given in Columbian College (Department of Arts and Sciences). Students desiring to take this year will be ad-

mitted on the *fourteen* unit entrance requirement set forth on page 141 of this catalogue and will be required to pursue the full year's courses, both didactic and laboratory in Biology, Physics and Chemistry.

ADMISSION TO COLUMBIAN COLLEGE

Applicants for admission to the Freshman Class in Columbian College for the combined courses leading to the degrees of Bachelor of Arts or Bachelor of Science in Medicine and Doctor of Medicine must meet the general admission requirements of *fifteen* units. A unit represents a year's study in any subject in a secondary school, constituting approximately a quarter of a full year's work. *The fifteen units of the entrance requirements must include English, 3 units; Mathematics, 2½ units; and one of the following languages: Latin, Greek, French, German, or Spanish, 2 units.* The remainder of the requirement is elective and may be satisfied in general by any accredited secondary school subjects.

COURSES AND DEGREES OFFERED BY THE UNIVERSITY IN ADDITION TO OR IN COMBINATION WITH THE COURSE FOR THE DEGREE OF DOCTOR OF MEDICINE

The states of North Dakota, Iowa, Minnesota, South Dakota, Colorado, Indiana and Kentucky now require applicants for the practice of medicine to have two years of college work in addition to graduation in medicine.

To students who intend to practice in these states or who desire two years of college work before entering upon the study of medicine, the University offers a six-year combination course, by which a student may meet the requirements of these states and at the same time obtain the degree of Bachelor of Science in Medicine and Doctor of Medicine.

Six-year course for the Degree of Bachelor of Science in Medicine and Doctor of Medicine

Regular students enrolling for this course will complete two years of work aggregating at least thirty-six prescribed hours in Columbian College, and the four-year course in the Medical School. On the completion of this six-year course the student will receive at the same time the degree of Bachelor of Science in Medicine and Doctor of Medicine. The curriculum requirement for this combined six-year course is as follows:

a. Columbian College:

SUBJECT	HOURS
Biological Sciences:	
Zoology 1.....	3
Botany 1.....	3
Chemistry 1, 2, 23.....	7
English 1 or 2.....	3
German, French, or Spanish.....	6
History.....	3
Mathematics 3 or 6.....	3
Physics 3 and 2.....	5
Psychology and Logic.....	3
	—
	36

b. Medical School:

The four-year course for the degree of Doctor of Medicine.

Seven-year course for the Degree of Bachelor of Arts and Doctor of Medicine

Regular students in this course will complete at least forty-eight hours, as prescribed in Columbian College, and the four-year course in the Medical School. On the completion of the prescribed forty-eight hours of work in Columbian College and the first year of the regular course in Medicine, the student will receive the degree of Bachelor of Arts.

The forty-eight hours of prescribed subjects in Columbian College are as follows:

Columbian College:

SUBJECT	HOURS
Biological Sciences:	
Zoology 1, 2.....	6
Botany 1.....	3
Chemistry 1, 2, 23.....	7
English 1 or 2.....	3
German.....	6
French or Spanish.....	6
History.....	3
Mathematics 3 or 6.....	3
Physics 3 and 2.....	5
Psychology and Logic.....	3
Economics, History, or English.....	3
	—
	48

ADMISSION OF STUDENTS FROM OTHER SCHOOLS

Students who have attended one or more terms at any other medical college in good standing, and who have the necessary preliminary educational requirements, may be admitted to advanced standing upon passing the examination required of students for the stage at which they propose to enter, or upon presenting certificates of examination covering courses equal to those in this School.

Students who have been in attendance upon an Arts course in other accredited colleges or universities may be admitted to advanced standing in any of the premedical courses offered by the University upon examination or upon presentation of properly certified evidence of satisfactory completion of work for which credit is asked.

Students, approved by the Dean, not candidates for the degree of Doctor of Medicine, may be admitted as special students to any of the courses, provided they have the educational attainments which will enable them to pursue properly the studies they elect.

ACADEMIC YEAR

The *Academic Year* begins on the last Wednesday in September and ends on the Wednesday following the Wednesday nearest the first day of June. It is divided into two semesters of four months each.

The term of study for the degree of Doctor of Medicine consists of four years of thirty-two weeks each, exclusive of vacations and holidays. The next session, the ninety-second, begins September 30, 1914, and ends June 9, 1915.

Students must register promptly at the beginning of the session, in order that their time of study shall count as a full year.

SYSTEM OF INSTRUCTION

Instruction is carried on by laboratory work, lectures, recitations, bedside instruction, and hospital and dispensary clinics. Particular stress is laid upon laboratory work and clinical teaching. The clinical material of the University Hospital and Dispensary is utilized to the fullest extent, as the Hospital, the Dispensary, and the Medical School are under the same control. Additional clinics are given in other hospitals in the city to which members of the faculty are attached.

While the greatest stress is laid upon laboratory work and clinical teaching, it is recognized that the facts so obtained must be correlated and shown in their due relation to each other and to the science of medicine. To this end didactic lectures are maintained in certain branches, as they have been found necessary to give a systematic and comprehensive idea of the larger subjects in medicine. These lectures are followed by systematic and thorough quizzes, so that it may be certain that the students properly and thoroughly grasp the ideas presented by the lecturers.

The recitation and quiz work is made so complete that students do not need to employ private quizmasters.

The object sought throughout the courses is to ground thoroughly the students in the knowledge which is necessary to a practitioner of medicine. No particular attempt is made to graduate specialists in any subject. It is believed that the four years allowed are no more than sufficient time for the adequate preparation of the general practitioner.

The policy adopted by the School is to give a comprehensive, well graded and well-proportioned course—one that will adequately prepare the graduate to practice general medicine and meet the requirements of State Boards.

ORDER OF INSTRUCTION

The subjects studied in each year are shown in the following table. Major subjects are in italics:

FIRST YEAR	SECOND YEAR	THIRD YEAR	FOURTH YEAR
<i>Anatomy.</i>	<i>Anatomy.</i>	<i>Medicine.</i>	<i>Medicine.</i>
<i>Histology.</i>	<i>Physiological</i>	<i>Surgery.</i>	<i>Surgery.</i>
<i>Embryology.</i>	<i>Chemistry.</i>	Surgical	Orthopædics.
<i>Physiology.</i>	<i>Pathology.</i>	Pathology.	Genito-Urinary
<i>Chemistry.</i>	<i>Bacteriology.</i>	Fractures and	Diseases.
	Clinical	Dislocations.	Operative
	Microscopy.	<i>Obstetrics.</i>	Surgery.
	Materia Medica.	<i>Therapeutics.</i>	Gunshot
	Pharmacology.	Radiography	Wounds.
	Minor Surgery.	Radiotherapy	<i>Obstetrics.</i>
	Physical	<i>Gynecology.</i>	<i>Gynecology.</i>
	Diagnosis.	Medical	Laryngology
	Pathological	Jurisprudence.	and Otology.
	Physiology.	Clinical	Ophthalmology
	Hygiene.	Chemistry.	Dermatology.
	Psychology	Dietetics.	Psychiatry.
		Physical	Pediatrics.
		Diagnosis.	Neurology.
		Tropical	<i>Clinics.</i>
		Medicine.	
		<i>Clinics.</i>	

The *clinics* above listed comprise the medical, surgical, and other clinics given in the third and fourth years, and are as hereafter noted under the announcements of the different clinical subjects.

OUTLINE OF CURRICULUM

Hours of Required Work in Each Subject

(On the basis of 32 actual weeks in each year)

SUBJECTS	YEARS	HOURS	
		Totals* Didactic, Lab. and Clinical	Didactic not to exceed
Anatomy.....	I	490	90

Obstetrics.....	III and IV	192	64
		— 192	— 64

* The number of hours represents the amount of time each student devotes to the course. In addition to the hours scheduled in the third and fourth years, each student is required to do satisfactorily considerable practical work: he is assigned to cases in the University and Garfield Hospitals, is required to assist at operations, to attend cases of labor, administer anaesthetics, attend autopsies, and to take the history of cases. Fully 120 hours annually are required to do this unscheduled work.

SUBJECTS	YEARS	HOURS (continued)	
		Totals* Didac- tic, Lab. and Clinical	Didactic not to exceed

Military Surgery.....		8	8
Ophthalmology.....		64	16
Otology and Laryngology.....		60	24
Genito-Urinary Surgery.....		48	16
Orthopedics.....		48	16
		— 852	— 272
Grand totals.....		4536	1454

The number of clinic hours as given in this announcement is tentative only for, owing to the changes made necessary by the advanced admission requirements the schedule for the third and fourth years has not been completed at the time of publication of this catalogue.

ANATOMY

CARL LAWRENCE DAVIS, M.D.....Professor
 OSCAR BENWOOD HUNTER, M.D.....Professor of Histology and
 Embryology and Associate Professor of Anatomy

The instruction in the various anatomical sciences—gross human anatomy, neurology, embryology and histology—is carried on by the Division of Anatomy of which the Professor of Anatomy is the head.

This insures complete correlation of the various anatomical branches and adequate instruction in each.

During the first year the course in Gross Anatomy is given mainly by practical laboratory work.

Osteology and Syndesmology are taught by recitations and demonstrations at the beginning of the course, preparatory to the more advanced studies in anatomy. Complete disarticulated skeletons are loaned to the students, so that they may familiarize themselves with the osteological features of the various parts during their dissection. Each student is required to dissect satisfactorily the lateral half of a cadaver. The dissecting room work is supplemented by demonstration, recitation and lectures, illustrated by lantern slides, models, diagrams and special dissections. The systematic study of the gross and minute anatomy of the central nervous system and organs of special sense is pursued by means of lectures, recitations, and laboratory work.

In the second year a course in topographical anatomy is given, in which recitations and laboratory demonstrations, frozen sections and special dissections are used to familiarize the student thoroughly with the subject.

Throughout the course every opportunity is taken to emphasize the application of anatomy to the practice of medicine in all its departments.

SUBJECT	YEARS	HOURS	
		Totals Didactic and Lab.	Didactic not to exceed
Anatomy.....	I	490	90
Anatomy.....	II	168	30
		— 658	— 120

In Histology instruction is given in the care and use of the microscope and in the preparation of tissues (fixing, blocking, cutting, staining, etc) for microscopical examination, and a systematic study is made of the minute structure of the tissues and organs of the body, the laboratory work being supplemented by lectures, recitations and stereopticon demonstrations.

The course in Embryology is devoted to the study of Vermes, showing maturation, impregnation, segmentation, etc., and to series of chick and mammalian embryos, special stress being laid upon the development of the foetal membranes and organs. Lectures, recitations and demonstrations with laboratory models are also given.

Histology and Embryology.....	I	224	60
		— 224	— 60

PHYSIOLOGY

SHEPHERD IVORY FRANZ, Ph.D.....	Professor
JOSEPH DUERSON STOUT, A.B., M.D.....	Associate Professor
HENRY RANDALL ELLIOTT, M.D.....	Associate

The course in physiology consists of lectures, recitations, demonstrations, laboratory exercises and conferences during the first year. It begins in the second half of the first semester, so that the student is, almost at the beginning of his course in medicine, introduced to the functional viewpoint in his work. In the first semester general physiology is taken up both by lectures and laboratory exercises. In the second semester more intensive work is done, and the physiology of the bodily systems is considered. The functions of the nervous system and special senses, of the blood, of the heart and circulatory system, of glands, of the respiratory mechanisms, and of reproduction are considered by means of lectures and recitations, and, as far as possible, experimentally. In the laboratory each student performs the main experiments illustrating the facts regarding bodily function, and demonstration experiments are given of those functions which are too complex for the student to perform by himself. In this laboratory work each student is required to keep records of his experiments, and each experiment is supervised and the record criticized and checked by one of the instructors before the student leaves the laboratory for the day. The class is divided into sections for oral recitations, which are supplemented by written recitations.

In the second year a series of laboratory exercises on the physiological action of drugs is given (see the announcement under Department of Pharmacology and Therapeutics), and in conjunction with that laboratory work lectures are given and recitations are held in which the functional disturbances in disease are considered. In this course special attention is given to the abnormalities of action of the heart and circulatory system, to the mechanical disturbances in respiration, and to the disturbances of the nervous system and the special senses. Abnormalities of metabolism, matters which are almost exclusively chemical, are not taken up in this course. By this course it is intended to bring the course in normal physiology into closer relations with the succeeding courses in Pathology, Therapeutics and General Medicine.

CHEMISTRY

CHARLES EDWARD MUNROE, Ph.D., LL.D.....Professor
FRANK ADELBERT HORNADAY, S.B., M.D.....Associate Professor

Inorganic Chemistry.—A series of recitations, in which the subject is reviewed and its relation to medicine emphasized.

Qualitative Analysis.—A brief course, with stress upon its application in medicine.

Organic Chemistry.—A series of lectures, laboratory work, and recitations on the acyclic and cyclic hydrocarbons and their derivatives, with special reference to physiology and medicine.

Physiological Chemistry.—A series of lectures, laboratory work and recitations on the proximate principles of the human body.

Clinical Chemistry.—A thorough course is given in which material from the University Hospital and Dispensary is utilized to show the practical application of this subject in medicine.

MATERIA MEDICA AND THERAPEUTICS

BUCKNER MCGILL RANDOLPH, M.D.	Professor
NOBLE PRICE BARNES, M.D.	Associate Professor
JOSEPH DUERSON STOUT, A.B., M.D.	Associate
HENRY RANDALL ELLIOTT, M.D.	Associate
WALTER HIBBARD MERRILL, M.D.	Instructor
WILLIAM J. FRENCH, M.D.	Instructor
J. IRVING SLOAT, M.D.	Instructor
HENRY W. JAEGER, M.D.	Instructor

Second Year.—(1) Lectures upon Materia Medica, including a demonstration of drugs and their preparations. (2) Recitations upon the preparations, their doses, and the various antidotes for poisons. (3) Practical exercises in prescription writing. (4) Demonstrations of drugs. (5) The laboratory course in connection with the study of Pharmacology consists of practical instruction and experiments in pharmacodynamics. The student performs experiments showing the effects of certain drugs on digestion and investigates the physiological actions of such drugs as Morphine, Atropine, Aconite, Strychnine, Digitalis, Veratrine, Physostigmine, Cocaine, Extr. Suprarenal glands, etc., and the effects of acids and alkalis in varying strength on the skin, mucous membrane and other tissues.

Third Year.—(1) Systematic lectures and recitations on the physiological action of drugs and other remedial agents, as demonstrated by lab-

oratory experiment and clinical application; their therapeutic use in disease; their modes of administration; and a review of their toxicology. (2) A review of the principles of prescription writing, with practical exercises by students in writing prescriptions in the metric and English systems. (3) Lectures in applied therapeutics, devoted to the study of the application of remedial measures to morbid physiological and pathological states, as they occur clinically. (4) Lectures and section demonstrations in electro-therapeutics and Roentgen therapy.

DIETETICS

JOHN BENJAMIN NICHOLS, M.D.....Associate

A thorough course of lectures on the principles of feeding in health and disease.

SUBJECT	YEARS	HOURS	
		Totals Didactic and Lab.	Didactic
Dietetics.....	III	24	24

PATHOLOGY AND BACTERIOLOGY

JOHN BRADFORD BRIGGS, S.B., M.D.....Professor

HENRY KNOX CRAIG, M.D.....Associate Professor

J. A. F. PFEIFFER, M.D.....Special Instructor

Bacteriology.—The first part of the session is devoted to a laboratory course of instruction in the fundamental principles and methods of pure bacteriology. A thorough drilling is given in the preparation of culture media, in sterilization and disinfection, staining, and in the several methods of differentiating bacteria.

Pathology.—The course in Pathology comprises general and special pathology. Post-mortem examinations will be utilized when possible. Coincidentally with the above is included the study of the principal pathogenic bacteria: the principles of immunity and serum therapy.

The course of instruction in special pathology will include the study of those processes requiring surgical relief; the healing of wounds and other injuries; of special diseases, neoplasms, and problems of experimental pathology.

The course in *Clinical Microscopy* comprises the study and examination of various tissues, fluids, and material from the standpoint of diagnosis.

MEDICINE

STERLING RUFFIN, M.D..... Professor
 GEORGE NICHOLAS ACKER, A.M., M.D.,

Professor of Pediatrics and Clinical Professor of Medicine

THOMAS ASH CLAYTOR, M.D..... Clinical Professor of Medicine

RANDOLPH BRYAN CARMICHAEL, M.D..... Professor of Dermatology

WILLIAM CREIGHTON WOODWARD, LL.M., M.D.,

Professor of Medical Jurisprudence

WILLIAM ALANSON WHITE, M.D.,

Professor of Psychiatry and Clinical Professor of Neurology

JAMES DUDLEY MORGAN, A.B., M.D.,

Clinical and Associate Professor of Medicine

EDGAR PASQUAL COPELAND, M.D.,

Professor of Hygiene and Associate in Pediatrics

LOUIS MACKALL, M.D..... Clinical Professor of Medicine

EDWARD RHODES STITT, A.B., M.D..... Professor of Tropical Medicine

JOHN BENJAMIN NICHOLS, M.D..... Associate in Medicine and Dietetics

WALTER ASHBY FRANKLAND, M.D..... Clinical Associate in Medicine

FRANK LEECH, M.D..... Clinical Associate in Pediatrics

WILLIAM CABELL MOORE, M.D..... Associate in Medicine

CHARLES AUGUSTUS SIMPSON, M.D..... Associate in Dermatology

COURSEN BAXTER CONKLIN, M.D..... Associate in Medicine

CHARLES WILBUR HYDE, M.D.. Instructor in Medicine and Anaesthesia

BENJAMIN RUSH LOGIE, M.D..... Instructor in Neurology

GEORGE HENRY SCHWINN, M.D., Instructor in Psychiatry and Neurology

WILLIAM JOHNSTON MALLORY, M.D..... Instructor in Medicine

BERNARD GLUECK, M.D..... Instructor in Psychiatry

Instruction in Medicine is so given as to conform to the most modern requirements. The work begins in the second year with a complete course in history-taking and normal physical diagnosis, and is continued through the third and fourth years. During the latter two years the course consists of lectures, recitations, a study of case histories, clinical conferences, and practical work in the clinical laboratory and at the bedside. The work is made as practical as possible.

* See also announcement under Medicine.

The third-year class is divided into small sections, which are required to attend the daily dispensary service in the University Hospital, where they are drilled especially in history-taking and in the technique of practical physical diagnosis.

The fourth-year class is similarly divided into small sections, and these are required to attend the daily ward clinics in the University Hospital and ward clinics in the Garfield Memorial Hospital, Children's Hospital, and the Tuberculosis Hospital of the District of Columbia.

The system of ward clinics to small groups of students afford a most effective method of studying disease and gives to every student an opportunity of following a large assortment of diseases from their commencement to the termination of illness; in no other way is it possible to get a more practical knowledge of the methods of studying disease or a more intimate knowledge of disease itself.

Every patient in the medical wards of the University Hospital is assigned to one, or at most two, senior students, who are required (under proper supervision) to take the history, to make and record a complete physical examination, to determine after due study the nature of the illness (diagnosis), to outline a plan of treatment, and to make daily notes of the progress of the case.

A weekly amphitheater clinic is given to third-year students in a body and a similar clinic to the fourth-year class. A series of special neurological clinics is provided for the senior class at the Government Hospital for the Insane, where there is a great wealth of material (see announcement of Psychiatry and Clinical Neurology).

TROPICAL MEDICINE

EDWARD RHODES STITT, A.B., M.D., Surgeon U.S.N.....Professor

The course in tropical diseases is similar to that given in the Army and Navy Medical Schools, and consists of didactic lectures, quizzes, and laboratory instruction, with particular reference to the parasitic, protozoal diseases common in the tropics and in the southern part of the United States.

PSYCHIATRY AND CLINICAL NEUROLOGY

WILLIAM ALANSON WHITE, M.D., Superintendent of the Government Hospital for the Insane.....	Professor
BENJAMIN RUSH LOGIE, M.D.....	Instructor
GEORGE HENRY SCHWINN, M.D.....	Instructor
BERNARD GLUECK, M.D.....	Instructor

A series of lectures and clinics is given upon the subject of insanity in its various forms.

These clinics are given at the Government Hospital for the Insane, which, with its more than two thousand beds, affords one of the largest clinics in this country.

Students are taught in the same classes with students of the Army and Navy Medical Schools.

PEDIATRICS

GEORGE NICHOLS ACKER, A.M., M.D.....	Professor
EDGAR PASQUAL COPELAND, M.D.....	Associate
HARRY HAMPTON DONNALLY, M.D.....	Clinical Associate
FRANK LEECH, M.D.....	Clinical Associate

Didactic and clinical lectures, bedside and dispensary clinics are given upon diseases of infants and children and the importance of the proper management of these diseases by diet and hygiene.

The children's clinic, at the Children's Hospital, affords ample material for practical teaching in this branch.

PHYSICAL DIAGNOSIS

WILLIAM CABELL MOORE, M.D.....	Associate
--------------------------------	-----------

A complete course is given in this subject by means of recitations, section work on normal subjects, and with clinical cases which typically represent diseased conditions.

DERMATOLOGY

RANDOLPH BRYAN CARMICHAEL, M.D.....	Professor
CHARLES AUGUSTUS SIMPSON, M.D.....	Associate

The lectures in this course will be principally clinical, supplemented by didactic lectures, illustrated by diagrams, models, and photographic illustrations of disease from life.

MEDICAL JURISPRUDENCE

WILLIAM CREIGHTON WOODWARD, LL.M., M.D.....Professor

This course is designed to familiarize students with the rights and obligations of physicians, both legal and ethical, and to qualify them to apply the facts of medical science to the solution of problems in law.

SURGERY

WILLIAM CLINE BORDEN, M.D.....Professor

DANIEL KERFOOT SHUTE, M.D....Clinical Professor of Ophthalmology

CHARLES WILLIAMSON RICHARDSON, M.D.,

Professor of Laryngology and Otology

AURELIUS RIVES SHANDS, M.D.....Professor of Orthopedic Surgery

FRANCIS RANDALL HAGNER, M.D. Professor of Genito-Urinary Diseases

ARTHUR AUGUSTIN SNYDER, M.D.....Clinical Professor of Surgery

JOHN RYDER WELLINGTON, M.D.....Clinical Professor of Surgery

WILLIAM KENNEDY BUTLER, M.D.....Professor of Ophthalmology

LUTHER HALSEY REICHELDERFER, M.D....Clinical Professor of Surgery

LOUIS ANATOLE LA GARDE, M.D.....Professor of Military Surgery

OSCAR ADDISON MACK McKIMMIE, M.D.,

Clinical Professor of Laryngology and Otology

DANIEL WEBSTER PRENTISS, M.D.....Clinical Associate in Surgery

CHARLES STANLEY WHITE, M.D.....Associate in Surgery

WILLIAM FRANCIS MATTINGLY SOWERS, M.D.....Associate in Surgery

EDWARD GRANT SEIBERT, M.D.....Instructor in Ophthalmology

HOBART SOUTHWORTH DYE, M.D.,

Instructor in Laryngology and Otology

EDWARD THOMAS MURDAUGH FRANKLIN, M.D....Instructor in Surgery

CHARLES WILBUR HYDE, M.D.....Instructor in Surgery

CLINE N. CHIPMAN, M.D.....Instructor in Surgery

HARRY HYLAND KERR, M.D.....Instructor in Surgery

WILLIAM HENRY HUNTINGTON, M.D.,

Instructor in Laryngology and Otology

The principles of surgery are presented in a systematic course of lectures, so that the student may obtain a comprehensive and adequate concept of the science and art of surgery. These lectures are followed by recitations, so that the subject-matter may be thoroughly impressed upon the students. The special divisions of surgery are taught by associates and instructors who have made specialties of these branches. The clinical material in the University Hospital and Dispensary, being under the control of the Faculty, is directly used throughout the course to illustrate the subjects taught and to familiarize the students with actual clinical conditions.

Surgical technique is taught by instruction in the preparation of materials used in antiseptic and aseptic surgery, the preparation of the

patient, and the sterilization of instruments. Practical instruction is given in the Hospital and Dispensary in the application of splints, bandages, and dressings used in the various surgical diseases and injuries. Thorough instruction and practical demonstrations are given in the administration of anaesthetics.

Clinical teaching is carried on in the University Hospital and Dispensary, and in other hospitals of the city to which members of the Faculty are attached. Amphitheater clinics are given, in which the general practice of surgical diagnosis and operative technique and therapeutic procedure are shown.

Ward clinics and bedside instruction are made a prominent part of the course. The classes are divided into sections, which are regularly assigned to clinical work in the University Hospital and Dispensary, and in other hospitals and dispensaries. Senior students are assigned in rotation to individual cases in the wards of the University Hospital.

Practical work is required of each student in the preparation of dressings and sterilization of instruments. Each student is required to give, under instruction, at least six anaesthesias and to assist in at least six operations.

In the fourth year a thorough course is given in operative surgery.

SUBJECT	YEARS	HOURS	
		Total Didactic and Clinical	Didactic not to exceed
Surgery.....	II, III, IV		
General Surgery.....		540	144

SURGICAL PATHOLOGY

WILLIAM FRANCIS MATTINGLY SOWERS, M.D..... Associate

Surgical pathology is taught by thorough instruction in the gross and microscopic appearance of surgical diseases and injuries, and by a systematic course of lectures and quizzes by which the etiology, pathology, symptomatology, and treatment of the surgical affections and their relations to each other are shown.

ORTHOPEDICS

AURELIUS RIVES SHANDS, M.D.....Professor

A course of lectures and recitations on the pathology, etiology, course, termination, and treatment of chronic joint diseases, with clinical instruction in the application of special apparatus and of plaster of Paris to the correction of deformities.

GENITO-URINARY DISEASES

FRANCIS RANDALL HAGNER, M.D.....Professor

A thorough course of instruction in genito-urinary diseases is given by lectures, recitations, section clinics, and bedside teaching.

MILITARY SURGERY

LOUIS ANATOLE LA GARDE, M.D.....Professor

The treatment of gunshot wounds with special reference to civil practice is given in a course of lectures and demonstrations, fully illustrated by lantern slides, X-ray photographs, and actual specimens from the Army Medical School.

OPHTHALMOLOGY

WILLIAM KENNEDY BUTLER, M.D.....Professor

DANIEL KERFOOT SHUTE, A.B., M.D.....Clinical Professor

EDWARD GRANT SEIBERT, M.D.....Instructor

The course of lectures on this subject is to direct attention to the elementary principles of the subject. It is not intended to qualify the student as a specialist, but to give him a knowledge of what every general practitioner ought to know. The course is supplemented by clinical instruction.

LARYNGOLOGY AND OTOTOLOGY

CHARLES WILLIAMSON RICHARDSON, M.D.....Professor

OSCAR ADDISON MACK MCKIMMIE, M.D.....Clinical Professor

EDWARD GRANT SEIBERT, M.D.....Instructor

HOBART SOUTHWORTH DYE, M.D.....Instructor

WILLIAM HENRY HUNTINGTON, M.D.....Instructor

The course comprises lectures and clinical instruction on diseases of the nasal passages, pharynx, larynx, and the ear. Practical demonstrations are given in the use of the laryngoscope and other instruments required in these special branches.

OBSTETRICS

ALBERT FREEMAN AFRICANUS KING, A.M., M.D., LL.D.....	Professor
JULIAN MAYO CABELL, M.D.....	Clinical Professor
W. SINCLAIR BOWEN, M.D.....	Clinical Professor
HURON WILLIS LAWSON, S.B., M.D.....	Associate Professor
ELIJAH WHITE TITUS, M.D.....	Instructor

The course in Obstetrics comprises a series of lectures on the science and art of midwifery, together with practical work. The chief purpose of the lecturer is to arrange, simplify, and explain the matters studied in the text-books so as to render them more easily intelligible and to indicate their relative importance. The lectures are illustrated by diagrams, models, manikins, natural preparations, and instruments. The class is divided into sections, and each student performs various obstetrical operations upon the manikin and receives practical instruction in external pelvimetry and the methods of abdominal palpation and auscultation during pregnancy. Recitations from text-books are held throughout the term. In the fourth year clinical instruction in obstetrics is given, the class being divided into small sections, each section being given bedside instruction, and the individual students being required to attend a stated number of cases.

The out-patient obstetrical service is large and thoroughly organized for instruction. Cases are usually referred several weeks before the expected date of confinement. Each case is promptly investigated by the instructor in charge and assigned to a student who in company with the instructor visits and examines the patient as soon as practicable and thereafter visits the patient at intervals of one week, and attends the case during labor. Students make post-partum visits daily for four days and every other day thereafter until the case is discharged by the instructor.

SUBJECT	YEARS	HOURS

WALTER ASHBY FRANKLAND, M.D.....	Associate
J. LEWIS RIGGLES, M.D.....	Associate
VIRGIL B. JACKSON, M.D.....	Instructor
DANIEL LERAY BORDEN, M.D.....	Instructor

* The total number of clinic hours cannot be given, as each student is required to attend ten cases, exclusive of the demonstration work and Ward and Dispensary Clinics above enumerated.

Gynecology as taught in the third year comprises a course of lectures and text-book recitations. In the fourth year individual students are assigned to cases in the wards of the University Hospital, and the class is taken in sections of one to two students each into the Gynecological Dispensaries for clinical instruction in examinations, diagnosis, and treatment. In larger sections the class attends amphitheater and ward clinics given by the Professor of Gynecology and his assistants.

CLINICAL FACILITIES

The following hospitals are open to the students of this school for clinical study, and are extensively used for that purpose:

University Hospital and the University Dispensary

H Street, between Thirteenth and Fourteenth Streets N. W. and adjacent to the Medical Building.—The Hospital and Dispensary are part of the educational equipment of the University. They are integral parts of the Medical School, are entirely controlled by the Faculty of Medicine, and are used primarily in instructing the students in clinical work. The Dispensary has a large out-patient service in all departments, to which several thousand visits are made annually.

The staff is composed of members of the Faculty of Medicine.

Garfield Memorial Hospital

Florida Avenue and Tenth Street N. W.—This institution has 118 charity beds. Clinics are given regularly throughout the session by members of the Faculty connected with the visiting staff of the hospital.

Members of the Faculty on the visiting staff: Professors CLAYTOR, MACKALL and MORGAN, Clinical Medicine; Professors SNYDER, WELLINGTON, and REICHELDERFER, Clinical Surgery; Professor STAVELY, Clinical Gynecology; Professor CARMICHAEL, Clinical Dermatology; Professors SHUTE and BUTLER, Clinical Ophthalmology; Professor HAGNER, Clinical Genito-Urinary Surgery; Professor YARROW, Consulting Physician; Drs. CABELL and BOWEN, Clinical Obstetrics.

Children's Hospital

W Street, between Twelfth and Thirteenth Streets N. W.—Regular instruction is given in the medical and surgical wards by members of the Faculty on the visiting staff of the hospital. This institution has 100 charity beds. There is also a large out-patient department, to which students are regularly assigned for clinical instruction.

Members of the Faculty on the visiting staff: Professors KING and YARROW, Consulting Physicians; Professor WELLINGTON, Clinical Surgery; Professor ACKER and Drs. COPELAND, DONNALLY, and LEECH, Clinical Medicine.

Emergency Hospital and Central Dispensary

Fifteenth Street and Ohio Avenue N.W.—This hospital has 36 charity beds, and has a very large out-patient service. The large emergency service gives exceptional facilities in Clinical surgery, particularly in fractures and dislocations which are taught in regular clinics by the instructor in this subject.

Members of the faculty on the visiting staff: Professors HAGNER, Clinical Genito-Urinary Diseases; Drs. WHITE, PRENTISS, D. L. BORDEN and JACKSON, Surgery; Professor MORGAN and Dr. ELLIOTT, Clinical Medicine; Professor CARMICHAEL, Clinical Dermatology; Dr. MILLER, Clinical Gynecology; Professor SHANDS, Orthopedics; Professor SHUTE, Ophthalmology; Dr. FRENCH, Pediatrics.

Columbia Hospital for Women

Twenty-fifth Street and Pennsylvania Avenue N. W.—This hospital has 68 charity beds for diseases peculiar to women, and 50 charity maternity beds. Both the obstetrical and the gynecological services are particularly good and are fully utilized for students.

Members of the Faculty on the visiting staff: Professor BOVÉE and Dr. MILLER, Clinical Gynecology; Drs. KELLY, BOWEN, CABELL and RIGGLES, Clinical Obstetrics; Professor SHUTE, Ophthalmology; Professor RUFFIN, Visiting Physician.

The Government Hospital for the Insane

This hospital is maintained by the United States Government. It has 2,500 beds. Clinical instruction in mental diseases is given by the

superintendent of the hospital, Professor W. A. WHITE, and Drs. SCHWINN and GLUECK. Other members of the Faculty on service at this hospital are Professor FRANZ; Professor SHUTE, Consulting Ophthalmologist; Professors RUFFIN, and MORGAN, Consulting Physicians.

Episcopal Eye, Ear, Throat, and Nose Hospital

Fifteenth Street, between L and M Streets N. W.—Excellent opportunities for clinical instruction in ophthalmology, otology, laryngology, and rhinology are offered by this hospital.

Members of the Faculty on its staff: Professor RICHARDSON, Clinical Otology and Laryngology; Drs. McKIMMIE, DYE and HUNTINGTON, Clinical Otology and Laryngology; Professor ACKER, Consulting Physician.

Lutheran Dispensary

Fourteenth and N Streets N. W.—This dispensary affords good opportunities for clinical study of diseases of the eye, ear, throat, and nose.

Members of the Faculty on its staff: Professor BUTLER, Surgeon-in-Charge; Dr. SEIBERT, Ophthalmology; Professor ACKER, Consulting Physician.

Casualty Hospital

Massachusetts Avenue N. E.—Opportunities in emergency and dispensary work are offered by this institution.

Members of the Faculty on its staff: Professor ACKER, Consulting Physician; Dr. BARNES, Clinical Medicine.

Tuberculosis Hospital

Fourteenth and Upshur Streets N. W.—Members of the Faculty on its staff: Professors CLAYTOR and RANDOLPH, Clinical Medicine; Dr. REICHELDERFER, Clinical Surgery; Professor RICHARDSON, Ophthalmology.

CLASSIFICATION AND ADVANCEMENT OF STUDENTS

Students are divided into four classes, according to their proficiency and the time spent, viz: first year, second year, third year, and fourth year.

Proficiency in all subjects is marked on the scale of 100.

Examinations are held at the end of the course in each subject.

In determining the proficiency of a student his laboratory and clinical work, his quiz record, attendance, and result of examination are all considered.

To be *advanced* a student must obtain a general average of 75 or more in all subjects of the year, and must not fail in more than one major or two minor subjects.

Students who obtain a general average of 75 or more, but who fail in not more than one major or two minors, may be advanced *conditioned* and may be permitted at the next examination period a re-examination in the subjects in which they fail, but all conditions must be removed before a student can be again advanced.

Students who fail of advancement or graduation will not be allowed re-examination, except by special permission of the Faculty, and must repeat all subjects in which they obtained less than 85 during the year, and pass an examination on all majors of preceding years in which they obtained less than 85 before they can be advanced or graduated. Students who fail to appear at the regular examinations will not be examined until the next regular examination, except by special permission of the Faculty. In special examinations a fee of \$5 will be charged for each subject. Students who fail to pass satisfactorily their practical laboratory examinations will be required to repeat the laboratory courses. Students will not be admitted to examination unless they have paid all fees due at the time.

A student who has failed of graduation after repeating his final year will not be permitted to maintain his connection with the school.

REQUIREMENTS FOR GRADUATION

Every candidate for the degree of Doctor of Medicine must be at least twenty-one years of age and of reputable character. He must have complied with the admission and other requirements herein set forth. He must have attended at least 80 per cent of all required instruction during four sessions of 32 weeks each in four separate years; must have satisfactorily completed all his courses and passed all his examinations. He must be present at the time specified for the final examinations, and also at Commencement. The degree is not conferred in the absence of a candidate except by special consent of the President's Council. Graduates of other accredited colleges who desire degrees must spend one year in residence at this school.

Candidates who in their work and examinations attain general averages of 90 or more will be presented to the Faculty for consideration with reference to being designated as "having graduated with distinction." If in the opinion of the Faculty such candidates have shown themselves to be possessed of more than ordinary merit, they will have inscribed upon their diplomas beneath their degree the words "with distinction."

PRIZES

A prize from the Ordronaux Prize Endowment will be awarded under conditions determined by the University authorities.

Professor ACKER gives a prize for the best examination in Pediatrics.

Professor BUTLER gives a prize for the best examination in Ophthalmology.

Professor HAGNER gives a prize for the best examination in Genito-Urinary Diseases.

HOSPITAL APPOINTMENTS

Internes are annually appointed in the University Hospital. These appointments are made upon competitive examinations under conditions determined by the governing authorities of the Hospital. Appointments to similar positions are open to the graduates and undergraduates of this school in the following other hospitals of the city: Garfield Memorial Hospital, Emergency Hospital, Columbia Hospital for Women, Casualty Hospital, Providence Hospital, Washington Asylum Hospital, Children's Hospital, Episcopal Eye, Ear, Throat, and Nose Hospital.

FEES AND CONTINGENT EXPENSES

1. Matriculation (payable but once).....\$5
2. Annual library fee..... 3
3. Tuition fee per annum, including all charges for materials 150
4. Graduation fee..... 10
5. Fee for a certificate under the seal of the University..... 2

A deposit of \$10 to cover breakage in laboratory courses and damage to the building or apparatus is required. Any unforfeited balance is returned to the student.

Persons are allowed to register as auditors for the tuition fees without being required to take active part in the exercises or to pass examinations but no credit will be allowed for such attendance.

No registration will be accepted for less than a full semester, and no change in the courses undertaken at the time of registration will be made unless approved by the Dean.

Students are urged to purchase their own microscopes, but those who do not care to do so may rent them from the University at the following rates:

- | | |
|------------------------------------------------------------|-----|
| Microscope for Histological Laboratory use..... | \$5 |
| Microscope for Bacteriological, Pathological, and Clinical | |
| Microscopy Laboratory use..... | 6 |

Matriculation, library, other fees and deposits are due in full in advance. Tuition may be paid in eight monthly installments in advance. Students who are unable to pay their fees monthly in advance will be required to file an acceptable personal or corporate bond of \$200 as security for future payment. In every instance all indebtedness must be discharged on or before May 1 of the current school year. All fees are payable at the office of the Dean.

WITHDRAWALS

Withdrawals will be granted only on recommendation of the Dean and the approval of the President.

A certificate of work actually done will be given to any student granted a withdrawal or a transfer to another school during the session. A written request for withdrawal or transfer must be filed with the Dean and no permission to withdraw or transfer, and no certificate of work done will be given a student unless all fees and dues chargeable against him up to the end of the month in which he withdraws have been paid.

BOARD AND ROOMS

A register of boarding houses is kept by the Treasurer. Accommodations cost from \$25 to \$40 a month.

For catalogues, application blanks, and further information, address

JOHN WINSLOW TAYLOR, D.D.S.,Instructor in Prosthetic Technics
CHARLES GARDNER SHOEMAKER, D.D.S.,

Instructor in Operative Technics
HENRY CISSEL YOUNG, D.D.S.,Instructor in Prosthetic Technics
HERBERT CORNWELL HOPKINS, D.D.S.Lecturer on Orthodontia
ALBERT PERKINS TIBBETS, M.D.Instructor in Anatomy
JAMES WALTER BERNHARD, D.D.S.,

Instructor in Crown and Bridge Work

GENERAL STATEMENT

The first course of lectures in the Dental School began November, 1887, under the title of "The Columbian University Dental Department." The course then extended over two years of five months each. Two years later the course was extended to seven months; but, this additional time being found inadequate to keep pace with the ever-increasing demand for higher dental education, the course was gradually increased, until now it extends over three years of eight months each.

The next academic year begins on Wednesday, September 30, 1914, and ends on Wednesday, June 9, 1915. Students should register promptly at the office of the Dean at the beginning of the session, and no student can be received and credited with a full term after ten days from the first lecture. Final examinations are held at the conclusion of the instruction in each subject. For further information communicate with the Dean of the Dental School.

ADMISSION

Candidates for matriculation must show that they are fitted by previous education to study dentistry. For this purpose they must present a satisfactory certificate of their attainments or they must pass an examination.

Candidates are admitted without examination:

1. Upon presenting a diploma or certificate of graduation from a four-year high school, or an equivalent certificate or diploma.
2. Upon presenting a certificate of admission to the Freshman class of a college having like admission requirements.

Candidates unable to comply with the foregoing requirements are admitted upon passing an examination based upon the general requirement for graduation from an accredited four year high school.

Latin and Physics are required. An applicant deficient in either subject or both may be admitted to the first-year class conditioned, but conditions must be made up during the first year.

The scope of the different subjects is indicated in standard high school text-books.

A candidate may offer certificates of an approved school for work done in any preparatory subjects, and will be credited with the units represented by such work. A candidate failing to pass in two or three subjects of his examination may be admitted to the first year upon the condition that he make up the deficiency before entering the second-year class. The examinations are conducted by examiners appointed by the Superintendent of Schools of the District of Columbia.

The examinations for admission will be held in June and September, at the Dental School.

COURSE OF INSTRUCTION

The course of instruction extends through three years of eight months each. The subjects taught during the course are divided as follows:

FIRST YEAR	SECOND YEAR	THIRD YEAR
Anatomy. Physiology. General Chemistry. Histology. Operative Technics. Prosthetic Technics. Special Anatomy.	Organic Chemistry. Operative Dentistry. Prosthetic Dentistry. Pathology. Materia Medica Operative Technics. Prosthetic Technics. Infirmary Practice. Bacteriology. Dental Histology. Orthodontia Technics. Infirmary Practice. Clinics.	Operative Dentistry. Orthodontia. Prosthetic Dentistry. Comparative Dental Anatomy. Oral Surgery. Orthodontia Technics. Metallurgy. Prosthetic Technics. Infirmary Practice. Dental Therapeutics. Dental Pathology. Dental Bacteriology. Oral Prophylaxis. Dental Jurisprudence, Economics and Ethics. Infirmary Practice. Clinics.

These studies are further described in the following pages.

Hours of recitation, daily from 4.50 p.m. to 10.30 p.m.; 6.30 to 7.30 p.m., dinner hour.

PROSTHETIC DENTISTRY AND ORTHODONTIA

JOHN ROLAND WALTON, D.D.S.....Professor
GEORGE MILLER SHARP, D.D.S.....Associate Professor

1. *Prosthetic Dentistry*.—All branches in this department will be under the supervision of the professor. He will deliver the lectures and manage in person and through his assistants the quiz work and course of instruction. This system will prevent confusion in method and technical procedures.

2. *Orthodontia*.—Junior year Orthodontia is a technical course with lectures and demonstrations. The Senior year is a review of the Junior studies with advanced lectures upon the irregularities of the teeth, local and constitutional. Each student is required to make a number of appliances upon models and practically correct cases of irregularity.

OPERATIVE DENTISTRY, DENTAL ANATOMY AND PATHOLOGY

HENRY CLAY THOMPSON, D.D.S.....Professor

This course embraces lectures on the special anatomy and physiology of the teeth. The origin, growth, and eruption of the teeth receive minute attention, and are illustrated as their importance demands.

The methods of treating, filling, and extracting teeth receive attention in the lecture-room, and are demonstrated clinically by proficient operators. Extended consideration is given to dental pathology and therapeutics. This chair has personal supervision of the department of Operative Technics and the infirmary.

CHEMISTRY

CHARLES EDWARD MUNROE, Ph.D., LL.D.....Professor
FRANK ADELBERT HORNADAY, S.B., M.D.Associate Professor

The instruction in this subject embraces:

A short discussion of the principles of Physics in their relation to Chemistry, the principle of chemical philosophy, and the laws of chemical combination.

A study of the elements, metallic and non-metallic; the preparation, properties, and reaction of their different compounds and their application in dentistry; Organic Chemistry, with special attention to those organic compounds that are of practical use; laboratory instruction in the determination of acids and bases, analyses of alloys, etc.

PHYSIOLOGY

SHEPHERD IVORY FRANZ, Ph.D.....Professor
JOSEPH DUERSON STOUT, A.B., M.D.....Associate Professor
HENRY RANDALL ELLIOTT, M.D.....Associate

This subject is taught in lectures, recitations, and laboratory exercises. In the lectures and recitations special emphasis is placed upon those parts of physiology that have a known bearing upon dental medicine and surgery, especially digestion, secretion, and the nervous system. Three laboratory periods a week during a semester give the student first-hand knowledge of the principal facts about the general functions of tissues, and the special functions of the nervous system, the special senses, the heart, circulation, digestion, and respiration.

ANATOMY

CARL LAWRENCE DAVIS, M.D.....Professor
OSCAR BENWOOD HUNTER, M.D.....Associate Professor

The instruction in Anatomy is given in a graded course of lectures, recitations from prescribed text-books, and especially by practical work in the dissection of the cadaver. The lectures are illustrated by the use of dry and wet dissections of the cadaver, by models, diagrams, charts, and stereopticon views.

Practical work in osteology and in dissection of the head are of fundamental importance. For the study of these subjects the class is divided into sections in order to make the instruction as practical as possible. The bones of the skeleton are placed in each student's hands, and he is instructed and quizzed upon all their important features.

MATERIA MEDICA AND THERAPEUTICS

NOBLE PRICE BARNES, M.D.....	Associate Professor
D. DEWITT BEEKMAN, D.D.S.....	Associate Professor

Instruction in these subjects embraces:

The study of crude drugs and their preparations and the art of prescribing; the physiological action of drugs in the human system; the practical application of drugs and other therapeutical agencies to the prevention and cure of diseases and the relief of suffering, together with their antidotal relation to poisons.

The subject is taught by means of lectures, recitations, and blackboard illustrations, and is made practical to as great a degree as is compatible with a sufficiently thorough understanding of its principles.

In connection with this chair is a pharmaceutical laboratory, well equipped with modern appliances, in which are taught the making of typical preparations of the Pharmacopoeia, prescription writing, and the compounding of prescriptions.

Special attention is given to those drugs that are of most value in the practice of dentistry.

ORAL SURGERY

CHARLES STANLEY WHITE, M.D.....	Clinical Professor
ARTHUR BARTON CRANE, D.D.S.....	Professor
EUGENE ROGER STONE, D.D.S.....	Associate Professor

Instruction in this subject consists of a systematic course of lectures, followed by recitations, and clinical teaching is carried on in the Infirmary and Hospital Dispensary. Amphitheatre clinics are given in the University and other hospitals to which the members of the Faculty are attached. A free bed in the University Hospital is at the disposal of this department. Operations and demonstrations on the cadaver form a valuable part of the course.

The lectures deal with applied anatomy, surgical bacteriology and pathology, surgical technique, wounds, hemorrhage, shock, surgical

diseases and injuries of the face, mouth and jaws, extraction of teeth and local and general anesthesia.

Students are expected to attend the amphitheatre clinics when notified and are required to present at least one case—history as a prerequisite to examination.

Text-Books and Works of Reference.—Blair, Surgery and Diseases of the Mouth and Jaws; Scudder; Tumors of the Jaws; Winters, Exodontia; Hewitt, Anesthetics.

HISTOLOGY

OSCAR BENWOOD HUNTER, M.D. Professor

The course in Histology consists in a systematic presentation of the subject of the minute anatomy of the various parts of the body, especial attention being devoted to the histology of the teeth and neighboring structures. The subject is presented partly by systematic lectures, and more especially by the practical study by the individual students of actual specimens under the microscope. The methods of preparation of microscopical specimens are presented and practiced in the laboratory. The projection microscope, affording valuable aid in illustrating and presenting the subject, is constantly used.

PATHOLOGY AND BACTERIOLOGY

JOHN BRADFORD BRIGGS, S.B., M.D. Professor
HENRY KNOX CRAIG, M.D. Associate Professor
J. A. F. PFEIFFER. Special Instructor

The course begins with a consideration of the principles involved in the process of sterilization by dry and moist heat, the relative value and mode of application of each, and an explanation of the construction of the apparatus employed for the purpose. The use and construction of the thermostat is taken up at the same time and the student taught how he can dispense with these costly appliances in emergencies.

The composition and modes of preparation of the various nutritive media are next considered, working formulas given, and the student required to prepare them at least once in the laboratory. This is followed by a discussion of bacteria as a class, their position in the biological world, their classification, distribution, and the general and special characters that belong to them.

After this preparatory training the various methods in use for the isolation and study of bacteria are taught by practical demonstration and practiced by the students, after which the most important pyrogenic organisms are studied in detail, giving special attention to those found in the nasal and oral cavities.

The aim of the course is chiefly to afford the students an opportunity to become practically familiar with bacteriological working methods, and to enable them to isolate and identify the bacteria present in suppurative processes, as well as to comprehend intelligently the references to micro-organisms in the current professional literature of the day.

PROSTHETIC TECHNICS

WILLIAM FRANCIS LAWRENCE, D.D.S.	Associate Professor
JOHN WINSLOW TAYLOR, D.D.S.	Instructor
HENRY CISSEL YOUNG, D.D.S.	Instructor

The technic laboratories are thoroughly equipped for their particular work. The course in prosthetic technics extends through the Freshman, Junior, and Senior years.

The first year is a technical and didactic course. The students are taught the proper equipment of a dental laboratory; the preparation of the mouth for dentures; methods of taking impressions of the mouth and manipulation of the various impression materials; the preparation and mounting of models; selection and artistic arrangement of teeth; the construction of plastic dentures and crowns with general details.

In the Junior class the course is a review of the Freshman year with extended technical and didactic work, embracing a practical course in taking impressions, making models, dies, and casting; swaging, rimming, attaching teeth by rubber, and in general construction of metal dentures, crown and bridge work.

The Senior year is a practical course, embracing the swaging of plates, teeth attached by soldering, clasps, porcelain work, advanced bridge work, removable bridges, and the detailed construction of all work in prosthetic dentistry.

The work of the Department is under the immediate supervision of the associate professor.

OPERATIVE TECHNICS

CADMUS LINDEN ODOR, D.D.S.	Associate Professor
CHARLES GARDNER SHOEMAKER, D.D.S.	Instructor

This subject is taught by lectures, illustrated by enlarged models and drawings, together with demonstrations of instruments and materials. The students perform exercises in manipulative procedure under the direction of the instructors.

The subjects embraced in the course consist, first, of the study of dental nomenclature, that the student may acquire an understanding of the technical terms used in the course of his dental studies. This is followed by descriptive dental anatomy, and the forms and surface markings of each tooth studied, the natural teeth, as well as enlarged

models and drawings being used for the purpose. Each student is required to make various sections of the teeth for the thorough study of the pulp chambers and root canals and their relations to the external surface of the teeth.

That tooth-forms may be more perfectly impressed upon the mind of the students, each student is required to carve a tooth of the several classes, as incisor, cuspid, bicuspid, and molar, in bone or artificial ivory, representing the actual form and size of the natural organ. Cavities are classified and illustrated by drawings and models, followed by their preparation and filling in technic forms by the student. Treating and filling root canals is given full attention, the students performing operations of this kind upon natural teeth mounted for the purpose.

All work, in its relation to operative dentistry, is given the necessary consideration to fit the student for meeting, as far as possible, the actual requirements of the infirmary.

COMPARATIVE DENTAL ANATOMY

The senior students will study in this course the food habits and the teeth of animals. The forms of teeth and their uses as weapons of offense and defense will be studied.

CROWN AND BRIDGE WORK, GOLD INLAY, AND PORCELAIN

ALLEN SCOTT WOLFE, D.D.S..... Associate Professor
JAMES WALTER BERNHARD, D.D.S..... Instructor

Instruction in this course is systematically given by lectures and clinics. The course in technic extends through the Freshman, Junior, and Senior years.

Students are taught the principles and practice of inlay work, porcelain crowns, high and low fusing bodies, the use of the electric and gas furnaces.

METALLURGY

JOHN ROBERT DEFARGES, D.D.S..... Associate Professor

The subject of Metallurgy taught in the chemical laboratory will be reviewed and an extended course will be given in metals, alloys, and amalgams which are used in dentistry.

PROFESSIONAL ETHICS, DENTAL JURISPRUDENCE, AND ECONOMICS

These lectures on ethics consist of a brief statement of the moral obligations of professional men to each other and to their patients, the duty of upholding the honor and dignity of the profession, and the differences between the profession and business or manufacturing pursuits.

The lectures on jurisprudence will follow the text-book by Dr. Reh-fuss, which fully elucidates the legal relation of the dentist to his patients, the importance of dental records, the limitations of dental practice, the liabilities incurred by those who administer anaesthetics, the penalties, etc.

Economics.—This course will instruct the student in the proper methods to insure a practice and to retain patients; will discuss business relations between patients and dentist, fees, book and card systems, and the general economy in conducting an office.

ORAL PROPHYLAXIS

GEORGE MILLER SHARP, D.D.S. Lecturer

This subject will be taught didactically, and clinically practical work by the students in the treatment of the oral cavity will be required.

THE DENTAL INFIRMARY

CHARLES TURK BASSETT, D.D.S. Associate Professor in Charge
JOHN WINSLOW TAYLOR, D.D.S. Demonstrator
HENRY CISELL YOUNG, D.D.S. Demonstrator
EUGENE ROGERS STONE, D.D.S. Demonstrator

The Infirmary is open every week-day the entire year. An abundance of clinical material is readily available. In fact, as many patients present themselves as can possibly be attended to by the students. It is under the immediate supervision of the demonstrator in charge, who is present from 1 until 5 o'clock.

CLINICAL STAFF

CAESARE LOUIS CONSTANTINI, D.D.S. Clinician in Charge
ARTHUR DURDAN WEAKLEY, D.D.S. Dentistry
THOMAS LOCKE RUST, D.D.S. Dentistry
GEORGE BERTRAM ROPER MACDONALD, D.D.S. Dentistry
WILLIAM CARL KILLINGER, D.D.S. Orthodontia
GEORGE MILLER SHARP, D.D.S. Special Crown Work
ZENAX WILBUR ALDERMAN, D.D.S. Electro-Therapeutics
ROBERT EDWIN LAYTON, D.D.S. Dentistry

TEXT-BOOKS AND WORKS OF REFERENCE

(The works first named and in *italics* are preferred.)

Anatomy.—Cunningham's *Text-book of Anatomy*; Cunningham's *Manual of Practical Anatomy*; Black's *Dental Anatomy*.

Physiology.—Text-books: Haliburton's *Physiology*; Howell's *Physiology*; Tigerstedt's *Physiology*.

Orthodontia.—Angle's *Treatment of Malocclusion of the Teeth and Fractures of the Maxillæ*; Talbot's *Irregularities of the Teeth*; Jackson's *Orthodontia*.

Dental Jurisprudence.—Rehfuss's *Dental Jurisprudence*.

Dental Pathology and Therapeutics.—Burchard's *Dental Pathology and Therapeutics*.

Comparative Dental Anatomy.—Thompson's *Comparative Dental Anatomy*.

GRADUATION

Candidates for graduation must have attended three full courses of lectures, each of eight months' duration, and three courses of clinical instruction in this School, during the regular winter term and in separate years. Students are examined at the end of the regular course upon all subjects taught them during that course. Should the student fail in his examination in course, he may be re-examined in the fall. All fees must be paid and Infirmary requirements complied with before the student may present himself for examination.

Students must enter before, or within ten days after, the opening lecture of the regular course. They may register at any time during the Infirmary course, and thus begin Infirmary practice at once upon payment of twenty-five dollars, which amount will be deducted from their tuition fees for the succeeding regular term.

The candidate for graduation must be examined upon all subjects taught in this School, and before the examination he must perform operations upon the natural organs in the Infirmary, and present the demonstrators in charge with a well-constructed specimen of dental mechanism made by himself in the dental laboratory of the University.

In addition to the above requirements, the moral character and habits of the candidate, his industry, and diligent attendance will be taken into consideration. Notable negligence, immorality, or habitual absence from the lectures will preclude the candidate from attaining his degree, even though he may have acquired sufficient technical knowledge to pass a creditable examination. This reservation on the part of the Faculty of the right to make good moral character a prerequisite for graduation must not be overlooked.

The student also, during and between the sessions, must comply with the State laws regulating the practice of Dentistry, and act in accordance with the recognized code of ethics of the dental profession.

COURSES IN ARTS AND SCIENCES

Students taking a full course for a degree may be admitted without additional fee, except laboratory fees, to courses for which they are qualified, in the Department of Arts and Sciences, the aggregate of such courses not to exceed six hours a week.

LOCATION

The Dental Building is No. 1325 H Street N. W. It is within half a square of all lines of street cars going to every part of the city.

The Dean may be seen personally at 724 9th Street N. W., on any week day, and also at the Dental Building, 1325 H Street N. W., on Tuesday and Thursday of each week at 4.30 p.m. during the session.

FEES AND CONTINGENT EXPENSES

1. Matriculation fee (payable once).....	\$5
2. Annual library fee.....	2
3. Tuition fee per annum, including all charges for materials.....	125
4. Fee for graduation.....	10
5. Fee for a certificate under the seal of the University.....	2
6. A deposit of \$10 to cover breakage in laboratory courses and damage to the building or apparatus is required. Any forfeited balance is returned to the student.	

No registration will be accepted for less than a full semester, and no change in the courses undertaken at the time of registration will be made unless approved by the Dean. *Withdrawals during the semester will be granted only on recommendation of the Dean and the approval of the President.*

Students are furnished microscopes at the following rates:

Microscope for histological laboratory use.....	\$5
Microscope for bacteriological, pathological, and clinical micro- copy laboratory use.....	6

The cost of instruments for the first year amounts to about \$20, and the cost of text-books to about \$30.

PAYMENT OF FEES

Matriculation, library, other special fees and laboratory deposits are due in full in advance. Tuition and laboratory material fees may be paid in eight monthly instalments in advance. Students who are unable to pay their fees monthly in advance will be required to file an acceptable personal or corporate bond for \$200 as security for future payment. In every instance all indebtedness must be discharged on or before May 1 of the current academic year. Fees are payable at the office of the Treasurer, 2024 G Street, or at the office of the Medical School, 1325 H Street.

BOARD AND ROOMS

A register of boarding-houses is kept by the Treasurer. Accommodations cost from \$25 to \$40 a month.

For catalogues, application blanks and further information, address
J. ROLAND WALTON, D.D.S., Dean,
724 9th Street N. W.

CALENDAR

1914

- September 17, *Thursday*—Admission Examination begins at 1 p.m.
in the Lecture Room of the College.
September 23, *Wednesday*—Forty-third Session begins.
November 26, *Thursday*—Thanksgiving Day, a holiday.

Recess from December 22, 1914, to January 4, 1915

1915

- February 22, *Monday*—a holiday.
May 12, *Wednesday*—Annual Examinations for promotion and
graduation begin.
June 10, *Wednesday*—Commencement.

GENERAL STATEMENT

The National College of Pharmacy, which is the outgrowth of the Columbian Pharmaceutical Association, organized in April, 1871, was chartered under the provisions of an act of Congress in 1872, and opened its doors to students November 11 of that year. In February, 1906, it became a member of the educational system of The George Washington University, under the charter of the University granted by Congress March 3, 1905, providing for the organization of colleges. The President of the University is *ex-officio* president of the National College of Pharmacy, and the College is represented in the President's Council by its Dean.

The work of the College embraces courses in chemistry, botany, physiology, materia medica and toxicology, pharmacy and pharmaceutical laboratory work, analytical chemistry, microscopy, mercantile pharmacy, and pharmaceutical jurisprudence. Three years are required for the completion of the prescribed course.

The College building is centrally located on I street northwest between Eighth and Ninth streets. It is easily reached by the principal street car lines of the city.

Preliminary Education and Examination

The College requires of its Matriculants a knowledge of the branches usually taught in the public schools of Washington, D. C., to the extent of *three years in the high schools or its equivalent*, and they must be at least seventeen years of age. Evidence of this may be shown by certificates from reputable teachers or by the results of an examination to be held at the College, at one o'clock p.m., THURSDAY, September 17, 1914.

Beginning with the session of 1916-17, candidates will be required to have four years' high school instruction or its equivalent.

SPECIAL COURSES

Students may select one or more of the branches taught and attend the lectures and laboratory work during the time set apart for such study.

Students taking single tickets are not entitled to take the examinations for the degree conferred by the College.

THE DEGREE

The degree conferred is *Doctor of Pharmacy*.

QUALIFICATIONS FOR THE DEGREE

1. The student shall have attended three courses of instruction in Chemistry, Pharmacy, Analytical Chemistry, Materia Medica, Botany, Physiology, Toxicology; and two in Microscopy, the last of which must have been in this College; and one course each in Mercantile Pharmacy and Pharmaceutical Jurisprudence.

2. He must have passed a satisfactory examination in each of the branches taught.

3. He must be recommended by the Board of Examiners.

MATERIA MEDICA, BOTANY, PHYSIOLOGY AND TOXICOLOGY

Freshman Course

Introduction to the study of Botany, Evolution, Properties of Living organisms, Growth of Plants, Internal Structure and Physiology of plants will receive proper attention, followed by a description of the Natural and Artificial systems of Botany.

Following will be a course of instruction in Animal Physiology, to include Body Tissues, Bone, Fibre, Cartilage, Muscle, Epithelium, Serous Tissue, Nerve Tissue, Blood and the Circulation.

Junior Course

Causes of disease, Trauma, Poisons introduced from without, the Bacteria, Immunity.

General Principles of Therapeutics, Rules for Dosage, Standardization of Drugs, to be followed in their regular order, the study of Drugs, classified according to their general or local effects.

Senior Course

General review of the Junior year work and continuation of the study of drugs, to include the coal tar group, toxins and anti-toxins vaccines Bacterins. Use of drugs hypodermically. This course to conclude with a special course of instruction in Toxicology.

PHARMACY

Freshman Course

This course is given to the study of the various pharmaceutical processes and operations. Following in the order named are lectures on

metrology, heat, thermometry, evaporation, distillation, fusion, sublimation, calcination, granulation, comminution, solution, filtration, clarification, decoloration, precipitation, crystallization, and extraction, during which the various methods used to bring about the desired results will be illustrated.

Junior Course

During a part of this course the time is given to the application of the processes considered during the Freshman year to pharmacopœial preparations, and such modifications as adapt them to special uses.

The latter part of this course is taken up with the study of official preparations obtained from the elementary bodies beginning with bromine, chlorine, iodine, phosphorus, and sulphur, following by carbon, boron, silicon, the inorganic acids, potassium, sodium, lithium, ammonium, magnesium, calcium, barium, zinc, aluminum, cerium, cadmium, manganese, iron, chromium, lead, silver, copper, mercury; antimony, arsenic, bismuth, and gold.

Senior Course

The time during this course is mainly given to the study of compounds chiefly derived from organic matter, and products obtained therefrom, amylaceous and saccharine substances; glucosides and alkaloids, volatile oils and animal products used in pharmacy, vegetable oils, soaps, and products from resins.

ANALYTICAL CHEMISTRY

The instruction in this Department is intended to present the chemical tests of the United States Pharmacopœia, with methods for the identification of substances and for the detection of impurities; to instruct in the methods of assaying and the use of volumetric solutions, and to enable students to analyze any ordinary mixture of inorganic material.

For the purpose of carrying out the work of this Department a large, well-equipped laboratory is provided with all the usual water and gas facilities, and has recently been wired and installed with electric apparatus whereby electro-chemical methods of analysis can be taught and the application of the electric current to the preparation of chemicals by the methods of electro-chemistry can be illustrated before the students. These and other facilities afford students exceptional opportunities to become familiar with the fundamental principles of the science of chemistry.

The first year is devoted to experimental work so arranged as to supplement the lectures in General Chemistry.

The second year covers a systematic course in qualitative analysis in connection with the test of the United States Pharmacopœia.

The third year is devoted to volumetric analysis by means of the standard solutions of the Pharmacopœia.

GENERAL CHEMISTRY AND PHYSICS

Inasmuch as the subjects of Analytical Chemistry and Pharmacy are fully provided for in other courses, these lectures are devoted more closely to the fundamental principles and classification which must underlie a thorough and systematic knowledge of Chemistry. Owing to the intimate connection existing between Chemistry and several branches of Physics, a number of lectures illustrating the more important laws and principles of some of these branches precedes the regular course in Chemistry, and others on these subjects with which a prior acquaintance is less important follow after the student has acquired some knowledge of chemical changes. During the first half of the second year Physics and the non-metallic elements receive consideration, followed during the remainder of the second and a portion of the third year by the metals. The greater portion of the third year is devoted to the exposition of the more important facts, principles, and theories of Organic Chemistry.

MICROSCOPY

The course of Microscopy gives instruction in the use of the compound microscope as an aid in the study and identification of drugs, and requires full attendance from Junior and Senior students.

The work includes both lectures and laboratory courses, and consists in the examination of plant tissue as illustrated in various vegetable substances most familiar to pharmacists. Special attention is given to the structural characteristics by which one drug can be distinguished from another as well as to the detection and identification of the most common adulterants used.

MERCANTILE PHARMACY AND PHARMACEUTICAL JURISPRUDENCE

Attendance upon these courses is required from the Senior class only.

FEES

Matriculation.....	\$5
Tickets for the full year's course of instruction, Freshman	80
Tickets for the full year's course of instruction, Junior	85
Tickets for the full year's course of instruction, Senior.....	90
Single tickets for Chemistry, Materia Medica, Botany, and Toxicology, each.....	20
Single tickets for Analytical Chemistry.....	25
Single tickets for Practical Pharmacy	25
Single tickets for Microscopy.....	20
Single tickets for Mercantile Pharmacy.....	10
Single tickets for Pharmaceutical Jurisprudence.....	10
Fee for Diploma.....	10

	Instructor in Breeds and Breeding and Judging, and Zoötechnics
ARTHUR A. EISENBERG, A.B., M.D.....	Instructor in Physiology
HARRY H. FETTER, Ph.G.....	Instructor in Pharmacy and Botany
EDWIN H. INGERSOLL, S.B.....	Instructor in Physiological Chemistry

REQUIREMENTS FOR ADMISSION

Students presenting a diploma from any recognized college, normal or high school are eligible to admission without examination.

Students not having the above qualifications will be required to pass an examination equivalent to a 2d grade Civil Service Examination, supplemented by History and Geography of the United States and its possessions. (U. S., B. A. I. Circular No. 150).

ADMISSION OF STUDENTS FROM OTHER SCHOOLS

Students of other recognized and approved veterinary schools may be admitted to this school as follows:

Those qualified to enter the second year of such a school may be admitted to the second-year class of this school, those qualified to enter the third year of their own school to the third year of this school; provided, however, that the subjects pursued by the applicants in their previous year or years are reasonably equivalent to those required in the same year or years in this school, and that the requirements for advancement from class to class are the equivalent of those in this school. Applicants may be required to submit to examination in all the subjects pursued by the previous class of this school.

EVIDENCE OF ATTENDANCE

At the end of the college year each student is entitled to a written statement giving the length of time spent in each study during the session and the grade received therein. This statement, or definite evidence of credit, shall be exacted from a student before he is given advanced standing in any veterinary college. (U. S. B. A. I. Cir. 150).

ADVANCED STANDING

Advanced standing will be given for degrees in Medicine, Dentistry, or Veterinary Medicine.

Students holding degrees in Arts, Science, Philosophy, or Agriculture who in the course of study for their degrees have pursued studies in chemistry, physiology, anatomy, histology, bacteriology, or pathology, equivalent to the courses in these subjects in this college, may upon satisfactory evidence of their proficiency be credited with such studies; provided, however, that such students shall devote two years' study in veterinary medicine, the last year of which is passed in this College.

SPECIAL STUDENTS

Students, approved by the Dean, not candidates for the degree of Doctor of Veterinary Medicine, may be admitted without examination to pursue any course they may elect. Such courses cannot, however, be subsequently considered as time spent in the course for the degree

of Doctor of Veterinary Medicine. Nor can such students enter upon the regular veterinary course without complying with all the regular requirements for admission.

CLASSIFICATION OF STUDENTS

Students are divided into four classes, according to their proficiency and the time spent, viz., first, second, third and fourth year. Students cannot advance to a higher class with more than one major and one minor condition. Students failing in any subject or subjects may be permitted at the next examination period a re-examination in the subjects in which they fail. The Faculty may dismiss any student from the College, if in its judgment such student be deemed an unsuitable person, intellectually or otherwise, for the profession of veterinary medicine.

ORDER OF INSTRUCTION

The subjects studied in each year are shown in the following table:

FIRST YEAR	SECOND YEAR	THIRD YEAR	FOURTH YEAR
Anatomy	Anatomy	Theory and	Theory and
Histology	Physiological	Practice	Practice
Embryology	Chemistry	Bacteriology	Small Animal
Chemistry and	Pharmacy	Pathology and	Practice
Physics	Physiology	Laboratory	Surgery and
Laboratory	Hygiene	Diagnosis	Restraint
Chemistry	Breeds and	Surgery and	Therapeutics
Materia Medica	Breeding and	Restraint	Obstetrics
and Toxicology	Judging	Therapeutics	Veterinary
Botany	Dairy Inspection	Dentistry	Jurispru-
Zoology	and Milk	Parasitology	dence
	Hygiene	Soundness and	Control of
	Feeds and Feed-	Lameness	Infective
	ing	Shoeing and	Diseases
	Clinics	Balancing	Meat Inspec-
		Clinics	tion and P.
			M. Exami-
			nation
			Clinics

For lecture, laboratory and dissecting hours a schedule card is furnished.

Clinical work in the veterinary and canine hospitals connected with the College and at abattoirs and stock and dairy farms is required of second, third and fourth year students.

ANATOMY

JOHN M. BUCK, D.V.M.....	Assistant Professor
TUNIS HICKS, D.V.M.....	Instructor

The instruction in Anatomy is given in a series of lectures, demonstrations, recitations, and laboratory work, the latter being the most important.

The lectures are intended to present the general anatomical features of the horse and other domestic animals, and to point out the anatomical relations of the organs and parts of the body most subject to surgical operations.

The horse is used as the type subject in dissection, and every student is required to dissect all the parts of the horse, and such other of the domesticated animals, including the ox, sheep, swine, dog and cat, as may prove most expedient.

The laboratory is well supplied with all of the parts of the skeleton of the horse, and portions of the skeleton of various other domestic animals, for the work in osteology. Ample material is always available for the dissection of joints, muscles, viscera, and the vascular and nervous systems. The laboratory is also provided with a complete model of the horse, showing the relation of all the organs and parts of the body, for demonstrations in general and surgical anatomy. The course extends throughout the first and second years.

Text-book.—Sisson's Veterinary Anatomy.

HISTOLOGY AND EMBRYOLOGY

OSCAR BENWOOD HUNTER, M.D.....	Professor
--------------------------------	-----------

These subjects are taught by a series of carefully correlated lectures, recitations, quizzes and demonstrations, and will include such instruction in microscopy as a working knowledge of the use of the simple and compound microscope and accessories, supplemented by the fundamental laws of optics; the method of preparing tissues for microscopic examination, and the technique of mounting.

Comparative histology will deal with the minute structure of the tissues and organs of various animals, including man. In addition to the microscopical demonstrations, lantern demonstrations will also be given.

Embryology under this head will present the salient features of the anatomy and physiology of the fecundated ovule up to the time of birth.

Text-book.—Bohm, Davidoff and Huber's Histology.

PHYSIOLOGY

ARTHUR A. EISENBERG, A.B., M.D.....	Instructor
-------------------------------------	------------

The course in Physiology consists of lectures, demonstrations and laboratory exercises. The lectures cover all the important facts and theories regarding bodily functions of the animal, and are illustrated by diagrams, models and prepared specimens.

In the laboratory each student performs a number of experiments on blood, on the circulation, on digestion, on the general functions of nerves and muscles, and on the special senses of animals.

Special emphasis is laid on the relation of normal physiological functions to the disturbances of function in disease and upon the physiological action of drugs.

It is intended in this way to bring the work of the Physiological Laboratory and other exercises into closer relation with the succeeding course in Pathology, Therapeutics and General Veterinary Medicine.

Text-book.—Howell's Physiology, Smith's Veterinary Physiology.

GENERAL CHEMISTRY

First Year

CHARLES EDWARD MUNROE, Ph.D., LL.D.....Professor
OTIS DOW SWETT, S.M.....Assistant Professor

General Chemistry.—A series of illustrated lectures, accompanied by recitations and exercises on theoretical, inorganic, organic and technical Chemistry. The student is required to take notes on these lectures, which he must submit for examination.

Laboratory Practice.—A laboratory course for the study of the principles of chemistry which is designed to instruct students in the methods of conducting chemical experiments.

Text-book.—Holland's Medical Chemistry and Toxicology.

PHYSIOLOGICAL CHEMISTRY

Second Year

EDWIN HENRY INGERSOLL, S.B.....Instructor

This course will consist of lectures and laboratory instruction, and includes the study of water from a sanitary standpoint; the chemical examination of milk, the tissues and fluids of the body; the isolation of the digestive enzymes, and a study of their action in vitro.

MATERIA MEDICA AND THERAPEUTICS

DAVID EASTBURN BUCKINGHAM, V.M.D.....Professor
HARRY A. LOCHBOEHLER, D.V.M.....Instructor

First Year

(1) Lectures upon and demonstrations of drugs and their preparations and doses used in veterinary practice will be followed by recitations to assist in memorizing. (2) Practical exercises will be given in prescription writing, also a short course in Veterinary Pharmacology.

Third Year

(1) Systematic lectures upon the physiological action of drugs and their effects in disease, their therapeutic uses, and their methods of administration to animals. (2) Prescription writing, in which students are given hypothetical cases for which to prescribe. (3) The therapeutic application of various agencies not drugs.

Text-book.—Winslow's Veterinary Materia Medica and Therapeutics.

PRACTICE OF VETERINARY MEDICINE

JOHN POLLARD TURNER, V.M.D.....Professor

This subject is taught by a series of lectures, recitations, quizzes and clinics extending over a period of two years.

The student is personally drilled in all the various diseases and doctrines taught in a well regulated veterinary school.

Especial attention is given to practical work whereby the student can become proficient in the diagnosis and treatment of disease.

Visits are required to the three veterinary hospitals in connection with the University, and personal attention is given students in visits to various large stables in and adjacent to the city of Washington, where practical instruction is given the third and fourth year classes in physical diagnosis among horses, cows and hogs.

Equal attention is given diseases of cattle as of horses, whereby the student is properly fitted for either city or country practice.

Diseases of food-producing animals will be thoroughly explained.

Text-books.—Freidberger and Froehner's Pathology and Therapeutics of Domestic Animals; Hutyra and Marek's Special Pathology and Therapeutics of Domestic Animals; Malkmus' Clinical Diagnosis; Glass' translation of Muller's Diseases of the Dog.

VETERINARY SURGERY AND RESTRAINT

JOHN LOCKWOOD, D.V.S.....Professor

The instruction given in this course embraces systematic lectures upon the principles and practice of Veterinary Surgery.

The different surgical operations are illustrated in clinic and upon the cadaver, and the uses of all the important surgical instruments and appliances are demonstrated in the same manner. The use of anesthetics, the practice of dental surgery, and castration on all domestic animals will receive special attention.

Text-books.—Moeller's Operative Veterinary Surgery; Fleming's Operative Veterinary Surgery; Hobday's Canine and Feline Surgery; Williams, Principles and Practice of Veterinary Surgery; Pfeiffer and Williams' Surgical Operations; White's Restraint of Domestic Animals; Merillat's Surgery.

BACTERIOLOGY AND PATHOLOGY

JOHN BRADFORD BRIGGS, S.B., M.D.....	Professor
HENRY KNOX CRAIG, M.D.....	Instructor

Bacteriology.—This subject comprises laboratory instruction in the fundamental principles and methods of pure bacteriology. Thorough drilling is given in the preparation of culture media, in disinfection, sterilization, staining and the general methods of bacterial differentiation. Following this course, which is given daily during October, the further study of bacteria is taken up in connection with and as applied to pathology.

Pathology comprises the laboratory study of the general and special phenomena of inflammation, and a detailed study of the pathological processes found in the various diseases. The relation of bacterial and other microphytic life to disease processes and results is studied coincidentally and constitutes a course in applied bacteriology. In connection with the laboratory work a course of lectures and demonstrations is given upon immunity, serum therapy and protective inoculation.

Surgical Pathology.—A special course in the healing of wounds and injuries and in the pathology of surgical operations is given in the third and fourth years.

Clinical Microscopy.—Comprising the study of the various tissues, fluids, ejecta, and dejecta, with a view to diagnosis of diseased conditions, is given in the first part of the third year.

Text-book.—Delafield and Prudden's Pathology, Hiss and Zinsser's Text-book on Bacteriology.

SPECIAL PATHOLOGY, TREATMENT AND CONTROL OF INFECTIOUS DISEASES

G. M. POTTER, D.V.M.....	Instructor
--------------------------	------------

The lectures in this course will be given with reference to the etiology, pathogenesis, symptoms, diagnosis, treatment and prevention of the infectious diseases. Local and national regulations and measures governing the control and eradication of diseases, with particular reference to the work of the United States Government in the eradication of infectious diseases will be clearly explained.

Text-books.—Hutyra and Marck's Special Pathology and Therapeutics of Domestic Animals, Volume I, translated by Mohler, Eichhorn and Fisher; Moore's The Pathology of Infectious Diseases of Animals; James Laws's Veterinary Medicine, Volume IV, third revised edition.

BREEDS AND BREEDING AND JUDGING

WALTER B. JESSEE, S.B.....	Instructor
----------------------------	------------

The course covers the chief phases of live-stock work, including the judging, breeding and management of horses, cattle, sheep and swine.

It is introduced by discussions upon the origin of animal life, natural selections, the origin of breeds and the domestication of animals, as well as the principles of breeding, heredity, environment, selection, individual conformation and the history and development of breeds.

Students obtain practical experience in the judging of the various breeds and classes of animals, by visits to neighboring farms.

Text-books.—Plumb's Types and Breeds of Farm Animals; Goubaux and Barrier's Exterior of the Horse.

FEEDS AND FEEDING

RALPH J. CARR, B.Sc.....Assistant Professor

This course will cover the principles of animal nutrition, balanced rations, practical feeding and the economical production of beef, milk, mutton and pork.

Text-book.—Henry's Feeds and Feeding.

MILK HYGIENE AND DAIRY INSPECTION

CHAUNCEY M. GRUBB, D.V.M.....Instructor.

The course in Milk hygiene will be given by lectures and demonstrations throughout the second year. The students will be taught the theory of milk secretion, the composition and characteristics of milk, the various methods of testing, together with the chemistry and bacteriology of milk, abnormal forms of milk, and diseases transmissible through milk to bovines and human beings, with a study of the epidemics produced. Sanitary stabling and the sanitary handling of milk will be considered, showing the construction of various types of dairy barns and dairy houses, the manner of milking, care of the milk and the varieties and care of dairy utensils; also the study of sterilization and pasteurization.

Text-books.—Jensen's Milk Hygiene, translated by Pearson. Bulletin No. 56, Marine-Hospital Service, Milk and its Relation to the Public Health.

MEAT INSPECTION AND POST-MORTEM EXAMINATION

G. M. POTTER, D.V.M.....Instructor
FRANK ALMON HUGINS, D.V.M.....Instructor

The subject involves the control of food animals destined for slaughter; their ante-mortem and post-mortem inspection with reference to the diseases which affect the wholesomeness of the meat. Further, the preparation of meat-food products, the various methods of preservation of meat and the conditions to which the meat and meat products are

subject due to the different infections and contaminations. The application of the Regulations of the Department of Agriculture in connection with the judgment of carcasses, meats and meat-food products.

Practical demonstrations in meat inspection and judgment will be given at the local abattoirs.

Post-mortem examinations and demonstrations of morbid anatomy will be given, as opportunities arise, in the various hospital and ambulatory clinics in and about Washington, D. C. Special consideration will be given to discussion of gross pathological changes, procedure of technic, preparation of pathological specimens for museum purposes and methods of securing and forwarding material for diagnosis. Students will be required to write complete protocols of each case.

Text-book.—Mohler and Eichhorn's translation of Edelmann's Meat Hygiene, second revised edition.

ZOOLOGY AND PARASITOLOGY

MAURICE C. HALL, A.B., A.M.....Assistant Professor

Zoology.—In this course a brief survey of the general principles of zoology is undertaken. The history of zoology, the classification of the animal kingdom, the structure of typical forms in the different Phyla and the distribution of animals on the face of the earth will be considered. The course is designed to familiarize the student with the main facts and theories of zoology.

Parasitology.—This course is designed to give the student a practical knowledge of animal parasites. The nature of parasitism, the classification of parasites and the structure and life histories of those parasites of importance from the standpoint of meat inspection and veterinary practice are considered. By the use of fresh and preserved materials the student is given a first-hand knowledge of the more important parasites. Due consideration is given to the diseases caused by animal parasites, their prophylaxis, treatment and eradication.

VETERINARY OBSTETRICS

CHAUNCEY M. GRUBB, D.V.M.....Instructor

The course of instruction will consist of lectures on obstetrical anatomy, foetal development, presentations and the diseases incidental to the periods of gestation and parturition.

The lectures will be illustrated by diagrams, models, natural preparations, and other appliances for demonstrating the principles taught.

Text-book.—Fleming, Dalrymple, Williams.

SHOEING AND BALANCING

FRANK ALMON HUGINS, D.V.M.....Instructor

The course is intended to familiarize students with the principles of shoeing, the examination of the feet and proper use of special shoes for relief of defects or disease.

Text-book.—Lungwitz on Horseshoeing, Adams' translation.

DENTISTRY

CHAUNCEY M. GRUBB, D.V.M.....Instructor

The course in dentistry includes lectures on the development of the teeth of the domesticated animals, the determination of age, irregularities of the teeth, oral surgery and dental clinics.

Text-book.—Merillats' Animal Dentistry and Diseases of the Mouth.

BOTANY

HARRY H. FETTER, Ph.G.....Instructor

The course in botany embraces the general relation of plants, vegetative organs, their functions, reproductive organs and nutrition.

Ecological factors, diversity of plant life, evolution of sex, differentiation of tissues, and plant physiology will be fully considered.

PHARMACY

HARRY H. FETTER, Ph.G.....Instructor

Pharmacy includes the history and nomenclature of the U. S. Pharmacopoeia, metrology, metric system and common system of weights and measures. Principles employed in making various preparations, classification of official preparations, incompatibility.

Supplemented by laboratory work in which students are required to compound formulae of ointments, lotions, draughts and various preparations, official and extemporaneous.

MILITARY PRACTICE

J. R. HAYNES, D.V.M.,

Clinical Instructor in Veterinary Military Practice

This course consists of lectures and demonstrations of purely military veterinary subjects, and is given at Fort Myer, Va., the cavalry and artillery post near Washington, D. C.

The subjects of saddling, biting and draft, together with the study of the proper conformation of animals used for military purposes, are included in this set of lectures.

The control of epizootics in military life is also given special consideration.

VETERINARY JURISPRUDENCE

WILLIAM W. BRIDE, A.M., LL.B.....Lecturer

A series of lectures upon the Law of Animals, including suggestions relating to the conduct of veterinarians as experts in the trial of cases involving the above law.

SPECIAL LECTURES

In addition to the foregoing courses of lectures, a number of government experts have been engaged to give lectures on subjects of special interest to the veterinarian.

These men are specialists in their lines of scientific research, and this is the only school giving such a course.

EXAMINATIONS AND DEGREE

Examinations are held at the end of the course in each subject. Students failing in examinations will be permitted to be re-examined at the next regular examination period. Students will not be admitted to examination unless they have paid all fees due at the time or present a permit signed by the Dean. In order to avail themselves of the privilege of re-examination, students must file their written applications with the Dean not later than fifteen days before the date set for the examinations.

Proficiency is marked upon a scale of 100. A grade of 70 is required to pass an examination. Students who fail to appear at the regular examination period will be charged a fee of \$3 for a special examination in each subject.

If a satisfactory examination is passed, the student receives the Degree of Doctor of Veterinary Medicine (D.V.M.)

PRIZES

1. Gold medal for student attaining highest average for whole course.
2. Prize for best work in operative surgery for senior student.
3. Prize for best anatomical specimen prepared by a Sophomore student.
4. Prize for best anatomical specimen prepared by a Freshman student.

In addition to the foregoing, students attaining a general average of 90 per cent or over for the entire course will be graduated "With Distinction," the same to be inscribed upon their diploma.

THE VETERINARY LIBRARY

This library is located in the Administration Building of the College of Veterinary Medicine, and is open from 8 a.m. to 10 p.m.

It contains, in addition to volumes on veterinary medical subjects, the current veterinary journals.

Provision is made in the annual library fee charged every student to add to it as published, the important new works on veterinary medicine.

OTHER LIBRARIES

Washington contains the Library of the Surgeon-General's Office of the United States Army, the most complete medical library in the world. This library, as all other libraries of the government, is open to the public between the hours of 9 a.m. and 4.30 p.m. There is also the Library of Congress and the many excellent libraries of the various other government offices, in addition to the University Medical Library.

FEES AND CONTINGENT EXPENSES

1. Matriculation fee (payable only on first entry into the University)	\$5
2. Library fee per annum.....	2
3. Tuition fee per annum.....	100
4. Fee for graduation.....	10

A deposit of \$5 per annum is required of every student to cover loss, breakage or damage to the property of the school. The amount of such deposit paid in excess of the breakage will be returned.

No change will be made in the fees fixed at registration except in case of withdrawal, and then only upon notice in due form, and from the end of the current quarter-session, when such withdrawal shall be approved. Applications for the granting of a withdrawal should be made on the prescribed form to be obtained from the Registrar, and will be received only at the end of a quarter-session.

Students are urged to purchase their own microscopes, but those who do not care to do so may rent them from the University at the following rates:

Microscope for Histological Laboratory use.....	\$5
Microscope for Bacteriological, Pathological and Clinical	
Microscopy Laboratory use.....	6

PAYMENT OF FEES

All fees are to be paid to the clerk. Tuition fees are payable quarterly, in advance. Matriculation, library and laboratory fees are payable in full, in advance.

STUDENT EMPLOYMENT

The College of Veterinary Medicine will aid students, especially those coming from a distance, to obtain suitable employment as a means of defraying a part or all of their expenses while in pursuit of their college course. Opportunities for such employment in Washington are exceptionally good. The many Departments of Government, the Library of Congress, Congressmen's secretaryships, law offices, contractors' and

architects' offices, journalism, stenography, etc., offer a large number of positions of the most diverse kinds. While the College must not be understood as in any sense engaging to find employment for prospective students, in a great many cases important assistance can be rendered duly qualified applicants, if the fact of their desire to obtain employment is known. Applicants are particularly cautioned against coming to the University, intending to depend upon outside employment for support without being provided with funds sufficient to meet the expenses of at least the first half-year. Communications should be addressed to

THE DEAN,
*College of Veterinary Medicine,
The George Washington University,
2113-2115 Fourteenth St. N.W., Washington, D.C.*

BOARD AND ROOMS

A register of approved boarding-houses is kept by the clerk. Accommodations cost from \$25 to \$40 a month.

For further information apply to David E. Buckingham, Dean, The George Washington University, College of Veterinary Medicine, Nos. 2113-2115 Fourteenth Street N. W., Washington, D. C.

It is the policy of the University of Michigan Library to acquire and maintain a complete and up-to-date collection of books, journals, and other materials in the fields of the natural sciences, social sciences, and humanities. The library is committed to providing access to these materials for the benefit of the University community and the public.

For more information, please contact the University of Michigan Library at 480 Tappan Street, Ann Arbor, MI 48106-1500. Phone: (734) 763-1000. Fax: (734) 763-1001.

Part IV of the University of Michigan Library's collection includes a wide range of materials, including books, journals, and other publications. This part of the collection is available for use by the University community and the public.

(Names of students who have withdrawn or graduated are indicated by stars; those who have entered since February 1, 1914, by daggers.)

DEPARTMENT OF ARTS AND SCIENCES

SCHOOL OF GRADUATE STUDIES

IN ATTENDANCE

- Bearce, Ira Mellen; Maine Business High School
S.B., 1904, University of Maine. *Topic*—Chemistry.
- Boyle, William; Massachusetts.....1369 East Capitol Street
S.B., 1909, Maryland Agricultural College. *Topic*—Chemistry.
- *Coopersmith, Samuel; Nebraska.....1501 11th Street
A.B., 1910, University of North Carolina; A.M., 1912, University
of Nebraska. *Topics*—Chemistry, Biochemistry.
- †Reiskin, David; Russia.....2010 17th Street
C.M.Eng., 1913, Ecôle de Mines et Faculté Polytechnique des
Hainault a Mons. *Topic*—Chemistry.
- Starbecker, Moses; New York.....1104 5th Street
S.B., 1910, College of the City of New York. *Topic*—Chemistry.
- Wagner, Elsie Marian; New York.....1007 13th Street
Ph.B., 1906, Syracuse University. *Topic*—Bacteriology.

DOCTOR OF CIVIL LAW

- Miller, Clarence Alphonso; Mexico, American Consulate, Tampico, Mexico
LL.B., 1899, Kansas City School of Law; LL. M., 1905, M. Dip.
1906, George Washington University. State Department.

CIVIL ENGINEER

- Ball, William Curtis Cooley; Maryland,
328 East 58th Street, New York City
B.S. in C.E., 1912, George Washington University.
- Dutton, Donald Langley; District of Columbia...1721 Kilbourne Place
B.S. in C.E., 1913, George Washington University.
- Dwyer, John Rochford; District of Columbia.....628 F Street S.W.
B.S. in C.E., 1913, George Washington University.
- *Hodgkins, Howard Wilkinson; District of Columbia....The Octavia
B.S. in C.E., 1913, George Washington University.
- Kirk, Theodore Thomas; Kentucky.....2152 F Street
B.S. in C.E., 1913, George Washington University.
- Slarrow, Malcolm Gordon; District of Columbia.....1308 13th Street
B.S. in C.E., 1913, George Washington University.

ELECTRICAL ENGINEER

- McCalip, Curtis Edgar; Maryland, 803 E. Preston Street, Baltimore, Md.
 B.S. in E.E., 1912, George Washington University.
 Safford, Howard Palmer; District of Columbia.....1933 Park Road
 B.S. in E.E., 1912, George Washington University.

MECHANICAL ENGINEER

- Snelling, Henry Hornor; Virginia.....3522 10th Street
 S.B. in M.E., 1913, George Washington University.

MASTER OF SCIENCE

- Bradley, Willis Winter, Jr.; Washington.....1807 California Street
 Graduate, 1906, United States Naval Academy. *Topics*—Major,
 Chemistry; Minors, Mathematics, Physics.
 *Cleaves, Florena; Kansas.....The Victoria
 A.B., 1910, Southwestern College. *Topics*—Major, Zoology;
 Minors, Botany, Bacteriology.
 Craighead, Frank Cooper; Pennsylvania.....926 B Street S.W.
Topics—Major, Zoology; Minors, Zoology, Chemistry.
 Crawford, James Chamberlain; Nebraska.....U.S. National Museum
Topics—Major, Zoology; Minors, Zoology, Botany.
 Dennis, Showell Coulhouser; Maryland,
 316 N. Columbus Street, Alexandria, Va.
 S.B. in Chemistry, 1912, Maryland Agricultural College. *Topics*
 —Major, Bacteriology; Minors, Chemistry, Biochemistry.
 Dodge, Cleon Orestes, New Hampshire,
 Bureau of Chemistry, Department of Agriculture
 S.B., 1915, New Hampshire College. *Topics*—Major, Chemis-
 try; Minors, Bacteriology, Microscopy.
 *Finkelstein, Reuben; District of Columbia.....1501 11th Street
 A.B. and Teacher's Diploma, 1911, George Washington Univer-
 sity. *Topics*—Major, Education; Minors, Physics, Economics.
 Gardiner, Robert Franklin; Rhode Island.....1223 Irving Street
 S.B., 1903, Rhode Island State College. *Topics*—Major, Chem-
 istry; Minors, Bacteriology, Geology.
 *Ginsburg, Samuel; District of Columbia.....915 20th Street
 S.B., 1912, College of the City of New York. *Topics*—Major,
 Biochemistry; Minors, Chemistry, Bacteriology.
 Graham, James Jesse Thomas; Maryland.....Hyattsville, Md.
 S.B., 1906, Maryland Agricultural College. *Topics*—Major,
 Chemistry; Minors, Bacteriology, Chemistry.
 †Hasenfratz, William; New York.....1501 11th Street
 S.B., 1913, College of the City of New York. *Topics*—Major,
 Bacteriology; Minors, Chemistry, Biochemistry.
 *Hustvedt, Olaf Mandt; Iowa.....Proving Ground, Indian Head, Md.
 Graduate, 1909, United States Naval Academy. *Topics*—Major,
 Chemistry; Minors, Mathematics, Physics.

- *Kerner, Abram Nathaniel; New York.....915 20th Street
S.B., 1912, College of the City of New York. *Topics*—Major,
Biochemistry; Minors, Chemistry, Bacteriology.
- *McLeran, John David; District of Columbia....Station H, Route 1
A.B., 1896, The Iuka Normal Institute; A.M., 1903, Southern
Normal University. *Topics*—Major, Chemistry; Minors, Eng-
lish, History.
- Miller, Carl Frederick; New York.....1737 Oregon Avenue
S.B., 1912, Syracuse University. *Topics*—Major, Chemistry;
Minors, Bacteriology, Microscopy.
- Miller, Harry McClure; Kentucky.....1440 W Street
Topics—Major, Chemistry; Minors, Bacteriology, Zoology.
- Moore, Milton Donaldson; South Carolina..Department of Agriculture
A.B., 1913, George Washington University. *Topics*—Major,
Zoology; Minors, Zoology, Botany.
- North, Dexter; District of Columbia.....2852 Ontario Road
S.B., 1913, Hamilton College. *Topics*—Major, Chemistry; Mi-
nors, Mechanical Engineering, Electrical Engineering.
- Oberholser, Harry Church; District of Columbia...1444 Fairmont Street
Topics—Major, Zoology; Minors, Zoology, Botany.
- †Outwater, Kate Sorrell; Virginia.....620 F Street, S.W.
A.B., 1913, George Washington University. *Topics*—Major,
Zoology; Minors, German, Botany.
- *Peck, Caro Beth; Illinois.....702 20th Street
S.B., 1908, Northwestern University. *Topics*—Major, Physics;
Minors, Chemistry, Physics.
- †Radcliffe, Lewis; New York.....301 Tennessee Avenue, N.E.
A.B., 1905, Cornell University. *Topics*—Major, Zoology; Mi-
nors, Zoology, Bacteriology.
- Roundy, Paul Vere; New York.....U. S. Geological Survey
A.B., 1912, George Washington University. *Topics*—Major, Ge-
ology; Minors, Mineralogy, Zoology.
- *Sanford, Herbert Luther; New York.....Bureau of Entomology
S.B., 1910, Cornell University. *Topics*—Major, Zoology; Mi-
nors, Zoology, Microscopy.
- †Smith, Delos Hamilton; District of Columbia.....Southern Building
B.S. in Arch., 1906, George Washington University. *Topics*—
Major, History of Art; Minors, Architecture, Archaeology.
- *Valaer, Peter, Jr.; North Carolina.....Bureau of Internal Revenue
S.B., 1906, Agricultural and Mechanical College of North Caro-
lina. *Topics*—Major, Chemistry; Minors, Bacteriology, Micro-
scopy.
- *Webster, Hugh; District of Columbia.....Y. M. C. A.
S.B. in Agriculture, 1912, Iowa State University. *Topics*—
Major, Chemistry; Minors, Biochemistry, Bacteriology.

MASTER OF ARTS

- Ashley, Rebecca Sherman; Minnesota.....1100 M Street
Topics—Major, Archaeology; Minors, Archaeology, English.
- Brigham, Gertrude Richardson; Massachusetts..Smithsonian Institution
 A.B., 1913, George Washington University. *Topics*—Major,
 English, Minors; History, French.
- Burden, Katherine; District of Columbia.....1237 Crittenden Street
Topics—Major, English; Minors, Zoology, German.
- Carter, Francis Edward; Virginia. Episcopal High School, Alexandria, Va.
 A.B., 1913, George Washington University. *Topics*—Major, His-
 tory; Minors, History, Political Science.
- Clark, Edith Mary; New York.....Gunston Hall
 L.L.A., 1899, St. Andrews University, Scotland. *Topics*—Major,
 Archaeology; Minors, Archaeology, English.
- †Corson, Florence Virginia Morrison; Maryland.....2129 F Street
 A.B. and Diploma of Education, 1914, George Washington Uni-
 versity. *Topics*—Major, English; Minors, English, Education.
- Covell, David Ransom Covell; District of Columbia....3221 11th Street
 A.B., 1910, George Washington University. *Topics*—Major, So-
 ciology; Minors, Philosophy, Greek.
- Garber, John Absalom; District of Columbia.....508 B Street, S. E.
 A.B., 1891, Bridgewater College. *Topics*—Major, Education;
 Minors, Psychology, Philosophy.
- Heller, Mary Elizabeth; Maryland.....3427 Holmead Place
 S.B., 1908, Columbia University. *Topics*—Major, German; Mi-
 nors, Romance Languages, Sociology.
- *Huff, Daisie Ione. Illinois.....2152 F Street
 A.B., 1913, George Washington University. *Topics*—Major Ed-
 ucation; Minors, Psychology, Philosophy.
- *Judd, Edwin Edgar; District of Columbia.....15 Todd Place, N.E.
 A.B., 1913, George Washington University. *Topics*—Major,
 Economics; Minors, Political Science, Sociology.
- †Knudtson, Clarence Arthur, District of Columbia.653 Morton Place, N.E.
 A.B., 1913, George Washington University. *Topics*—Major,
 English; Minors, Philosophy, Sociology.
- Mallory, William Johnston; District of Columbia, 1720 Connecticut Ave.
 M.D., 1903, George Washington University. *Topics*—Major,
 Physiology and Pharmacology; Minors, Pathology, Chemistry.
- Marshall, William Clarkson, Jr.; Virginia...Theological Seminary, Va.
 A.B., 1907, University of Virginia. *Topics*—Major, Philosophy;
 Minors, English, Zoology.
- Ossire, Cora Amelia; District of Columbia.....2729 Ontario Road
 A.B., 1913, George Washington University. *Topics*—Major, Ed-
 ucation; Minors, English, French.

- Penagos y R. Arcesio; Columbia.....1337 L Street
Ph.B., 1906; LL.D., 1910, Cauca University, Columbia. *Topics*
Major, Political Science; Minors, Economics, International Law
and Diplomacy.
- Roper, Margaret May; District of Columbia,
816 Massachusetts Ave., N.E.
A.B., 1912, Randolph Macon College. *Topics*—Major, English;
Minors, Sociology, Economics.
- Schwartz, Claus Johann; Germany.....3526 11th Street
A.B., 1908, George Washington University. *Topics*—Major,
German; Minors; French, Education.
- Scott, Mabel Lavinia; District of Columbia.....1455 Girard Street
A.B., 1907, George Washington University. *Topics*—Major,
English; Minors, German, History.
- Shen, Tsao-Chen; China.....2006 Columbia Road
A.B., 1909, St. John's College, Shanghai. *Topics*—Major, Inter-
national Law and Diplomacy; Minors' Political Science, Soci-
ology.
- Stout, Joseph Duerson; District of Columbia.....233 8th Street, N.E.
A.B., 1910; M.D., 1913, George Washington University. *Topics*
Major, Physiology and Pharmacology; Minors, Physiology and
Pharmacology, Pathology.
- Underwood, Harriet; District of Columbia.....2551 37th Street
A.B., 1913, George Washington University. *Topics*—Major,
Education; Minors, History, English.
- von Zielinski, Carl Maria Johann; Germany.....1706 F Street
A.B., 1913, George Washington University. *Topics*—Major, Eco-
nomics; Minors, History, International Law and Diplomacy.
- White, Mary Josephine; New York..42 Riverside Drive, New York City
A.B., 1913, George Washington University. *Topics*—Major,
English; Minors, German, History.

DOCTOR OF PHILOSOPHY

- Alden, Levi Russell; District of Columbia.....Union Trust Bldg.
A.B., 1903, A.M., 1904, LL.B., 1906, George Washington Univer-
sity. *Topics*—Major, History; Minors, Law, History.
- Bevard, Katherine Harper, Pennsylvania.....1423 R Street
A.B., 1911, A.M., 1913, George Washington University. *Topics*
—Major, Education; Minors, Education, English.
- Bookstaber, Philip David; New York.....12 Grant Place
S.B., 1911, College of the City of New York; A.M., 1912, Colum-
bia University. *Topics*—Major, Economics; Minors, Sociology,
Political Science.
- †Bowers, Andrew Jackson, Jr.; South Carolina.....1716 G Street
A.B., 1908; A.M., 1913, Newberry College. *Topics*—Major, Po-
litical Science; Minors' International Law and Diplomacy,
History.

- Catella, Samuel Spinoza; Holland.....628 East Capitol Street
Topics—Major, Political Science; Minors, Economics, Education.
- Churchill, George Morton; Massachusetts.....The Newton, 520 E Street
 A.B., 1896, Boston University; A.M., 1909, George Washington
 University. *Topics*—Major, History; Minors, Economics, His-
 tory.
- Custis, Horace Hatch; District of Columbia.....The Iroquois
 A.B., 1906, Johns Hopkins University; A.M., 1908, George Wash-
 ington University. *Topics*—Major, Chemistry; Minors, Chem-
 istry, Bacteriology.
- Doyle, Aida Mary; Pennsylvania.....1359 Park Road
 S.B., 1898, S.M., 1899, George Washington University. *Topics*—
 Major, Chemistry; Minors, Chemistry, Microscopy.
- Ewing, Clare Olin; Ohio.....1736 G Street
 S.B., 1912, S.M., 1913, Ohio State University. *Topics*—Major,
 Chemistry; Minors, Bacteriology, Biochemistry.
- *Finkelstein, Reuben; New York.....1501 11th Street
 A.B., 1911, George Washington University. *Topics*—Major, Ed-
 ucation, Minors, Economics, Mathematics.
- Hall, Maurice Crowther; District of Columbia,
 1815 Hamlin Street, N. E.
 S.B., 1905, Colorado College; A. M., 1906, University of Nebras-
 ka. *Topics*—Major, Zoology; Minors, Zoology, Pathology.
- *Hood, Joseph Douglas; Illinois.....2009 Kalorama Road
 A.B., 1910, University of Illinois. *Topics*—Major, Zoology;
 Minors, Zoology, Botany.
- Huddle, John Thomas, District of Columbia.....738 11th Street
 A.B., 1891; A.M., 1896, Roanoke College. *Topics*—Major, Eng-
 lish; Minors, Psychology, Philosophy.
- Ice, Harry Lawrence; Maryland.....Mt. Rainier, Md.
 A.B., 1912; A.M., 1912, Bethany College. *Topics*—Major, Phi-
 losophy; Minors, English, Sociology.
- *Jackson, Hartley Harrad Thompson; District of Columbia,
 1326 Euclid Street
 A.B., 1904, Milton College; A.M., 1909, University of Wisconsin.
Topics—Major, Zoology; Minors, Zoology, Psychology.
- *Kibler, Thomas Latimer; District of Columbia.....1715 35th Street
 A.B., 1904, Randolph Macon College; A.M., 1908, George Wash-
 ington University. *Topics*—Major, Economics; Minors, His-
 tory, Sociology.
- †Lowe, Edith Bliston; District of Columbia.....2622 Woodley Place
 A.B., 1911; A.M., 1912, George Washington University. *Topics*
 —Major, English; Minors, English, History.
- Morse, Elisha Wilson; District of Columbia.....1723 Willard Street
 B.A.S., 1897, Harvard University. *Topics*—Major, Zoology;
 Minors, History, Economics.

- Palkin, Samuel; District of Columbia.....1215 I Street
Ph.B., 1910, Yale University; S.M., 1913, George Washington
University. *Topics*—Major, Chemistry; Minors, Bacteriology,
Microscopy.
- Pierce, Ulysses Grant Baker; District of Columbia.....1616 Riggs Place
B.D., 1890, Hillsdale College; A.B., 1909; D.D., 1909, George
Washington University. *Topics*—Major, Philosophy; Minors,
Aesthetics, English.
- Roark, Ruric Creegan; Kentucky.....1668 Park Road
A.B., 1907, University of Cincinnati; A.M., 1908, University of
Illinois. *Topics*—Major, Chemistry; Minors, Bacteriology,
Pharmacology.
- Schwartz, Claus Johann; Germany.....3526 11th Street
A.B., 1908, George Washington University. *Topics*—Major,
German; Minors, French, Education.
- *Sniffin, William Webb; District of Columbia.....2625 Garfield Street
A.B., 1906; A.M., 1907, George Washington University. *Topics*
—Major, French; Minors, Spanish, Philosophy.
- Stout, Joseph Duerson; District of Columbia.....233 8th Street, N.E.
A.B., 1910; M.D., 1913, George Washington University. *Topics*
—Major, Physiology and Pharmacology; Minors, Physiology
and Pharmacology, Pathology.
- Swett, Otis Dow; Maryland.....1325 H Street
LL.B., 1891; LL.M., 1892; S.B., 1904; S.M., 1909, George Wash-
ington University. *Topics*—Major, Chemistry; Minors, Chem-
istry, Bacteriology.
- Ulke, Titus; District of Columbia.....U. S. Patent Office
Met. E., 1889, Royal Academy of Mines; LL.B., 1909; S.B., 1909;
M.P.L., 1909, George Washington University. *Topics*—Major,
Zoology; Minors, Zoology, Botany.
- Wentz, Abdel Ross; Pennsylvania.....809 L Street
A.B., 1904; A.M., 1907, Pennsylvania State College; B.D., 1907,
Gettysburg Theological Seminary. *Topics*—Major, History;
Minors, History, German.

THE COLLEGES

The following list includes all undergraduate students. The regis-
tration is indicated by the abbreviations: C. C., Columbian College;
Eng., for College of Engineering and Mechanic Arts; T. C., for Teachers
College. The letters c., e., m., and a., after the abbreviation Eng., in-
dicate that the student is a candidate for the bachelor's degree in Civil,
Electrical or Mechanical Engineering, or in Architecture; the absence
of these letters indicates a special student.

- Abbott, Ruth Estelle, T. C.; District of Columbia.....1308 Spring Road
Abercrombie, Clare, C. C.; Alabama.....Falkstone Courts

- Abramson, Nathan, Eng., c; District of Columbia. 100 N. J. Ave. N.W.
 *Adams, Albert Chester, C. C.; Maryland. College Park, Md.
 Agnew, Ethna, C. C.; District of Columbia, Apt. 43, The Lambert
 Aitcheson, Mary Caroline, C. C.; Virginia,
 311 S. Lee Street, Alexandria, Va.
 *Akers, Edwin, Eng.; District of Columbia. 1016 Massachusetts Avenue
 Albert, Francis Lee, C. C.; Iowa. Y. M. C. A.
 Albes, Julia Fredericka, C. C.; Alabama. 1737 Corcoran Street
 Aldridge, Isabel Miller, T. C.; New York. 819 Allison Street
 Allwine, Elsie May, T. C.; District of Columbia,
 513 12th Street, N. E.
 Almon, Harry Foster, Eng.; Montana. 719 11th Street, N.W.

SUMMARY

Graduate Students

Students in attendance.....	6	
Candidates for D.C.L. degree.....	1	
Candidates for C.E. degree.....	6	
Candidates for E.E. degree.....	2	
Candidates for M.E. degree.....	1	
Candidates for S.M. degree.....	27	
Candidates for A.M. degree.....	24	
Candidates for Ph.D. degree.....	27	
	94	
Duplicates.....	2	92

Undergraduate Students

Columbian College

Candidates for A.B. degree.....	228	
Candidates for B.S. in Chemistry degree.....	49	
Candidates for B.S. in Medicine degree.....	4	
Candidate for Master of Diplomacy degree.....	1	
Special.....	189	
Auditors.....	13	484

College of Engineering

Candidates for B.S. in Arch. degree.....	9	
Candidates for B.S. in C.E. degree.....	38	
Candidates for B.S. in E.E. degree.....	28	
Candidates for B.S. in M.E. degree.....	32	
Special.....	98	205

Teachers College

Candidates for A.B. and Teachers' Diploma.....	116	
Candidates for Teacher's Diploma.....	1	
Special.....	10	
Auditors.....	3	130
		911
Duplicates.....		7
		904

PROFESSIONAL DEPARTMENTS

LAW SCHOOL

Students who are college graduates are indicated by the degree, year in which it was received and name of the college conferring it.

Students who have had only part of a college course in addition to the necessary preparatory education are indicated by the names of the colleges attended.

First Year

Alexander, Walter Richardson; Missouri.....	1110 Rhode Island Avenue
University of Missouri.	
Allen, James Thatcher; District of Columbia.....	1833 U Street
Atherton, Wallace Irving; Washington.....	1100 Vermont Avenue
University of Pennsylvania.	
Baker, Lawrence Adams; District of Columbia,	
3141 Highland Avenue, Cleveland Park	
A.B., 1913, Princeton University.	
Bardwell, Halsey Warren; Vermont.....	Apartment 601, The Alabama
Ph.B., 1910, Ewing College.	
Barrett, Samuel Melton; District of Columbia..	1304 Fairmont Street
The George Washington University.	
*Bates, Lloyd Graham; Pennsylvania.....	1741 G Street
Batt, Joseph Harper; Delaware.....	The Landmore
The George Washington University.	
Baxter, Chester C.; Ohio.....	1815 Lamont Street
S.B., 1908, Ohio Northern University.	
Beadle, John Bookwalter; District of Columbia....	312 A Street S.E.
The George Washington University.	
Berkeley, Norborne; Virginia...Episcopal High School, Alexander, Va.	
University of Virginia.	
Bird, Branch; Kentucky.....	1101 K Street
Center College, Kentucky.	
†Boeke, Charles Leslie; Illinois.....	509 Union Trust Building
*Boyle, Francis; New York.....	1829 California Street
The George Washington University.	
Breuninger, Lewis T; District of Columbia.....	3208 19th Street
A.B., 1913, Johns Hopkins University.	

- Brooks, Grace Elisabeth Platt; Connecticut.....2120 G Street
 Brown, Alvin McCreary; Maryland.....Berwyn, Md.
 The George Washington University.
 Brown, Earle L.; Iowa.....1333 Fairmont Street
 Brown, Harold L.; Iowa.....1333 Fairmont Street
 Brown, Ralph Waldo; District of Columbia.....2626 University Place
 E.M., 1912, Lafayette College.
 Bryant, Niles, Jr.; Illinois.....1100 Vermont Avenue
 Bull, Charles Roy; Maine.....334 Maryland Avenue N.E.
 A.B., 1913, Bowdoin College.
 Burchfield, William Eden; District of Columbia...4429 Georgia Avenue
 Burrows, Tremaine Kellogg; New York.....6902 5th Street
 A.B., 1897, University of Nebraska.
 †Campbell, Max Durham; Maryland.....Woodside, Md.
 Chamberlin, Pierre Audrey; District of Columbia.....1323 M Street
 The George Washington University.
 Chang, Chen Yen; China.....1715 G Street
 Chinese National College, Shanghai.
 Clark, Marion; Maryland.....McKinley Manual Training School
 A.B., 1901; A.M., 1904, Western Maryland University.
 Cornwell, Douglas Van Valkenburg; District of Columbia,
 2140 Wyoming Avenue
 B.S. in Econ., 1913, University of Pennsylvania.
 *Crozier, Frank H; Illinois.....318 3d Street
 *Cullum, Clarence S; District of Columbia.....109 Bates Street
 Davis, Joe H; Texas.....708 19th Street
 Deal, Roy Linney; Virginia.....R. F. D. No. 4, Alexandria, Va.
 A.B., 1911, The George Washington University.

 A.B., 1912, Harvard University.
 Desha, Stephen Langhern, Jr.; Hawaii.....283 House Office Building
 Dix, Howard Whedon; New York.....1236 Euclid Street
 M.E., 1911, Cornell University.
 Domer, Harry Tennyson; District of Columbia.....727 15th Street
 A.B., 1900; A.M., 1903, The George Washington University.
 Draeger, Henry Herman; South Dakota.....1025 Vermont Avenue
 *Earl, Donald Montgomery; Maryland.....Department of Agriculture
 The George Washington University.
 Eudaley, Glenn Robert; Kentucky.....916 15th Street
 *Everett, John Redden; Minnesota.....Y. M. C. A.
 The George Washington University.
 Farmer, Max D.; District of Columbia.....18 Todd Place N.E.
 B.S., 1910, Michigan Agricultural College.
 Fickas, Melville Philip; Arizona.....1436 M Street
 The George Washington University.
 Fisher, Martin Tucker; District of Columbia...1802 Wyoming Avenue
 B.S., 1913, Harvard University.

- Francis, Marshall H; Ohio.....617 12th Street
Western Reserve University.
- †Friedland, Karl Benjamin; Utah.....1430 Rhode Island Avenue
- Geekie, George; Massachusetts.....Y. M. C. A.
- †Gray, Eugene Hollister; New York.....4101 Connecticut Avenue
A.B., 1911, Yale University.
- Gregg, Will Reeves; Texas.....The Cairo
A.B., 1913, Austin College.
- †Gross, Robert Frank; California.....The Woodward
Graduate, 1907, United States Naval Academy.
- Haines, Elvans Diehl; District of Columbia.....1340 R Street
The George Washington University.
- Hamack, Frank Hartmond, Jr.; Minnesota.....Y. M. C. A.
- Hardie, John F., Jr.; New York.....1921 North Capitol Street
- *Harrington, Katherine; District of Columbia....Conduit Road, D. C.
B.S., 1906; M.S., 1908, The George Washington University.
- †Hartwig, Harvey Clarence; Wisconsin.....1804 G Street
University of Wisconsin.
- Hastings, William Riley; Tennessee.....1006 B Street
- †Haymes, Lonnie Slavens; Missouri.....224 3d Street S.E.
B.Pe., 1913, Springfield, Missouri, State Normal School.
- †Henneman, H. E.; Wisconsin.....1736 G Street
- Hill, Elsie Mary; Connecticut.....The Burlington
A.B., 1906, Vassar College.
- †Hilliard, Barrymore Nugent; Washington..1226 Massachusetts Avenue
Leland Stanford University.
- *Hillje, Harry; Iowa.....925 Westminster Street
- Hodgkins, Howard Wilkinson; District of Columbia.....The Octavia
B.S. in C.E., 1913, The George Washington University.
- Hollingsworth, Roger P.; District of Columbia.....2815 14th Street
- Hoover, John Edgar; District of Columbia....413 Seward Square S.E.
- Howard, Dudley Blanchard; Dist. of Columbia..314 East Capitol Street
- Huff, John James; Iowa.....1736 G Street
A.B., 1909, State University of Iowa.
- *Hulsizer, Robert Inslee; Massachusetts.....1903 N Street
Massachusetts Institute of Technology.
- Humphrey, Paul N.; Nebraska.....The Roland
- Hunt, Edwin Brendel; District of Columbia.....4318 14th Street
- Hunter, Rosser Lee, Jr.; District of Columbia.....1021 B Street S.E.
The George Washington University.
- Hutchinson, Lewis Orrin; Connecticut.....604 Gresham Place
A.B., 1910, Yale University.
- Hyde, Jules Verne; Missouri.....The Dunsmere
University of Missouri.
- Jackson, Thomas Jefferson; Tennessee.....423 Bond Building
LL.B., 1911, Cumberland University.
- Jeffries, John M.; District of Columbia...1800 New Hampshire Avenue
The George Washington University.

- Johnson, Wayne; Montana.....1432 M Street
University of Montana.
- Johnston, Charles H. L.; District of Columbia, 1219 Connecticut Avenue
A.B., 1899, Harvard University.
- *Jones, Millard Ward; Pennsylvania.....The Clermont
Franklin and Marshall College.
- *Kay, Clarence Eugene; Arkansas.....Folkstone Courts

DEGREES CONFERRED

AT COMMENCEMENT, 1913

HONORARY

Doctor of Laws

Alexander Graham Bell

Doctor of Humane Letters

George Franklin Bowerman

Master of Arts

Oscar Phelps Austin

IN COURSE

Doctor of Philosophy

Elmer Eugene Marshall Maryland
A.B., 1889, Ohio Wesleyan University; S.T.B., 1894, Boston University.

Master of Arts

Katherine Harper Bevard District of Columbia
A.B. and Teacher's Diploma, 1911, George Washington University. (Master's Diploma in Education)
May Paul Bradshaw District of Columbia
A.B., 1909, George Washington University.
Walter Edgar Hancock Texas
A.B., 1912, George Washington University.
Joseph Douglas Hood Illinois
A.B., 1910, University of Illinois.
Neil Merton Judd Utah
A.B., 1911, University of Utah.
John Joseph Lenney Virginia
A.B., 1913, George Washington University.
Margaret Bell Merrill Vermont
A.B., 1899, Wellesley College.
Katharine Mitchell Newbold Maryland
A.B., 1912, George Washington University.

Master of Science

Fitzhugh Green.....	Missouri
Graduate, 1909, United States Naval Academy.	
Edwin Henry Ingersoll.....	District of Columbia
S.B., 1911, George Washington University.	
Colin Mackenzie Mackall.....	Virginia
A.B., 1909; B.S. in Chemistry, 1910, University of Virginia.	
Wendell Clay Mansfield.....	New York
S.B., 1908, Syracuse University.	
Samuel Palkin.....	District of Columbia
Ph.B., 1910, Yale University.	

Civil Engineer

Robert John Potbury.....	District of Columbia
B.S. in C.E., 1912, George Washington University	
Augustin Mitchell Prentiss.....	District of Columbia
B.S. in C.E., 1911, George Washington University	
Joseph Addison Preston Scott, Jr.,.....	District of Columbia
B.S. in C.E., 1912, George Washington University	
Frank Veihmeyer.....	District of Columbia
B.S. in C.E., 1912, George Washington University	

Electrical Engineer

Henry Frank Wiegand.....	District of Columbia
B.S. in E.E., 1911, George Washington University.	

Bachelor of Arts

Charline Elizabeth Appleby.....	Indiana
(With distinction)	
Henry Godfrey Avers.....	Ohio
James Earl Black.....	New York
John Alexander Bowman.....	District of Columbia
Alice Burritt.....	District of Columbia
Grace Ella Church.....	Virginia
Minnie Carter Davis.....	Tennessee
Anne Elizabeth Draper.....	New York
LL.B., 1908, Washington College of Law; M.P.L., 1911, George Washington University	
Frank Blair Hanson.....	District of Columbia
Ralph Hospital.....	District of Columbia
Carlos Cranford Houghton.....	District of Columbia
Edwin Eugene Judd.....	District of Columbia
Eva Phelps Kelley.....	Maryland
Mary Katharine Kerby.....	District of Columbia

Rex Emir Kinsell.....	Iowa
Clarence Andrew Knudtson.....	Wisconsin
Alfred Briscoe Lindsay.....	District of Columbia
Lulu Mignonne McCabe.....	Kansas
(With distinction)	
Louis Archer Maxson.....	Maryland
(With distinction)	
Milton Donaldson Moore.....	South Carolina
Charles Hollister Potter.....	North Carolina
Arthur Huber Redfield.....	District of Columbia
(With distinction)	
Leila Fordham Scott.....	District of Columbia
Clara Stoll.....	District of Columbia
Olivia Alexander Taylor.....	Virginia
Hilda Louise Ulrickson.....	District of Columbia
Carl Maria Johann von Zielinski.....	Virginia

Bachelor of Arts and Teacher's Diploma

Jessie DuBois Fant.....	District of Columbia
(With distinction)	
Daisie Ione Huff.....	District of Columbia
Charles Albert Johnson.....	District of Columbia
John Very Macdonald.....	Nova Scotia
Ella May Monk.....	New York
Kate Sorrell Outwater.....	District of Columbia
Harriet Underwood.....	District of Columbia
Mary Josephine White.....	Maryland

Bachelor of Science in Chemistry

Isaac Maurice Bortman.....	Pennsylvania
Henry Albert Lepper.....	District of Columbia
Louis Lodholz.....	Pennsylvania
Morris A. Pozen.....	District of Columbia
(With distinction)	
James Norman Taylor.....	Delaware
Arthur Stockton Thatcher.....	Pennsylvania

Bachelor of Science in Civil Engineering

Edwin Day Burchard.....	District of Columbia
Donald Langley Dutton.....	District of Columbia
John Rochford Dwyer.....	District of Columbia
Howard Wilkinson Hodgkins.....	District of Columbia
(With distinction)	
Theodore Tilton Kirk.....	Kentucky
Malcolm Gordon Slarrow.....	District of Columbia

Bachelor of Science in Electrical Engineering

Arthur Hervey Brame.....	District of Columbia
Omar Bailey Buchanan.....	District of Columbia
(With distinction)	
Edwin Summer Hoffman.....	Pennsylvania
William Michael Leonard.....	Pennsylvania
(With distinction)	
Francis Edwin Marvin.....	New York

Bachelor of Science in Mechanical Engineering

Henry Hornor Snelling.....	Virginia
(With distinction)	

Master of Diplomacy

Leonard Atkins Merritt.....	Minnesota
Louis Roy Zapf.....	Tennessee

Master of Laws

Horace Greeley Macfarland.....	District of Columbia
Graduate, 1891, United States Naval Academy; LL.B., 1912,	
George Washington University	

Bachelor of Laws

Frank Augustus Barlow.....	Minnesota
A.B., 1910, University of Minnesota	
Frank Albert Bower.....	New York
M.E., 1910, Cornell University	
John St. Clair Brookes, Jr.....	District of Columbia
A.B., 1907; A.M., 1910, George Washington University; (With	
distinction).	
George Burton Buck.....	Maryland
Victor Cobb.....	Virginia
S.B., 1908, Harvard University; (With distinction).	
Alfred C. Cordon.....	Idaho
Edward Celestine Coumbe.....	Washington
Robert Todd Daniel.....	District of Columbia
(With distinction)	
Myron Mathews Davis.....	Maine
S.B., 1909, Massachusetts Institute of Technology.	
Arthur Hannum Deibert.....	District of Columbia
William Ira Denning.....	Georgia
Clarence Bigelow Des Jardins.....	Michigan
A.B., 1909, Kalamazoo College.	
Richard Crosby De Wolf.....	Massachusetts

John Astor Diener.....	Indiana
B.S. in E.E., 1910, Purdue University.	
William John Dow.....	Missouri
Harry E. Dunham.....	New York
E.E., 1906, Syracuse University.	
J. Ralph Fehr.....	Illinois
Peter Royal Feldman.....	Wisconsin
David Edward Finley, Jr.....	South Carolina
A.B., 1910, University of South Carolina.	
Charles Hugh Gibbon.....	Wisconsin
Edwin Roy Jackson.....	Iowa
S.B., 1904, State University of Iowa.	
Frank Rumer Jeffrey.....	Washington
Raphael S. Klein.....	Colorado
Morris Willson Knowlton.....	Maine
(With distinction)	
Frederick Eugene Kunkel.....	Pennsylvania
William Ludwig Larson.....	South Dakota
I. Burt Lazarus.....	Massachusetts
Lawrence A. Gale Miller.....	Massachusetts
A.B., 1908, Harvard University; (With distinction).	
Maurice Malcolm Moore.....	Michigan
William Lester Morrison.....	Massachusetts
Ralph Munden.....	Pennsylvania
M.E., 1906, Cornell University.	
Charles F. Randolph Ogilby, Jr.....	District of Columbia
Arnold Clarence Otto.....	Wisconsin
A.B., 1911, Lawrence College; A.B., 1911, George Washington University.	
Roscoe Milliken Packard.....	District of Columbia
A.B., 1899; A.M., 1900, Western Reserve University; (With distinction).	
William Waterman Paddock.....	Iowa
Charles Kaufman Phillips.....	New Jersey
A.B., 1909, Princeton University.	
Neil De Forest Preston.....	New York
M.E., 1908, Cornell University.	
Harry Fox Roller.....	Kansas
A.B., 1906, University of Kansas.	
Breckenridge Cabell Rust.....	District of Columbia
Frank Seymour Smith.....	District of Columbia
A.B., 1910, Wesleyan University; (With distinction).	
George Walter Smith.....	Pennsylvania
Burr Shearer Stottle.....	Missouri
(With distinction)	
Charles Alonzo Straw, Jr.....	Massachusetts
A.B., 1901, Harvard University.	

William Strong, Jr.	District of Columbia
Ralph Richard Stuart	Iowa
Wilson Lewis Townsend	Maryland
Clarence Stevens Walker	Massachusetts
A.B., 1904, Harvard University.	
Joseph Henry Waters	District of Columbia
B.S. in E.E., 1910, George Washington University.	
Paul Herbert Watson	Kansas
Hubert Shadrach White	Virginia
Irving Thomas Wilson	Maryland
Robert Mathias Zacharias	Pennsylvania
A.B., 1907, Franklin and Marshall College.	

Bachelor of Law

Theodore Henry Eickhoff	Indiana
B.S. in E.E., 1908, Purdue University.	

Doctor of Medicine

Sewall Munson Corbett	Virginia
Richard Lauren De Saussure	South Carolina
Leonard Harrison English	Pennsylvania
Roy Macleay Fortier	California
Josiah Baker Henneberger	Maryland
(With distinction)	
Walter Harold Lott	District of Columbia
Louis John Regan	New York
Joseph Duerson Stout	Virginia
A.B., 1910, George Washington University; (With distinction).	
May Turner Stout	District of Columbia

Doctor of Dental Surgery

Edward Crawford Alley	Kentucky
Elmer E. Briggs	Pennsylvania
Marie G. Brodsky	Russia
Claude Durfee	Illinois
Nathan Eisenstein	Massachusetts
John S. Hardester	District of Columbia
Carl Burdette Maphis	Virginia
John Preston Marstella	Illinois
Charles Walter Rich	Pennsylvania
Walter Brittin Silliman	Pennsylvania
Henry Merle Spillan	New York
George Elwood White	Massachusetts
Edward Williams	Massachusetts

Doctor of Pharmacy

Charles Willis Barker.....	Maryland
Ralph Van Sickler Chamblin.....	Virginia
Samuel James Hohberger.....	Maryland
Raymond D. Kinsey.....	District of Columbia
David Lander Maxwell.....	Tennessee
Anna E. Mix.....	Maryland
Bert Alexander Smyser.....	Pennsylvania
Edwin G. Swann.....	Maryland
Irving Alexander Tennyson.....	Virginia
Lawrence B. Whitley.....	North Carolina
William Henry Whittlesey, Jr.....	Ohio

Doctor of Veterinary Medicine

Jacob E. Behney.....	Pennsylvania
George Henry Gillette.....	Kansas
Ernest George Hargett.....	North Carolina
William Anson Hooker.....	Massachusetts
Fred William Lambert.....	Maryland
Edward Joseph McLaughlin.....	Illinois
Julius Edward Morcock.....	Georgia
James Buchanan Nicol.....	Virginia
Clarence Reuben Potteiger.....	Pennsylvania

AT FALL CONVOCATION, 1913

IN COURSE

Doctor of Philosophy

Thomas Latimer Kibler.....	Virginia
A.B., 1904, Randolph Macon College; A.M., 1908, George Washington University.

ERNEST L. THURSTON

WILLIAM J. WALLIS

DR. J. J. WHARTON

Since its organization in 1821, the University has conferred 8087 degrees upon 6549 persons.

The Secretary of the General Alumni Association, whose office is at the University, endeavors to keep a list of the addresses of all Alumni. His catalogue now contains the addresses of about 4200 graduates. It is known that about 1400 are dead, and information is lacking in regard to the others. All Alumni are urged to keep the Secretary informed of any change of address or occupation, and to supply information in regard to their fellow Alumni.

THE UNIVERSITY

NEW YORK ALUMNI ASSOCIATION

President, FRITZ V. BRIESEN

Secretary, ALMON C. KELLOGG, 30 Broad Street

The George Washington University Bulletin

TRAINING SCHOOL
FOR NURSES

June, 1914

PUBLISHED BY THE UNIVERSITY AT WASHINGTON, D. C.
MARCH, JUNE, OCTOBER AND DECEMBER

Entered October 6th, 1904, at Washington, D. C., as second-class matter under
Act of Congress of July 16th, 1894.

THE GEORGE WASHINGTON UNIVERSITY TRAINING SCHOOL FOR NURSES

The George Washington University Training School for Nurses in connection with the University Hospital, was opened February 28, 1903.

The University Hospital had been originally established in 1898 in pursuance of action of the Board of Trustees of the University which provided that "there shall be, and is hereby, established a general Hospital and Dispensary, to be conducted in the building, formerly used by the preparatory school of the University at No. 1335 H Street N.W., in the City of Washington, D. C.; and all necessary changes, alterations, and repairs, including the chairs or seats in the clinical amphitheatre, in said building, shall be made by and at the expense of the University, and shall be completed on or before September 1, 1898; the said hospital to be conducted in connection with the educational work of the Medical School of the Columbian University and for the purpose of providing clinical instruction for its students. It was further provided that the Executive Medical Faculty of said medical school shall ex officio constitute the medical staff of said hospital, and shall have charge of the patients in said hospital and of all matters of medical administration and instruction in the same."

Soon after the adoption of this Ordinance, the preparatory school building was made ready for hospital use and was opened with proper ceremonies on the first day of November 1898, the first patient being admitted to a private room on that day.

The Hospital as then constituted was small and it was soon seen that it was entirely inadequate for the purposes of a University Hospital. While the original hospital building was in use, the nursing was carried on by nurses obtained from the Children's Hospital and from the Columbia Hospital for Women as the Institution was too small to maintain its own Training School for Nurses.

On account of the inadequacy of the Hospital, action was taken to enlarge it and the Board of Trustees, inspired with the spirit of progress and with a loyal regard for the interest and future development of the Medical School, secured a loan and erected a new building immediately adjoining the old one. The University Dispensary was established in the old building and has been maintained there up to the present writing. The present Hospital, comprising the old and new buildings, contains accommodations for forty-two private patients and has open wards accommodating sixty patients.

The new and enlarged hospital was formally opened February 28, 1903, with proper dedicatory ceremonies and on the same day the Training School for Nurses was inaugurated. The course of instruction was made to cover a period of three years and included general, medical, surgical, gynecological and obstetrical nursing. The theoretical instruction comprised weekly lectures by the Professors in the Medical Department of the University; lectures on Anatomy by the Superintendent of the Hospital and recitations on Materia Medica under the direction of the Pharmacist. Practical nursing was demonstrated at the bedsides and taught in the class rooms by the Superintendent of Nurses. The first Superintendent of Nurses was Miss Minnie Paxton and in her report for the year 1903, dated December 17, she reports that there were then in the school

- 1 Superintendent of Nurses
- 1 Assistant Superintendent of Nurses
- 1 Night Superintendent
- 19 Pupil Nurses
- 2 Probationers

The number of nurses has been steadily increased until at the present time 40 nurses are provided for.

Miss Paxton remained as Superintendent of Nurses until June 30, 1904. She was succeeded by Miss Mary Belle Struble. Miss Struble remained as Superintendent of Nurses until September 1, 1910 when she was succeeded by Miss Birdie B. Thompson. Miss Thompson remained as Superintendent until November, 1912, when she resigned and was succeeded by Miss Mary Winifred Glascock, the Superintendent at this writing.

NURSES HOME

Before the Hospital was enlarged, the few nurses required lived in the Hospital building but when the new Hospital was put in operation, the nurses were placed in rented quarters at 1324 I Street, directly behind the Hospital. This building was used by them until May 1, 1909 when another and larger nurses' home was rented at 1412 I Street.

The disadvantages of housing the nurses in rented quarters were many and finally in 1912 a Nurses' Home was purchased at 1016 13th Street, N.W. This was further enlarged in 1913 by the purchase of the adjoining house 1300 L Street so that at the present writing the nurses have excellent and adequate accommodations.

BOARD OF LADY MANAGERS

Since the establishing of the Hospital and Training School for Nurses, both these Institutions have been very materially assisted by a most efficient Board of Lady Managers. This Board has worked most energetically in the interest of both the Hospital and Training School and by personal endeavor and financial assistance have done much to improve these Institutions.

DIRECTORY FOR NURSES

A general directory for Graduate Trained Nurses was established in connection with the Training School and Hospital during the first year in which the Training School was in operation. The object of this directory is to afford a means to physicians and patients of securing with the least loss of time, the services of competent and reliable trained nurses. The directory is under the supervision of the Executive Committee of the Faculty of Medicine and under the direct charge of the Superintendent of Nurses. In this directory two lists are maintained. The first, or preferred list, is that of graduates of the University Training School for Nurses. When nurses are called for by physicians they are taken from this list until the list is exhausted, for the reason that the Directory for Nurses was primarily the University Training School Directory and carried on not only to assist physicians and patients, but the graduates of the University Training School also. A second list is kept, consisting of names of such reputable trained nurses as may apply for registration and are approved by the Executive Committee of the Faculty. This list is open to all reputable nurses and is used when the Training School list is exhausted. It is intended that registration in these lists, so far as is possible, shall be a guarantee of competency and reliability.

OBJECT AND ADMINISTRATION OF THE TRAINING SCHOOL

The object of the Training School is to give instruction to women in the art of nursing. It is under the general supervision of the President and Board of Trustees of the University and under the direct control of the Executive Committee of the Faculty of Medicine and under the immediate charge of the Superintendent of Nurses. The University Hospital is an integral part of the Medical School of the University and was founded primarily for teaching purposes. It has all the advantages arising from connection with a Medical School of high grade.

The Staff of the Hospital are all members of the Faculty of Medicine of the Medical School and the nurses receive the benefit arising from instruction and nursing cases under these trained instructors.

The Hospital itself is a general hospital located in the central part of the city and connected with it there is a Dispensary having a large outpatient service, so that the Institution affords a thorough and practical experience in medical, surgical, gynecological, obstetrical and emergency nursing and the administration work incident to a hospital.

REQUIREMENTS FOR ADMISSION

Candidates must apply personally or by letter to the Superintendent of Nurses upon blank forms provided therefor. Applicants must be 19 and not over 30 years of age. They must be in good physical con-

dition and present satisfactory evidence of their preliminary educational qualifications. Graduation from a grammar school and two years work in a high school or academy or its equivalent is necessary. Approved applicants will be taken for a probationary period of four months as vacancies may occur. Such probationers as are deemed fitted for the duties of nurses, at the expiration of their probationary period, upon subscribing to the requirements of the school, will be accepted as pupil nurses.

COURSE OF TRAINING

The course of training (including the probationary period) covers three years and comprises practical and theoretical instruction. Practical instruction is given in the wards of the Hospital under the supervision of the Superintendent of Nurses.

The theoretical instruction is given by members of the Faculty of Medicine and by the Superintendent of Nurses and her assistants. The course in theoretical instruction is as follows:

First Year—Anatomy and Physiology, Bacteriology, Practical Nursing.

Second Year—Materia Medica, Anatomy, Nursing of Skin Diseases, Nursing of Medical and Contagious Diseases, Nursing in Diseases of Ear, Nose and Throat, Nursing in Diseases of Eye.

Third Year—Nursing of Sick Children and Infant Feeding, Obstetrical Nursing, Gynecological Nursing, Surgical Nursing, Dietetics, Massage.

REGULATIONS

I. Probationers, when admitted to the School, will require the following outfit:

Uniform—3 Uniform Dresses, 3 Uniform Caps, 14 Uniform Aprons, 1 doz. pairs Uniform Cuffs, 1 doz. Uniform Ties, 1 doz. Uniform Collars.

Additional Articles—3 Striped Underskirts, 1 Bath Robe, 2 Laundry Bags, 1 pair Slippers, 2 pairs Shoes, with rubber heels, 1 Watch with Second Hand, Text Books.

II. The cost of the uniform, exclusive of the caps and collars, is thirty dollars. Text-books for the entire course cost about eight dollars. The cost of the other articles is small.

III. A probationer on admission may bring with her any or all of the articles of her outfit except her uniform. If she is unable to pay for her outfit, it will be furnished her by the Hospital and one-half her monthly pay will be retained until the cost of the articles is defrayed. All articles furnished by the Hospital will belong to the Hospital until paid for.

IV. To insure uniformity and economy the uniform must be procured through the Superintendent of Nurses, and no nurse will be allowed to go on duty until her outfit has been inspected and found to comply with the requirements of the School.

V. All articles of clothing must be plainly made and marked with name in full.

VI. Jewelry is not allowed to be worn on duty, and if of any value, is best left at home. If brought it will be at the risk of the owner.

VII. Two hours, if work permits, are allowed every week day, for rest, study and recreation, also one-half day after 2 p.m. each week, and four hours each Sunday.

VIII. A vacation of two weeks is allowed each year and in case of senior pupil nurses, a vacation of four weeks will be allowed if the Hospital duties permit.

IX. A pupil nurse may be dismissed at any time if there is sufficient cause for such action, but no dismissal shall be made without the approval of the President of the University.

SALARY

Instruction and training are considered the full equivalent for the services of a pupil nurse; however, a salary is paid of seven dollars a month (including the four months probation period).

GRADUATES

Since the opening of the school in 1903 to June, 1914, ninety nurses have been graduated.

REPORT OF THE TREASURER

Press of
The Crane Printing Co.
Washington, D. C.

Volume XII, Number 1, October, 1914

The School has during a year in which
October and November

George Washington University, Washington, D. C., has received from the
United States Government the sum of \$100,000.00

Report of the Treasurer

OCTOBER 12, 1914.

The Board of Trustees of George Washington University.

GENTLEMEN: I have the honor to submit herewith a report showing in detail the financial operations of the University for the fiscal year ended August 31, 1914, and exhibiting the condition of endowment and special funds and investments, as required by the By-Laws of the University, certified by The American Audit Company of New York.

The following additions were made to the endowment fund during the year:

Corcoran Endowment	\$ 100.00
Cooper Endowment	652.08
Chapman Endowment	1,225.90
Total	<u>\$1,977.98</u>

By authority of the Board, the residence, 1300 L Street, was purchased, to be used as an annex to the Nurses' Home, at a cost of \$8,000. A cash payment of \$3,000 was made from the Medical surplus, of which the Board of Lady Managers of the Hospital contributed \$1,000., and the remainder, \$5,000., was secured by a mortgage note. Monthly payments have reduced this indebtedness to \$4,762.50.

During the current year payments on the mortgage notes securing 2023 G Street were made as follows:

Balance of the second trust	\$ 9,000.00
Account of the first trust	1,000.00
Total payments	<u>\$10,000.00</u>

Of the above \$10,000 mortgage reductions, \$7,640 was contributed by donors to the Building and Ground Fund, and the balance of \$2,360 paid out of the surplus of 1912-1913.

The Mechanical Engineering Laboratory was completed at a total cost of \$4,469.77, of which donors to the special building fund contributed \$2,950, and the balance of \$1,519.77 paid out of the surplus of 1912-1913.

Very respectfully yours,

CHARLES W. HOLMES,
Treasurer.

Report of the President

January 1, 1900

During the year 1899, the President has been engaged in a course of study, and has been able to devote much of his time to the study of the history and constitution of the United States. He has also been engaged in the study of the history and constitution of the United States, and has been able to devote much of his time to the study of the history and constitution of the United States.

Report of The American Audit Company

OCTOBER 6, 1914

GENTLEMEN: We have examined the accounts and records of the GEORGE WASHINGTON UNIVERSITY for the year ended August 31, 1914, and submit our report including Exhibits and Schedules as follows:

EXHIBIT "A"—BALANCE SHEET.

As at August 31, 1914.

"B"—SURPLUS ACCOUNT,
As at August 31, 1914.

"C"—MEDICAL SCHOOL SURPLUS.
As at August 31, 1914.

"D"—LAW SCHOOL SURPLUS,
As at August 31, 1914.

"E"—REVENUE ACCOUNT,
For the year ended August 31, 1914.

"F"—DEPARTMENT OF ARTS AND SCIENCES,
For the year ended August 31, 1914.

"G"—LAW SCHOOL,
For the year ended August 31, 1914.

"H"—MEDICAL AND DENTAL SCHOOLS,
For the year ended August 31, 1914.

"I"—DENTAL SCHOOL,
For the year ended August 31, 1914.

"J"—UNIVERSITY HOSPITAL,
For the year ended August 31, 1914.

"K"—STATEMENT OF CASH RECEIPTS AND PAYMENTS,
For the year ended August 31, 1914.

"L"—SUMMARY OF ENDOWMENT FUNDS,
As at August 31, 1914.

"M"—SPECIAL FUNDS,
As at August 31, 1914.

"N"—ENDOWMENT AND SPECIAL FUNDS, INCOME AND EXPENSE,
For the year ended August 31, 1914.

SCHEDULE "1"—IMPAIRMENT OF ENDOWMENT FUNDS,
As at August 31, 1914.

"2"—ENDOWMENT FUNDS REPRESENTED BY INVESTMENTS,
As at August 31, 1914.

"3"—ENDOWMENT FUND INVESTMENTS,
As at August 31, 1914.

CASH, \$14,341.64.

We counted the cash on hand on September 18, 1914, and reconciled the Cash Account with bank pass books as at August 31, 1914, finding deposits in banks, as per pass books and cash in accord with balance shown by your books.

ACCOUNTS RECEIVABLE: \$7,462.87.

These accounts consist of fees, etc., due for the term 1913-1914, from students in the various departments as follows:

School of Graduate Studies	\$367.72	
Columbian College	746.72	
College of Engineering	381.00	
Teachers College	43.75	
Total Department of Arts and Sciences		\$1,539.19
Law School		615.75
Medical School	1,304.19	
Dental School	819.52	
		2,123.71
Accounts due University Hospital from patients for the year 1913-1914		1,063.78
Income from Endowments, available, but not transferred to University account as at August 31, 1914		2,120.44
		<u>\$7,462.87</u>

The balances standing in accounts as at September 1, 1913, remaining unpaid at August 31, 1914, are considered worthless and were charged against the respective Surplus Accounts.

EQUIPMENT: \$75,933.75.

The cost of equipment purchased during the year was added to this account.

DEPRECIATION:

No adjustment on account of depreciation was made during the year of book value and Library Books and Equipment.

LIABILITY FOR IMPAIRMENT OF ENDOWMENT FUNDS: \$341,905.02.

The impairment of Endowment Funds as at September 1, 1913. (\$342,005.02), has been decreased \$100.00 by donation for the rehabilitation of the Corcoran Endowment.

NET INCOME:

The net Income for the year from all departments exclusive of the University Hospital, was \$14,305.20, as shown by Exhibit "E."

MEDICAL SCHOOL SURPLUS: \$8,496.02.

This account includes the surplus of the University Hospital and Medical and Dental Schools as at August 31, 1914, as shown by Exhibit "C."

LAW SCHOOL SURPLUS: \$2,652.66.

This account represents the Law School Surplus as at August 31, 1914, as shown by Exhibit "D."

SURPLUS ACCOUNT: \$201,768.57.

The variation in this account over August 31, 1913, is shown by Exhibit "B."

ENDOWMENT FUNDS:

On October 2, 1914, in the presence of Mr. C. W. Holmes, Treasurer, and Mr. Richard Cobb, Secretary, at the American Security and Trust Company, Washington, D. C., we inspected the securities representing the investments of Endowment and Special Funds in stocks and bonds, as per Exhibit "M," and Schedule "3." We also inspected the trust notes, or receipts for same where they are deposited at the several banks for collection.

We also verified the cash balances at August 31, 1914, representing the uninvested principal and unexpended income of the Endowment and Special Funds, by reconciliation of these funds with bank pass books.

Respectfully submitted,

THE AMERICAN AUDIT COMPANY

(SEAL)

By C. R. CRANMER,

Resident Manager.

Approved:

F. W. LAFRENTZ, *President.*

Attest:

A. P. LAFRENTZ, *Secretary.*

Report of the Treasurer

OCTOBER 12, 1914.

The Board of Trustees of George Washington University.

GENTLEMEN: I have the honor to submit herewith a report showing in detail the financial operations of the University for the fiscal year ended August 31, 1914, and exhibiting the condition of endowment and special funds and investments, as required by the By-Laws of the University, certified by The American Audit Company of New York.

The following additions were made to the endowment fund during the year:

Corcoran Endowment	\$ 100.00
Cooper Endowment	652.08
Chapman Endowment	1,225.90
Total	<u>\$1,977.98</u>

By authority of the Board, the residence, 1300 L Street, was purchased, to be used as an annex to the Nurses' Home, at a cost of \$8,000. A cash payment of \$3,000 was made from the Medical surplus, of which the Board of Lady Managers of the Hospital contributed \$1,000., and the remainder, \$5,000., was secured by a mortgage note. Monthly payments have reduced this indebtedness to \$4,762.50.

During the current year payments on the mortgage notes securing 2023 G Street were made as follows:

Balance of the second trust	\$ 9,000.00
Account of the first trust	1,000.00
Total payments	<u>\$10,000.00</u>

Of the above \$10,000 mortgage reductions, \$7,640 was contributed by donors to the Building and Ground Fund, and the balance of \$2,360 paid out of the surplus of 1912-1913.

The Mechanical Engineering Laboratory was completed at a total cost of \$4,469.77, of which donors to the special building fund contributed \$2,950, and the balance of \$1,519.77 paid out of the surplus of 1912-1913.

Very respectfully yours,

CHARLES W. HOLMES,
Treasurer.

Report of the Treasurer

For the year ending 1911

The Treasurer of the Board of Education has the honor to acknowledge the receipt of the following amounts from the various sources mentioned in the accompanying statement, and to report the same as having been received and deposited in the Treasury of the Board of Education.

The following is a statement of the receipts and disbursements of the Board of Education for the year ending 1911:

The receipts of the Board of Education for the year ending 1911 were as follows:

The disbursements of the Board of Education for the year ending 1911 were as follows:

The following is a statement of the receipts and disbursements of the Board of Education for the year ending 1911:

The following is a statement of the receipts and disbursements of the Board of Education for the year ending 1911:

Report of The American Audit Company

OCTOBER 6, 1914

GENTLEMEN: We have examined the accounts and records of the
GEORGE WASHINGTON UNIVERSITY for the year ended August 31, 1914,
and submit our report including Exhibits and Schedules as follows:

EXHIBIT "A"—BALANCE SHEET.

As at August 31, 1914.

"B"—SURPLUS ACCOUNT,
As at August 31, 1914.

As at August 31, 1914.

"D"—LAW SCHOOL SURPLUS,
As at August 31, 1914.

"E"—REVENUE ACCOUNT,
For the year ended August 31, 1914.

"F"—DEPARTMENT OF ARTS AND SCIENCES,
For the year ended August 31, 1914.

"G"—LAW SCHOOL,
For the year ended August 31, 1914.

"H"—MEDICAL AND DENTAL SCHOOLS,
For the year ended August 31, 1914.

"I"—DENTAL SCHOOL,
For the year ended August 31, 1914.

"J"—UNIVERSITY HOSPITAL,
For the year ended August 31, 1914.

"K"—STATEMENT OF CASH RECEIPTS AND PAYMENTS,
For the year ended August 31, 1914.

"L"—SUMMARY OF ENDOWMENT FUNDS,
As at August 31, 1914.

"M"—SPECIAL FUNDS,
As at August 31, 1914.

"N"—ENDOWMENT AND SPECIAL FUNDS, INCOME AND EXPENSE,
For the year ended August 31, 1914.

SCHEDULE "1"—IMPAIRMENT OF ENDOWMENT FUNDS,
As at August 31, 1914.

"2"—ENDOWMENT FUNDS REPRESENTED BY INVESTMENTS,
As at August 31, 1914.

"3"—ENDOWMENT FUND INVESTMENTS,
As at August 31, 1914.

CASH, \$14,341.64.

We counted the cash on hand on September 18, 1914, and reconciled the Cash Account with bank pass books as at August 31, 1914, finding deposits in banks, as per pass books and cash in accord with balance shown by your books.

ACCOUNTS RECEIVABLE: \$7,462.87.

These accounts consist of fees, etc., due for the term 1913-1914, from students in the various departments as follows:

School of Graduate Studies	\$367.72	
Columbian College	746.72	
College of Engineering	381.00	
Teachers College	43.75	
Total Department of Arts and Sciences		\$1,539.19
Law School		615.75
Medical School	1,304.19	
Dental School	819.52	
		2,123.71
Accounts due University Hospital from patients for the year 1913-1914		1,063.78
Income from Endowments, available, but not transferred to University account as at August 31, 1914		2,120.44
		<u>\$7,462.87</u>

The balances standing in accounts as at September 1, 1913, remaining unpaid at August 31, 1914, are considered worthless and were charged against the respective Surplus Accounts.

EQUIPMENT: \$75,933.75.

The cost of equipment purchased during the year was added to this account.

DEPRECIATION:

No adjustment on account of depreciation was made during the year of book value and Library Books and Equipment.

LIABILITY FOR IMPAIRMENT OF ENDOWMENT FUNDS: \$341,905.02.

The impairment of Endowment Funds as at September 1, 1913. (\$342,005.02), has been decreased \$100.00 by donation for the rehabilitation of the Corcoran Endowment.

NET INCOME:

The net Income for the year from all departments exclusive of the University Hospital, was \$14,305.20, as shown by Exhibit "E."

MEDICAL SCHOOL SURPLUS: \$8,496.02.

This account includes the surplus of the University Hospital and Medical and Dental Schools as at August 31, 1914, as shown by Exhibit "C."

LAW SCHOOL SURPLUS: \$2,652.66.

This account represents the Law School Surplus as at August 31, 1914, as shown by Exhibit "D."

SURPLUS ACCOUNT: \$201,768.57.

The variation in this account over August 31, 1913, is shown by Exhibit "B."

ENDOWMENT FUNDS:

On October 2, 1914, in the presence of Mr. C. W. Holmes, Treasurer, and Mr. Richard Cobb, Secretary, at the American Security and Trust Company, Washington, D. C., we inspected the securities representing the investments of Endowment and Special Funds in stocks and bonds, as per Exhibit "M," and Schedule "3." We also inspected the trust notes, or receipts for same where they are deposited at the several banks for collection.

We also verified the cash balances at August 31, 1914, representing the uninvested principal and unexpended income of the Endowment and Special Funds, by reconciliation of these funds with bank pass books.

Respectfully submitted,

THE AMERICAN AUDIT COMPANY

(SEAL)

By C. R. CRANMER,

Resident Manager.

Gift of Hon. Isaac Davis to establish a fund; the income to be distributed annually to such members of the senior class as shall have made the greatest progress in elocution since their connection with the College..... 700.00

Woodbury Hospital Endowment:

Bequest of Ellen C. de Q. Woodbury for the reception and treatment of female patients by the Hospital belonging to or connected with the University 9,583.33

Laura M. Tree Hospital Endowment:

Bequest of Judge Lambert Tree to establish one or more beds in perpetuity in "The Columbian University Hospital," to be known as the "Laura M. Tree bed or beds" \$10,000.00

Congressional Professorship of English Fund:

Proceeds from sale of Congressional Grant to be invested and the income applied as shown under Congressional Endowment Fund 6,295.77

Gardiner G. Hubbard Memorial Prize Fund:

Gift of Gertrude M. Hubbard to establish an endowment; the income to be given annually to that member of the graduating class who has during four years maintained a high standing in American History..... 1,000.00

J. MacBride Sterrett, Jr., Memorial Medal Fund:

Gift of J. MacBride Sterrett to establish a fund; the income to provide a gold medal, annually awarded to that student taking course I in Physics who obtains the highest average in a special examination on a given subject and in the writing of an essay on an assigned topic 200.00

Davis Scholarship Fund:

(Gift of Hon. Isaac Davis to establish a Scholarship Fund, the annual income to be appropriated to some student pursuing his collegiate course in said college.)
Gift of Hadleigh Marsh, reimbursing fund 40.00

Withington Scholarship Fund:

(Subscription of loan to Columbian College for the purpose of endowing a scholarship to be named the Withington Scholarship.)
Proportion of proceeds on settlement of estate of John Withington, deceased 379.93

Chapman Hospital Endowment:

Bequest of Susannah A. Chapman "to be used for the purposes of the free wards of its University Hospital." 1,225.90

\$123,675.07

THE GEORGE WASHINGTON UNIVERSITY

Report of the President

WASHINGTON, D. C., December 31, 1914

TO THE CHAIRMAN OF THE BOARD OF TRUSTEES, GEORGE WASHINGTON UNIVERSITY.

SIR: I have the honor to present my report upon the University for the academic year 1913-14 which ended on September 1, 1914, and upon the general affairs of the University to the date of this report.

The prescribed courses in the various departments of the University were carried on from the beginning of the academic year September 24, 1913, until the University Commencement June 10, 1914. The maximum registration in all departments for the year was 1611 students. The largest number of students in attendance at any one time was 1445. These numbers show a marked increase over the numbers of the previous year of 1912-13.

The distribution of the students in the various departments of the University giving the maximum registration in each case was as follows:

School of Graduate Studies.....	92
Columbian College.....	484
College of Engineering.....	204
Teachers College.....	131
Law School.....	355
Medical School.....	175
Dental School.....	80
National College of Pharmacy.....	70
College of Veterinary Medicine.....	39
	1,630
Duplicates.....	19
Total.....	1,611

The death of Mr. Aldis Birdsey Browne, a member of the Board of Trustees occurred on June 1, 1914. I cannot content myself with this simple announcement but must here express my appreciation of Mr. Browne's character and his services

as a faithful member of the Board of Trustees of the University. Notwithstanding his many obligations in various directions, civic, professional and religious, he afforded great aid to the University during the critical days of its history. He represented a fine type of an alumnus of an institution, doing valuable service in later years as one of its trustees.

During the year the following changes occurred in the faculties of the University. On June 15, 1914, Dean Charles Noble Gregory of the Law School resigned to take effect at the end of the academic year. Dr. Harvey W. Wiley, Professor of Agricultural Chemistry in the School of Graduate Studies also resigned, September 19, 1913.

The following appointments have been made during the year: Professor Everett Fraser as Dean of the Law School; Acting Professor E. E. Richardson of the Department of Arts and Sciences, became Professor of Philosophy; Assistant Professors Merton L. Ferson and J. Wilmer Latimer became Professors of Law.

In the Medical School: Dr. Carl Lawrence Davis was appointed Professor of Anatomy; Dr. Edward Rhodes Stitt, Professor of Tropical Medicine; and Dr. William P. Carr, Clinical Professor of Surgery.

On September 25, 1914, of the present academic year Dr. Theodore Nicholas Gill, Professor Emeritus of Zoology, died. The long connection of fifty-three years that Dr. Gill had with Columbian College and the George Washington University renders his death worthy of special note. His whole career was one of scientific distinction bringing in time international recognition.

The mechanical laboratory for the College of Engineering was completed during the academic year under consideration and the necessary machinery duly installed. It has been in constant use since in connection with the Department of Mechanical Engineering of that College and its various allied courses.

The building for the Nurses' Home purchased during the previous academic year having proved insufficient to accommodate the increased number of nurses needed at the hospital and its training school, the adjacent building, 1300 L Street, was purchased and the two buildings thrown into one. The

needs for the accommodation of the nurses for the present and immediate future have thus been met.

The stringent conditions of financial affairs aggravated since my last report by the dislocation of business due to the European war have prevented the completion of the fund partially raised for the clearing off the indebtedness upon the University property. Notwithstanding this we have been obliged to purchase the building, 2025 G Street, adjoining the University on the west, to meet the increased number registered for the present academic year. It is hoped that with improved financial conditions this fund will be fully completed and the purposes accomplished.

The report of the Treasurer of the University which is published as a separate document, shows an improved financial condition over the previous year. There is, however, little to report so far as additional endowments or large contributions to the permanent funds of the University are concerned. I recommend strongly to the friends of the University the question of providing for scholarship endowments and endowments for the various standard professorships of the University. These endowments are fit subjects for memorials to those whose services to the University, to the community, and to the country deserve perpetuation.

The appended reports show the conditions and needs of the various schools of the University. In order to properly appreciate the workings of the various departments of the University it is necessary to understand the peculiar residential conditions existing in the District of Columbia with the embodied Civil Service pertaining to the general government of the United States, which differs in its composition from similar bodies existing in other large countries. With its restricted method of promotion, without any system of retirement or pension, there exists within it a large number of persons with a desire to provide for the future by means of additional education, by the attainment of professions, and to a less degree by the acquirement of technical knowledge for increased usefulness and for accompanying promotion within the limits of the government service.

To this class of students from the Civil Service there is to

be added the large and increasing number of young men and women who come to us as graduates of the high schools of the public school system of the District of Columbia and also those, fewer in number, who reside in Washington and are prepared for college by the excellent private schools of the city and its suburbs. The fact that George Washington University is the only existing non-partisan, non-sectarian university for white people in the District of Columbia appeals in its nine schools and their subdivisions practically to all classes of students.

Columbian College of the Department of Arts and Sciences is the first in importance and number of students of the various schools of the University. It has attained in its last year the greatest registration in its history of ninety-three years. At the present writing in the new academic year it has still further advanced to a maximum registration of 520 students. As there is no summer school attached to the University this represents a solid body of students, young men and young women whose requirements create a constant demand upon us for additional facilities, primarily in teaching, secondarily for additional housing and plant.

By the appended report of the Dean of Columbian College and of the Dean of the Department of Arts and Sciences it can be seen that the primary need for this Department and for the University at large is a provision for a Science Hall with adequate provision for the teaching of Chemistry in lecture halls and laboratories near the Arts and Science building for the students concerned. Such a building could be readily arranged for the accommodation of other scientific departments requiring special laboratories and class rooms, such as Physics and Biology. This building with a proper installation is the most imperative need of the University as to buildings. It would in turn relieve the growing pressure for room in the building containing the Schools of Medicine and Dentistry where at present all chemical laboratories are placed.

I desire also particular consideration to the portion of the report of the Dean of Columbian College in which he calls attention to the preparation afforded for the Consular Service of the United States by this College. The importance of this prep-

aration and the need of a permanence in this service as a most important branch of the government was emphasized by me in my annual report of last year. George Washington University has more men in our Consular Service at the present time than any other university and more than the three universities combined who follow it in numerical strength in the service.

It gives me much satisfaction to call your attention to the fact that the adoption of the budget last June restores the salaries of the permanent professors of the Columbian College to the amount appropriated before the necessary reductions caused by the financial difficulties of the University some years ago. The diligence, fidelity and competency shown by the members of the faculties of the entire University, however, entitle them to yet greater consideration when the state of our finances will permit.

The appended reports of the Law and Medical Schools show a general advance in their stability and standards. The additional requirements for admission to the Medical School of one year of collegiate instruction in compliance with the rules of the American Medical Association necessarily elevates the standards of those who enter and graduate from this School, and the pre-medical class forms a decided addition to the student registration of Columbian College.

The report of Dean Fraser of the Law School shows the superiority in professional acquirements that pertain to the students who have gone through similar or more prolonged courses in collegiate work. This will be a matter for your grave consideration in dealing with the future of the Law School. I commend to your attention the statistics formulated by the Dean of the Law School upon this subject.

I think it wise to call to your notice also the need of a Law School building owned and controlled by the University and conveniently placed for those in attendance upon the law courses. In addition to this need I might refer to the cramped condition of the library of the Arts and Sciences Department which is the main library of the University. It now numbers 38,852 volumes and should be housed in a fire-proof building by itself or in connection with an auditorium of size which is also much needed for the University. The library needs in-

creased facilities for handling the books, and in reading room space. The present condition of the library can be considered only as a makeshift unworthy of the University and of the Capital City.

Finally, in closing, I desire to remark with satisfaction upon the further increase in the registration of the current year at the present writing over that of the last academic year notwithstanding the great advance of the latter over previous years. This enrolment is a decided sign of prosperity so far as those seeking education is concerned, and challenges the alumni and the community about us to respond to this increased demand for collegiate and professional education by generously supplying the University with facilities which will make it, and through it the Capital City of the Nation, a great educational center in all senses of the word. I am

Respectfully,

C. H. STOCKTON, *President.*

November 14, 1914.

ADMIRAL CHARLES H. STOCKTON,
*President George Washington University,
Washington, D. C.*

DEAR SIR: I have the honor to submit the following report in regard to the Department of Arts and Sciences for the session of 1913-14.

The enrollment was as follows:—

	<i>Men</i>	<i>Women</i>	<i>Total</i>
Graduate School.....	72	20	92
Columbian College.....	290	194	484
College of Engineering.....	203	3	206
Teachers College.....	10	120	130
	575	337	912
Duplicates.....	3	4	7
	572	333	905

Compared with the enrollment of the previous year this shows an increase of 127 or 16 per cent, which is surprisingly large. Of the undergraduate students, 234 attended the day classes and 581 attended the late afternoon classes.

The attendance in classes fluctuated considerably during the year, but when allowance is made for changes, the following table shows the average enrollments during the session:

ARTS AND SCIENCES

Graphics.....	7	31	72
Greek.....	8	4	9
History.....	18	204	526

	CLASS PERIODS EACH WEEK	AVERAGE NUMBER OF STUDENTS	"STUDENT HOURS"
International Law.....	3	16	48
Latin.....	11	15	37
Mathematics.....	21	153	459
Mechanical Engineering.....	15	33	83
Nautical Science.....	2	4	8
Philosophy.....	12	179	285
Physics.....	10	104	276
Political Science.....	8	52	151
Spanish.....	6	36	108
Zoology.....	8	33	91

This gives a total of 366 class periods a week, and these consist of 291 recitations or lectures and 75 laboratory or drawing periods each week. There is, therefore, an average of 60 class periods each day.

An interesting and valuable report in regard to the proper grading of students was prepared during the session by a committee of which Dean Ruediger was Chairman. The importance of giving attentive study to this subject is clearly shown by the following table which gives the total number of term marks reported in each subject, and the percentage of marks in each grade.

	TOTAL NUMBER OF MARKS	PERCENTAGES				
		A	B	C	D	E
Applied Mathematics.....	23	22	17	44	13	4
Archaeology.....	54	20	39	39	2	0

Theoretical Average.....		4	24	44	24	4

In the subjects where only a few marks have been given, wide departure from the generally accepted theoretical distribution of marks may be expected, but in the subjects that are taken by a large number of students there are such variations in the distribution of marks as to give serious concern. It is hoped and believed that greater uniformity will be had in the future.

In the undergraduate colleges, 298 students were registered as special students. This was practically one-third of the entire enrollment and a few words in explanation may be desirable.

Our afternoon class hours are so arranged that persons in the government service are able to attend after office hours, and as is well known, we have many such persons as students. While large numbers of these are planning their work so as to obtain a degree, there are many who do not seek a degree, but desire only a wider knowledge along special lines. In most colleges, special students are looked upon as an undesirable class and their admission is discouraged. The situation with us is far different. Our special students, almost without exception, are mature persons, with definite aims, who form a most desirable addition to our classes. Many of them do not feel willing or are unable to give the time that would be required to obtain a degree, but are seeking such improvement in scholarship and such increase in knowledge as their time, and often, their finances, will permit. They are usually well prepared, often are experts in certain lines, and they welcome the opportunity which the University offers to them. Many of them eventually become candidates for degrees, and the administrative officers are united in encouraging and urging them to do so. They form a body of students of which we may be proud.

The growth of our student body brings with it many and serious

problems. On the material side, we are in great need. We need additional rooms for classes and for laboratories, we need larger rooms for some of our large lecture courses, we need additional equipment in our laboratories. In my report a year ago, I called attention to the inconveniences due to having our Chemistry courses given in the Medical Building, nearly fifteen minutes distant from our other buildings. I hope that circumstances may so shape themselves that we may, in the near future, have our work in Chemistry in a building constructed especially for the work and on ground adjoining our main building.

Although now all salaries of the permanent members of the Faculty have been restored to the amounts they received before the reductions were made four years ago, these amounts are less in purchasing power than they were four years ago. I hope that for next year additions of from one to three hundred dollars may be made to the salaries of such men.

We need also, additional men on the Faculty. With many pressing needs, it is difficult to select the most pressing. There is great need of additions in English, in Romance Languages, in History and Political Science, in Economics, and in Engineering. With but small addition to the amounts we now pay to two men who are giving part time as Instructors in Romance Languages we could obtain a man to give full time who would be able to relieve the overworked Professor.

We need additional courses in History, and an additional Instructor there could give part of his time to Political Science. The broad field of Economics cannot be covered by the one full time man, and the two part time men who are now teaching. In Engineering we have great need of a man who can give full time in Mechanical Engineering and make more effective the courses we are now offering in our new laboratory.

I should deem it unwise to recommend increases that are likely to cause a deficit, but later in the session when the financial conditions for the next and succeeding years are more definitely settled, I shall seek opportunity to make more definite recommendations.

Respectfully submitted,

H. L. HODGKINS, *Dean.*

November 14, 1914.

TO THE PRESIDENT OF THE UNIVERSITY.

SIR: I have the honor to render the following report on the School of Graduate Studies.

The total number of students enrolled for the academic year 1913-14 was 92 which is the same as for the previous academic year. In the following table the degrees sought by them is given in comparison with those of the previous year.

GRADUATE SCHOOL

15

	1912-13	1913-14
Students in attendance.....	11	6
Candidates for C.E. degree.....	5	6
Candidates for E.E. degree.....	3	2
Candidates for M.E. degree.....		1
Candidates for S.M. degree.....	21	27
Candidates for A.M. degree.....	27	24
Candidates for D.C.L. degree.....	1	1
Candidates for Ph.D. degree.....	24	27

The total number of degrees awarded in 1913-14 was 22. In the following table the number of each of the degrees awarded is given in comparison with those awarded in the previous academic year.

	1912-13	1913-14
C.E.....	4	3
E.E.....	1	
S.M.....	7	4
A.M.....	8	10
Ph.D.....	3	5
	—	—
	23	22

The total number of degrees awarded in course to students in this Division of the University since its organization in 1893 up to July 1, 1914, and the number of each kind of degree conferred is shown in the following table:

	1893-1914
C.E.....	27
E.E.....	14
E.E.....	9
M.E.....	108
S.M.....	171
A.M.....	1
D.C.L.....	66
Ph.D.....	—
	396

The records of the three Doctorate Disputations held during the year, and which constitute the most important official event in all academic life, are as follows:

Twenty-Fourth Doctorate Disputation held September 29, 1913.

Thesis: The Commodities' Clause: A Treatise on the Development and Enactment of the Commodities' Clause and its Construction when Applied to Interstate Railroads Engaged in the Coal Industry. By Thomas Latimer Kibler, A.B., 1904, Randolph-Macon College; A.M., 1908, The George Washington University. Before Martin A. Knapp, A.M., LL.D., Presiding Judge, U. S. Court of Commerce; Honorable John H. Marble,

college rank, like the Naval Academy, which, like it, confer no degrees. Some came from governmental institutions in Europe which prepare for the universities. Some had nearly completed, at this, or some other, University, the requirements for a baccalaureate degree, were in the Senior year, and were regarded by the Dean of the undergraduate division in which they were enrolled, as well as by the Committee directing their graduate studies, as competent to undertake this advanced work. All were mature persons and before admission their preparedness had been inquired into. This practise has obtained in a measure since this Division was inaugurated. To prevent an abuse of this privilege the Trustees have wisely forbidden the conferring of two degrees upon the same student at any Convocation or Commencement.

The conditions warranting admission to candidature for graduate degrees was a fundamental and vital issue at the time the inauguration of this Division was under active and conscientious consideration. As set forth in my published address, "On the Developments and Functions of the Graduate School" in 1895, your Committee recognized that two lines of development were obvious, and that each had been to a degree exploited. (1) That in which the student was given a broader and more extended acquaintance with existing records of human activities and achievements. (2) That in which the student was expected through research to add, by his achievements, to the sum of human knowledge. The first was evidently academically the simplest; it was most readily conformed to undergraduate standards; it was most easily controlled and gauged by formal pedagogical rules; it was most satisfying to those who measure knowledge in the number of time units devoted to an allotted task, and who regard a student body as a military body to be observed as to its "company front," and to be praised for the uniformity of its alignment and the precision of its evolutions. The second was confusing academically for it admitted individuality. It admitted that individuals, who by plodding, persistent effort might memorize the records of achievement and by formal application of discovered rules impart recorded knowledge, could, and often did lack that openness of mind essential to the sympathetic appreciation and comprehension of the desires and needs of mankind; that commendable curiosity which draws one into the by-paths and on to the horizon of the known; and that originality of vision, or that technical skill and resourcefulness, by means of which new problems are solved. It admitted, on the other hand, that men exist who do not readily conform with organizations and yet possess curiosity, originality, resourcefulness, technical skill and persistency in the prosecution of an investigation. Fortunately there also exist men, with adaptability, who also possess these last mentioned characteristics.

Because it was believed that the function of a University was discharged only when it shared in the increase of knowledge through research into original sources, as well as in the diffusion of knowledge

through teaching, and because of the existence of a body of men sufficiently adaptable to preserve the germ of originality while being compelled to submit to formality during their plastic periods, your Committee recommended that your Graduate School be founded as a school of research but at that time and ever since it has been known that many competent and useful researchers have evaded formalism or else have been so circumstanced by fortune, location or vicissitudes as to have been unable to satisfy the conventional undergraduate requirements and provision has therefore been made whereby usefulness to mankind has been promoted while the essential academic proprieties have been preserved.

The problem of correlating academic standards is as difficult as that found in correlating economic and other scientific standards. At the outset institutions whose diplomas would be accepted were determined upon and the list has been added to from time to time. But, wisely, today every applicant is directed to confer in advance with each professor whose instruction he seeks and after that each application is separately presented to and considered by the Faculty, at a called meeting, before the applicant is admitted to candidature. While correlation of the standards of the different American institutions presents difficulties, that of correlating the standards of foreign institutions with ours presents more difficulties. The fact that the institutions of continental Europe are under governmental supervision aids in a measure because a common rule can be made to apply and our difficulties here have in a measure been solved through the aid of the several members of our Faculties who have studied in these institutions. The chief difficulty rests with the institutions of Latin-America and the Orient about which we have less precise information. Yet it is from these institutions that applicants have in recent years been presenting themselves and logically, because of its location and organization, this University should draw graduate students from these sources in constantly increasing numbers.

I have therefore sought through various sources information regarding them and I present the following correspondence relating thereto.

October 9, 1913.

DR. OSCAR T. CROSBY,
Warrenton, Virginia.

MY DEAR CROSBY: For some years past students have been coming to this University from foreign countries and more especially from the Central, the South American and the Oriental countries. Of late they are being sent here by their respective governments. This is very desirable but of late they are being sent as candidates for the higher degrees and asking that the baccalaureate degrees conferred upon them by their native institutions be accepted for admission to our graduate courses. We find this difficult because of a lack of intimate

knowledge of the character of the work required in these native institutions.

I am therefore appealing to you as an Alumnus of this University who is about to visit the Oriental countries to investigate on our behalf the collegiate institutions there and to advise us as to what recognition we should give them.

Yours very sincerely,

[Signed] CHARLES E. MUNROE,
Dean, Faculty of Graduate Studies.

WARRENTON, VA., November 13, 1914.

DR. CHARLES E. MUNROE,

Dean, Faculty of Graduate Studies, George Washington University.

DEAR MUNROE: Exigencies of travel prevented a careful investigation of the established courses and standards in oriental colleges. Conversation with a number of graduates of Roberts' College, of the American College at Beirut, and of several Missionary Institutions in Japan and China disclosed a satisfactory general intelligence. One notes also an academic spirit often stronger than that which survives in our own alumni, after a few years absence from our Alma Mater. It is a safe assumption that young men of the Orient or of South America who come to the United States for Post-Graduate work, are inspired with more than the average desire for learning. Therefore they will the more readily make good by unusual effort any deficiencies which may be due to differences of severity or scope in the standards of undergraduate work. As to recognition of degrees of little known Institutions, I would recommend that one of two courses be pursued, depending upon circumstances. If competent supervisors can be found to serve in the country of the intending student, he should be required to pass an examination, prepared by our own authorities. Questions should be so framed as to search the *general information*, the *general open-mindedness* of the student, rather than his detailed knowledge. The examination should be written, in the presence of supervisors. A similar course should be followed if the aspirant presents himself in Washington. If, in either case, the results are satisfactory, a conditional recognition of his degree may then be given. This should be followed by other more detailed examinations from time to time, on papers handed to the student two or three months before the date of examination.

Success in these examinations, and in post-graduate work should be required as a basis for higher degrees. Such a course at once prevents prostitution of our own degrees, and disappointment of sound ambition among youths less favored than our own by home surroundings.

Yours very truly,

[Signed] OSCAR T. CROSBY.

The Faculty of Graduate Studies has believed that competent graduates of professional courses should be encouraged to enroll in the ranks of researchers in order to advance exact knowledge in their chosen professions. With a view to satisfying these desires I took the following action during the past year.

January 23, 1913.

COLONEL W. C. BORDEN, U. S. A.

Dean, Department of Medicine, George Washington University.

DEAR MR. DEAN: From our recent conversations I have gathered that you look favorably upon the instituting of closer relations between the work in Medicine and the work in Graduate Studies in this University and with a view to cementing these relations, I am sending you enclosed a memorandum of a statement which I hope you may deem suitable for presentation in the catalogue of the Department of Medicine.

Yours very truly,

[Signed] CHARLES E. MUNROE,
Dean, Faculty of Graduate Studies.

Through the President of the George Washington University.

GRADUATE DEGREES

Students in the Department of Medicine may, with the consent of the Dean of this Department and the assent of the Faculty of Graduate Studies, become candidates for the degrees of A.M. or S.M. or Ph.D. Such students must have completed a liberal undergraduate course of study such as is required by colleges of good standing antecedent to the study of a baccalaureate degree and, in addition to the work demanded in satisfaction of the requirements for the M.D. degree, they must pursue courses of study in a major and two minors approved of by the Faculty of Graduate Studies; present an acceptable thesis; and conform to the other requirements fixed by the Faculty of Graduate Studies. A candidate for the Ph.D. degree must satisfy the Faculty that he can read understandingly, in the original, French and German works pertaining to his special field and after his thesis has been favorably reported on in writing by the professor-in-charge of his major topic and by a co-referee from the Faculty the candidate must successfully defend his thesis in public before a Board of Experts not officially connected with the University.

Graduate work in medical topics is offered in Bacteriology, Chemistry, Histology and Embryology, Pathology, Physiology and Pharmacology and in Preventive Medicine, but, with the exception that the degree of M.D. is given an equal time credit with the A.M. or S.M. degrees to candidates for the Ph.D. degree, credit is given but once for the completion of any University course of study. Furthermore but a single degree may be conferred on a student at any one University function.

In the course of the administration of this office I find myself called upon to advise with professors upon questions of policy or methods of procedure. It is my feeling that my views are proper subjects for Faculty consideration so that if they are acceptable they may be made generally operative. I therefore present here extracts from letters written during the past year.

October 6, 1913.

The Faculty does not prescribe the number of courses in each University subject which the candidate must complete in order to satisfy the requirements for his degree. This is done by the candidate's Committee of which you are Chairman, for "This committee will determine his division of time, study and research among the major and minor topics." I advise that the number of stated courses in any one University Subject be restricted but that in each course the graduate student be assigned topics for research in the libraries and archives. By this means undergraduate and graduate students may properly be allowed to pursue the same class room courses but the graduate student will be differentiated by the additional advanced research work assigned him in this course. Moreover the graduate student should be required to present his results for discussion. He may be required to read his report, or essay, or book criticism before the regular class pursuing the course with him, or before a seminar of graduate students and teachers of the University organized by his professor, as the latter deems best or most convenient.

I desire to impress upon you that the professor is in graduate work given the largest measure of freedom in the direction of his students; that the satisfaction of the requirements by the candidate is not to be measured in time units but by accomplishment; and that the professor is expected to assign the candidate such tasks outside the class room as will develop in the candidate sound methods for using the sources, gathering material, and presenting it, so that he may become cultivated in research.

Permit me to remind you that when your Committee has determined upon the courses that the candidate must satisfy this finding should be filed with the candidate's record in the Recorder's office; and allow me further to remind you that this record in the Recorder's office is always open to inspection by every member of the Committee and by the candidate so that each may be informed as to the requirements fixed and the extent to which they are satisfied.

Yours very truly,

[Signed] CHARLES E. MUNROE,
Dean, Faculty of Graduate Studies.

October 8, 1913.

I enclose two cards. ———

There are however several others whose cards I have or am to send you as students in your topic. Among them is Mr. ——— who desires to change his Major in candidature for the Master's degree from ——— to your subject. This will mean that besides doing much additional work to that required for the satisfaction of a Minor he will be required to make his Thesis in your subject.

I find also that Mr. ——— who last year pursued your subject as a Minor in part satisfaction of the S.M. degree, desires now to continue this topic as a Minor in part satisfaction of the requirements for the degree of Doctor of Philosophy. This requires that he should spend two additional years in study with you. You are the final authority as to what amount of work and what kind of work in your subject would satisfy the requirements. I should expect that you would require him to perfect his technique by preparing material for your lectures and laboratory students and by assisting in the direction of other graduate students who have had less experience than he has had; that you would cultivate his acquaintance with the sources and improve his methods of searching literature by assigning him topics to look up and report upon, or books to review, the results of which you wish for use in your lectures or which you may require him to present to your classes or to a seminar of your graduate students; and that you would eventually require him to present an essay which would embrace a resumé of the literature and the results of a minor research in the laboratory.

Of course it is not expected that you give a course of lectures to a single student, but you can assign him a course of reading in authoritative text-books and require, at your convenience, reports on these which you can discuss in conference with him alone or with classes which you may form.

I hope you may be able to assign work to Mr. ——— and I trust I may have your views on the matters above presented, for I find your subject one that attracts students and I believe that if it becomes definitely organized it will attract many students and will become a source of satisfaction as well as of profit to you. ———

Yours very truly,

[Signed] CHARLES E. MUNROE,
Dean, Faculty of Graduate Studies.

Respectfully submitted,

CHARLES E. MUNROE,
Dean, Faculty of Graduate Studies.

November 14, 1914.

TO THE PRESIDENT OF GEORGE WASHINGTON UNIVERSITY.

DEAR SIR: I have the honor to present to you the report on Columbian College for the college year 1913-14.

The statistics of student registration for the year are as follows:

Total registration, 484.

The number of regular students, 281.

The classification of these regular students as registered at the beginning of the college year is as follows:

1. "Regular students having to their credit 45 or more hours," 38.
2. "Regular students having to their credit 30 or more, but less than 45 hours," 36.
3. "Regular students having to their credit 15 or more, but less than 30 hours," 64.
4. "Regular students having to their credit less than 15 hours," 143.

Special students, 189.

Auditors, 14.

There was an increase in the registration over that of the preceding year as shown by the following figures:

1912-13 Columbian College, 353.

1913-14 Columbian College, 484.

The educational service done by Columbian College is preëminently for the District of Columbia. Eighty-five per cent of our college registration is of young men and women who are identified with the District of Columbia. Thirty-eight per cent of the Columbian College students entered on certificate from preparatory schools in the District of Columbia. The registration was distributed as follows:

Central High School.....	66
McKinley Manual Training School.....	31
Eastern High School.....	25
Western High School.....	21
Business High School.....	20
Emerson Institute.....	7
Tutor.....	5
Friends School.....	4
Hall-Noyes School.....	3
Y. M. C. A.....	2
Washington Seminary.....	1
Army and Navy Preparatory School.....	1

An analysis of the preparation of special students in Columbian College in 1913-14 shows the following:

Fully prepared for college:		
Students with college degrees.....	18	
Students with advanced standing.....	29	
High School graduates (15 units).....	45	92
Not fully prepared:		
Students having over 12 units.....	13	
Less than 12 units.....	22	
Fitted for special studies they wish to take.....	62	97
Total.....	189	

The educational needs of the city of Washington in the sphere of higher education develop in a perfectly wholesome way a large class of special students. About thirty-three thousand people are under the Classified Civil Service, all of these resting on an educational basis in many classes of a highly specialized and advanced character. College classes afford opportunities for study in preparation for the more advanced requirements of duty in this work. This is the explanation of the large number of special students with full preparation for college.

There are three groups of students in Columbian College that should be specially mentioned. First, students registered for the degree of Bachelor of Science in Chemistry; second, students registered for Pre-Medical courses or regular college courses in preparation for the Medical School; third, students registered under Group IV of the college curriculum emphasizing political science studies in preparation for the Law School, for the Consular Service, or for business and commercial life.

Forty-nine students were registered in 1913-14 for the degree of Bachelor of Science in Chemistry. In recent years the importance of this course has been emphasized by steadily increasing registration. In addition to students so registered there are special students in large numbers in the courses in Chemistry and the subject of Chemistry is of importance also in the various Groups of our college curriculum leading to the degree of Bachelor of Arts. At the present time all the work in Chemistry, class instruction and laboratory work, is given in the building of the Medical School at 1325 H Street.

Certain things should be noted with respect to the location of the Chemistry and its effect upon Columbian College. First, the Medical building is at some distance from the building of the Arts and Sciences at 2023 G Street, causing difficulty in arranging schedules involving work in both places; second, it is an objection to the present arrangement that the general culture work in Columbian College in Chemistry has to be pursued in the professional atmosphere of the Medical School; third, there is need of a lecture course in general Chemistry for Columbian College students given in a morning or early afternoon period. The present hour of 4.50 brings the lecture during the winter months after dark, and this prevents many students, particularly among the

women, from taking their natural science work in this subject. The registration for the degree of Bachelor of Science in Chemistry is very large; the general culture registration in Chemistry, especially among the women students, is relatively small. The importance of the subject in every way suggests the need of a science building with adequate provision for Chemistry in lecture halls and laboratories for the use of Columbian College students, located near the Arts and Science building, and an extension also of the facilities in Chemistry making it possible for all Columbian College work to be done during the early periods of the day.

To meet the higher preliminary requirements for medical education, Columbian College of the George Washington University offers the following courses: A *one-year pre-medical course* satisfying the requirement of the American Medical Association for admission to the Medical School; a *six-year combination course*, consisting of two years in Columbian College and four years in the Medical School, for which the degrees of Bachelor of Science in Medicine and Doctor of Medicine are given; and a *seven-year combination course*, consisting of three years in Columbian College and four years in the Medical School, for which the degrees of Bachelor of Arts and Doctor of Medicine are given.

The one-year pre-medical course was inaugurated during this year, 1913-14. There were fourteen pre-medical students registered this year. There will doubtless be an increasing number of students registering for the one year pre-medical course from year to year. The two-year college course in conjunction with the Medical School, leading to the degree of Bachelor of Science in Medicine, is also likely to be an important curriculum group. All of this work in preparation for the Medical School centers in natural science studies, and it will require enlarged provision in instructors and in classroom and laboratory facilities. The three natural science subjects constituting the one-year pre-medical course, are Chemistry, Physics, and Biology. The importance of this Group in our coöperative educational work with the Medical School, emphasizes further the needs of a natural science building. The Pre-Medical requirement in Biology is at present satisfied by two courses in Zoölogy, a heavier requirement than that specified by the American Medical Association. It is desirable that we should offer rather for the pre-medical students a course in general Biology, planned specifically to meet the requirement.

Political science studies form an important group in Columbian College. These are planned and presented in Group IV of our curriculum for the Bachelor of Arts degree. Many Columbian College men enter the Law School, and this Group furnishes studies which constitute the natural preparation for the professional course in Law. There is a natural correlation between the college and the Law School, which should be fostered by the development of these studies.

The Political Science Group of studies is useful in preparing men for

the American Consular Service. How important this has been is shown in statistics recently made by a graduate of Columbian College, who is now in the Consular Service. The list was compiled from the register of the State Department published November 10, 1913. It includes only those who are, strictly speaking, holding commissions as Consuls General, Consuls, and Consular Assistants. There are three hundred men in this list. Two hundred and nineteen of these are college men. Twenty-eight of this number or about 12.8 per cent received their training at George Washington University. The highest numbers on the list are as follows: George Washington University, 28; the second University, 11; the third University, 9; the fourth University, 8; the fifth University, 7. It appears from this list that George Washington has more men in the American Consular Service than any other University and as many as the next three together. It is a sound college policy to develop and strengthen all courses of study contributory in so important a way to the public service of the Government, to professional studies in law, and to higher and more intelligent conceptions of citizenship.

We should continue to cherish in Columbian College the old idea of liberal culture. Culture is personal and the effects of culture are reached through personal influences. A city college without dormitory life, with the diverse influences of the city always active in the student body, finds the effects of culture more difficult to achieve because of the city conditions. In Columbian College we are relieved from responsibility for students that rest upon college officers in college community life. We need to remind ourselves that while we are conscious of certain advantages in the city conditions, we have need to exert in special ways all forms of personal influence centering in the University that may be made contributory to the cultural influences of the curriculum. Among the personal influences which we should strive to strengthen and refine are the personal associations of members of the Faculty with the students in class and out. The fraternity organizations among the men and women are at their best, the most important auxiliaries to the organized educational work of the college. Educational ideas can be assimilated and made effective in social conferences with students. The need of personal teaching outside of the curriculum has been marked in the last two years by the publication of books intended for members of the Freshman Class in college, placing before them ideas and ideals that the new conditions of college life make important for them to know.

I would recommend for consideration the establishment for the year 1915-16 of a required course of one hour a week for all full-day students in the Freshman Class of Columbian College to be called the Freshman Assembly Lectures, the purpose of which shall be to teach to the Freshman Class things important for general culture outside of the curriculum. I would suggest that these lectures might be given on Tuesdays at 1.45, lasting for one hour. As a suggestion of the scope and purpose

of the work the lectures should be arranged and supervised by the Dean of the College, and should include such subjects as, "The Transition from High School to College," "The Purpose of the College," "The College Curriculum," "Some Student Problems and Responsibilities," "Fraternities and Their Place in College Life." The calendar of these lectures could be filled out, I am sure, through the coöperation of the Faculty, and of others outside of the University who might from time to time be willing to address the students. The required attendance would give us a large assembly. The influence upon the students of such an assembly would be of benefit in the student life, and the opportunity for instruction which such an assembly gives would enable us to secure addresses which up to the present time we have not been able to arrange for. I believe we should seriously attempt to supply in larger measure to our Freshman students cultural influences outside of the curriculum which will interpret and intensify the influences of the curriculum itself.

Very respectfully,

WM. A. WILBUR.

Dean.

November 14, 1914.

ADMIRAL CHARLES H. STOCKTON,

President, George Washington University, Washington, D. C.

DEAR SIR: I have the honor to submit the following report in regard to the College of Engineering for the session of 1913-14:

The total registration for the session was as follows:

Former students of the College of Engineering.....	114
New students.....	86
Students previously registered in other departments of the University.....	6
Total.....	206
Number of men.....	203
Number of women.....	3
	206

These students may be classified as follows:

Candidates for degrees:

	Freshmen	Sophomore	Junior	Senior	Total
Arch.....	3	2	6		11
C.E.....	8	9	18	4	39
E.E.....	12	4	10		26
M.E.....	11	11	9	1	32
	—	—	—	—	—
	34	26	43	5	108
Special Students.....					98
					206

In years of attendance students are classified as follows:

First year.....	92
Second year.....	55
Third year.....	19
Fourth year.....	21
Fifth year.....	9
Sixth year.....	6
Seventh year.....	4
Total.....	206

Students were admitted to advanced standing on certificates from the following institutions.

University of Michigan
 University of Wisconsin
 Stevens Institute of Technology
 New Windsor College
 Baltimore Polytechnic Institute
 Cooper Union
 Kentucky State University.

Students in attendance held degrees as follows:

3 A.B. from George Washington University
 3 LL.B. from George Washington University
 1 L.B. from George Washington University
 1 M.P.L. from George Washington University
 1 B.S. from George Washington University
 1 B.S. in C.E. from George Washington University
 1 A.B. from New Windsor College
 1 B.S. from Connecticut State College
 1 A.B. from Rock Hill College
 1 LL.M. from National University Law School.
 1 B.S. in E.E. from Cooper Union.

Students were admitted to the Freshman class on certificate from the following schools:

McKinley High School of Washington
 Central High School of Washington
 Emerson Institute of Washington
 Western High School of Washington
 Winchester (Va.) High School
 Lowell (Mass.) High School
 Lowell (Mass.) Textile Institute
 Virginia Polytechnic Institute
 Commercial School, Taganvov, Russia
 Yukon (Okla.) High School

Sullivan (Ind.) High School
 Baltimore Polytechnic Institute
 Montezuma (Cal.) High School
 Columbus Junction (Iowa) High School
 Newark (N. J) High School
 Poughkeepsie (N. Y.) High School
 Bienville (La.) High School
 Bigelow (Ark.) High School
 Missoula (Mont.) High School
 Regents Certificate of New York

The College of Engineering requires fifteen units for admission and only two of these are elective. It specifies that four units of modern languages shall be offered for admission, and as it is possible for a student to graduate from some High Schools without studying a modern language and from any High School after studying a language only two years, conditions in languages are frequent.

There were 21 students admitted with conditions, although 7 of these students presented 15 points for admission.

The conditions imposed were as follows:

	<i>Units</i>
In Languages.....	56
In Mathematics.....	7½
In Physics.....	1
In Chemistry.....	7
Total.....	71½

During the year 19½ units of condition were removed.

The conditioned students had an average of 13½ High School Units to offer, leaving an average of only 1½ units of High School work lacking, while the average condition imposed was 3½ units. This discrepancy is due entirely to the requirement in modern languages.

Because of the large number of students who attend in the afternoon classes and who have duties during the day that may change during the year, there is a certain amount of instability in attendance. Many of the students are married, and home duties frequently necessitate a change of plans during the year. The attendance during the months of the session was as follows:

October.....	182
November.....	181
December.....	177
January.....	176
February.....	172
March.....	166
April.....	160
May.....	158

A very large percentage of the students in engineering attend only in the late afternoon hours, a much larger percentage than in the case of students in liberal arts.

In most cases this is due to the fact that the student is self-supporting, and must work during the day. But in some cases students have obtained work when it might have been possible to attend day classes. Because of our small Faculty and because the majority of our technical instructors give only part time to the University, the classes in technical engineering subjects are largely held only in the late afternoon. This means that a student in the Junior or Senior year finds that practically all of his classes meet late in the day, and he is tempted to obtain employment, and attend only after office hours. While this means he must attend an additional year, it is frequently of benefit to the student as he usually obtains employment in engineering work and is obtaining valuable practical experience.

Yet it is very desirable, from the University standpoint, that we give technical courses early in the day. This will not be possible until we are able to add full time instructors to our Faculty, and be in a position to duplicate some of our Junior and Senior courses.

At the Commencement in June, the following degrees were conferred:

4 Bachelor of Science in Civil Engineering.

1 Bachelor of Science in Mechanical Engineering.

Respectfully submitted,

H. L. HODGKINS,
Dean.

TO PRESIDENT CHARLES H. STOCKTON,
George Washington University.

SIR: I have the honor to present the following report upon the work of Teachers College for the year 1913-14:

Enrollment	1913-14	1912-13
Men.....	9	8
Women.....	122	79
Total.....	131	87

This enrollment shows the phenomenal increase of fully 50 per cent over the preceding year. What special conditions, if any, operated to bring this about, I cannot say. The friendliness of the administrative and supervisory officers of the Washington public schools very likely had something to do with it. The enrollment for the current year bids fair to equal, if not slightly to surpass, that of last year.

Sixty-four of the 131 students were new to Teachers College, although only 49 paid the matriculation fee, the other 15 having paid it before in some other department of the University.

Attendance by months:

November.....	122
December.....	121
January.....	119
February.....	116
March.....	114
April.....	111
May.....	105

Classes of students:

Regular.....	120
Special.....	8
Auditors.....	3
Total.....	131

Admission: Regular students:

Without conditions.....	117
With conditions.....	3

Of the eleven special students and auditors, six were qualified to satisfy our entrance requirements while five were not. This makes a total of only eight persons who could not technically qualify for entrance but these were all nevertheless prepared to profit by the work they took and to be a help rather than a hindrance in their classes.

Preparatory education:

Graduates of a Washington High School.....	84
Graduates of other secondary schools.....	37
Non-graduates.....	10
Total.....	131

Normal School Graduation:

From Washington Normal School, No. 1.....	71
From other normal schools.....	19
Total.....	90

Employment:

Teachers in service.....	104
Other employment.....	10
Full-day students.....	17
Total.....	131

The largest number of full-day students in any one year heretofore has been 10, as compared with 17 last year. The increase in this class

of students is continuing and is showing itself especially in the number desiring observation and practice teaching, subjects that are required of all who have not had successful teaching experience. While previous to 1913-14, three was the largest number in any one year that took practice teaching, five took it last year and eight are taking it this year. Four of these eight are now teaching in the upper grades of the public schools, all of them in places where they are of genuine assistance to the regular teachers.

The permission to do our observation and practice teaching in the Washington public schools, which we have enjoyed in previous years, has been again courteously granted by Superintendent Thurston for this year. But in this line a new opportunity appears to be opening in the St. John's Church Orphanage. Through President Stockton, the Dean of Teachers College has arranged with the Sister at the head of the Orphanage to take charge of the Orphanage school, the teaching to be done by the students taking the course in practice teaching. It looks as if we might here find an opportunity to develop a model elementary school, but as the work is now only on the point of starting it is too early to give a detailed evaluation of the opportunity.

The proper oversight of observation and practice teaching, especially the latter, takes a great deal of time, which I find it difficult to spare from my other teaching and administrative duties. If the Orphanage school develops as it appears to promise, it may become both desirable and necessary in a year or two to engage another full time instructor for the educational work. One duty of this instructor would be to be principal of the model school in the Orphanage. He might, however, also have charge of the work in observation and practice teaching and give other courses in the late afternoon and on Saturday.

One slight change was made in the course of study during the past year. The number of units required for graduation was raised from sixty to sixty-two. This change was deemed advisable because we give two diplomas at graduation, a Bachelor of Arts degree and a Bachelor's Diploma in Education, which were heretofore both earned by the amount of work demanded for the Bachelor of Arts degree alone in standard colleges. This laid us open to the suspicion that our degree might be below par value, a suspicion that our increased requirements operate to remove.

Teachers of experience, however, are not affected by this change, for they are given credit for the courses in observation and practice teaching, counting two units. This seems only just, for the experience gained by class-room teaching, under supervision, should certainly be as valuable as that obtained from our courses in observation and practice teaching.

Respectfully,
W. C. RUEDIGER.
Dean.

November 10, 1914.

November 16, 1914.

TO THE PRESIDENT OF THE UNIVERSITY.

SIR: I have the honor to submit the following report on the Law School for the academic year 1913-14.

The teaching force numbered thirteen of whom five gave all their time to the school and eight were engaged in practice. An instructor in Patent Law was added to the faculty for the first time.

Instruction was given in subjects aggregating 87 semester hours of which 55 were repeated, a total of 142. This was an increase of 4 hours over 1912-13. The full-time instructors conducted 56 semester hours of which 50 were repeated, the part-time instructors 31, of which 5 were repeated.

This instruction was given as follows:

from 7.50	to 8.40 a.m.,	6 hours
9 a.m.	to 12 m.,	55 hours
4.50	to 6.30 p.m.,	81 hours

The early morning classes (7.50 to 8.40) started last year have continued to prove popular. Over 100 students attended one or more of them. This was fully one half the students eligible as the subjects taught at these hours are too advanced for first year students. These classes are elective and are attended chiefly by afternoon students, either from preference for the subjects or to give them an afternoon free.

The total registration for the year was 349 men and 6 women, a total of 355, an increase of 43 over the registration of the preceding year. This increase was almost wholly in the first year class, which was the largest since 1905-06.

The following table shows the registration of the eight largest schools, members of the Association of American Law Schools, in 1911-12 (as shown by the report of the U. S. Commissioner of Education) and in 1913-14 (as shown by their catalogs).

	1911-12	1913-14
University of Michigan, Department of Law.....	793	709
Harvard University Law School.....	809	694
University of Southern California, College of Law..	481	605
Columbia University School of Law.....	417	565
University of Pennsylvania Law School.....	374	374
George Washington University Law School.....	306	355
Northwestern University School of Law.....	309	352
University of Chicago Law School.....	320	348

It is worthy of note that two of these schools show a decrease in attendance, one no change, and that this school stood third in respect to increase, and was sixth in enrollment.

The students registered from the District of Columbia, 44 states,

Hawaii, China, Japan and Mexico. The largest numbers were, from the District 100, Pennsylvania 22, New York 20, Illinois 16, Virginia 14, Iowa 12, Maryland 11 and Massachusetts 11. A complete table showing the geographical source of all students follows:

Alabama.....	2	Nevada.....	1
Arizona.....	1	New Jersey.....	2
Arkansas.....	2	New Mexico.....	1
California.....	3	New York.....	20
Colorado.....	4	North Carolina.....	2
Connecticut.....	8	North Dakota.....	2
Delaware.....	1	Ohio.....	9
District of Columbia.....	100	Oklahoma.....	2
Georgia.....	3	Oregon.....	1
Idaho.....	5	Pennsylvania.....	22
Illinois.....	16	South Carolina.....	2
Indiana.....	3	South Dakota.....	6
Iowa.....	12	Tennessee.....	9
Kansas.....	2	Texas.....	9
Kentucky.....	4	Utah.....	8
Louisiana.....	1	Vermont.....	3
Maine.....	6	Virginia.....	14
Maryland.....	11	Washington.....	6
Massachusetts.....	11	West Virginia.....	2
Michigan.....	4	Wisconsin.....	6
Minnesota.....	5		
Mississippi.....	3	Hawaii.....	2
Missouri.....	9	China.....	2
Montana.....	2	Japan.....	1
Nebraska.....	4	Mexico.....	1

The students were classified, and divided between the forenoon (9 a.m. to 12m.) section and the afternoon (4.50 to 6.30) section as follows:

	a.m. section	p.m. section	total	
Candidates for LL.B. degree {	First Year.....	34	120	154
	Second Year.....	13	62	75
	Third Year.....	9	59	68
Candidates for LL.M. degree.....	5	10		15*
Special (not eligible for degree).....	8	36		44
	—	—		—
Total.....	69	287		356
				1

*Less counted twice.....

355

Attention is called to the relatively small registration in the forenoon sections. All subjects required for degrees are taught in the afternoon, but not in the forenoon. The first year forenoon course is complete but the second year lacks instruction in Common Law Pleading, Evidence and Equity, all necessary to a degree. The result is that the school loses some students from the second year, and others prefer to take their work, since they must take a large part of it, in the afternoon. The third year forenoon section receives instruction in all required subjects except Moot Court, which from its nature is best taught to the class as a whole.

The afternoon sections are approaching the size where further increases will tax the capacity of our halls and lessen the efficiency of the instruction. The forenoon sections on the other hand would be benefited by trebling their numbers, creating an esprit de corps, so evident in the afternoon sections and lacking in the forenoon. These sections are now sufficiently large to call for instruction in all required subjects and this should be the first step in an effort to further increase their numbers. The school could take care of 200 more students in the forenoon sections without any sacrifice of efficiency and without extra expense other than such as is necessary to provide instruction in these three topics of the second year.

The preliminary education of the regular students, candidates for degrees, divides them into three classes of College Graduates, College Undergraduates and High School Graduates. The number and percentages in each of these classes were:

College Graduates.....	113	percentage	36
College Undergraduates.....	78	percentage	25
High School Graduates.....	120	percentage	39

The large percentage of college-trained men is most gratifying. Attention will later be called to their superior scholarship. It is doubtful if any law school which does not require college training for admission has a greater percentage of college-trained men. The following table shows the colleges from which they come.

	Graduates	Under- graduates

A table has been prepared showing the average semester hours carried and scholarship of regular students, candidates for the degree of LL.B., who were examined during the academic year. It shows the record of the whole group, unemployed and employed, groups differing in preliminary education, groups differing in age, groups differing in preliminary education but of like age.

CLASSIFIED FOR COMPARISON		NUMBER	PASSED IN ALL, OR CON- DITIONED OR FAILED IN ONE OR MORE SUBJECTS			NUMBER AND PERCENTAGES MAKING AVERAGE GRADE OF										AVERAGE MARK						
			AVERAGE SEMESTER HOURS CARRIED		Failed	A		B		C		D		E			F (below 50)

	{ High School Graduates																					

The standard of scholarship maintained is shown by the record that 35.9 per cent of the students were conditioned or failed in one or more subjects, and that only 9.5 per cent made the average grade of A and 13.4 per cent the average grade of B. Of the students of lowest grade fifteen were denied any credit for, and were required to repeat, all work done in the year as a condition of continuing their studies in the school. Of these, eleven have not returned. This elimination of incapable and indolent students is greatly improving the character of the advanced classes.

The better quality of work done by students with outside employment is shown by reference to section 2 of the table. Of the unemployed 43.9 per cent were conditioned or failed, and only 5.6 per cent made A average and 11.2 per cent B average; while of the employed 34.5 per cent were conditioned or failed, and 10.4 per cent made A average, and 14.1 per cent B average. This is probably due to the fewer hours carried by the employed (21.4 as compared with 23.3), their better preliminary education, their greater age, and finally their greater zeal.

The effect of preliminary education on scholarship is strikingly shown by section 3 of table. The college graduates have the smallest percentage of conditions and failures, the highest of A and B grades and the highest average mark. The undergraduates come next in all respects, while the high school graduates' record is particularly poor. Of 94 college graduates, 18 made A grade and of 97 high school graduates but 2 made A grade.

The effect of age is shown in section 4. The best age seems to be 25 to 29. The group 21 to 24 ranks second and the group over 30 third. The group under 20 is markedly inferior. Of this last group of 42 students not one made an A average and only 2 a B average, while one-half of them were failed or conditioned. Reference to section 8 shows that three-fourths of this group had only a high school education.

It had been suggested that the superiority of the college graduates was due largely to their greater age. This led to the tabulation (sections 5 to 8) of the records of the age groups correlated with the groups' preliminary education. These sections show that the college graduates of all groups maintain their superiority over non-graduates but not to the same degree. The best group of all is the graduates 21 to 24 years of age. The non-graduates of the groups 25 to 29 and 21 to 24 show a fair record. The non-graduates over 30 were two-thirds conditioned or failed but the groups were too small to make the average trustworthy. The poorest group in the school was that of high school graduates from 18 to 20. Out of 28 in this group one-half were conditioned or failed. Not one of them made an A or B grade, and their general average was the lowest.

It should be the policy of the school to discover and eliminate the unfit individually and by classes. The faculty committee on student standing takes care of individual cases. It is worthy the attention of the

faculty whether this weakest group should not be eliminated by requiring a year of college work of all candidates for admission under 21. This is the practice of Northwestern University Law School. Many other schools in the Association now require some college work of all candidates for their degrees. The Association has adopted a resolution advising a year of college work. It is likely soon to require it. This school will be in a better position to fulfill the requirement if it takes the first and most necessary step now.

Of the 355 students enrolled 61 either withdrew or were dropped for non-attendance during the year and 46 were graduated. Of the 248 remaining at the end of the year 194 have returned, and of the graduates 9 have returned for further work, making a total of 203 of the year's students enrolled at present.

Some of the withdrawals are for pecuniary reasons. The school has no scholarship or funds to assist students. The establishment of a fund to be loaned to worthy students financially embarrassed is suggested to anyone seeking to put money to good uses.

The degree of LL.M. was conferred on 4 candidates and of LL.B. on 42.

The years of study for the LL.B. degree by the successful candidates were: 3 years by 28; 3½ years by 3; 4 years by 7; 4½ years by 3; 5 years by 1.

The library of the school was increased during the year by 358 volumes, at an approximate expense of \$900. The policy is to purchase only books of permanent value. An effort is being made to complete the State Reports. The chief items during the year were Missouri Appeal Reports vols. 1-93, Georgia Reports vols. 1-78, and Oregon Reports vols. 1-10. The library is still without the report of ten states to the Reporter System Reports. The total number of books in the library September 1, 1914, was 6203.

The physical equipment was improved by the installation of new benches and chairs. These have added greatly to the comfort and convenience of the students and so to the efficiency of the work. They have justified all expectations. There is need of student's lockers for coats and books. The installation of these would tend to induce the students to keep their books in the school and to study in the library which is conducive to scholarship.

The increasing enrollment raises the serious question of quarters. The enrollment in the afternoon sections is beginning to tax the number and capacity of the halls. The library is cramped and ill-adapted to study. The elevator service is scarcely adequate for 350 students who have little time to get from their offices to the class rooms, and are dismissed so late from classes. If the enrollment continues to increase the next two years at its present ratio the school quarters will be entirely inadequate.

The spirit of the students is excellent. Class attendance is more

regular and there is better preparation for recitations and the desire for scholastic distinction is more evident. The students are responsive to every effort for advancement of the school.

In conclusion I wish to express my appreciation of the kind and helpful coöperation of my colleagues on taking up my new duties.

Very respectfully,

EVERETT FRASER,
Dean, Law-School.

November 13, 1914.

PRESIDENT C. H. STOCKTON,
The George Washington University.

DEAR SIR: I have the honor to submit the following report of the conduct of the Medical School for the fiscal year ending August 31, 1914.

The motive which has dominated the action of the Faculty of Medicine during the past year has been the continuance of its policy to improve and systematize the teaching and the facilities of the School for its students and maintain the expenses of the School within its income.

Due to the increase in size of the dental class, it has been found necessary to purchase considerable additional equipment for the Dental School, install a number of new lockers and construct a new laboratory on the fourth floor.

As reported last year, the Museum has not yet been developed in equality with the library and laboratories. Considerable improvement has, however, been made by the work of Dr. Craig, who is now both Librarian and Curator of the Museum. Quite a number of valuable specimens have been added and this improvement to the laboratory is steadily increasing.

The curriculum for the third and fourth year classes has been rearranged for the past session, thereby increasing the amount of clinical work in our own hospital and decreasing the work in distant institutions.

The past year, like the preceding three years, has shown a steady and gratifying increase in the number of matriculants.

In my first year as Dean, session 1909-10, there were but 15 matriculants: in 1910-11 there were 32; 1911-12, 39; 1912-13 there were 67 and in 1913-14 there were 98. The increase from 15 to 98 is considered excellent.

The number of men in the laboratories during the session 1913-14 taxed our laboratory facilities to their utmost but with the increased requirements for admission for 1914-15 this pressure will be done away with, through the reduction in size of the freshman class.

In conformity with the requirements of the American Medical Association and the Association of American Medical Colleges, one year of

college work in physics, chemistry, biology and a modern language was required for admission after the first of January, 1914. To meet this premedical college requirement, a premedical college year is now being given in Columbian College, in which several students have matriculated.

This connection will tend to bind more closely together the Department of Arts and Sciences and the Medical School in the University, as all high school graduates who intend to study medicine, instead of going directly to the Medical School, must first take a college year and this should bring to Columbian College a considerable number of students from outside as well as from the District.

Students non-resident in the District of Columbia are probably more numerous in the Medical School than in any other Department of the University.

In the classes for 1913-14 twenty-eight states and nine foreign countries were represented.

The geographical distribution of students non-resident in the District of Columbia was as follows:

Geographical Distribution of Students, Medical School, 1913-14

	1ST YEAR	2ND YEAR	3RD YEAR	4TH YEAR	TOTAL
Colorado.....	1			1	1
Connecticut.....	2	1			4
California.....	1		1		2
District of Columbia.....	23	16	4	3	46
Florida.....			1		1

The wide distribution of non-resident students is particularly gratifying and shows that the Medical School is receiving students from all parts of the United States. This flow of students should now be directed to the Medical School through the Department of Arts and Sciences and if proper standards are maintained and adequate standing before the American Medical Association and other medical and educational bodies is continued, this flow of students from all parts of the United States should as steadily increase in the Department of Arts and Sciences as has the flow of students to the Medical School in the last five years. I am fully convinced that under existing conditions, within five years, from fifty to seventy-five students will be taken into the premedical course in the Department of Arts and Sciences.

The presence of these students should also materially increase the number of regular students in the Department of Arts and Sciences, for students are the best advertisement of a school and non-resident students from one department, returning to their homes, induce other students to come to other departments of a university.

The University conferred the degree of Doctor of Medicine on seventeen students during the past year.

The standing of graduates before State Boards during the past year has been excellent and marks the highest record of successes ever attained by graduates of the Medical School of our University. Of the graduates of the last five years, examined during 1913, there were but

3.2 per cent of failures. But two medical schools in the United States had a larger percentage of successes than ours. These were the University of Minnesota and Rush Medical of Chicago. Among the Medical Schools having a larger percentage of failures than ours were Harvard, Yale, Johns Hopkins, Cornell, College of Physicians and Surgeons of New York and the University of Pennsylvania. Of the graduates of 1913, examined in 1913, there was not a single failure.

Altogether, the past year gave an excellent financial showing for the Hospital, in that it cleared \$2739.27 above all expenses, after the purchase of an addition to the Nurses' Home at a cost of \$8,000.00, of which \$3,000.00 was paid down.

One of the most gratifying improvements to the Hospital has been the satisfactory establishment of an adequate Nurses' Home. The first building was purchased in May, 1913, at a cost of \$12,000.00. Five thousand of this was paid down, of which \$1,500.00 was contributed by the Board of Lady Managers. This left an indebtedness of \$7,000.00 upon the property with an interest obligation of \$350.00. In November, 1913, the house immediately adjoining the Home, 1300 L Street, was purchased at a cost of \$8,000.00 of which \$3,000.00 was paid down. Of this, the Board of Lady Managers contributed \$1,000.00, the remainder being paid from the Medical School Surplus. The Board of Lady Managers has adopted the policy of turning in all moneys received by them in excess of the annual dues, toward paying off the indebtedness of the Home. In this connection it should be stated that the Board of Lady Managers has worked most faithfully and energetically toward raising money for the Home and the University and Medical School are very greatly indebted to this most liberal body for their able assistance.

In spite of the increased expenses incident to improving and increasing the facilities of the Medical School during the fiscal year of 1913-14, the Medical School, including the Dental School and the University Hospital, all of which are considered a unit, succeeded in meeting all obligations and after transferring \$3,000.00 for the purchase of a Nurses' Home, of which \$1,000.00 was contributed by the Board of Lady Managers, and deducting the uncollectible accounts of the Medical School and Hospital for 1913, made a saving of \$4,674.89. On account of the increased expenses for the employment of full time professors and the decrease in attendance to be expected in 1914-15 due to advancing the entrance requirements, the Medical School and the Hospital will probably not show as large a surplus for next year.

In connection with the financial summary of the Department of Medicine, including the Dental School and Hospital, I feel it proper to call your attention to the greatly increased facilities offered by these Institutions due to careful expenditure of available moneys.

In the last four years, the Medical and Dental Schools and the Hospital have been so greatly improved that they bear little resemblance to these Institutions as they were five years ago. This is especially

true of the laboratories and the quality of instruction given. We now have laboratory instructors who, by giving their full time to the work, give a better quality of instruction than ever before.

The Hospital has been transferred from an almost unusable building, to its present neat, clean and efficient condition.

The present great need of the Department of Medicine is increased clinical facilities under its own control.

Attention must also be called to the probably future increase in numbers in both the Medical and Dental Schools. The Dental School has increased from 28 students in 1909-10 to 97 at this writing.

As already reported to you, this increase has severely taxed the capacity of the Medical Building and the time is not far distant when this pressure will be so great, that additional room for work, especially for the dental students, will be required.

This increase, together with the increase in numbers in the undergraduate departments of the University, is bringing forward a condition which will have to be met by providing elsewhere for the chemistry part of the academic teaching.

Very truly yours,

M. H. BORDEN.
Dean, Medical School.

November 10, 1914.

ADMIRAL CHARLES H. STOCKTON, LL.D.,
President of George Washington University.

DEAR SIR: I have the honor to submit to you the annual report of the Dental School.

		<i>In attend- ance</i>
Number of matriculants 1914-15, 103.		
Number of matriculants Freshmen.....	53	47
Number of matriculants Juniors.....	27	27
Number of matriculants Seniors.....	22	22
Special.....	1	1
	<hr/> 103	<hr/> 97

The registration of students for 1913-14 was as follows:

First year	40
Second year	22
Third year	18
	<hr/> 80

The present laboratories are taxed for space for the accommodation of the classes. With certain alteration in view we shall have sufficient space for several years. In view of the healthy growth of this school I hope the University will be prepared to give this school the entire fourth floor of the Medical School building—when it is necessary for this school to request more space. The object of asking for this entire floor is for the purpose of having all the laboratories and the infirmary on the same floor to facilitate teaching.

I have been informed by the District of Columbia Board of Dental Examiners that this Institution stands either third or fourth on the list of Dental colleges in the United States whose graduates have taken the examinations of the various states. This fact alone is an evidence to show the good work this faculty is doing—it is also a very strong evidence that men can be taught dentistry in the afternoon and evening. To my mind it is not the time of day—but the quality of student and teachers that counts.

Very respectfully,

J. ROLAND WALTON,
Dean.

C. H. STOCKTON,
President, The George Washington University, Washington, D. C.

DEAR SIR: Agreeably to your request of the twenty-fourth I wish to present the following report of the work in the College of Pharmacy during the academic year 1913-14.

The total number of students admitted for full and special courses was seventy-nine (79). When the session closed in May 1914 seventy (70) were in attendance and had qualified for examinations.

The freshman class numbered twenty-three (23): males, twenty-one (21), females, two (2). The junior class numbered twenty (20): males, nineteen (19), females, one (1). The senior class numbered twenty-three (23): males, twenty-two (22), females, one (1). Taking special courses there were four (4); males, four (4). Found qualified for graduation, eleven (11): males, ten (10), females, one (1).

As the session progressed the greatest loss of students occurred in the freshman class, five (5) inclusive of two (2) students admitted on conditions. In the junior class two (2) left, in the senior class two (2), making a total of nine (9). The various causes given for leaving did not in any way reflect on the work that the School was doing. The number of students admitted to the freshman class on entrance conditions was twelve (12); two (2) left, two discharged their conditions, eight (8) remain.

Junior students producing certificates from reputable schools showing that they had completed a specified amount of work and who were enrolled as regular students numbered five (5).

The final examinations held in May 1914 resulted in twelve (12) freshmen advanced to the junior class and seven (7) of the same class were required to repeat one or more branches of the freshman course. Fifteen (15) junior students were advanced to the senior class without conditions and four (4) were required to repeat one or more branches of the junior course.

The educational requirement for admission to the College was based on a completed two year course in high school or its equivalent. It was found that the educational deficiencies of the students admitted on conditions varied from two to four units. After a longer or shorter attendance on the courses many of them dropped out while a few are attempting to discharge their conditions.

There was one change in the Faculty, Dr. Henry H. Hazen was appointed to the chair of Materia Medica and Toxicology made vacant by the death of Dr. Samuel Waggaman.

The equipment of the School and supplies of material required by students in their laboratory work has been maintained to the fullest requirement of the classes.

The effect of the operation of progressively increasing higher educational standards for admission to the School of Pharmacy will be appreciable in the probable reduction of applicants for admission and in a better quality of students. It is reasonable to say that there will be a decided decrease in the number of applicants desiring to enter on conditions and as the knowledge of the entrance requirements becomes more generally appreciated the number of matriculants will show a corresponding increase. All of which is respectfully submitted.

H. E. KALUSOWSKI,
Dean.

TO THE PRESIDENT OF THE UNIVERSITY,
The George Washington University, Washington, D. C.

SIR: I have the honor to submit a report of work covered during the academic year 1913-14.

The enrollment of students for that year was as follows:

Seniors.....	18
Sophomores.....	10
Freshmen.....	7

This being the third year of the four-year school term, no junior class was in session.

The entire senior class was graduated at the regular closing exercises and many of them are engaged as Federal Inspectors in the United States Bureau of Animal Industry, having passed a rigid civil service examination for appointment to the same. In this connection I might mention

that of the number of graduates taking this examination throughout the whole United States, three members of this class ranked numbers one, two and four respectively. Taking into consideration the fact that representatives from practically every veterinary college in the country, including the various state colleges and universities, participated in this examination, the excellence of the course of instruction is apparent. All graduates taking the examination to practice veterinary medicine in the District of Columbia were successful in passing the same.

The most harmonious relations continue to exist between this college and the members of the faculty of the University proper under whom a portion of the work is given, viz: Histology, Embryology, Chemistry, Bacteriology and Pathology, and to the gentlemen in charge of these subjects full credit is due for the thoroughness of the course of instruction and the interest shown in the veterinary students.

Very truly yours,

D. E. BUCKINGHAM,
Dean.
